PETERBOROUGH.

The cold and biting winter winds
That whistled o'er thy hills,
When memory rehearses such,
The very fancy thrills.

Cold, bitter cold, has been its reign,
Long winter's gloom of night;
More glorious after spring displays
Her verdant mantle bright.

If winter had not lengthy gloom,
If trials it did not bring,
Then gladness would not echo from
The lovely song of spring.

Thy beauty sleeps, as if no more
'Twould bright and grand appear,
As sweetly thou art in thy bloom,
In winter thou art dear.

The streams that line thy verdant dales
That onward murmuring flow,
That made thy scenes look so sublime,
Are buried in the snow.

All looks now calm, deserted, blank,
In thy mystic robes of white;
So beauty sleeps within its tomb—
So dies all beauty's light.

Thy hills present a grim aspect,
Of joy thy woodlands void,
Welcome the glorious hour again
When bird-song will preside.

Bird-song and flowers harmonious,
Inspiring us with glee,
Among the first in beauty's ranks
The lovely scenes in thee.

ALFRED DAVIDSON.

FACTS ABOUT BUTTER TUBS.

Vermont is the great butter tub state of the union, and Montgomery is the town yearly producing the largest number of tubs in this country, or any other for that matter. The factories in this town have capacity for producing half a million tubs or packages as the trade call them. They are not all used for butter. A great number are bought by lard packers and the oleomargarine manufacturers have within two or three years increased the demand greatly.

Up to 1847 the tubs were made slowly and laboriously by hand. In that year Luther Hendrix, an experienced pail maker of Massachusetts, commenced the manufacture of machine made or turned tubs in Montgomery in a factory built for the purpose. It was then considered a good day's work for one man to turn from 40 to 50 50-pound tubs per day, while now the improvements in machinery and skill acquired by the workmen make it an easy day's work for four men to turn 300 50-pound packages per day. The other work, the hooping, the heading and making the covers, is performed with one-half the labor that was required at that time. It is probably within the bounds of truth to say that 10 men in any of the factories in this town would now manufacture more packages in a given time than 50 men would manufacture in the same time by hand.

The business grew slowly until 1852, when a new impetus seemed to be given the dairy interests. The completion of railroads to the west opened a new and larger outlet, and the small weekly shipments from Montgomery and other Vermont towns in this industry has increased to daily shipments of carloads.

The consumption of lumber by these factories is very large and mostly of spruce, which gives better satisfaction than any other kind of wood. The supply is large, but by no means inexhaustible, and very soon if spruce alone is used it will have to be obtained further back on the hills than now even. It is suggested by a manufacturer of long experience that hemlock, if of the right sort, grown in dry locations may be used without objection. It is quite possible that wood pulp will be successfully used for making butter tubs, and this supply, together with that of hermetically sealed tin packages, now used for ocean shipment to some extent, will be likely to lessen the demand on the forests. —*Boston Bulletin.*

A Sister's Terrible Revenge.

Extraordinary evidence was given at an investigation at Mullingar, concerning the murder of Ester Croghan, who was shot in Deer-street. An approver, named Walsh, deposed that shortly before the murder the prisoner, Anne Croghan, who is sister of the murdered woman, came to him, and said she had been put out of her mothers house by her sister Essy; that she was without house or food, and she wanted Essy to be done away with; and that any one who did the job would be paid for it. He afterwards got ten shillings from her, and he applied to certain persons for assistance to murder Essy. The first man he spoke to was named Lanissy, who said the job could be well done, and that there would be plenty got to earn money on it. Walsh also consulted the prisoner Cain, and a man named Laurence Kenny. The latter consented to shoot the woman, and Cain agreed to accompany him. The man meant frequently in a public house in Mullingar to discuss the plan of the job. Anne Croghan complained of the delay, and asked Walsh if he was going to let it go altogether by, and was not going to get anything done. He said he had spoken to men who would do it if they got money. She said she would give them all she could get. A man named Michael Kelley lent Walsh a revolver, which he gave to Kenny, who proceeded to the house where Esther Croghan lived with her mother. He came back soon after and gave Lanissy and Walsh an account of how he had committed the murder, and asked was it not well done. Walsh said it was. She could only have lived a few minutes. Cain, who accompanied Kenny, remained outside the house to render assistance if necessary, but Kenny fired five or six shots into the body of the unfortunate woman, and no assistance was required. Kenny never got any money for the murder. He stated to Walsh that, although he shot another woman in the house, he did not intend to do more than frighten her. Kenny is undergoing penal servitude for another crime, and he will be placed on trial with Ann Croghan and Cain. The Kelley who supplied the revolver is believed to be the man whose name was mentioned in connection with the Maamtrasna massacre.

The Princess Louise.

The Princess Louise will arrive at Ottawa on the 16th instant. She leaves Bermuda on the 10th instant.

A Fight with a Bear.

Mr. J. D. Sherwood, a culler in the employ of Messrs. McLaren & Co., had a desperate encounter with a she bear on the Temiscamingue last week. After a hard battle he succeeded in killing bruin, and capturing three cubs.

Death from a Rolling Log.

While some half-dozen children were playing upon some saw logs at Port Rowan on Wednesday afternoon, one little fellow named Willie Husband, about seven years old, was killed by a log rolling over him and smashing his skull, causing instant death.

Accident or Suicide?

D. B. McDonald, a prominent citizen of Stratford, was found in a cistern at the rear of his dwelling, on Wednesday. When taken out life was not extinct, but his chances for life are small. It is not known whether he fell in by accident or not, as he is unconscious.

Houses in Winnipeg.

A large number of people are giving up their dwellings throughout Winnipeg and moving out West, some to homesteads and others to make a fresh start in some of the new and rising towns springing up in the Territories. The result is that houses are a little more plentiful than they were last fall.

Bigamy.

On Wednesday morning George Vedder appeared in the Police Court, Hamilton, charging his wife, Annie Vedder, with bigamy. Vedder had married a woman named Miss Annie Dates, but recently had found her to be of questionable character, and consequently had left her. Last month Annie married another man named Linton. Hence the charge of bigamy.

The Wimbledon Team.

Lieut.-Col. Ouimet, M. P., has been appointed to the command of the Wimbledon team this year. By those who know the gallant Colonel the announcement will be received with satisfaction. He is a great favourite among the volunteers, not only for his genial qualities, but also for his readiness to forward anything that is of benefit to the force.—*Mail.*

Skull Fractured.

A despatch from Kingston says that Sylvenas Calcoun, while working on the Ontario and Quebec Railway at the pile-driving machine, was struck by a block used for lifting the weight. His skull was fractured and the splintered bones driven on the brain. On Wednesday an operation was performed to remove the splinters. He lies at the Hotel Dieu, and is in a critical condition.

A Warning to Mothers.

Mrs. Avanne of Toronto, incautiously left her 15 months infant sleeping on a table on Wednesday night, while she went to the shop in front. A lamp was beside the child, which the little one knocked over in its restlessness. The flames spread to its clothing, and ere they could be extinguished inflicted probably fatal injuries. An alarm of fire was sounded, but the services of the firemen were not required.

Provincial Rights.

It seems rather comical that Mr. Royal's protest against Parliamentary interference with provincial rights should have been provoked by the interference of Mr. Blake with the Oblat Fathers' bill, of which Mr. Royal had charge. The Liberal leader, Mr. Royal must know, "discriminates." It he can make capital, he acts one way; if he can't, he acts another way. When he is in power he is an autocrat. When he is in Opposition he is a revolutionist.—*Mail.*

For Keeping Out the Burglar.

Three new cars have been turned out from the Ontario car works, London. They combine postal, express, and baggage compartments, and are of somewhat unique construction, as both ends are closed up, and entrance can only be gained from the large side doors. The object of this is to afford protection to the express and postal officials, as it is thought that by such an arrangement it will be impossible for burglars or robbers to effect an entrance. These cars are intended for the Canada Pacific railway.

Wiggins' Storm in Mexico.

Wiggins' storm seems to have raged more severely in Mexico than anywhere else on this continent. The Mexican correspondents have already testified to the severity of the weather on the great plateau of the capital during the first fortnight of March, and the latest advices are that the roads are blocked with snow between Puebla and Apizaco, and that in the neighbourhood of the latter town 300 head of cattle were frozen to death in the fields. Mr. Wiggins may find comfort in this news.

Oil Well at Bothwell.

The parties who are agitating the sinking of a deep oil well at Bothwell have succeeded in procuring sufficient capital to make a start. The principal movers in the scheme were in London on Wednesday, and induced citizens to subscribe to the extent of $1,200. The capital subscribed up to the present time amounts to over $5,000, although originally $4,000 was considered to be the highest possible limit that could be secured and it is the intention of the promoters to call a meeting of the shareholders at once for the appointment of directors and the organization of the company, and to proceed with the preparations for putting down a deep test well as soon as possible.

Slates Bad for the Eyes.

Professor H. Cohn, of Breslau, believes that the use of slates by school children tends to produce short-sightedness; and would substitute either pen and ink or an artifical white slate with black pencil, manufactured in Pilsen, and already introduced into a German school. In 1878 Horner found (*Vierteljahrschrift f. öffentl. Gesundheitspflege*, x, 4) that B and E could be read, if black on white ground, 496 cm.; if white on black, 421 cm.; and if grey on black, 330 cm.; and ascribed the greater difficulty with white letters to irradiation. The reflection of light from the surface of slate is, it is said, enough alone to cause their disuse. The school board of Zurich has forbidden the use of the slate after the first term (primary year), and many teachers and oculists advocate the substitution of whith-boards for blackboards. The noise of slates; dirty habits formed by erasures; bad positions favored by reading the less legible script; a heavy hand; and the habit of twisting, learned with a pencil, and to be unlearned with a pen—these, it is said, are obviated by the use of pen and ink at the outset. The obvious objections are, that children can occupy themselves better with slates, and from pencil to pen is from the easier to the harder.

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer, dispairing of a cure, can be remedied by that unfailing regulator and unfailing tonic—Burdock Blood Bitters. Ask your Druggists for proof.

IN spite of the electric boom and lengthening daylight, gas continues to be no light matter when the bill comes in.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

THE Russian officers who have been acting as Cabinet Ministers in Bulgaria have been withdrawn from that country.

THE Mayor of Stratford has been unseated on the petition made by his opponents in the January elections, and a new election must be held.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

MANY of the Jews in Germany are in favour of transferring their Sabbath to the Christian Sunday, the present style being very inconvenient for business purposes.

Catarrh cannot be cured by any local remedy. It is a deep-seated and constitutional wrong-being, the tendency of which is to lay the whole respiratory economy in ruins. The Fountain of Health will reach the seat of this malady.

PETER COOPER the famed merchant and philanthropist, is dead. His great age (92) connected him with a by-gone generation, and his many benefactions endeared him to the hearts of all who knew him.

HEADACHE, Biliousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

THE wife of Captain Wright, of Hamilton, has poisoned two of her fingers in dressing her husband's wounds, to such an extent as will necessitate the amputation.

The Fountain of Health cures Catarrh, Rheumatism, Scrofula, and all humours, such as Blotches, Pimples, Old Sores, Ulcers, and all obstinate diseases of the Skin and Blood; this it does by its power to cleanse the blood.

MRS. BOWERS is three feet high. She lives in California, with her husband and four daughters all of whom are ordinary in size. At table she sits in a high chair. But she is a rigid disciplinarian, and the children submit to beig whipped by her.

No person can enjoy health while suffering Constipation of the Bowels. Harsh purgatives always do harm. Burdock Blood Bitters is Natures own Cathartic; it unlocks the secretions *regulates, purifies and strengthens the system.*

A SECRET.—The secret of beauty lies in pure blood and good health. Burdock Blood Bitters is the grand key that unlocks all the the secretions. It cures all Scrofulous diseases, acts on the Blood, Liver, Kidneys, Skin and Bowels, and brings the bloom of health to the palid cheek.

"BLOOD WILL TELL." A face adorned with Pimples, Poils, Blotches &c., is not a particularly pleasant sight, and invariably betokens an impute state of the Blood. Dr. Carson's Stomach Bitters free the system from all gross humours, renders the Blood Pure and Cool, aids digestion and gives a healthy appetite. For sale by all Druggists in large Bottles at 50 cents.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

New Life for Functions Weakened by Disease, Debility and Dissipation.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree —without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

FRAZER AXLE GREASE.

Best in the world. Made only by the Frazer Lubricator Company, at Chicago New York, and St. Louis. *SOLD EVERYWHERE.*

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California R.R. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

Personal.

The Hon. Mr. Boyd, Chancellor of Ontario, is at the Caisse House.

Mr. J. C. Bailey, Toronto, Chief Engineer of the Midland Railway, is at the Oriental.

Mr. Z. A. Lash, Q. C., and Mr. Charles Moss, Q. C., Toronto, Mr. C. D. Barr, of the Lindsay *Post*, and Mr. J. M. Ferris, M. P. P., Campbellford, are at the Oriental Hotel.

The Weather Probabilities.

Considerable rain fell yesterday afternoon and last night, but to-day is clear and warm. The probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh winds, mostly north and west; clearing weather this evening; stationary or slightly lower temperature.

The Story of the Bible.

We have before us a copy of "The Story of the Bible, from Genesis to Revelation," told in simple language, for the young, by Charles Foster. This edition is printed in Canada, by McLean & Co., Toronto, and is strongly recommended by clergymen of high standing in their several denominations, among others by the Rev. Dr. E. B. Harper, the late Dean Grassett, and the Rev. Dr. Caven, Principal of Knox College. The Bible story is told plainly and simply, in language fitted for the comprehension of young readers, yet in such a way as to excite their interest. It is illustrated with numerous engravings which are well calculated to deepen the impression upon juvenile minds, to fasten the events in their memory, and to arouse their curiosity and interest. We may add that it is well printed in clear, bold type, well suited for beginners in the art of reading, and forms a handsome volume of six hundred and fifty pages. Miss Law is in town at present, taking subscriptions for this work, and she should have no difficulty in obtaining a long list of purchasers for such a meritorious and valuable book. We are sure that if the children get a sight of it they will give *their* vote for obtaining it.

HIGH COURT OF JUSTICE.

Spring Sitting of the Chancery Division—Chancellor Boyd Presiding.

The spring sitting of the Chancery Division of the High Court of Justice opened this morning in the Court House, Chancellor Boyd presiding.

There was a large number of the local members of the legal profession present when the Court opened, and the following representatives of the bar from a distance:—Hon. Sidney Smith, Q. C., Cobourg, C. Moss Q. C., and Z. A. Lash, Q. C., Toronto, W. H. Biggar, Belleville, and F. A. Hilton, Trenton.

Five cases were set down for hearing, and the first one taken up was

Smith vs. Midland Railway Co.—An action by assignor of a purchase at a tax sale to eject the Midland Railway Company from the land purchased. The land is in Douro, and the railway track to the Auburn Mills runs over it. Judgment reserved.—Hon. S. Smith, Q. C. and Z. A. Lash, Q. C., counsel for plff. and Smith & Peck solicitors for plff.; C. Moss, Q. C., counsel for defendant and Bell & Biggar solicitors.

Black vs. Strickland.—Application was made to postpone the trial on account of the absence of a material witness. Stands over until next sitting of the court.—G. T. Blackstock, counsel, and C. W. Sawers, solicitor, for plaintiff; Z. A. Lash, Q. C., counsel, and Dennistoun & Hall, solicitors, for defendant.

The following is a list of the other cases to be heard, with the names of the solicitors. The first case named is proceeding this afternoon:—

Stethem vs. Ullyott.—An action to stay trespass in a northern township.—Roussette & Roger for plaintiff; D. W. Dumble for defendant.

Fitzgerald vs. Fitzgerald.—E. B. Edwards for plaintiff; Edmison & Wood for adult defendants, and Hoskin for infant defendants.

Dunlop vs. Dunlop.—E. B. Edwards for plaintiff; W. H. Moore for defendant.

Peterborough Real Estate Investment Co. vs Ireton.—Poussette & Roger for plaintiffs; Hudspeth & Jackson for defendant.

Photographic.

Mr. Jos. McClelland's studio on Simcoe street will be closed until Saturday next, April 7th.

Remember

The date of Hall, Innis & Co.'s Millinery Opening, Tuesday and Wednesday, 10th and 11th April.

The Crossings.

The main crossings on George street were cleaned by order of the Street Inspector to-day. A good act.

Sewer Burst.

The main sewer burst to-day on King street, near Messrs. Denne & Sperry's mill. The break is four or five feet long, just where the stone-work ends and the cedar begins, near the river. The street Inspector has men at work repairing the damage.

Railway Bridge.

The Lindsay *Warder* says that since the fine weather set in work on the new Midland bridge over the Scugog has been pushed along rapidly and the necessary fixings for the freshet and the foundations of the structure are now about completed. Grading and levelling to the approaches are also in operation on the west side of the river, and the timber required is being fast hauled into position. Messrs. McNeely & Walters are evidently bound to make the most of their opportunities in the weather line.

Railway Notes.

The Belleville *Ontario* says that Edward Jose met with a painful accident at the Belleville and North Hastings Junction on Wednesday afternoon, which may result in the amputation of one of his feet. The victim with his brother was engaged drawing timber on a sleigh. The latter was driving the horses while Edward walked behind the load. Not having an eye on the timber at the time the sleigh slewed, the stick struck him on the leg just above the ankle. One of the bones was fractured in several places while the other one was injured as well.

The Port Hope *Times* says that the staff of the Midland Railway machine shops has been increased, by the addition of Jno. Verner, Stratford, boiler maker, and Wm. Siddle, assistant, of the same place. These gentlemen, we notice by the stratford *Times*, were made the recipients of addresses and presentations at the hands of their fellow mechanics before leaving for Port Hope.

Sent Up.

The other day we mentioned that Wm. Doyle, a former resident of Peterborough, was arrested in Winnipeg for larceny, and the following from the Winnipeg *Sun* of March 31st gives the sequel. All the names mentioned in the paragraph will at once be recognized by residents of this town:—

"William Doyle, a respectable looking young fellow, was before the court this morning on a charge of stealing a gold watch and chain from James Sharpe at the Davis House. It appears that Sharpe went to bed about eleven o'clock on Wednesday night leaving his watch and chain in his vest hanging on the bed post, The door of his room he left unlocked and upon awakening in the morning found that it had been stolen. He at once reported the robbery to the police. A young man named Walton, who is a machinist in Patterson's planing mill, was examined. He had known Doyle all his life. The prisoner had come to him on Thursday and offered to give him the watch and chain for ten dollars. He confessed to Walton that he had stole the watch and chain from a room in the house. Thomas Mitchell was also examined, and said that Doyle had offered it to him for sale. The prisoner was sent to the provincial jail to await his trial. Walton says that Doyle has served a term in the Central Prison, Toronto, for a similar offence. He will in all probability spend his summer vacation at Stony Mountain."

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his life by a sample Trial Bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctors, change of climate and everything else had failed. THE DESINAULT INQUEST

To the Editor of the Review.

Dear Sir,—Having seen by your report of an inquest held at the gaol in Peterborough touching the death of one John Desinault which appeared in the *Evening* Review of the 4th inst., that the coroner and jury took upon themselves to censure the hotel keepers of Lakefield, I beg a small portion of your valuable space for the purpose of saying that no constable, Magistrate or any one else applied to me for admittance for the late John Desnnault, that I did not know the man, nor do I remember of ever seeing him, Neither did he or any one in his behalf apply to any of my servants to be admitted and attended to. If any constable or magistrate had brought him to my house in the state he was said to be in, I would certainly have taken him in and have done what I could for him.

I was at home the whole of the day he was sent to the gaol, and consequently am in a position to know the above to be true and correct.

Hoping to be favoured with space for the above,

I am yours truly,
RICHARD PURSER.

Blakely House, Lakefield, April 5th, 1884.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION. BOTTLES CONTAINING NEARLY HALF A PINT. SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

JOHN HACKETT.

Daily Evening Review

SATURDAY, APRIL 7, 1883.

WE find that by inadvertance we have misstated the position both of Mr. John Boyd and the *Examiner*. In our article headed "More Light Wanted," we say:—"The *Examiner* agrees with us in believing it to be untrue that Mr. Boyd was working for Mr. Bettes." It may be seen at a glance from the contest that this should read "against" Mr. Bettes.

The Cobourg *World* repeats its dishonest quotation of half a sentence reported to have been spoken by Mr. Mousseau in regard to the Boundary question, and then contends that this half sentence has a very different meaning from that which the unmutilated sentence conveys. When the *World* abandons its dishonest mutilation and gives the sentence in its entirety, we will be quite prepared to discuss its meaning with our contemporary.

AND now the Port Hope *News* comes to the aid of the *Globe* and the Cobourg *World* in the matter of the alleged bargain as to the Boundry Award. The *News* says that Mr. Mousseau "declared that he and Masson had extracted such a pledge from Sir John Macdonald in 1878." Now the fact is that Mr. Mousseau did not state that either he or Mr. Masson had asked such a pledge from Sir John, or that Sir John had given a pledge to either of them. It is also a fact that these gentlemen have denied that such a pledge was either asked or given. Will the *News* then oblige us by giving the sentence in Mr. Mousseau's speech, as reported by a competent stenographer, from which it draws its conclusion to the contrary, quoting the whole sentence and not a few works separated from the context, as the *World* does?

THEIR OLD TRICKS.

A FEW days ago in noticing the recent appearance of the Hamilton *Tribune*, we expressed the hope that our new contemporary would adhere to the neutrality which it professed. Even at this early date however we find that it is taking its place among the supporters of the so-called Reform party, not openly it is true, but under the cowardly mask of pretended independence.

The *Tribune* has published a correspondence represented to have taken place in 1879 between Sir Charles Tupper and Mr. J. A. Macdonnell. That this is intended as a partisan attack upon the leaders of the Conservative party is obvious, and if we were at any loss how to place the *Tribune* it would be removed by the consideration that the plan it adopts is precisely such an unfair and dishonorable one as its friends are in the habit of using. On the face of the documents it is evident that if genuine they must have been purloined by and purchased from confidential clerks, who had been tempted to a breach of trust, and "as there is internal evidence of their being, they are forgeries, they have been founded upon information obtained in this despicable manner. One cannot fail to be reminded of the former performance of the "Reformers" in this line, when Huntington, most widely known as a mining sharp, McMullen, the black mailer and some suborned confidential clerks conspired to remove Sir John Macdonald and his colleagues from power by the use of papers which were stolen and then misrepresented. There was no absolute proof that the leaders of the party were implicated in their vile conspiracy in its inception, but they took advantage of their action and rewarded each of them according to his position in life, with power, money or office.

As one instance out of several to show that this new series of forged or manipulated documents contains internal evidence which proves it not to be genuine, we may mention that one aim of the publication is to convey the impression that Sir John Macdonald and Sir Charles Tupper spoke slightingly of Roman Catholics as a body, yet Sir Charles is made to perpetrate the extraordinary blunder of writing this insult in a confidential letter to a gentleman of that church whose good will he desired.

The forger has apparently overlooked this fact, and it is just such an oversight as even the cleverest criminals constantly commit, and thus their nefarious plans are frustrated.

MIDNIGHT TELEGRAMS

CABLE.

THE SOCIALIST DEPUTIES.

BERLIN, April 6.—Prince Bismarck, in a letter to the President of the Reichstag, announces curtly and without explanation the arrest and subsequent release at Kiel of the deputies who attended the Socialist Congress at Copenhagen.

AMERICAN PORK.

BERLIN, April 6.—Notwithstanding the numerous protests from America against prohibiting the importation of American pork the Government, evidently influenced by sanitary reasons, seem determined to enforce to statute forbidding its importation.

THE ACCUSED ARRAIGNED.

LONDON, April 6.—The dynamite prisoners were arraigned to-day on a charge of having in their possession, with felonious intent, explosive materials. The detectives gave a number of points which in their opinion pointed to Norman's guilt and his intimate relations with the prisoners. The name of the man whom Norman alleges engaged him as clerk is Fletcher. The detectives deposed that a telegram was found on Norman signed by Fletcher. The prisoners were remanded without bail.

TRACING THE PLOT TO AMERICA.

LONDON, April, 6.—When the prisoners were arrested the detectives found on Norman a £5 note, with the stamp "New York, March 10," imprinted on it, also a map of London, and an envelope addressed Gallagher, American Exchange, and a telegram directing Norman to call on Fletcher, Charing Cross hotel. The police found in Gallagher's room more rubber bags like those in his satchel when arrested, besides a quantity of money and a letter of credit for £600, dated New York, March 13.

ANTI-DYNANITE LEGISLATION.

LONDON, April 6.—In the House of Commons to-day Sir William Harcourt announced that on Monday he would introduce a bill amending the law in regard to explosives, and would ask the House to facilitate its passage.

THE GLASGOW EXPLOSIONS.

GLASGOW, April 6.—It is stated that the recent arrest in Liverpool has furnished a clue to the cause of the recent explosion in Glasgow. It is said that it was intended that the explosions should be on a magnificent scale, and that the plot included the destruction of the viaduct over the canal. The explosions were *only partially successful*. Several detectives have started for Liverpool to work out evidence.

FAILURE OF CROPS.

VIENNA, April 6.—750 Hungarian emigrants, from Bukowina, arrived from the Domains of the State at Panchoca, and two thousand more are *en route*. The whole Hungarian colony of Bukowina, numbering 20,000, are determined to leave the place, owing to the insufficiency of the crop.

Turnbull's Millinery Show Room will be opened on Wednesday and Thursday, 4th and 5th April.

EXPLOSION AT OTTAWA.

A Bottle Thrown Between Two Policemen and Explodes Violently.

The Toronto *World* contains the following strange story:—

"OTTAWA, April 6.—Though kept in the dark as much as possible, the fact has come to light that a very serious explosion occurred in the basement of the eastern block last Wednesday, by which two police officers nearly lost their lives. Some time after the noon hour on the day mentioned, Sergeant Hughes and Policeman Codd were in the hall-way of the basement enclosed by the central stairway, when, without any warning whatever, a bottle containing some explosive liquid was thrown between them and burst with tremendous force. The men heard the bottle coming and succeeded in getting behind a door and pillar respectively. The noise was heard all over the block and is described as being very loud. The glass of the bottle flew all over the passage, and according to the statement of an eye witness, Officer Codd would certainly have been killed or maimed, but for getting under shelter. Those in the adjacent block went to see what was the matter, but could learn but little. The case is in the hands of the Dominion police, however, and they, it is understood, are making an investigation. It could not be ascertained what liquid was in the bottle, a common ale one, but no ordinary substance would have made such a noise. The case is said to be directly before the Minister of Justice."

Horsford's Acid Phosphate

AS A REFRIGERANT DRINK IN FEVERS.

DR. C. H. S. DAVIS, Meriden, Conn., says: "I have used it as a pleasant and cooling drink in fevers, and have been very much pleased with it."

Letter from Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, D.C., Feb. 19, '82.

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsomic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.
Very truly yours, WILLIAM W. GROUT.

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50 cents a bottle by Taylor & McDonald.—1

Mrs. Campbell, 344 Walton Avenue, Toronto, says:—"I had suffered much for a long time by derangements of *Liver*, Stomach and Kidneys. Two months' using of Fountain of Health has almost completely restored me."

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Daily Evening Review

SATURDAY, APRIL 6, 1883.

A WIDE DIFFERENCE.

As we proved conclusively that there was a material difference between Mr. Mowat's River and Streams Bill and Mr. Sandfield Macdonald's legislation in regard to timber on road allowances, the *Globe* meets our argument by avoiding the points at issue and indulging in puerile quibbles on the meaning of the word "retroactive." Of course nearly all legislation is more or less "retroactive" in the strict sense of the word, but in this particular question the measure as to road allowance timber was not "retroactive" in regard to cases under suit, which, including that of Mr. McLaren, were expressly excepted, while the River and Streams Bill was especially intended to be "retroactive" as to matters in litigation, being avowedly suggested by the Caldwell-McLaren suit, and so framed as to effect it while still pending. This was a sufficient reason why the one measure should be disallowed and the other not. Another weighty reason was that Mr. Mowat's measure seized upon private property for any compensation Mr. Mowat might choose to throw to a political opponent, while Mr. Macdonald's bill dealt with public property in the hand of the municipalities, which were awarded their full share of the proceeds. The *Globe*, in fact, yields the whole question by saying that it did not assail or question the expediency of the Sandfield Macdonald Act. Why should a measure be disallowed which is unassailable and expedient?

MIDLAND.

FIRE.—The *Free Press* says that on Wednesday forenoon two frame houses owned by Mr. S. Dunlop were destroyed by fire. The furniture was removed from one of the houses, but all in the other one was lost. If the town possessed any means of throwing a stream of water, or if we had even a hook and ladder company one of the buildings would have been saved. A large number of people gathered at the fire but they were unable to render any assistance. When a fire breaks out on our main street the result will be so disastrous that our townspeople will wish they had been in a position to fight the flames.

NORWOOD.

FAREWELL SUPPER.—The *Register* says that Mr. S. J. Griffis, who is about leaving here for Dakota, was tendered a farewell supper by the Masons of this place on Tuesday evening at the McGregor House. The "spread" was all that could be desired, and reflected much credit on the House and on Mac's abilities as a public caterer. The usual toasts were proposed, songs sung, and altogether a very pleasant evening spent. Norwood, by Mr. Griffis's departure, losses one of her most enterprising citizens, and we heartily wish him every success in his new home.

BOBCAYGEON.

RESIGNED.—The *Independent* says that at a special meeting of the Council held on Thursday night, Capt. Bottum, as Reeve, tendered his resignation. This action was brought about by the Captain having leased the Forest House. The retirement of the Captain is a loss to the village, that it can ill sustain, and some difficulty will be found in filling the position.

PORT HOPE.

ASSAULT.—Mr. D. Marshall, who was offended at some personal insults in letters in the *Guide*, assaulted the editor of that paper. He was fined $20 for doing so, and a friend sent him the money in an anonymous letter to pay the fine.

Death From Exposure.

A despatch from Kingston says that on March 10th, the young woman who was taken from her house by police officer James Nesbitt, without a warrant, for deserting her child. She was placed in a filthy cellar, and kept there for two nights and one day. The family charge her death to cruelty. They assert that the girl was very delicate; that she had only risen from childbed; and that she was taken to the police station dressed only in a thin cotton wrapper, without hat and without shoes on her feet, though it was winter season. While in the damp and noxious cells she was hysterical, and her sufferings must have been intense. On the 12th March her trial occurred, but there was nothing to base a charge upon, and the weak girl was discharged. On the way out she tottered as she walked, and her face was ashy pale. The young woman returned home with her mother, and after her discharge took to her bed, and never arose again. The doctor visited her, and found that no remedy could save her life. She was in the last stages of quick consumption owing to exposure, and death is said to have resulted in consequence of her harsh treatment. An inquest will be held.

A Barrie Bigamist.

Wm. Long, a bus-driver at Burlington on a short acquaintance a few weeks ago married a lady from Barrie and settled down. Scarcely was the honeymoon over when a detective arrived from Barrie and arrested Mrs. Long on a charge of bigamy.—*Toronto Canadian.*

Poor Fellow.

In the suit of Herman Barwick of New York, against Miss McLean the Staten Island heiress, for $10,000, Dr. Petebold testified that had it not been for his attendance, the plaintiff would be an inmate of an insane asylum. He had lost twenty pounds since the engagement was broken, and he became a subject of palpitation of the heart.

Big Land Transaction.

A year ago a Chicago syndicate obtained from the state of Texas three million acres in Panhandle, the consideration being the erection of a state capital in Austin worth a million and a half dollars. A London syndicate is now about to buy the entire tract for ten millions.

Woman's Suffrage.

A woman's suffrage club has been organized in Toronto. The name chosen for it is the "Canadian Women Suffrage Association," and it has sixty-one members. The object of the association is to obtain for women the municipal and parliamentary franchise on the same conditions as those on which they are, or may be, granted to men.

The Significance of Thursday.

It was on the 5th of April, 1497, that John and Sebastian Cabot, sent out by Henry VII, of England, first rested their eyes on Canada as its discoverers. Looking back so far, Canadians may almost claim to be an ancient people. According to Prof. Agassiz, who said that before the primeval waters rolled back from the plains of Europe, America was; the early explorers were a long time discovering the then long existing country of "stupendous cataracts and purling streams." The march of the centuries has evolved from vast wildernesses and impenetrable forests a populated country and populous cities, not the least of which is the Queen City, situated so far from the cold coast of Labrador, which first met the view of the Cabots nearly 400 years ago.

Skin-Vision of Animals.

In a recent communication to the Vienna Academy, Professor Graber, of Czernowitz, describes a long series of experiments with regard to the "skin-vision" of animals; affording exact proof that certain animals, without the aid of visual organs proper, can make not only quantitative but qualitative distinctions of light. These experiments relate chiefly to the earthworm, as representing the eyless (or "dermatoptic") lower animals, and to the *Triton cristatus*, as representative of the higher ("ophthalmoptic") eyed animals. In a table Professor Graber presents columns of numerical "coefficients of reaction," indicating how many times more strongly frequented a space illuminated with bright red, green, or white without ultra-violet, is, than one illuminated dark blue, green, or white with ultra-violet respectively, the condition being the same as regards light intensity, radiant heat, etc.

A Lovelorn Indian Maiden's Suicide.

News has come that an Indian maiden, belonging to a branch of the Sioux on the Oak river reserve, In Manitoba, recently committed suicide. The chief desired her to marry a certain member of the tribe, who was advanced in years, but the maidens fancy had already been engaged by a young brave, whom she promised to wed should she wed at all. The objection shown to the chief's wishes enraged him to such an extent that he insisted on the marriage with the older one, and threatened all manner of punishments in the event of further contumacy. There appeared no possible escape for the unhappy maiden but one, and she bravely faced it. Getting possession of a piece of rope, she managed to slip away unobserved, and, fastening the rope to the branch of a tree in the vicinity of the encampment, succeeded in most effectually hanging herself.—*Brandon Sun.*

"Unto the Third and Fourth Generation."

"A young gentleman of sincere character," writes Dr. Deems, "a member of the church of which I am pastor, stated in my hearing that to the best of his knowledge not a drop of any sort of intoxicating liquids had ever passed his lips." He has, therefore, the Doctor goes on to say, no temptation to drink from either a strong habit, or a love for the taste of strong drinks; yet he maintains a daily warfare with the appetite. He never passes a saloon without a strong temptation to enter. He has has to rein himself up and draw himself away, not to enter and take his first drink. Nor is this simply an occasional or spasmodic feeling; it is the one regular daily conflict of his life. How is this strange, terrible, almost overmastering appetite to be accounted for? On conversing with the young man, it came out that his great-grandfather was a hibitual drunkard!—*Zion's Herald.*

Dangers of the Telephone.

A singular case of abnormal development of the left ear is reported from the the 22nd ward hospital in Philadelphia. The patient is a bank clerk whose principal duty it has been for more than eighteen months to stand at a telephone and answer calls. The almost continuous current of electricity seems to have stimulated the dormant powers of growth, and the result is shown in the enlargement of the outer left ear to about three times its natural size. This enormous development has every appearance of being a healthy tissue, with no indication of inflammation or any other diseased condition. The aspect of the patient is most singular, and not entirely free from the ludicrous. The case is attracting much attention at the hands of the Philadelphia physicians, who are wholly at a loss to account for the singular phenomenon. Reports, which are unauthenticated, however, are current to the effect that similar cases, only a modified form, are making their appearance in New York and Boston, and the theory is promulgated that a new disease has been introduced into the world by the invention and use of the telephone.

Effects of Advertising for a Husband.

A short time ago a widow who keeps a boarding-house in Toronto advertised with a view to matrimony, and received a reply from a James Robertson, of Buffalo. A correspondence was struck up between the pair, and a meeting took place at which a marriage was arranged to take place in Buffalo. Robertson proving his sincerity by handing his *fiancee* a cheque for $100,000. Eventually the knot was tied by the Rev. Dr. Stratton, of Buffalo, and the newly-married couple took up their residence temporarily with the reverend gentleman. Four days elapsed, and then Robertson disappeared, taking with him $75, a gold-headed cane, and an overcoat belonging to his host. The $100,000 cheque in the wife's possession was found to be bogus, and Dr. Stratton having placed the matter in the hands of the Buffalo police, Robertson was arrested in Hamilton on Wednesday on a charge of larceny. He was tried in the police court in that city on Thursday morning, and sentenced to six months' imprisonment. The deluded wife and her daughter went to Hamilton on hearing of Robertson's arrest, but returned to Toronto without seeing him.—*Mail.*

Love and Law.

DEAR MR. PUNCH.—I perceive by the papers that a person named Caine proposes the abolition of actions of breach of promise of marriage! Proposes indeed! The wretch! Are we poor women to be robbed of one of our few protections against the flattering falseness of the "proposing" sex? Not that men "propose" too much. On the contrary I maintain that, as by social convention, if not by law, they have a monopoly of the right of "proposing," they should be compelled by law to exercise that right more fully than they do. An exclusive privilege inadequately used is at once an insult and an injury to the unprivileged. That's logic, I hope, and good enough for Girton or the *Nineteenth Century*, Caine's proposal! Fancy being proposed to by a man with that name!—is preposterous, of course. If men propose, they must—well, take the consequences in the fullest sense. Matrimony, or money down! But can nothing be done with those who won't propose, who won't even woo? Marriage they shun, and courting they seem to despise. Could they not be prosecuted for "Contempt of Court?" That, I maintain, would—as the *Daily News* says the Lord Chancellor's new bill does not—"go very far toward putting contempt of Court upon a proper basis." Do see to it, there's a dear Grand Old Man, and you will confer a real favor—a wedding favor—on Yours, devotedly,

BELINDA BLISSLIDS.

The World's Champion Checker Player.

A man with a gripsack and large cane, dressed like a farmer, and looking as if he had just blown in from the backwoods, came to town. The stranger was James Wylie, the champion checker player of the world. Mr. While is a Scotchman, and has beaten the best players that the world has produced, and now he is regarded by all as the champion. He is about sixty years of age. His hair is white, and, like Horace Greeley, he wears a beard under his chin. His deafness makes it impossible to carry on a conversation with him. He sits quietly, not taking his eyes off the board, and taking no notice of those about him or anything except the game. He wears glasses, and has an intelligent and kindly face and good head. He has done nothing but play checkers since he was 15 years of age. His game cannot be beaten. He looks away into a game, and before an ordinary opponent has commenced he has won the game. He makes a good living by playing, as there are plenty of enthusiasts who willingly give twenty-five cents to play with him, and plenty more who will give that amount to see him play. He lives in Scotland, and has been in this country about six months, although this is not his first visit.—*Elmira Free Press.*

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean. NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA. The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States. No failure of crops has ever occurred. Oregon wheat commands a higher price than that of any other country in the Liverpool market. An immense area of very fertile Railroad and Government Lands, within easy reach of the great lines of the Northern Pacific R.R., the Oregon Railway and Navigation Co., the Oregon and California R.R. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry. The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific R.R. and the Oregon Railway and Navigation Co's systems. This insures a certain rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws. A Fatal Cat Bite.

Mr. David Lynde, of Upper North River, has died in convulsions from hydrophobia engendered by the bite of a cat last summer. The poison was long dormant in his system, and only manifested itself a few days before his death. During his short illness he manifested an utter abhorrence of water or liquids of any kind, but struggled hard to be calm and reasonable under his sufferings. He was about forty years of age, and leaves a wife and a large family to mourn their loss.

A Funny Fall.

The heavy fall of a St. Louis man did not at first seem to have hurt him, but he soon found that his mind was singularly affected. He could not recall the names of his wife and children, and his eyesight was so strangely impaired, that objects seemed to be several inches to the left of where they really were. The physicians pronounces his case a remarkable one of amnesic aphasia. In ordinary ataxic aphasia, the patient remembers few words so as to speak them, but is able to readily understand anything that he sees written or printed. This man's eyesight was in sympathy with the rest of his disability.

"That Heathen Chinee."

It would have paid Mr. Geo. Howison, of Maple Ridge, B. C., to have had some knowledge of Chinese physiognomy. He was preparing a remittance for Victoria, amounting to about $460, when a movement of a Celestial called him outside the shop for a few moments, and in the interval "Ah Sin" stepped in and made free with the wealth. Mr. Howison gave chase, but the "Chinee" had earthed among a number of his compatriots, and the door was shut. The unfortunate Mr. Howison knocked in vain until the money had been secreted, and then when he was admitted he could not identify the abstractor of the money, and he returned home with added experience at the cost of $460.

Floods in Niagara Falls.

The heavy fall of rain that set in at Niagara Falls on Thursday evening and the melting snow, caused a great quantity of water coming from the back country to accumulate in the hollow mouth of the sewer which carried the water of the creek into the river underneath Bridge street. Inside of half an hour the water was running down Bridge street to the depth of two feet, filling cellars and stores, and doing on its way a great deal of damage to goods, R. Law and James Bampfield being the largest sufferers. The Grand Trunk yards were submerged, and much damage is expected to the track ballast. The Canada Southern railway track is washed away for about fifty feet where there was filling with gravel. The damage will amount to several thousand dollars.

Look to Last Year's Grafts.

In many cases it will be found that the stocks, by the growing of the grafts, have split open, exposing the inner wood and admitting air and water. This should at once be tied tightly with strong twine, and surrounded with fresh wax, removing any hard substance that way have got into the split. This will frequently repair the mischief, otherwise the work will be an eyesore and the parts never become firmly attached and make a good connection, and of course a perfect union.

Frequently double the number *of scions* are set that the stock will sustain. These should be carefully gone over and the excess removed, leaving those that spread somewhat from the stock. Unless the stock is stout—say from two to four inches in diameter—not more that two grafts should be left, and they should be as nearly as possible opposite to each other. When the growth has been rapid, the graft should be shortened. This will, of course, increase the number of branches and give the tree a more compact form.—*Germantown Telegraph.*

The Red Spot in Jupiter.

Jupiter never fails to excite profound interest, whether we follow its course with the naked eye or through the telescope. The telescopic view just now, says the *Scientific American*, is full of excitement. The Prince of Plants has met with a loss. The "great red spot," 26,000 miles long, and 6,000 or 8,000 miles broad, has almost entirely vanished. The extraordinary phenomenon that has been eagerly and assiduously watched since its appearance in 1878 has nearly disappeared, and zealous observers are little the wiser for the study bestowed upon it. Various opinions prevailed concerning its origin and constitution. Some astronomers think it was an enormous rift in the planet's cloud atmosphere, revealing the nucleus beneath. Others think it was a slag or crust formed on the semi-fluid surface of the planet, revolving with it, and now melting down and disappearing. Others think it was a kind of cloud of smoke coming from a long-continued volcanic eruption on the planet underneath. Doubtless new spots will succeed these, and some time in the distant future astronomers will decipher their meaning. But the time is not yet.

Effect of Shocks on Eggs.

It is a common belief among persons who keep poultry that the shocks and tremors to which eggs are subject during transport on road or railway affect the germ contained in the egg. M. Dareste, who has been studying this matter, found, a few years ago, that in eggs submitted to incubation directly after a railway journey, the embryo very generally died; but a few day's rest before incubation obviated this. He has lately inquired into the effect of shocks on the fecundated egg-germ, with the aid of a *tapoteuse*, or machine used by chocolate-makers to force the paste into the mills; it gives 120 blows a minute. Monstrosities were always the result of the tremors so caused. This cause is the more remarkable that it *acts before the evolution of* the embryo; whereas the other causes M. Dareste, has indicated, as elevation or lowering of temperature, diminution of porosity of the egg-shell, the vertical position of the egg, and unequal heating, only modify the embryo during its evolution. The modification impressed on the germ by those shocks did not disappear after rest, as in the case mentioned above, but is not known why. A few eggs escape the action.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these disease can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

For sale by all Druggists in large Bottles at 50 cents.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Are you

Drowsy, dull and out of sorts? Are you bilious, nauseated and made sick by the thought of food? Is there a dull, dragging pain in your right side? Do your bowels suddenly get sore without any apparent cause? Are the whites of your eyes tinged with yellow? Is your skin wan, clammy and copper-colored? Does your mouth taste badly in the morning? Are you costive? Do you have itching piles? Are your bowels irregular? Are you dizzy and dim-sighted at times? Are you gloomy and despondent? Is your urine highly colored? Are you nervous and full of bad feelings in all parts of your body?

If so, be advised before your case gets more serious—before you are seized by some form of low fever or become otherwise hopelessly sick.

Take SULPHUR AND IRON BITTERS. The trouble with you is that your liver is out of order and needs regulating immediately. SULPHUR AND IRON BITTERS will help you as nothing else in the shape of medicine can.

HIGH COURT OF JUSTICE.

Spring Sitting of the Chancery Division—Chancellor Boyd Presiding.

STEPHEN vs. ULLYOTT.—The plaintiff is the owner of a free grant lot in the township of Anstruther. Last fall Ullyott & Co. made a "cadge" road across it, and the action is brought for trespass and to restrain the defendants from using it. Before the action was entered the defendants offered the plaintiff $100 and then paid that amount into court. A large amount of evidence was taken as to the value of the lot. The injunction was refused, and the plaintiff is to accept $100 in satisfaction or to proceed in the Master's office to prove greater damage at his own risk as to cost.—C. Moss, Q. C., and Poussette & Roger for plaintiff; Dumble & Henry for defendants.

FITZGERALD vs. FITZGERALD.—J. W. Fitzgerald, the plaintiff, purchased land and had the deed drawn in his wife's name, who is now dead. This action is to recover possession of the land, as the plaintiff claims the deed was given in trust. The defence, by her heirs, is that the deed was absolute and for her own benefit. Judgment reserved.—C. Moss, Q. C., and E.B. Edwards for plaintiff; Edmison & Wood for adult defendants, and Z. A. Lash, Q. C., and Dennistoun & Hall for infant defendants.

DUNLOP vs. DUNLOP.—Mr. Dunlop gave a gift deed to his son David, the plaintiff, of a piece of land. Thomas Dunlop, another son, is in possession of it, and the action by the plaintiff is to get possession. The question is, whether the deed is valid. The case stands, and the parties are likely to come to a settlement. E. B. Edwards for plaintiff; G. T. Blackstock and W. H. Moore for defendant.

Fine Cattle.

A herd of fine cattle was brought in on the Midland to-day for Mr. Jas. Howden, purchased in the vicinity of Whitby. They were weighed on the market scale. They are a fine looking herd, and average between 1,150 and 1,200 pounds in weight.

The Midland and the Grand Trunk.

The Belleville *Intelligencer* of Friday contains the following paragraph:—

"It is said that the Midland Railway went into the possession of the Grand Trunk to-day. The engines used on the former road will be placed in the stone round house of the Grand Trunk Railway."

Mr. Geo. A. Cox, President of the Midland Railway Company, tells us that there is not the slightest foundation for the rumour that the Midland had passed into the possession of the Grand Trunk.

He won The Bet.

Two men on Friday afternoon, while in an hotel, were discussing how many raw eggs one could eat, and the discussion led to a bet of three dollars that one of them could not eat three dozen. An adjournment was made to a grocery near by, and a number of eggs were placed on the counter. The man who accepted the wager then went to work, and the contents of three dozen and two eggs shells passed down his throat, and this, too, after he had eaten his dinner. He won the wager.

A Curiosity.

We have been shown a curiosity sent to a friend in Peterborough from San Francisco, by Mr. F. W. Craig. It is a newspaper called "*The American and Chinese Commercial News*," half being printed in English and half in Chinese. We must confess that we have not perused the latter portion. It is said to be the only journal of its kind in the world, and is published by Kim Wing & Co., of Duport street, San Francisco. With this paper was also a very handsome calendar also printed in the Chinese character. Any one curious on such subjects may see them at this office.

Be sure and see Turnbull's grand display of Millinery and Mantles, on Wednesday and Thursday, 4th and 5th April.

"1982."

That is the date on an issue of the Chicago *Herald*, which is before us. According to that paper, a century hence they have things different from what we have now. Murderers are not hung, they are killed by electricity, and cremation is general. The principal mode of travel is by balloons, but is seems to be attended by as much danger as railway travel is now. The Republic of Ireland is prosperous, and an attempt is reported from Paris to poison the Emperor. Clyclones are no more a source of danger, for "by a nice adjustment of hot and cold air from the poles and the equator the funnel-shaped cloud was made to travel into a vacuum, where it suddenly dispersed." The Nicaragua canal has been in operation for seventy-five years, but the Panama route has been abandoned. Nearly all the countries in South America have been annexed to the United States. A six-day walking match took place at Greenwich, the pedestrians using the "American improved lung and leg invigorator," by which they could travel over 200 miles a day. An invention has been perfected for "bringing sunlight at night from the other side of the earth." Air-tubes have superseded the railways and balloons the steamships. The first anniversary of the flooding of the Sahara desert has been celebrated. Science has advanced wonderfully during the hundred years. A man is wanted who can operate a horse-shoeing machine with a capacity of 400 horses a day, and a girl is wanted who understands operating a baby washer. But the blessings of the next century are not unmixed, for "Uncle Tom's Cabin" is advertised with twelve Uncle Toms, twelve Evas, twenty-four Topsy's and a ten acre cotton field. Let us be thankful that we do not live in "1982."

ALL OUR DRUGGISTS now heartily endorse the amazing success of MACK'S MAGNETIC MEDICINE, and recommend it for both sexes in all cases of sexual weakness. See advertisement in another column.

FALSE TESTIMONY.

To the Editor of the Review.

DEAR SIR,—Quacks and medicine men are always very anxious to get evidence of cures effected by their treatment, and when they cannot succeed, some of them don't fear to manufacture testimonials, which they put out to the world as true. This appears to be the plan pursued by the proprietor of the International Throat and Lung Institute, 173 Church street, Toronto, who advertises in a number of papers that Rev. H. Sherin, of Bewdly, P. O., Ont., was cured by his treatment. Now no such man has ever lived at this place. Bewdly is a Post Office on my circuit, and if I am the man he means, I have to say to the public that I never took any treatment from Dr. Souvielle or any of his assistants, I never used his Spirometer, nor do I know of any case or cases cured by the use of this instrument.

Hoping that no person has been misled by the doctor's false testimony,

I remain yours, etc.,
H. SHERIN,
Methodist Minister.

Gore's Landing, April 7th, 1883.

WOOD! WOOD!

To the Editor of The Review.

SIR,—Does it not seem ridiculous the price we have to pay for wood, situated, as we are, in *the midst of a wooded country*. I thought it bad enough to pay $6.00 for the best of tamarac in Winnipeg, where our people suppose there is no wood. But to pay $5.00 for a jag of a load on the market here seems perfect robbery. This can all be remedied. If the people of the town will join me in a fuel company, I can deliver the wood here to subscribers for $2.50. But I must have the assistance and support of the people to enable me to do it. Those feeling inclined to help will please give me their names. This will not only be a saving to the parties subscribing, but will be a great benefit to the poor. If a railway scheme is mooted here, everybody is willing to tax themselves for a bonus, and compel the poor man to pay for a thing he never receives the slightest benefit out of. By cheapening our fuel we benefit the rich and the poor. Some years ago when I suggested the formation of a fuel company, everybody said it would be a good thing, but *there was not one man to give* the slightest assistance to establish it; they all said wood is only dear because there is no snow; they can't have that excuse this year. As soon as I receive a promise of sufficient support, I will submit my scheme for their approval.

Yours truly,
H. CALCUTT.

Peterborough, April 7, 1883.

Nice Windows.

While we semi-annually notice the opening doings of our millinery establishments, the beauties of the fashionable styles, and enumerate the "nobby" goods to be worn as the "correct thing" in that particular season, the poor gent seems to be left all alone to repair to his tailor and there select something for that season's wear irrespective of style, further than that the "Knight of the shears" is pleased to command he shall wear, should he purport to be a follower of fashion. Yet our merchant tailor and gentlemen's furnishing establishments as a rule, display their goods in a tasteful manner, their show windows at times being a subjects of complimentary remark. Among those in this line is Mr. Andrew McNeil's establishment on George street. To say that he always has *nice windows is speaking* within the mark. At present he shows in one window the newest styles of tweeds and coatings for spring wear, while in the north window is shown in great profusion the most elegant display of gent's furnishings we have seen for some time. They are gracefully arranged, which materially adds to the handsome goods that are shown. Some beautiful styles of ties are worthy of special mention, but taken together the effect is lovely and any person in want of furnishings cannot fail to procure what they require should they patronize "Habiliment Hall."

MADOC.

WILD-CAT KILLED.—The *Review* says that Mr. John St. Charles shot a wild-cat on Wednesday of last week, on his farm near this village, which measured over five feet in length. The brute was prowling round with a mate, and showed fight at first.

Timely Warning.

Business men in Toronto are thoroughly alarmed at the number of daring burglaries which have been committed within the past week or two. They appear to have pretty strong doubts as to the capabilities on the majority of the city detectives. The record of the past few days goes far towards convincing them that the present staff is not all it should be. The example set by a west end business man will, no doubt, become general if the burglar's boom should continue. Rather than run the risk of having his safe burst, he nightly removes the receipts of the day, and leaves the safe door open. Posted up above the safe is the following notice: "Please don't blow open the safe; the door is unlocked."—*Mail.*

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Roche, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

MONDAY, APRIL 9, 1883.

A DISGRACEFUL APPOINTMENT.

THE Ontario *Gazette* of last Saturday contains the following disgraceful announcement:

"Samuel Stanley Peck, of the village of Minden, to be Stipendiary Magistrate in and for the Provisional County of Haliburton, in the room and stead of J. L. Whiteside, Esquire, resigned."

Comment is unnecessary, even if our astonishment had not rendered us momentarily dumb.

STILL VACANT.

ALTHOUGH it is now four months since the Registrarship of this county became vacant, Saturday's Ontario *Gazette* fails to name a successor to the late Col. Haultain. Seeing that the judgeship of the county of Haliburton has been kept practically vacant for the convenience of Mr. S. S. Peck, for four years, and the Registrarship of Bruce for over a year for Mr. Sinclair's benefit, we will not be surprised to find that the Peterborough Registrarship will be kept vacant as a convenient retiring place for some good friend if not member of the Mowat Government when it can no longer evade its eivdent doom. After the Haliburton judgeship, the public will be surprised at nothing which Mr. Mowat can do.

HIGH COURT OF JUSTICE.

Spring Sitting of the Chancery Division—Chancellor Boyd Presiding.

The last case set down for hearing in the Court of Chancery was finished on Saturday afternoon, and the Court then finally adjourned. The case was

PETERBOROUGH REAL ESTATE INVESTMENT CO. *vs.* IRETON.—This was an action brought partly to foreclose a mortgage and partly to recover damages sustained by reason of the company having brought an action for the defendant. The judgment was that the plaintiffs were entitled to recover damages, the amount being left for the master to determine, and for the sale of the property to pay the mortgage money and the damages.—C. Moss, Q. C., and Poussette & Roger for plaintiffs; Hudspeth & Jackson for defendants.

Smuggling From Canada.

Special Agent Heichhold, of the Treasury Department in Buffalo, has recovered a quantity of silks and other goods which were smuggled from Canada six weeks ago, and secreted for a time in a farm house a short distance from that city. The property was shipped to Atlanta, Ga., as learned, at one of the express offices. The matter was referred to Special Agent Hubb, who was stationed at Atlanta, and this official lost no time in seizing and shipping it to Mr. Heichhold. There have been no arrests in connection with the case, but as the parties who smuggle the goods are well known to Heichhold he will probably take action against them shortly.

A Wedding Ring Wound.

A somewhat singular accident occurred this morning. As a middle-aged widow lady from the country was alighting from a sleigh on Notre Dame street, her foot slipped on the ice, and falling, her gold wedding ring cut her finger to the bone. The ring was old, and had worn rather sharp on the edge. The subject of the unusual mishap went to the Notre Dame hospital, where the ring was filed off and the wound dressed. She said she found more pain of heart than pain of finger, believing it to be an omen that she would not succeed in getting another husband, on which she was naturally more or less intent.—*Montreal Witness.*

Application to America.

It is reported that the British Government has asked the American Government to lend a force of skilled detectives to assist in tracking the dynamite fiends. Dalton first appeared at Bowle's American reading room on the 19th of March. His father was a costermonger and lived in Fulham thirty years, leaving Ireland in 1851. The man Flaherty, arrested in Birmingham, is believed to be Fletcher. When Whitehead was arrested he made a great effort to get a bottle of liquid from the cupboard.

Separated from the County.

The by-law separating the town of Trenton from the county of Hastings was carried on Friday by a majority of 89.

MIDNIGHT TELEGRAMS

CABLE.

ANOTHER CONSPIRACY.

DUBLIN, April 7.—Mr. Clifford Lloyd, a magistrate at Ennis, accompanied by a strong force of police, made a raid on the Crusheen district, and arrested eight young men. The charge against the prisoners is conspiracy to murder, and more arrests on the same charge are expected.

FENIAN DOCUMENTS.

SALFORD, April 7.—A large number of Fenian documents have been discovered and forwarded to the Home Secretary. The papers include letters from members of Parliament.

GAS WORKS EXPLOSION.

LONDON, April 7.—Norman Gallagher has been arrested on a charge of causing an explosion in the gas work here. Gallagher is an Irish-American, and brother of the man arrested at Lambeth. When arraigned he declared that he was innocent.

MORE EXPLOSIVES.

CORK, April 7.—The police yesterday seized two jars of nitro-glycerine received from Glasgow by one of the Clyde steamers. The package was addressed to O'Herlihy, who is now in custody. A quantity of explosives have been discovered buried in a field at Kelmen, near here.

AN ENRAGED MOB.

BIRMINGHAM, April 7.—Flaherty, who has been under surveillance as a suspicious character, hasopenly expressed sympathy with Whitehead. In consequence of these expressions an angry mob to-day attacked his residence, smashing the doors and windows. Flaherty fled to a police station for protection. About a grain of the dynamite which was found among Whitehead's stock was exploded to-day as an experiment. The report was deafening.

A HIDEOUS PLOT.

LONDON, April 7.—The *Observer* says the police possess knowledge which may lead to further development of what is likely to become the most hideous and stupendous plot of modern times.

IMPORTANT ARREST.

LONDON, April 8.—A man named Ansbarghe, aged twenty-one, was arrested to-day at a hotel in the vicinity of Waterloo bridge. He said he had just arrived from America. He is believed to be a friend of Gallagher. The arrest is considered to be one of the most important yet made.

PLOT AGAINST THE CZAR.

BRUSSELS, April 7.—It is stated that the police have searched the house of a Frenchman who fled after the dynamite explosion at Ganshoerten on the 23rd of February, and found a number of cipher letters, some from Cyvoet, one of the men arrested at the time of the explosion, which contain proofs of a plot against the Czar.

FIRE IN SWITZERLAND.

VALLARBE, April 7.—A conflagration here destroyed 105 houses, with the post-office, in which important securities were deposited. Five hundred persons are homeless.

MURDERERS CAPTURED.

VIENNA, April 7.—Three of the murderers of Count von Szeckhely, who was found strangled at Ofen last week, have been captured, and have confessed.

FEELING OF SORENESS.

LONDON, April 7.—Much soreness is felt here at the fact that all these operations are carried on by means of money openly collected in the United States by well-known agents of the dynamite party. That these agents should be allowed to pursue their operations without hindrance by the American Government is regarded as an unfriendly act, which it is believed the United States would not tolerate in its own case from another nation. This sentiment will probably find vigorous expressions during the coming week in the House of Commons.

AMERICAN.

INDICTED FOR MURDER.

RIDGLEY, Md., April 7.—James Ahern and Mrs. Beauchamp were indicted for murdering the latter's husband by poison. It is alleged that Ahern was the woman's paramour.

ACQUITTED.

NEW YORK, April 7.—John Hoog, publisher of the *Irish World*, was yesterday acquitted on a charge of a wilfully opening letters addressed to P. J. Sheridan. He denied that he was in the service of the British Government. The defendant claimed that the letters were opened by mistake.

AN HOTEL HORROR.

GREENVILLE, Tex., April 7.—The Ende hotel, a three-storey brick, fell with a terrible crash at midnight. Thirteen persons were crushed and burned in the ruins. The piteous wails of the imprisoned and burning victims, to whom hands could render no assistance, were heart-rending. The following business firms were burned out:—J. Armated, hardware, K. Lenstein, agricultural implements, and J. J. Cooper, machinery. Up to 4 p. m. the charred remains of four victims had been recovered; they were simply chunks of burned flesh and bones, totally unrecognizable. The business houses are all closed.

An Editor's Fall.

S. L. Roberts, formerly a prominent citizen of Stratford, but who through drink fell into bad habits and lost the confidence of his friends, was found dying in an empty house on Friday morning. He was a well educated man and editor of the first paper in Stratford. He was also formerly reeve of the town. He had a family, but they separated some time ago, and his wife is dead. His only child still lives. Deceased's age was about 50.

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50 cents a bottle by Taylor & McDonald.—1

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his life by a sample Trial Bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctors, change of climate and everything else had failed. Asthma, Bronchitis, Hoarseness, Severe Coughs, and all Throat and Lung diseases, it is guaranteed to cure. Trial Bottles free at Taylor & McDonald's Drug Store Large size $1.00.—1

THE EXPLOSIVES BILL.

LONDON, April 9.—The Government's bill to be introduced into the House of Commons relative to explosives provides that the maximum penalty for causing an explosion by which life or property is imperilled shall be life long servitude. The attempt to cause an explosion or making or keeping explosives with intent to cause explosion is made punishable by imprisonment for twenty years, and the unlawful making or keeping of explosives under suspicious circumstances will be punishable by fourteen years imprisonment. All the accessories to such crimes will be treated as principals. The Bill provides for ordinary official inquiries into the crimes specified, for the arrest of absconding witnesses and for searching for explosives. The penalties will be inflicted irrespective of the damage done by the explosions.

SUSPECTED PERSONS.

PARIS, April 9.—The policemen are watching a number of Russian refugees suspected of being connected with the alleged plot to kill the Czar at the time of his coronation. It is reported that a French detective will proceed to Moscow on that occasion to assist the Russian police in watching suspected persons.

MURDERER BEHEADED.

BERLIN, April 9.—Conrad, the murderer of his wife and four children, was beheaded this morning. He protested his innocence to the end.

SEARCHING FOR EXPLOSIVES.

LONDON, April 9.—All the steamers arriving from Cork are being searched for explosives. Thus far none have been discovered.

A SHERIFF'S HOUSE BLOWN UP.

DUBLIN, April 9.—The house of the Sheriff at Tralee was blown up with gunpowder. Nobody was injured. Two arrests have been made.

A CORRECT OPINION.

LONDON, April 9.—A letter from Michael Davitt, published to-day, further expresses opposition to the dynamite policy. Davitt declares that such a policy is insane, idiotic and criminal.

THE CONSPIRACY PRISONERS.

DUBLIN, April 9.—Joe. Brady, Timothy Kelly, Patrick Delaney, Thomas Caffrey, Daniel Curley and Fitzharris, know as "Skin the Goat," charged with the Phœnix Park murders and other crimes, who will be placed on trial to-day, were to have been conveyed from Kilmainham prison to Green street at eight this morning under a strong escort of police. The Government feel rather afraid that the friends of the prisoners will attempt a rescue. Special measures have been taken to ensure the safety of the court building. Suspicious looking men, who resemble Americans, have been seen at Phœnix Park and other parts of Dublin during the last few days. Detectives are watching their movements.

EXTENSIVE FIRE.

GENEVA, April 9.—A fire which promises to be extensive has broken out at Bonne. Twenty houses have already been destroyed.

GERMANY AND DENMARK.

COPENHAGEN, April 9.—It is feared that the fact of the Socialist Congress being held here will add to the difficulties between Prussia and Denmark. The Prussian Government censures the Danish ministry forewant of vigor in suppressing the gathering.

STEAMSHIP ASHORE.

LONDON, April 7.—The steamer D. Steinmann, from New York for Antwerp, is aground in the river Scheldt at Terneuzen.

AMERICAN.

SWINDLING.

NEW YORK, April 9.—It is stated that bunko-men have been swindling the strangers who come to the terminus here of the East River bridge to see the structure, out of ten thousand dollars or more per week. One week the swindlers got $19,000.

THREE MEN DROWNED.

CHARLESTON, S. C., April 9.—Timber rafts went to pieces in the gale in the mouth of the Edisto River. Three raft tenders were drowned.

A DEADLY STRUGGLE.

NASHVILLE, April 9.—Last night Jas. Grundy a commercial traveller from Cincinnati, entered a restaurant here and called for a drink, which on account of the stringent Sunday laws was refused him. Dudley, son of ex-Governor Porter, who was seated at a lunch counter eating, remarked, "Damn him, he is drunk already. Fire him out." Grundy became incensed and knocked Porter off the stool. They then grappled and fell, Grundy on top. Porter cut Grundy over the head four times, making a fearful gash behind the ear. A clerk captured the knife and separated the combatants. The antagonists renewed the struggle, but Grundy was weak from loss of blood and fell heavily. Porter escaped, but the police captured him. Vague threats were afterwards made of lynching. It is believed that Grundy will die.

BURGLARY.

NEW YORK, April 9.—Early yesterday morning burglars stole two thousand six hundred dollars worth of jewellery from Captain Smith's residence, 142nd street.

STRIKE THREATENED.

CLEVELAND, Ohio, April 9.—A strike or lock-out is threatened in the great Massillon coal fields, owing to a disagreement between the employers and workmen regarding wages.

SUSPECTED OF MURDER.

PATTERSON, N. Y., April 9.—Jas. Riley has been arrested on suspicion of murdering the widow Sunderland here recently.

A FATAL ILLUSTRATION.

SARATOGA, April 9.—William Reed, of Greenfield Centre, aged fourteen, was yesterday found hanging dead in a blacksmith shop. On Saturday he tried to show a six year old brother how hanging was conducted. The brother ran home but failed to tell what occurred.

MONEY STOLEN.

BIRMINGHAM, Ala., April 9.—Dr. Pitts, who came here on Saturday from Georgia for the purpose of going into business, found all his money, $4,300, and some jewelry stolen from his trunk while en route.

TELEGRAPH SUIT.

NEW YORK, April 9.—In the case of Williams vs. the Western Union Telegraph Company and others, the Superior Court to-day affirmed an order of Judge Arnoux restraining the Western Union from paying dividends upon fifteen millions of stock distributed to holders of stock at the time of the consolidation of the Company with the American Union and Atlantic and Pacific Companies.

Daily Evening Review

MONDAY, APRIL 9, 1883.

SIR CHARLES TUPPER.

Now that it has been made public that Sir Charles Tupper intends relinquishing his position in the Dominion Cabinet, and going to England for a time, it is only natural that an event of so much importance should lead to considerable comment not only as to the immediate occasion, but also as to the career of this statesman generally.

Some of the journals of the opposition, with the amiable desire of scoring some point against the Government, rather than from any generous feeling towards an opponent, are now lavishing high terms of praise upon Sir C. Tupper, and are attributing to him abilities so superior to his colleagues as to make his loss almost a death blow to the administration. The disreputable portion of the "Reform" press, however, is showing its animosity in a more base and cowardly manner, taking leave of a great Canadian statesman, and recommending him to the people of the Mother Country, by reviving the unfounded and refuted slanders with which they have so persistently assailed an opponent, who could not be successfully attacked by fairer means.

Among these villanous slanders are repeated the old stories in reference to Sir Charles Tupper's actions as a Provincial Minister before confederation. As to such reminiscences of another epoch, it should be sufficient to point out that the strong and steadily increasing support given to him by his own Province is a sufficient refutation of them in a most practical form. We have also the public statement in the House of Commons, made by one of his most vehement opponents of those old days on Provincial questions long since settled, namely, the Hon. Mr. McLellan, that he had satisfied himself from the evidence that these bygone slanders were without foundation.

Another slander which is reiterated with fiendish malignity is that in connection with the Emory Bar and Port Moody section of the Canada Pacific, it being stated that for corrupt motives he gave the contract to a firm asking $280,000 more than the lowest tenderer, and thus costing the people of Canada that amount unnecessarily. These slanderers well know that this statement is a wicked falsehood, invented by them to injure an opponent, and long ago refuted. They are aware that the department in due course recommended, and the administration carried out, the award of the contract to the firm having made the lowest valid tender, the tender that had been falsified so as to make it dishonestly appear lower, being accompanied by security which was only waste paper at the time of opening the tenders, and was, in fact, not valid security, such as is required by the regulations. Then, as to the asserted loss to the country, the officers of the department, gentlemen who would not sacrifice their professional reputation by dishonest calculations, officially examined and reported upon the figures in the different tenders, and found that the schedule prices of the invalid tender, upon which the payments would be made, placed it nearly highest instead of lowest on the list, amounting to more than a million dollars more than those of the present contract. The invalid tender simply appeared to be the lowest through the grossest blundering or disgraceful fraud; its total through false addition was understated by more than $1,000,000. Instead of the country losing $280,000, the business-like manner in which Sir Charles conducted his department saved the country in this instance from the loss of more than a million of dollars, and yet this vile slander, long ago refuted, is now revived.

Murderous Jealousy.

A telegraph messenger named Brown, of Montreal, an old veteran of the American war, with only one arm left, and 65 years of age, got jealous of a young man named Thompson, whom he charged with seducing his third wife, who is a young woman. Brown, from documents found on his wife, resolved first to shoot his enemy and then himself, but was prevented from the latter by the pistol being wrested from him. It appears his marital troubles preyed upon the old man's mind, and he went around to the store where the alleged outrager of his peace was employed. He announced his intention on entering and fired, the ball hitting Thompson in the body, but glancing downward did him comparatively little harm. The ball was soon after extracted, and the patient is recovering. The would be murderer had made his will, but the only bequest was leaving his body for dissection to the McGill College medical faculty. He recited his troubles also against the wounded man in it. It is likely the prisoner is insane.

THE AMERICAN CANOE ASSOCIATION.

The 1883 regatta committee of the A. C. A., have prepared their recommendations in regard to the sailing regulations of the Association, and the programme for the Stony Lake meeting. These recommendations are to be submitted to the Executive Committee, and if approved by the latter, they will become A. C. A. law. The following are the recommendations as to classification of canoes for regatta purposes:

Rule I of the sailing regulations to be amended so as to read thus:—

A canoe to compete in any race of the A. C. A., must be sharp at both ends, with no counter, stern, or transom, and must be capable of being efficiently paddled by one man. To compete in A. C. A. paddling races, it must come within the limits of one of the numbered classes, 1, 2, 3 or 4; and to compete in sailing races, it must come within the limits of either class A or B.

CLASS 1, paddling. Length not over 18 feet, beam not under 24 inches. Depth inside from gunwale to garboard-streak, and at any part of the canoe, not less than 7½ inches.

CLASS 2, paddling. Length, not over 15 feet, beam not under 26 inches. Depth (as above) not under eight inches.

CLASS 3, paddling. Length, not over 17 feet, beam, not under 28 inches. Depth (as above) not under nine inches.

CLASS 4, paddling. Length, not over 15 feet, beam, not under 30 inches. Depth as in class 3.

CLASS A, sailing. Length, not over 15 feet, beam, not over 28 inches.

CLASS B, sailing. Length not over 17 feet, with a limit of 28½ inches beam for that length. The beam may be increased ⅝ inch for each full six inches of length decreased.

The greatest depth of canoe in classes A and B at fore end of well, from under side of deck amidships to inner side of garboard next the keel, shall not exceed sixteen inches.

OPEN CANOES, without rudders, are allowed one foot extra in length. In centreboard canoes, the keel outside of garboard shall not exceed one inch and a quarter in depth, including a metal keel-band of not over one quarter of an inch deep. The total weight of all centreboards shall not exceed sixty pounds: when hauled up they must not project below the keel, and they must not drop more than eighteen inches below the garboard, nor, if over one third of the canoe's length, more than six inches below garboard. Canoes without centreboards may carry keels not over three inches deep from garboards, and not weighing more than thirty-five pounds. Lee-boards may be carried by canoes not having centreboards.

MEASUREMENTS.—The length shall be taken between perpendiculars at the fore side of stem and the aft side of stern; the beam at the widest part not including beading. The word "beam" shall mean the breadth formed by the fair lines of the boat and the beam at and near the water line in the paddling classes shall bear a reasonable proportion to the beam at the gunwale. The Regatta Committee shall have power to disqualify any canoe which in their opinion is built with an evident intention to evade the above rules.

The "crew" of each canoe shall consist of one man only, unless the programme of the regatta states the contrary.

Members must paddle or sail their own canoes and must not exchange canoes for racing purposes. A canoe which is not owned, or used for racing, by any other member present, shall be deemed to be the canoe of the member bringing it to the camp. In double canoe races the owner may associate any other member with himself.

PROGRAMME.

CAMP—10th to 24th of August, 1883.

4. Class 3—paddling—seniors, 11.00 a.m.
5. Class 1—paddling—seniors, 11.30 a.m.
6. Class 2—paddling—seniors, 12 m.
7. Upset race—paddling—seniors, 4.00 p.m.
Election of officers at 4 p.m.

The term "juniors" is used to indicate those members who have never won an Association prize in sailing or paddling, as the case may be.

"Seniors" to include all who choose to enter.

In "limited weight" races the canoes and ballast must not exceed in weight in class A 130 pounds and in class B 150 pounds.

If there should be no wind on Tuesday or Wednesday, the paddling races of Thursday will be substituted.

Bismarck's Life Work.

It is stated that Bismarck, in reply to a letter of congratulation from the Crown Prince on the occasion of the Chancellor's birthday, declared he intended devoting his life to consolidating the finances of the empire.

Mrs. Campbell, 344 Walton Avenue, Toronto, says:—"I had suffered much for a long time by derangements of Liver, Stomach and Kidneys. Two months' using of Fountain of Health has almost completely restored me."

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer, despairing of a cure, can be remedied by that unfailing regulator and unfailing tonic—Burdock Blood Bitters. Ask your Druggists for proof.

REMARKABLE AND TRUE.—Alonzo Aowe, of Tweed, was cured of a fever sore of thirty-five years duration, by six bottles of Burdock Blood Bitters. He had suffered terribly, and tried many remedies in vain. He considers Burdock Blood Bitters as a marvellous medicine.

WE have a speedy and positive Cure, for Catarrh, Diphtheria, Canker mouth and Head Ache, in Shiloh's Cattarrh Remedy. A nasal Injector free with each bottle. Use it if you desire health and sweet breath. For sale by J. D. Tully.

Those who "hack" to clear the throat every morning have Catarrh. The Fountain of Health is formulated to reach the seat of this disease, which cannot be cured by snuff or any other local remedy. We will help you or refund the money.

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches, in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

A Man Accused of Murder in Toronto Turns up in Australia.

Eight years ago the 6th of October last, a man giving the name of Walker, and calling himself a spiritualist, gave a seance at O'Brien's hotel, Front street. There was a large audience, but amongst those present was a man who put Walker down as a fraud. His name was John Saunders, and he determined on investigating the matter for himself. During the latter part of the evening a favourable opportunity presented itself, and Mr. Saunders, instead of sitting quietly in his seat, grappled with a spirit which had made itself visible a few minutes before. The so-called spirit turned out to be a very material one, and in fact no less a personage than the spiritualist himself. He had thoroughly disguised himself, and by the judicious application of phosphorus his clothing shone in the darkened room. In the tussle with Walker Mr. Saunders' hands and feet were so badly burned that it was found necessary to remove him to the hospital, where after suffering terrible agony, he died the next day. Coroner Riddel held an inquest, and the jury returned a verdict of murder against the spiritualist. The detectives for some reason or another had not arrested the spiritualist between the time of the occurrence and the conclusion of the inquest. When they did call to apprehend him they found that he had fled, and until a few days ago his whereabouts has been a mystery.

Last week Coroner Riddel received a letter from a gentleman in Australia, who was in Toronto at the time of the tragedy. His letter stated that Walker was in that country where he was making money with his old tricks. The writer asked if Walker could not still be held responsible for Saunders' death. Dr. Riddel has forwarded a copy of the evidence to Australia, and also other information concerning Walker. Whether the spiritualist is amenable to the law on the charge of murder or not has been referred to Mr. Fenton.—*Mail*

AT Elgin, John Anderson, a beggar, was sent ten days to prison for imposition. In the crevices of the rags in which he was clothed sums amounting to £8 were found.

THE Baroness Willoughby D'Eresby has sent a further donation of £300 towards the proposed new church at Dolwyddelen, this making her ladyship's contribution of £1000.

THE new public park in Galashiels, lately presented to the town by Mr. Scott, of Gala, is now being laid out and fenced. One gentleman has contributed £500 towards the object.

Had the Gout.

Incidents of a highly ludicrous nature frequently occur in the examination of patients both by doctors and by students. A professor on one occasion was lecturing to his class on the means of diagnosing diseases by the external appearance, face, and other details of the patient. Expressing his belief that a patient before the class afforded an example of the practice in question, the professor said to the individual: "Ah! you are troubled with gout!" "No sir," said the man; "I've never had any such complaint!" "But," said the professor, "your father must have had gout!" "No sir," was the reply; "nor my mother either!" Ah. very strange," said the professor to his class. "I'm still convinced that this man is a gouty subject. I see that his front teeth show all the characters which we are accustomed to note in gout." "Front teeth!" ejaculated the patient. "Yes," retorted the professor; "I'm convinced my diagnosis is correct. You have gout, sir!" "Well, that beats everything," replied the man; "it's the first time, sir, I've ever heard of false teeth having to gout! I've had this set for the last ten years!" The effect of this sally on the part of the patient upon the inquisitorial professor and his students may be better imagined than described.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

FROM ALL OVER.

RUSSIA has thirty-three schools in which to educate men to manage and operate railways.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

ONE is a well-limbed tramp, the other a well trimmed lamp. This is the answer, but the conundrum isn't made yet.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

IT is now known that the fire at the National Theatre, Berlin, on Wednesday, was caused by sparks from the chimney falling on the roof.

Catarrh cannot be cured by any local remedy. It is a deep-seated and constitutional wrong-being, the tendency of which is to lay the whole respiratory economy in ruins. The Fountain of Health will reach the seat of this malady.

A SET of paper wheels under a truck of an engine of the Central Vermont Railroad have been in use twelve years, and they are still apparently sound.

HEADACHE, Billiousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

ALFRED GILES (Conservative) has been elected to the Imperial House of Commons for Southampton, without opposition, in place of Butt (Liberal) raised to the bench.

A HEARTY RECOMMENDATION.—Jacob A. Empey, of Cannamore, states that he has taken Burdock Blood Bitters with great benefit in a lingering complaint, and adds that he would gladly recommend it to all.

A BOY who will yell like a Turk if a drop of water gets on his shirt band when his neck is being washed can crawl through a sewer after a ball and think nothing of it.

The worst Scrofulous Sores, the most indolent Tumor, and the most foul Ulcer known, may be cured by the combined use of Burdock Bitters and Burdock Healing Ointment. Ask your Druggist for these infallible remedies.

HEARD in New York: "Do you know Miss Blank?" "Well, yes, but I am not intimate with her." "Indeed! Why not?" "Oh, she is so vulgarly healthy. She has not had the pneumonia since winter before last."

The Fountain of Health cures Catarrh, Rheumatism, Scrofula, and all humours, such as Blotches, Pimples, Old Sores, Ulcers, and all obstinate diseases of the Skin and Blood; this it does by its power to cleanse the blood.

A FIVE-YEAR-OLD, who went to school for the first time, came home at noon, and said to his mother. "Mamma I don't think that teacher knows much." "Why not, my dear?" "Why she kept asking questions all the time. She asked where the Mississippi river was."

A SECRET.—The secret of beauty lies in pure blood and good health. Burdock Blood Bitters is the grand key that unlocks all the the secretions. It cures all Scrofulous diseases, acts on the Blood, Liver, Kidneys, Skin and Bowels, and brings the bloom of health to the pallid cheek.

THE Duke and Duchess of Edinburgh will leave England for Russia during the first week in May, and their children will be left at Windsor Castle under the care of the Queen. The Duke will go afloat (probably to the Mediterranean) directly he returns, and it is expected that the Duchess will pass the summer and early autumn in Germany with her children.

"BLOOD WILL TELL." A face adorned with Pimples, Boils, Blotches &c, is not a particularly pleasant sight, and invariably betokens an impure state of the Blood. Dr. Carson's Stomach Bitters free the system from all gross humours, renders the Blood Pure and Cool, aids digestion and gives a healthy appetite. For sale by all Druggists in large Bottles at 50 cents.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

Amphibious Boy Divers.

In the Singapore harbour, and in other places we saw the boy-divers spoken of by all travellers in the East, writes a clergyman to the Troy *Times*. The moment we came to anchor our steamer was surrounded by a swarm of naked boys paddling about in their tiny canoes, laughing and shouting to us to throw a copper or a sixpence in the water, promising to catch it before it reached the bottom. In broken English they said:—"Now, you throw sixpence in water; me go down; me catch 'em ebery time; me good diver." Holding up a piece of silver, we shouted. "Ready!" A dozen eager tongues answered, "Ready!" Next moment the coin was glittering in the water ten or fifteen feet beyond them. In a moment two dozen feet were in the air, and a dozen black heads cleaving the water. Every boy disappeared. For full half a minute, which seemed half an hour, there was silence; then one after another up came the boy-divers, one of them shouting, as he held up the money, "I've got it, master; I've got it, master." Chucking the coin into the only pocket he had (his mouth), he mumbled out, "Now, pop in a nudder one." We "popped in" another piece, still further away, and down again plunged the amphibious boy-divers never failing to bring up the money.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its antispasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

Council Meeting.

A special meeting of the Town Council will be held in the Council Chamber at 7.30 o'clock this evening.

The Cells.

Two prisoners and two tramps shared the police cells on Saturday night, and the two prisoners had the company of two tramps again on Sunday night.

Diving Apparatus.

A diving apparatus has been received here for use on the Trent Navigation Works. A diver accustomed to its use has arrived with it. This does not look as if these waters were neglected.

The Weather Probabilities.

Yesterday was a fine warm day and to-day is mild and partly cloudy. The probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Fresh south to southwest winds; fair, warmer weather.

Skating Medal.

Mr. E. J. Hartley has received the medal which he won in the skating competition at Campbellford. It was made in Montreal, and is a handsome one, consisting of a gold clasp, and a Maltese cross of gold suspended on a red, white and blue ribbon, with a skater on ice in the centre, the ice surrounded by a wreath. On the reverse side there is the following inscription:—"Championship Medal, open to Canada. Campbellford, March 1st, 1883. Won by E. J. Hartley, Peterborough." The medal, together with the other medals which Mr. Hartley holds, will be on exhibition in the window of his store on Saturday.

Ladies, no Humbug.

Is your hair thin, grey, or straight? *If so call* at my show room at Phelan's Hotel next Thursday, Friday, April 12th, and 13th where I was show you goods that are just what you want. My Water and Saratoga Waves are handsome. I have sold 20,000 of them since I first introduced them. Coquette, Water Frizzes, Perfection Pieces, Switches, Wigs, &c., are unsurpassed in variety and style. Be sure and call early and have your choice. The name of A. Dorenwend of the Paris Hair Works, 105 Yonge St., Toronto will be to you a guarantee of getting first class goods. Please tell your friends and fetch them along.

If You Want large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlour.

POLICE COURT.

Monday, April 9.—Mr. James Stevenson, J. P., occupied the bench this morning.

DISTURBING THE PEACE.

James Reardon was charged by John Newton with entering his house and making a disturbance. He was remanded until Thursday.

DRUNK.

James Smith was charged by P. C. Pidgeon with having been found drunk in a public place on Saturday. He made an eloquent appeal for liberty, saying that he had been in that dark place (the cells) since Saturday, that he had received never to drink liquor again and that if allowed to go he would appreciate the favour very much. He had, however, been in the Court three times before, and had been allowed to go twice. He was fined $2 and costs or twenty days in gaol, and was taken to "Castle McWilliams."

Photographic.

Mr. James McClelland's Studio will be closed until Saturday next, April 14th.

Remember

The date of Hall, Innis & Co.'s Millinery Opening, Tuesday and Wednesday, 10th and 11th April.

Boating Club.

The annual meeting of the Boating Club will be held this evening at the boat house at half past seven. A large attendance is desired.

Y. M. C. A.

Arrangements are being made to furnish a gymnasium in connection with the Young Men's Christian Association rooms. A novelty has been added to the literature in the reading room. It is the *Der Bahnbrecher*, published in Chicago, the only German weekly in the United States which advocates the keeping of the Sabbath and the cause of temperance.

American Canoe Association.

Elsewhere will be found the suggested programme for the meeting of the American Canoe Association at Stony Lake this year. Every effort should be made to give a fitting reception to the visitors that may be expected in large numbers. As the subject will be discussed at the annual meeting of the Peterborough Boating Club, to be held this evening, this is an additional reason why there should be a full attendance at the Club boat house.

Ladies' Real Water Waves, Saratoga Wigs, Toupees, &c.

The Ladies and Gentlemen of Peterborough will be glad to hear that Mr. Dorenwend, of the Paris Hair Works, 105 Yonge St., Toronto, will again visit the same place on Thursday and Friday next, April 12th and 13th, at Phelan's Hotel. This will give those an opportunity of procuring some of his fine Hair Goods who were unable to see him at his last visit. He is going to have with him a large and fashionable stock of Water Waves, Frizzetts, Perfection Pieces, Coquettes, Switches, Nets, Golden Hair Wash, &c., &c. By far the finest selection ever offered. Every Lady and Gentleman in want of a first class article should call on him at the hotel.

Methodist Union.

The returns of the voting of the Quarterly Boards of the Methodist Church on the question of Union are, up to date, as follows:—For, 620; against, 84; tie votes, 10. The analysis of the vote gives the following results:—Toronto Conference—Yeas, 211; nays, 16; ties, 3. London Conference—Yeas, 208; nays, 22; ties, 1. Montreal Conference—Yeas, 107; nays, 27; ties, 4. Nova Scotia—Yeas, 42; nays, 15; ties, 1. New Brunswick—Yeas, 40; nays, 2; ties, 1. Newfoundland—Yeas, 4; nays, 2. About fifty boards have still to be heard from.

Gentlemen Don't be Bald.

But call, on Mr. Dorenwend next Thursday and Friday, April 12th and 13th, at Phelan's Hotel. He can make an article for the bald part of the head that cannot possibly be detected as being false. His goods are highly spoken of as being the finest in the country and from our own observation of his stock at his last visit we must admit that we never saw their equal. He is going to have with him a fine selection of Ladies and Gents' Wigs, Toupees, &c. He makes an article for gentlemen having bald spots on the top of the head, that is light and not heavier than ones own natural hair! *Who would be bald now!* We advise you to go and see him.

The Alleged Foot Race.

The foot race which was advertised to take place on Saturday night in the drill shed, between M. Bird and W. H. Evans, resulted very unsatisfactorily. There was quite a number in the drill shed to witness the contest, but Evans objected to the course, saying that it was not fit for the race, and he refused to run. A gentleman had been sent for to act as referee, and when he arrived and saw there would be a dispute, he refused to have anything to do with it and left the shed. Evans had been on the course in the shed several times before, after the challenge had been issued by him and accepted by Bird, and had been on it that same afternoon. However, one objection he made was that it was too wet, and he, too, left the shed. Bird then ran the three miles, and some of his backers claimed that the money was won. Bird did not claim the stakes, for the simple reason that no money had been staked. The advertisement accepting the challenge said that the stakes, $25, were to be "posted with Mr. Morgan," but they were not so posted, and if any stakes were put up between them it is not known who held them. Those who had gone to witness the race were very much disappointed by Evans refusing to run. Some of the bets made on the race have been drawn, and other bets are still in the hands of the stakeholders, awaiting a solution of the difficulty.

All our Druggists now heartily endorse the amazing success of Mack's Magnetic Medicine, and recommend it for both sexes in all cases of sexual weakness. See advertisement in another column.

Mrs. Newell's Trial.

The trial of Mrs. Newell for shooting at her husband at Norwood was to have commenced at 12 o'clock to-day. At that hour the witnesses, including the husband of the prisoner, were not present, and the Court adjourned until 3 o'clock. At 3 o'clock the prisoner was again brought into Court and discharged. Particulars will be given to-morrow.

Strychnine for Quinine.

Mr. Shackell, butcher, of Brantford, not being well, went down stairs early on Friday morning in the dark to get some quinine which was in his desk, and in mistake got some strychnine, which was also in the desk. He swallowed five grains of the strychnine before knowing what he had, and now he lies in a very critical condition. Little hopes of his recovery are entertained.

An Alleged son of Napoleon III.

A case is progressing in the probate court in Paris, France, against Billing, ex-consul to Tunis, on a charge of attempting to pass off a foundling as the son of his late wife by her first husband, Admiral Carnegee. The case caused sensational disclosures. The counsel for the prosecution hinted the foundling was the natural son of the late emperor, Napoleon III.

Canadian Industries.

The Winnipeg papers of last week (March 29th) announce the purchase of another "Ronald" Steam Fire Engine by the municipal officials of the the city of Winnipeg from the maker, Mr. J. D. Ronald, of Brussels, Ont. Last summer they bought one of the largest size Ronald made, which has given such universal satisfaction in its great power and efficiency—called by the citizens "The Fire King"—that the city council have now again ordered another from the same maker, which bespeaks well for our Canadian industries.

Flowers in Potatoes.

A gentleman from Utica in Louisville who wished to send some beautiful flower buds to his wife, was at a loss how to do so. A florist friend said he would fix them. He cut a potato into two pieces and bored holes in them, into which he inserted the stems of the buds, and placed them in a box with cotton to support them. A letter from the recipient acknowledged the remembrance and said the buds had developed into full-blown flowers. There is sufficient moisture in a good sized potato to support a flower for two weeks in a moderately cool temperature. Flowers from bouquets or baskets may be preserved in the same way. The potatoes can be hidden by leaves or mosses.—*Utica Observer.*

The Fruit Garden.

The fruit garden ought to be a reality on every farm. Farmer, have you upon your table from the ripening of the earliest berries to the time of the latest grapes, all the fruit, three times a day, that the family would like to eat? If not, it is time that something more was done in the fruit garden, as you are not living up to the privileges that your profession grants. If the fruit garden does not exist, now is the time to resolve to have one, and set about making it. The soil should be rich, and well drained. Select the ground now, and cover it with well-rotted manure. The chief reason why small fruits are scarce on many farms, is that the preparatory work is left until spring, when the farmer is overwhelmed with other work. A good fruit garden, well filled with strawberries, raspberries, gooseberries, blackberries, currants, and grapes, may be made a source of income, as well as comfort. If one needs special help in starting, or improving a fruit garden, there are several excellent books made as guides in just such work.—*American Agriculturist.*

Steamed Chicken.—Rub the chicken on the inside with pepper and a half a teaspoonful of salt, place in a steamer in a kettle that will keep it as near the water as possible, cover, and steam an hour and a half; when done, keep hot while dressing is prepared, then cut up, arrange on the platter, and serve with the dressing over them. The dressing is made as follows: Boil one pint of gravy from the kettle without the fat, add cayenne pepper, and a half a teaspoon of salt: stir six table-spoonfuls of flour into a quarter of a pint of cream until smooth, and add to the gravy. Corn starch may be used instead of the flour, and some cooks add nutmeg, or celery salt.

One-two-three-four Pudding.—One cup of butter, two cups of sugar, three cups of flour, four eggs beaten separately, one cup of sweet milk, and two teaspoonfuls of baking powder. Flavor with nutmeg. Bake in a pudding mold. Leave in the mold till next day, when steam for three quarters of an hour over a kettle of boiling water and serve with hot sauce.

Oh, What A Cough!

Will you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J. D. Tully.

Sulpholine Lotion.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

Sulpholine Lotion, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by Chemists Everywhere. Made in London, Eng.

LIVER COMPLAINTS.

Dr. King's Dandelion & Quinine Liver Pills (without Mercury.) The best remedy for billiousness, stomach derangement, flatulence, pains between the shoulders, bad appetite, indigestion, acidity, head-ache, heartburn, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Burke, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TUESDAY, APRIL 10, 1883.

ATTEMPTED SHOOTING.

Mrs. Newell Arraigned for Shooting at her Husband and Discharged.

On Monday afternoon Mrs. Newell, of Norwood, was brought before His Honor Judge Dennistoun on a charge of discharging a pistol at her husband. A son and daughter, who were there as witnesses, were discussing the question with their father and were trying to persuade that worthy gentleman to drop proceedings and all to return home together, and he appeared to be giving an ear to their counsel, when the prisoner, his wife, was brought in by the gaoler. She smiled upon the group with such a beaming smile that the old man's heart was fairly liquefied, and he asked the Crown Attorney if he could not have the matter settled.

The prisoner was placed in the dock and the Judge took his seat upon the Bench.

Mr. WELLER, County Attorney, said that the charge against the prisoner was that of discharging a pistol at her husband. It appeared to be quite plain from the depositions that she did discharge the pistol, but there was a question whether she did it intending to do him harm or only to intimidate him. The husband was here, with other members of the family, and they did not desire to prosecute. It was desirable that a quarrel between a man and his wife should be amicably settled, if possible, and under the circumstances he had no witnesses to produce, as he thought the law would not require him to prosecute.

HIS HONOR (to Mr. O'Meara)—Does this course suit you?

Mr. O'MEARA (who appeared for the prisoner)—Certainly; I have no objections to such a course.

HIS HONOR said that the view which Mr. Weller took of the case was the correct one. A trial would not have a beneficial effect, but would only cause more unhappy relations in the unhappy family. He would enter a verdict of "not guilty." He then addressed the prisoner. She had been in gaol many days and appeared on a serious charge, and he was sorry to see such a respectable looking woman in such a position. No doubt there were faults on both sides in the family. They should strive not to irritate each other, and should try to make their home more comfortable and happy. He discharged her, hoping never to see her or any of the family in the court again.

The prisoner was then conducted from the Court House and soon after liberated, and it is to be hoped that the heads of the family now entertain more correct ideas of the duties of the parents of a family, although it appears that the chief trouble with the unhappy tribe is that they partake too freely of the liquor that intoxicates.

STIRLING.

TOOK POISON BY MISTAKE.—The *News-Argus* says that on Friday morning Mr. Chas. Butler, bailiff, met with a mishap which might have terminated fatally. Wishing to take a dose of salts, he by mistake got hold of a cup of sugar of lead, and not looking closely he swallowed two large spoonfuls, or about the usual bulk of a dose of salts. Noticing a queer and unusual taste in his mouth, he inquired, and soon found that he had taken a dose of poison. Medical assistance was at once summoned, and the usual remedies anministered, which had the effect of relieving his stomach, though he felt the effect seriously for some days, and the recovery from the shock was rather slow. Sugar of lead is not classed among the rank poisons, and is sometimes used in the practice of medicine for certain ailments, but such a dose as Mr. Butler took was quite sufficient to cause alarm.

Ghastly Discovery.

On Friday afternoon as the G. T. R. employee at Hamilton, who searches the passenger coaches upon the arrival of trains, was going through the Toronto train due at 2.30 he found a bag containing something, which he laid away, expecting there would be an enquiry therefor. On Saturday morning a disagreeable smell was noticeable near where the bag laid. The bag was opened and the contents proved to be the bones of a woman, with particles of flesh still adhered to the bones; also the nails of one hand. The hand presents the appearance of once belonging to a delicately-formed woman. No trace has bee discovered as yet as to who brought the bag on the train.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

DUBLIN, April 10.—A number of arrests have been made at Letterfrack in connection with the murder of Sydons, two years ago, and the murder of Constable Kavanagh.

EXPLOSIVES BILL SIGNED.

LONDON, April 10.—The Queen has given her consent to the bill relating to explosives.

A CRANK RELEASED.

PITSBURG, April 10.—Henry Menefy, the self confessed murderer of Lord Leitrim, was released this morning. He has been identified as a homeless crank.

ROYAL VISIT.

VIENNA, April 10.—It is expected that the Emperor will visit King Humbert at Rome before the latter starts for Germany.

HUMBERT TO VISIT BERLIN.

PARIS, April 10.—It is said that negotiations are pending between Italy and Germany regarding the proposed visit of King Humbert, of Italy, to Berlin soon. It is stated that Bismarch strongly urges this visit.

THE REASON FOR THE HASTE.

LONDON, April 10.—The *Times* says there was a practical reason for the haste in which the Bill in regard to explosives passed through Parliament, and explains that some members of the dynamite party were believed to be on steamers coming from America.

AMERICAN.

REPORTED BLACKMAILING.

WASHINGTON, April 10.—It is reported that the British Minister was blackmailed to the extent of five hundred dollars, by parties who threatened to blow up his residence.

DISASTROUS HURRICANE.

HOT SPRINGS, Ark., April 10.—The reports of the late hurricane at points remote from railroads and telegraph offices show that great damage was done beyond the Ouachita river. There was considerable loss of life. John Reusch and his wife, fifteen miles south of the river, were killed by falling timber. Near Tohnson's Ferry Theodore Wilson was killed by a house falling. Much property was destroyed between Celina and the Ouachita river, east of here.

A MANIAC KILLS NINE PERSONS.

NEW YORK, April 10.—A Brazil letter states that a son of Lieut. Pinto, at Orabo, while insane, killed his brotheer and six slaves with hatchets. Two other slaves who are missing are also supposed to be killed. The maniac also tried to kill wife and children, his father and other friends.

FATAL CONFLAGRATION.

WESTMINSTER, Md., April 10.—A fire originated in Thompson's livery stable, in which Bob Thompson and Aaron Shaeffer were burned to death, and also thirty horses. Sixteen dwellings and stores were burned, including the Lutheran Church. Loss $70,000. It was the most disastrous fire ever known here.

MIDNIGHT TELEGRAMS

CABLE.

SEIZURE OF EXPLOSIVES.

LONDON, April 9.—The port authorities have seized two cases of explosives on a a barge in the Thames and sent them to Woolwich. The cases were shipped from Hamburg, but the consignors and consignees are unknown.

THE EXPLOSIVES BILL.

LONDON, April 9.—The bill was read a first time, passed through committee of the whole, progress was reported, and, amid cheers from all parts of the House, received its third reading and became law. The prompt action surprised the Government.

TWENTY-FOUR ARRESTS.

LONDON, April 9.—Twenty-four arrests were made to-day in the outskirts of Cork and Limerick, and numerous important documents seized. Tracy Goold, an American lawyer, applied at the Millbank prison to-day for an interview with Gallagher, whom he wishes to defend. Goold's name not being on the roll of English lawyers the governor refused him admission. Gallagher then asked to have Doveton Smyth defend him.

A NUMBER OF FENIANS.

LONDON, April 9.—The authorities have learned that there are 2,000 Fenians here having no connection with the inner circle.

ATTEMPT TO ESCAPE.

DUBLIN, April 9.—Farmer Harte, residing in the Crushen district, concerned in a murder conspiracy for which eight young men were arrested on Friday, was arrested while attempting to escape to America.

TRUE BILLS.

DUBLIN, April 9.—The grand jury found true bills for murder against Joseph and Lawrence Hanlon, Wm. Maroney, Patrick Delaney, Fagan and Joseph Mullett.

AMERICAN.

THE ROSSA DYNAMITE PARTY.

NEW YORK, April 9.—A meeting of the Fenian Brotherhood, attended by O'Donovan Rossa and other prominent advocates of the dynamite policy, was held here yesterday. One of Rossa's associates says that before the end of the month one of several Government buildings in London will be blown up. It is stated that Rossa was to-day in consultation with a delegate from England. who came here on an important mission.

TUESDAY, APRIL 10, 1883.

THE MINORITY GOVERNMENT.

We have taken considerable pains to obtain the full returns of the votes in the different constituencies at the last election, and we now present our readers with the result,

Wherever there has been a contest between candidates of the two parties, we have given the votes as polled for each. In the case of the elections by acclamation, we have taken the figures for the last general election, in 1879. In the same way in East Grey and North Leeds and Grenville, where only Conservatives ran, and in Brockville and North Bruce, where, as it is claimed, only Reformers ran, we have gone to the previous general election as the fairest available clue to the respective party strength :—

Conservative Majority 2,145

It will be seen that we have given our opponents every possible latitude, allowing them to class as supporters of the Mowat Government, Messrs. Neelon, Gillies, Rowand, Reed, &c., though such independants would give little aid to a tottering administration.

There are three candidates whom we have not placed, allowing the voters supporting them to be considered divided. One of these is Mr. *Macdougal*, though the *Reform organ* in Ottawa, where he ran, claimed that he was brought out by Conservatives and would not obtain a Reform vote. Mr. Williams, the labour candidate at Hamilton, is another, though the Conservative working men of that city say that they alone stuck to their candidate while their Reform comrades deserted him for the party standard bearer. The same is the case also with Mr. Heakes, the labour candidate for East Toronto, and in some measure with Mr. Carter, nominated to represent the same interest in West Toronto. If there were any means of classifying these voters they would doubtless increase the Conservative majority. Besides, though the only available figures in the cases of elections by acclamation and of non-party contests are those of the previous election, it is obvious that this does not do full justice to the Conservatives, as it is certain that the great reaction in favour of the Conservatives throughout the Province, must have extended in a greater or less degree to these constituencies, that their average conservative majorities would have been greater and their average Reform majorities smaller.

It will thus be seen that we have an absolute popular majority of 2145, to which would have to be added if it were possible to compute them, the conservative majority cast for the *omitted independents and the additional conser*vative majority that would have resulted in the event of contests in constituencies where there were none.

And then there is Algoma to come, impatient like Muskoka to cast off the yoke.

Is is evident therefore that the popular verdict is against Mr. Mowat and his colleagues. That he has a small majority of members in his favour simply results from his gerrymandering bill of 1874 when he cut up the constituencies, interfering with not less than 24 of them, for the purpose of gaining an unfair party advantage. This discrepancy between the parliamentary and the popular vote will almost certainly be removed speedily, and a better administration will succeed.

DON'T PULL IT.—Use Newton's *one* minute toothache cure. Relief at once; of all dealers, 15cts.

FROM ALL OVER.

SMALLPOX is spreading rapidly in many mining towns of Pennsylvania.

U KAN'T KOFF.—Climax cough cakes. Quick, sure cure; of all dealers; 15cts.

DISASTROUS floods have occurred along the Lower Mississippi, in the vicinity of New Orleans.

THE first railroad that reaches Tampa, Florida, gets the land grant, and five railroads are scratching gravel for the prize.

Catarrh cannot be cured by any local remedy. It is a deep-seated and constitutional wrongbeing, the tendency of which is to lay the whole respiratory economy in ruins. The Fountain of Health will reach the seat of this malady.

Two of the railway hands concerned in the recent collision on the Canada Pacific Railway have taken to flight, fearing a prosecution for manslaughter.

HEADACHE, Biliousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

KERR, of the star route prosecution, says there are fears the trial will fall owing to the condition of a juror, who is reported as developing an acute case of cancer or carbuncle on the neck.

The Fountain of Health cures Catarrh, Rheumatism, Scrofula, and all humours, such as Blotches, Pimples, Old Sores, Ulcers, and all obstinate diseases of the Skin and Blood; this it does by its power to cleanse the blood.

IT is understood that among the records brought back by the Jeannette survivors is a document by Captain DeLong, preferring serious charges against Danenhower. It is stated that besides Collins, Dr. Newcomb, Zaminster and Lee were placed under arrest.

ALL OUR DRUGGISTS now heartily endorse the amazing success of MACK'S MAGNETIC MEDICINE, and recommend it for both sexes in all cases of sexual weakness. See advertisement in another column.

THE aggregate value of agricultural implements sold at Portage La Prairie last year amounted in round numbers to $350,000. Of the leading implements there were sold the following number:—Self-binders, 193; reapers, 44; mowers, 275; horserakes, 220; waggons, 318; threshers, 230.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID specific in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. [illegible], and every year it is ...[illegible] more and more favourably to the widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Prepared by Jas. Roche, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fever of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TOWN COUNCIL MEETING

SHALL THE TOWN PURCHASE THE TORONTO BANK BUILDING?

Police Cells—Charity Matters—The License By-law—The Town Trust Commission—License Fees—The Gas Lamps—Communications and Accounts.

A special meeting of the Town Council was held on Monday night.

PRESENT—His Worship the Mayor, and Councillors Cahill, McNaughton, Kelly, Paterson, Sawers, Yelland, Rutherford, Menzies and Hartley.

On motion, the reading of the minutes was dispensed with.

COMMUNICATIONS.

From H. C. Winch, asking the Council to investigate a matter of taxes.—Court of Revision.

From Chas. J. Chapman & Co., asking the Council to subscribe for a Town and County Directory.—Printing Committee.

ACCOUNTS.

The following accounts were read and referred to the Finance Committee:—

Times Printing Company	$[illegible].65
A. Hall, fire plugs, bells	[illegible]0.00
Peterborough [illegible] Co.	7.70
Peterborough Gas Co.	25.50

THE POLICE CELLS.

The MAYOR said that the meeting had been called to consider the License By-law and the question of the lock-up and other matters.

Councillor [illegible] said that [illegible] could be used in [illegible] into the lock-up. He had spoken to the Chief of Police about using the place in the [illegible] building for [illegible] used for that purpose, and he thought that it could be fitted up so as to do. He thought that the lock-up was used for more than its legitimate purposes. He did not know until recently that the town [illegible] food to tramps.

Mr. Johnston, Chief of Police, said that there was no [illegible] in the cells. As to tramps, they had been in the habit of keeping them over night ever since he had been Chief Constable.

Councillor RUTHERFORD said the cells were not fit to put anyone in. If the Council purchased the block known as the old Toronto Bank building, the difficulty would be got over.

Councillor PATERSON moved, seconded by Councillor MENZIES,—That the Mayor and Councillors Rutherford, Sawers, Hartley and Menzies be a committee to [illegible] Toronto Bank is finally settled, the first named to be chairman.

Councillor CAHILL thought the motion would do no good. The market house for various reasons, which he explained, would not be a fit place for a lock-up. It would drive the butchers out.

The MAYOR.—The motion does not compel us to put it there.

Councillor CAHILL said that was the idea intended. If the Council intended to purchase the bank building, he thought, although the lock-up was not a good one, it would be better to put up with it for a few days.

Councillor RUTHERFORD agreed to a great extent with Councillor Cahill. It might be as well, however, to let the motion pass, and the committee could inquire into the whole matter.

The motion was carried.

CHARITY.

The question of charity for the Billings family and another family, who were said to be all ill, was referred to the Charity Committee.

THE LICENSE BY-LAW.

Councillor CAHILL introduced a by-law to amend the License By-law.

Councillor [illegible] asked if the License By-law compelled the grocers who sold liquor wholesale to close their shops at 7 o'clock on Saturday evenings?

The MAYOR said that was the construction the Commissioners put upon it.

The Council went into committee of the whole on the *By-law*, Councillor Hartley in the chair. The By-law repealed clause 6 of the License By-law passed in February, and re-enacted it with a verbal alteration, which made it clear that the groceries where liquor was sold should not be compelled to close at 7 o'clock on Saturday evenings.

Councillor RUTHERFORD complained that the By-law had been introduced without the knowledge of the License Committee. He thought that they should not be too hasty in dealing with the matter, and if a change was necessary it could be made at another meeting before the first of May. He moved that the committee rise and report progress.

The MAYOR said that he had called the meeting at the earnest solicitation of some of the grocers to have this matter considered. The amendment had been drawn up by [illegible], the Town Solicitor, and he thought there was no question that it was legal.

Councillor SAWERS said the law bearing on the question, which said that no liquor should be sold after 7 o'clock, but did not mention closing the groceries.

Councillor MENZIES said that it was right that they should be allowed to keep their groceries open, and the statute provided that they could not sell liquor after that hour.

Councillor YELLAND thought that all the stores should close at 7 o'clock on Saturday night; they were kept open too late.

Councillor McNAUGHTON argued that it would be a hardship both to the workingmen and the storekeepers to compel them to close too early.

Councillor RUTHERFORD said the Council had the power of separating the liquor and grocery businesses. He had no desire to close the groceries. There were complaints that liquor was sold after seven o'clock, although he never saw it done, and he hoped the grocers would be careful to obey the law. Nothing would suffer by letting the matter lie over a few days.

Councillor PATERSON thought that if the Inspector would attend to his other duties he would have enough to do without enforcing this by-law. He did not think anything would be gained by laying the matter over.

Councillor CAHILL said that no one desired to compel the grocers to close their shops at seven o'clock on Saturday night, and they should settle the matter at once.

The By-law was read in Committee and passed.

The Committee rose and reported.

The By-law was then read a third time and passed and signed.

MORE COMMUNICATIONS.

From James Fuller, asking for an extension of a sidewalk.—Street and Bridge Committee.

From R. Kincaid, M. D., certifying that E. Connors was not able to work.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES,—That the allowance of $4 a week to E. Connors be discontinued

Councillor CAHILL moved in amendment, seconded by Councillor SAWERS,—That he be allowed $3 a week until the next meeting of the Council.

The motion was withdrawn and the amendment declared carried.

OFFICES FOR THE TOWN.

Councillor SAWERS moved, seconded by Councillor PATERSON,—That it is desirable that the town should consider the propriety of purchasing the buildings erected on the town property on the corner of Simcoe and Water streets, and east of the engine house, and known as the Bank of Toronto buildings, for town offices, &c., and that the matter be referred to a special committee composed of Councillors Paterson, Rutherford, Douglas, Dennis and Hartley, to report to this Council.

Councillor RUTHERFORD said that he understood that there was a place in the building that could, by slight alterations, be made a good council chamber.

The motion was carried.

TOWN TRUST COMMISSION.

Councillor CAHILL moved, seconded by Councillor KELLY,—That Mr. John Garvey be and is hereby appointed a Commissioner of the Town Trust, in the room of Wm. Toole, who is not now residing in the town.

Councillor CAHILL spoke of Mr. Garvey's qualifications for the position. He understood that Mr. Toole did not intend to return here to reside permanently.

Councillor HARTLEY said he was told that Mr. Toole was soon coming back, and he would sooner wait to ascertain whether that was so.

Councillor MENZIES said Mr. Toole was coming back. He did not know whether he intended to reside here, but it would be courteous to wait and see.

Councillor CAHILL said that he had as friendly a feeling for Mr. Toole as any member of the Council. It could not be said that they were acting discourteously, as Mr. Toole had been out of town twelve months. The statute said that it was the duty of the Council to fill vacancies in the Town Trust Commission made by death or absence. He believed that Mr. Toole did not intend to reside here again, and the position should be filled.

Councillor RUTHERFORD believed that Mr. Toole intended to come back to town to live. The business had not suffered by his absence, and he thought it better not to take action now.

Councillor CAHILL said that he understood that Mr. Toole's whole proverty had been sold.

Councillor PATERSON said he had no objection to Mr. Garvey, but he wished Councillor Cahill to let his motion lie over, as he had not had time to consider the matter, and he might think of some other person whom he would rather have appointed. As to Mr. Toole, he thought it would make little difference whether he came back or not.

The motion was put and lost.

THE STREETS.

A communication was read from McDonald Bros., asking to have the snow removed from the sidewalk on the south end of George street.

Councillor RUTHERFORD found fault with the Street Inspector for cutting the ice on the streets.

Councillor McNAUGHTON thought that there had been too much money spent on the streets, and the most of it had been spent in No. 2 Ward. The Street Inspector should have power to clean the sidewalks and crossings.

Councillor PATERSON defended and explained the action of the Street Inspector.

Councillor HARTLEY said that the drains which had been cut on George street were necessary.

Councillor MENZIES moved, seconded by Councillor RUTHERFORD,—That Mr. Smith, whose team was hired to draw the fire engine, be instructed by the Street Inspector to clean the snow off the sidewalk at the south end of George street and other places.—Carried.

REMISSION OF TAXES.

Councillor HARTLEY moved,—That in the matter of the petition of certain persons asking for the remission of taxes, the Charity Committee have power to act.—Carried.

LICENSE FEES.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES,—That the License Inspector be instructed to collect all license fees now due.—Carried.

THE GAS LAMPS.

Councillor RUTHERFORD said that some of the gas lamps were often not lit and many of those that were lit gave very imperfect light.

The MAYOR said it was the duty of the constables to report any lamps that were not lit, or any way in which the contract with the Gas Company was not carried out.

The Council then adjourned.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants, viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

Tramps.

Two tramps were accommodated with lodgings in the police cells last night. There was a blank at the Police Court this morning.

Dirty Yards.

The Health Inspectors are out on their annual spring pilgrimage, and are poking their noses into every man's back yard. If the slightest smell is detected forthwith goes a written notice, and if the nuisance is not at once abated, a summons to appear before Mr. D. W. Dumble follows, and the unlucky householder is compelled to pay a fine and remove the nuisance besides. All those who have a nuisance of any kind on their premises had better remove the same forthwith, for the police are no respectors of persons, and the rich and poor, high and low, must knuckle down and obey the mandates of the health officers.

Ladies, no Humbug.

Is your hair thin, gray, or straight? If so call at my show room at Phelan's Hotel next Thursday, Friday, April 12th, and 13th where I was show you goods that are just what you want. My Water and Saratoga Waves are handsome. I have sold 20,000 of them since I first introduced them. Coquetts, Water Frizzes, Perfection Pieces, Switches, Wigs, &c., are unsurpassed in variety and style. Be sure and call early and have your choice. The name of A. Dorenwend of the Paris Hair Works, 105 Yonge St., Toronto will be to you a guarantee of getting first class goods. Please tell your friends and fetch them along.

Viewing the Premises.

Councillors Sawers, Rutherford and Hartley, of the committee appointed by the Council on Monday night, visited the cells to-day, and held a long consultation as to the best way of obviating the difficulties. The matter was finally left as it was, and the cells as they are will be used for a time at least. In company with Mr. James Stevenson they went over the old Toronto Bank building, which the Council is considering the advisibility of purchasing. Mr. Stevenson said that, if they wished to avoid arbitration, he would give them the block from the fire hall east to Water street for what it cost him, namely $4,350, with the addition of what it cost him to put on a new roof last summer, $160. The Councillors present appeared to be favorably impressed with the offer.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restuarant and Oyster Parlour.

A Row.

At about half-past five on Monday afternoon a disturbance took place on Charlotte street, and while the combatants were struggling with each other one of them placed his mouth against the other's cheek, but not in an affectionate manner, because he left the marks of his teeth imprinted there. It is probable that they will have to answer in the Court for their conduct.

The Weather Probabilities.

The weather to-day is mild, cloudy and spring-like. The probabilities for the following twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—North to east winds; fair, cooler weather, followed by local rains to-night or on Wednesday.

Boating Club.

The annual meeting of the Peterborough Boating Club was held in the club boathouse, with Mr. F. J. Lewis, President, in the chair. The Secretary-Treasurer read his annual report, which showed the club to be in a flourishing condition. Auditors were appointed to report at an adjourned meeting in a fortnight, when the election of officers will also take place. The Secretary was instructed to prepare a roll of the members, and to see that none others enjoyed the privileges of the club.

Gentlemen Don't be Bald.

But call, on Mr. Dorenwend next Thursday and Friday, April 12th and 13th, at Phelan's Hotel. He can make an article for the bald part of the head that cannot possibly be detected as being false. His goods are highly spoken of as being the finest in the country and from our own observation of his stock at his last visit we must admit that we never saw their equal. He is going to have with him a fine selection of Ladies and Gents' Wigs, Toupees, &c. He makes an article for gentlemen, having bald spots on the top of the head, that is light and not heavier than ones own natural hair! *Who would be bald now!* We advise you to go and see him.

Ladies' Real Water Waves, Gents Wigs, Toupees, &c.

The Ladies and Gentlemen of Peterborough will be glad to hear that Mr. Dorenwend, of the Paris Hair Works, 105 Young St., Toronto, will again visit the same place on Thursday and Friday next, April 12th and 13th, at Phelan's Hotel. This will give those an opportunity of procuring some of his fine Hair Goods who were unable to see him at his last visit. He is going to have with him a large and fashionable stock of Water Waves, Frizzetts, Perfection Pieces, Coquettes, Switches, Nets, Golden Hair Wash, &c., &c. By far the finest selection ever offered. Every Lady and Gentleman in want of a first class article should call on him at the hotel.

Rumoured Railway Agreement.

The *Globe* publishes the following special despatch from London, Eng., dated April 9th:—

"The negotiations between the Grand Trunk and Canadian Pacific Railways made further progress today. I understand that an agreement was practically settled upon which will end the rivalry between the two companies. The following is the basis upon which an understanding was arrived at:—The Grand Trunk recognizes the right of the Canadian Pacific to a monopoly of all the traffic to and from the North-West. The Canadian Pacific will abstain from invading the territory of the Grand Trunk, and both lines will interchange all the traffic possible in a manner mutually convenient and in the interests of the respective lines. If the construction of the Ontario and Quebec Railway should not be proceeded with, which in the light of this agreement may not be improbable, equal facilities for both companies will be provided by the duplication of the existing lines or the construction of loop lines."

WILLIAM IV seemed in a momentary dilemma one day, when at table with several officers, he ordered one of the waiters to "take away that marine there," pointing to an empty bottle. "Your Majesty," inquired a colonel of marines, "do you compare an empty bottle to a member of our branch of the service?" "Yes," replied the monarch, as if a sudden thought had struck him, "I mean to say it has done its duty once, and is ready to do it again."

Police News.

Eight tramps sought and found shelter in the police cells last night. One of them, an Indian, came near being detained as a prisoner for being drunk. Is it not illegal to sell liquor to an Indian?

The police report that five gas lamps were not lit last night. They intend, according to instructions received from the Council, to keep an eye on the gas lamps.

No prisoners were arrested yesterday afternoon nor last night, and there was a blank at the Police Court this morning.

Arctic and Egyptian Wonders.

Captain Cheyne, the great Arctic explorer, will deliver two of his illustrated lectures in Peterborough. A short account of his life will be interesting to our readers. He passed his early years in the interior of New Brunswick, for he is a Canadian born. But inland life was dull and monotonous to the restless boy, and at an early age he ran away to sea. After a few voyages he was appointed a midshipman in the Royal Navy. His good conduct and gallantry in the service attracted the attention of Admiral Owen, by whose influence Mr. Cheyne was chosen as the only midshipman sailing with Sir James Ross Franklin's search expedition. After thus gaining his first experience in Arctic service, Mr. Cheyne served in a higher capacity in two later expeditions, and in consideration of his long and faithful services, was promoted to the rank of Commanander in 1870. Each lecture is illustrated by about 60 magnificent views, by the best English artists. These views are thrown on canvas by a very fine oxy-hydrogen lime-light lantern, manufactured especially for Capt. Cheyne. Although he is best known in connection with his Arctic lectures, that entitled "Egypt and the Late War," (the views for which haue been lately received) has become even more popular. In this are included views and descriptions of Egyptian life, and the natural and artificial curiosities of the country, together with military scenes, illustrating the actions of the British Army in the late war. Life size photographs of Sir Garnet Wolseley, Arabi Bey, Admiral Seymour and others, are also shown. The second lecture, on Friday evening, is entitled, "The Great Search for Sir John Franklin," and in it are set forth the varied experiences in the Polar Regions of those who successively took part in the greatest search the world has ever seen. In this lecture the Commander recounts several exciting personal adventures and escapes. From this lecture an exact idea may be formed of the climate, scenery, etc., of the Arctic Regions, where the Commander spent five and a half years of his life. Our readers will remember that about a year ago Capt. Cheyne delivered a lecture here, and that the illustrations were not a success, owing to Capt. Cheyne's lenses having been broken. Adequate provision having been made since then against any similar mishap, there is not the remotest likelihood of any disappointment occurring again.

ONTARIO AND QUEBEC RAILROAD.

Annual Meeting and Future Prospects of the Company.

The Globe says:—The annual general meeting of the shareholders of the Ontario and Quebec Railway Company was held at the head office of the company on Tuesday. The Superintendent of Construction's report was read, showing that most satisfactory progress has been made with the work of construction. The accounts of receipts and disbursements were presented by the Directors and were adopted by the meeting. The following gentlemen were elected Directors for the ensuing year:—E. B. Osler, Geo. Stephen, Duncan McIntyre, H. C. Hammond, Hon. J. R. Thibaudeau, Hon. Peter Mitchell, A. B. Chaffee, Wm. Hendrie, Adam Brown. At a subsequent meeting of the Board of Directors Mr. E. B. Osler was elected President, and Hon. J. R. Thibaudeau Vice-President.

After the meeting Mr. E. B. Osler, President of the Railway, was waited upon and questioned as to the probable effect the carrying out of the proposed arrangement between the Grand Trunk and Canada Pacific Railway Companies would have upon the future of his company. He was very decided in his expression of the opinion that it would have no effect at all so far as the completion of the road was concerned. The contracts for the work from end to end of the road were all let, and that the work would be completed was beyond a shadow of a doubt. As to the Toronto and Ottawa road, its construction had been abandoned months ago, if indeed, its completion had ever been seriously contemplated. The scheme to use the Midland system as far as possible, and then build the connecting link eastward from Peterborough to Perth, had existed only on paper.

Regarding the proposed arrangement between the two great companies, he appeared to regard it rather as a cessation of hostilities than as anything like a combination. They had been fighting each other very savagely, and now they had come to a conclusion that they ought to have reached long ago, and that was that such a course was not only a very stupid one but hurtful alike to both companies. They could not further their interests in this way, and they had concluded to quit quarrelling and cutting rates. He was not of opinion that the arrangement necessarily meant the stopping of competition between the companies where they had now competing lines, but merely the end of railway warfare which had commenced between the companies.

A Slight Washout.

The Midland time-table was deranged to-day by the water washing out the earth under the timber of a culvert about a mile and a half from town. The ten o'clock train did not go south, and the noon train from Port Hope was detained over an hour.

◆

Looking for Men.

Several contractors and foremen were in town on Tuesday looking for strong, able-bodied men to work on the drives, on the canal, railways, and in the quarries. Big wages are offered, and men appear to be scarce. There is no necessity for any person to be out of work this season,

◆

Finished Work.

Mr. Robert Moore, who has had charge of the Ontario and Quebec railway quarries at Warsaw during the last winter, has finished his work. During the winter an enormous quantity splendid stone was quarried, and the work done was to the entire satisfaction of the contractors. Mr. Moore is a good workman and fully understands his business.

SIR LEONARD TILLEY is confined to his room and is unable to attend to his official duties.

Senator Gibbs Dead.

The Hon. T. N. Gibbs died at 8 o'clock on Saturday morning at his residence, Oshawa.

Thomas Nicholas Gibbs was the eldest son of Thomas and Caroline Gibbs, who emigrated from Kingsbridge, Devonshire, England, in 1819, and settled at Terrebonne, province of Quebec, where the subject of this sketch was born, on March 11th, 1821. In 1832 the family removed to Oshawa, where the father engaged in the grain and flour trade successfully, and where he died in 1871. The eldest son after his return from England, where he was educated, continued in the business, and since 1842 has been at the head of the firm of Gibbs Bros., dealers in produce and proprietors of the Oshawa mills, manufacturing as high as 100,000 barrels of flour a year. Mr. Gibbs was the first reeve of Oshawa, elected in 1850, and the first warden of the county, elected in 1854, and sat for South Ontario in the Canadian Assembly, from January 1865 until the union in 1867, when he was returned to the Commons, continuing to represent South Ontario until the general election in 1874, when he was defeated. Upon the death of the sitting member, Hon. Malcolm Cameron, in 1876, he was again returned for South Ontario, and was defeated in 1878. He was sworn of the privy council, June 14, 1873, and was secretary of state for the provinces until July 1st, when he was transferred to the I.R. department, where he remained until the resignation of the Government on the 5th of November of the same year. He was president and director of several companies. In August, 1843, he married Almira, youngest daughter of Joseph Ash, of Cobourg, by whom he had seven children. His surviving brother and partner is Mr. William H. Gibbs. Frederick W. Gibbs, C.B., formerly tutor to the Prince of Wales, is a cousin. The deceased was called to the Senate in April, 1882.

ALARM IN DUBLIN.

DUBLIN, April 10.—The police have learned that a man who arrived in Dublin is supposed to be an emissary of the dynamite party, whose mission is the destruction of property. All hotels are watched in the hope of arresting him. The Coldstream Guards have been placed in the buildings adjacent to Green street court house.

AMERICAN.

HYDROPHOBIA.

CHARLOTTE, N.C., April 10.—For weeks the people of this section have been greatly excited over an epidemic of mad dogs. Ten dogs have been shot. Last night as the congregation of the Davidson Presbyterian College were engaged in worship, a supposed mad dog ran up the aisle foaming and howling. The church was crowded and a panic ensued. Men, women and children attempted to get out, and some mounted benches. The pastor leaped to the top of the pulpit, crying to "kill it, kill it!" One of the worshipers fired twice at the dog, and others with canes and spittoons beat the dog to death. Some women fainted and others were badly bruised.

A SAD CASE.

CONEY ISLAND, April 11.—A servant took a telegram on Monday night to the room of Samuel Bennett, an hotel proprietor, announcing that his father was dead and that his mother was dangerously ill. The servant found Bennett himself dead from an overdose of chloral, taken to relieve pain.

NOT AN INFERNAL MACHINE.

NEW YORK, April 11.—The story that an infernal machine was sent to Jay Gould's daughter arose from the fact that a small burglar alarm, addressed to a young Newark lady named Gould, attending a school here, exploded at the post office. It was arranged to fire a cap.

NEW YORK, April 11.—It is stated that Palen & Co., the suspended leather merchants, can pay 75 cents on the dollar.

THE COAL MINES STRIKE.

PITTSBURGH, April 11.—The coal miners and operators arbitration committees failed yesterday to make a final agreement in regard to wages. It is thought that an amicable arrangement will be reached, as the best of feeling is manifested.

OVER ISSUE OF BONDS.

LONG ISLAND CITY, April 11.—In the trial of ex-Mayor Debevoise yesterday, testimony was given showing that there was an over issue of City bonds amounting to $100,000.

FATAL RAILWAY ACCIDENT.

DENTON, Texas, April 11.—On the Missouri and Pacific Railway yesterday near Beaver, a construction train struck a horse crossing the rails, and jumped the track. Conductor Everett and four train hands were killed.

ANOTHER STRIKE THREATENED.

CLEVELAND, April 11.—It is understood that the owners of the coal mines in the Massillon district have decided to announce a reduction of 15 cents. The president of the miners' association refused to comply with the proposition. It is thought that the men will strike if the reduction is made.

PERSONAL.

NEW YORK, April 11.—Max Buisch, a distinguished German musical composer, arrived here yesterday.

ROBBED.

NEW YORK, April 11.—John J. Coughlin states that he arrived from Schenectady on Monday morning on his way to Trenton, N.J., to visit a brother who was sick, and he had $3,700. Some expressman took him to a house in Canal street, where they beat him unmercifully and where they and the women stole all his money. Mrs. Shultz, Patrick Thompson and John O'Keefe were arrested and assert their innocence.

Serious Charges.

Some time ago a drawing master in Montreal, known under the sobriquet of L'Abbe was in trouble for some misconduct towards one of his "models." He escaped punishment at that time. Now another case has been unearthed, in which he has again been accused of endeavoring to seduce a young girl whose mother has been looking for her for several months. Finally, by the use of detectives, the young girl was found and the case brought before before the Recorder, who gave Monsieur L'Abbe a private hearing and then dismissed the case. If all the circumstances of the story are true the drawing master is a veritable vagabond, for whose severe punishment should be arranged. It is believed that more will be heard of the case before long. —*Globe*.

Arrival of Manitoba Produce.

An important event has just happened in Montreal, in the arrival of the first through freight Manitoba produce which has come to this city. The Canadian Pacific railway has the credit of bringing here twenty-one carloads of Messrs. Ogilvie's patent flour, and landing it in the marvellously short time of ten days from Winnipeg.

Daily Evening Review

WEDNESDAY, APRIL 11, 1883.

THE following is the question of the day in the Provincial County of Haliburton :—

"Change sides, and handy dandy, which is the Justice, and which is the thief?"

IT now appears that the Ottawa correspondent of the London *Advertiser* is on confidential terms with at least one of the gang of letter thieves and forgers to whom the Hamilton *Tribune* recently gave the use of its columns. The *Advertiser's* correspondent of course backs up these criminals with whom he is on such friendly terms.

THE Toronto *World* tells a strange story of the stolen and forged correspondence recently published by the Hamilton *Tribune*, as having been stolen by a discharged official and handed over to one of the staff of the *Globe* some months ago. The *World* throws no light upon the question of whether this member of the *Globe* staff was the forger as well as the receiver of the stolen goods, or whether the forgery was committed after the documents were turned over by the *Globe* to its cats-paw.

WE are glad when we can give the *Globe* credit for a good moral sentiment. Our contemporary says :—

"No Government has a right, any more than an individual, to attempt to either coerce or bribe a constituency."

This is undoubtedly correct, and it might conduce to the spread of this excellent state of morality if our contemporary would quietly suggest to Mr. Mowat that he really should not act as he did in Peterborough, where he and his colleagues bribed the electors wholesale by means of the vacant Registry office.

LEADERS, NOT DESPOTS.

THE *Globe* takes us to task because we pointed out its inconsistency in saying that Sir John Macdonald could whip the Quebec Bleus into line on the Orange question, while stating that these same Bleus were his masters on the Boundary question. It explains its meaning to be that Sir John is a coward—that he could coerce the Quebec members whenever he likes, but is afraid to do so. Our contemporary winds up it effusion with the following extraordinary conclusion :

"No other man in the position of Sir John Macdonald would hesitate about compelling his followers to enable him to keep the promises with which he won the election."

It may be true that none of the allies of the *Globe* would, in the position of the Premier, hesitate to coerce his followers to vote as he and not they desired. Conservative leaders, however, are not such tyrants, and do not usurp such powers—they are really leaders, and not despots. Under the constitution which we have inherited from the Mother Country, it is our Parliament, not our Premier, that makes our laws.

BELLEVILLE.

INCENDIARY FIRE.—Shortly after two o'clock on Sunday morning a fire supposed to be incendiary, broke out in a stable in the rear of the Platt buildings, on the west side of Front street, near the lower Bridge. This building, which was owned by Wm. Dafoe and occupied by Edwin Harris, was consumed, together with a cow which was in the stable occasioning a loss of $400 to Dafoe and $50 to Harris. The adjoining stable, which was occupied by T. N. Foster and owned by Mrs. Neilson, was also consumed, together with a valuable stallion owned by James Broad, and a roadster belonging to Foster. These parties lose $500 each. The fire also damaged a stone building owned by Mrs. Neilson and occupied by Joseph D. Clark and R. P. Hamilton, the former of whom loses $100. Mrs. Neilson was the only sufferer insured, sustaining a loss of $1,000, and was insured for $600 in the Royal.

PORT HOPE.

FATAL ACCIDENT.—The *Guide* says that Mr. Francis Little, sr., who lived on lot 23, 1st con. of Hope, near Wesleyville, met with an accident on Friday evening that resulted in his death. Deceased had been in Port Hope on that day, and started for home in the afternoon. The creek at Port Britain had overflowed its banks, and in crossing, the horse got off the road into deep water. Mr. Little was carried out of the buggy and would most assuredly have been drowned on the spot, had not young Mr. Byam—at the risk of his own life—went to the rescue and got the old gentleman out of the water and took him home, but the shock was too great for a man of his advanced years—being 81 years old—and he died shortly after.

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer, dispairing of a cure, can be remedied by that unfailing regulator and unfailing tonic—Burdock Blood Bitters. Ask your Druggists for proof.

LAYING A FOUNDATION STONE.

Canadian Energy in Ireland—Former Resident of Peterborough Doing Public Service.

We take from the Tyrone *Constitution* the following account of interesting proceedings in which former residents of Peterborough took a leading part :—

The ceremony of laying the foundation of a Masonic and Town Hall for the Town of Fintona was performed on Monday last by Mrs. A. H. R. Sproule, Woodview, assisted by Major George Weller Vesey, D. L., [illegible]. For a number of years the inhabitants of this improving town felt the want of, and laboured under the inconvenience of having no suitable building wherein to hold public meetings, convened for town and other purposes, and several times the project was brought forward without any practical result. Dr. Robinson, a few years ago, determined to remove this long felt want, by building a suitable Hall in the town of Fintona, but he died before he found it convenient to commence the undertaking. A. H. R. Sproule, Esq., Woodview, his representative, knowing his uncle's wishes, determined, at his earliest convenience, to carry them out, and a suitable site having become vacant in Mill street, he removed the old houses, had plans and specifications prepared, and entered into a contract with M. Henry Montgomery to carry them out. The Hall will be, when finished, a most spacious building well adapted for the purpose for which it is intended, and equal to the requirements of the town. It has a frontage of 80 feet, and extends back to the rere fully 80 feet, the height intended being 26 feet to the eave course.

The preparations for the ceremony having been completed, at half-past one o'clock Mr. Henry Montgomery presented Mrs. Sproule with a handsome silver trowel, and she proceeded, after first depositing a sealed bottle containing the usual records and the coins of the realm in the receptacle provided for it, with the bedding of the stone, which was lowered into position, and after application of square, level, and plumb, to test the accuracy of the work, it was declared well and truly laid, and these tools were handed over to the architect to finish the building. The cheers at the finish of the laying of the stone having subsided, Mrs. Sproule addressed those around her as follows :—

Major Vesey, Mr. Henry Montgomery, and gentlemen, I thank you very much for the high honour you have paid me in asking me to lay the corner stone of this new Masonic and Town *Hall*, and more so on account of being such a stranger amongst you. I only hope and trust that you will all live long to enjoy such a hall in Fintona. As you very well know it is much needed. I thank you, Major Vesey, for assisting me to place the corner stone all right ; and as I believe you are well up in masonry, I am sure it has been properly placed. Mr. Montgomery, really I cannot find words appropriate enough to thank you for the presentation of the beautiful silver trowel which I have used to-day. All I can say is I will treasure it very much—knowing that it binds us, the gentry, and the working classes together ; and I hope we will always live on friendly terms. I hope you will succeed well with your contract and that it will financially repay you. Trusting in God that no accident will either happen you or any of your workmen, I now wish you all success.

MAJOR VESEY said—I wish to say a few words on this occasion, and on the work which has been done by Mrs. Sproule. I am happy to be present at the laying of the foundation stone of this new Hall, and I thank Mrs. Sproule very much in associating myself with the work which she has so skilfully performed. It has been a great pleasure to me to assist at the laying of the foundation stone of a new hall in Fintona. The want of such a building has been long felt. The late Dr. Robinson had planned to build a hall but death carried him away before he could do so. I always regretted that such a town as Fintona should not have a town hall, and especially so seeing so many towns around of much less importance possessing one. That want is now being removed ; Mr. Sproule, knowing the wishes of his uncle in the matter, decided to carry them out, and his decision once taken he proceeded to carry out the undertaking with an energy characteristic of the country in which he spent a great deal of his life. I am glad that Mr. Sproule found a contractor in Fintona to carry out his designs, and with Mrs. Sproule I hope it will pay him for his work. We have much to thank Mr. Sproule for. His enterprise has done something for the town. The new dispensary which he has just finished does him credit and is a credit to Fintona.

MR. SPROULE thanked Mr. Vesey for the compliment paid him, and the kindly manner in which he was referred to in connection with the improvements of Fintona. Knowing the wishes of his uncle respecting the hall, and feeling that it was very much wanted, he decided as soon as he conveniently could to build it. He was happy to find a contractor in Fintona capable of carrying out the work, and that being so why should he give it to a stranger. The work people employed in the building will also belong to the town. They are best entitled to the work.

Cheers were given for Mr. and Mrs. Sproule, and Mr. Vesey, and the ceremony ended.

The same paper contains evidence that Mr. Sproule has not abandoned his old tastes, for we find him called to the chair of an influential meeting for making arrangements for a "Bee, Dog, Flower and Poultry Show."

Incendiarism and Rowdyism.

It is apparent the lawless element in the district of London is as great as ever. On Sunday night a frame barn belonging to John Kelly, of London west, was burned, together with between five and six tons of hay, a quantity of agricultural implements and general farm furnishings. A cutter was the only article rescued from the burning building. Mr. Kelly's loss will be fully $400. No insurance. The fire was beyond doubt the work of incendiaries. While the interest of the crowd was centred upon the burning building a second fire was discovered in a barn upon a lot adjoining, also according to all apparent evidence an incendary job. During the progress of the fire a number of young men and boys, some of them far from sober, conducted themselves in a most disorderly manner. One old gentleman was most unmercifully snow balled and abused. The roughs neither regarded age nor Sabbath.

"BLOOD WILL TELL." A face adorned with Pimples, Boils, Blotches &c., is not a particularly pleasant sight, and invariably betokens an impure state of the Blood. HUNTINGTON COPPER COMPANY.

A $6,000 Action of Damages Against the Company.

On the 18th of November, 1881, an agreement was entered into at Glasgow, between the Huntington Copper and Sulphur Company and William Vance, the latter binding himself to act as Mining Captain and sub-manager on behalf of the Company, for a term of four years from date of agreement. Among other stipulations it was agreed, on the part of the Company, to pay Vance a monthly salary of $100, furnish him with free house and fuel, pay his passage to Canada and his return fare at the expiry of his engagement, and further to allow him a monthly bonus of two cents per unit upon all the copper in the ores delivered during the month. The Company having gone into liquidation, Vance was notified during the month of January last that his services were no more required, and he now sues the Company for $6,028, amount alleged to be due him on the unexpired portion of his engagement. Messrs. McLaren and Leet for the plaintiff.—*Montreal Star.*

Mr. Mowat's Master.

Capt. Neelon, M.P.P. for Lincoln, is almost master of the situation as far as the control of Ontario is concerned. In order to get him out of the way and allow of another election, in which their chances of success are good, the conservatives, as the *Globe* says, has offered him a senatorship. The conservatives reply that the Reformers have offered Mr. Neelon the treasurership in Mr. Mowat's government. Whether either of these offers has realy been made, we cannot say, but certainly the captain's friends believe that they have been made, and they are urging him to accept one of them. The *Globe* is very transparent in the bukwesh offered to Mr. Neelon, viz., that it would be just like Sir John to make such an offer (the Senatorship), but just like Mr. Neelon to refuse it; that fictitious honor can confer no distinctions on Mr. Neelon; that he has "risen from before the mast;" that he would not care to be buried in the senate, etc.—*Toronto World.*

Attempted Assassination.

Patrick Hennessy, the lockesmith, was fired at on Monday morning, on Hughson street, Hamilton, the bullet passing about a foot over his head, and going through the windows of J. A. Skinner's wholesale store. The party who fired at him is unknown. Some assert, however, that the friends of Parker (the coloured boy who was shot and killed recently by a young nephew of Hennessy's) are implicated in the affair.

FRAZER AXLE GREASE.

Best in the world. Made only by the Frazer Lubricator Company, at Chicago New York, and St. Louis. *SOLD EVERYWHERE.*

THE
PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

The Great American Remedy for
COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree —without doubt the most valuable native Gum for Medicinal purposes.

GRAY'S SYRUP OF RED SPRUCE GUM.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

Erratum.

It was Councillor Sawers, instead of Councillor Kelly, who seconded the motion for Mr. Garvey's appointment as Town Trust Commissioner at the Council meeting on Monday night.

Babies' Carriages.

C. B. Routley has certainly a very fine lot of Baby Carriages; Valices Top is worthy of notice, It is no trouble to take the curtain from the top in case of rain. The wheels have dodging spokes and boxed hubs. Last year he was not able to exhibit any Carriages on account of not being here to get them in time. 85

Ladies, no Humbug.

Dorenwend of the Paris Hair Works, 105 Yonge St., Toronto will be to you a guarantee of getting first class goods. Please tell your friends and fetch them along.

Gibson vs. Midland Railway.

This case was tried at the Belleville assizes, and the following account of it is given by the *Intelligencer* :—

MARY GIBSON vs. THE MIDLAND RAILWAY.—This was an action brought under Lord Campbell's Act to recover pecuniary damages sustained by the loss of her son. The deceased was a brakeman in the employ of the defendants. While walking along a train of freight cars which were passing under the bridge of the C. P. & M. road, at Peterborough, he was struck on the head by the needle beam of the bridge, the injuries resulted in almost instant death. According to an Act passed by the Ontario Legislature in 1881, all bridges crossing a railway track must be of such height as to leave a clear space of at least seven feet below the lowest beam of the bridge and the highest point of any car running on the road. It was contended by the defendants that they had no power to alter the bridge, as it belonged to another railroad company, and did not, therefore, come within the meaning of the Act. His Lordship expressed himself as agreeing with the defendants in that contention, but thought it best to submit certain questions to the jury, so that the case might not again have to come down to trial. The following questions were, therefore, put to the jury :—1st. Were the defendants guilty of negligence in not altering the bride? 2nd. Was the plaintiff guilty of contributary negligence? 3rd. What amount of damages, if any, should the plaintiff receive? The jury answered the two first questions in favor of the plaintiff's contention and assessed the damages at [illegible], leave being reserved to the defendants to have a verdict entered in their favor. Clute, W. N. Ponton and S. S. Walbridge for pltf.; Bethune, Q.C., Bell, Q.C., and Biggar for deft."

SPRING ATTIRE.

The Millinery Opening at Messrs. Hall, Innes & Co's.

On Tuesday and to-day a large number of ladies were attracted to the store of Messrs, Hall, Innes & Co. by their display of spring millinery. Their show room is a commodious one, it is in the second story and is the same size as the store below, which gives them ample room to exhibit their goods. The articles are arranged with taste, and in such a way that they can be easily viewed. Five tables in the centre of the room contain hats and bonnets, of the newest styles, and trimmed with good taste and judgment. A hat of the "poke" shape, nicely trimmed and with tinsel lace in front, is a handsome one and would be very becoming. A quantity of lace, suspended from the top of the room, and flowers and feathers decorating the walls, gives a good effect to the scene, and at the same time exhibits these goods to advantage. The mantles, &c., of good quality of material and as good workmanship, occupy one side of the room. Some beautiful large feathers are shown, of the blush pink and chrushed strawberry hue, and these colors appear to look better in feathers than in anything else. A good stock of handsome flowers are also displayed, and were quite an attraction. The parasols suggested that Fashion had got another sensible idea into her head—they are larger than has been fashionable for some time. No lady, we should think, could enter this show room without being pleased and suited. This department is under the capable management of Miss Thompson, who has an able corps of assistants. At the rear of the room a large mirror is placed, and the store below can be viewed in it, and next to the store room is the carpet room, which can also be seen. It is no wonder that such an exhibition as this attracts the ladies who at all desire to keep pace with fashion.

Photographic.

Mr. Jos. McClelland's Studio will be closed until Saturday next, April 14th.

The Weather Probabilities.

Some rain fell this morning, and the weather continues cloudy and threatening. The probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows :—Strong winds and gales from the east, and veering to the south and west; cloudy weather, with local rains.

Personal.

Messrs, J. B. Trayes, *Times*, Geo. Wilson, sr., *Guide*, and John Lydon, of Port Hope, were in town on Tuesday.

We learn from the *American Canoeist* that Major E. Leigh, formerly of Lakefield, has been re-elected Vice-Commodore of the Toronto Canoe Club, and that Mrs. E. Leigh has been elected an honorary member. Of the two other honorary members elected one was Judge Scott, brother of the late W. H. Scott. The club talk of sending a strong delegation to the A. C. A. meeting at Stony Lake.

Gentlemen Don't be Bald.

But call, on Mr. Dorenwend next Thursday and Friday, April 12th and 13th, at Phelan's Hotel. He can make an article for the bald part of the head that cannot possibly be detected as being false. His goods are highly spoken of as being the finest in the country and from our own observation of his stock at his last visit we must admit that we never saw their equal. He is going to have with him a fine selection of Ladies and Gents' Wigs, Toupees, &c. He makes an article for gentlemen having bald spots on the top of the head, that is light and not heavier than ones own natural hair! *Who would be bald now?* We advise you to go and see him.

Daily Evening Review

THURSDAY, APRIL 12, 1883.

IT appears that the Hon. A. S. Hardy has been appointed acting Minister of Education during the absence of the Hon. Mr. Crooks in Europe on account of ill health. This suggests two questions. Who is to handle Mr. Hardy's scissors for the purpose of mutilating public reports while he is attending to educational matters? And who is to be acting Provincial Treasurer, as we have no constitutional Treasurer of Ontario at present.

THE Hamilton *Evening Tribune* says that we do it an injustice by stating that it does not "adhere to the neutrality" it professed, because it did not profess neutrality, but independence. Without following our contemporary in its quibble as to words conveying substantially the same meaning, we may ask the *Tribune* if it is honest independence to endeavour to injure the Conservative party, by publishing stolen and forged documents obtained from the *Globe* staff (as a Reform paper says they were), or possibly by forging some portions of them if that had not already been done by its accomplice in crime. We really cannot accommodate the *Tribune* by supplying it, as it suggests, with stolen or forged "Grit" documents, for we do not consort with thieves and forgers. That seems to be a "Grit" monopoly.

Personal.

Gen. Geo. B. McClelland, of Cleveland, Ohio, the "Little Napoleon" of the American civil war, is at the Oriental Hotel. Gen. McClelland has been, and probably is, interested in iron mines in this county.

The Creek.

The continued thaw has caused the water in the creek to rise and some uneasiness is felt. At Mr. Paterson's tannery on Wednesday afternoon a small bridge was in danger and an overflow appeared probable, but the Street Inspector had his men at work and the danger was averted. One man, while engaged in shoving ice down the stream, fell into the water and got an uncomfortable bath. The water washed out part of the road on McDonnell street, and the Street Inspector has been employed in guarding against danger in that quarter. The benefit of the work done some weeks ago, when a channel was cut in the creek, is now seen.

A Cow in a Well.

On Wednesday afternoon while Mr. Redmond, of George street, had his well uncovered to do some repairing, some mischievous curs attacked his cow. The bovine ran close to the well, and then faced its tormentors, when it quickly disappeared down the well. Help was secured, and the cow was brought to the surface, only slightly injured. Its escape was wonderful, as the well was thirty feet deep. Mr. Benton, the carter, descended the hole without a rope, and one was then lowered to him. He fastened it around the cow, and she was drawn to the top with only some hair rubbed off.

Water Power.

It will be seen from their advertisement that Messrs. R. & G. Strickland, of Lakefield, are prepared to supply water power to any one desiring to establish a manufactory in that village. This is an offer worth considering by manufacturers, as the locality offers many advantages for a factory, being at the terminus of the Peterborough section of the Midland Railway, and at the foot of that portion of the Trent Valley Navigation, which is actually under construction at present, and which will afford cheap means of communication with a large extent of country. It is also at the head of the next section of the Trent Valley Navigation which is likely to be placed under construction, and that at no distant period. As to the power there is a good head with a constant and abundant supply of water.

BRADY'S TRIAL.

DUBLIN, April 12.—In the trial of Brady today, Kavanagh, who drove the car in which the murderers rode, repeated his former evidence. His testimony showed that it was Brady who directed him where to drive, and who designated the place for him to wait for the murderers.

AMERICAN PORK.

BERLIN, April 12.—A committee of the Bundesrath reported favourably on a letter of Bismarck advising that the importation of American hog products be prohibited.

SPECIE PAYMENTS.

ROME, April 12.—Specie payments have been resumed by the Government and are proceeding regularly.

PANIC IN A THEATRE.

PARIS, April 12.—In a theatre at Revel an explosion of gas occurred during a performance. The theatre was crowded. Many persons are reported killed in the panic which ensued.

NUMBER ONE'S PHOTOGRAPH.

DUBLIN, April 12.—In the Brady trial Carey was cross-examined. The information was elicited that Carey, when plotting the murders, was a member of a society that received the sacrament at stated periods. Carey said that he was promised pardon before he determined to testify against his fellow-conspirators. A photograph was handed to Carey which the witness identified as that of the man known as "Number One."

THE DESTRUCTIONISTS.

LONDON, April 12. — Norman Gallagher, Dalton, Wilson, Curtin and Ansburghe, the alleged dynamite conspirators, were taken into court this morning. The prison van was driven rapidly through the streets, accompanied by armed police and mounted constables. A large crowd followed the prisoners to the court house. The whole route was lined with policemen, and every precaution was taken to prevent a rescue. The prisoners were perfectly calm.

OIL WORKS BURNED.

DENVER, April 12.—The Continental Oil Works were burned last night. Loss $125,000. The firemen are working hard to save the gas works.

INCREASED VIGILANCE.

ST. PETERSBURG, April 12.—A ukase has been issued ordering increased vigilance on the frontier to prevent suspicious persons from entering the country. It is supposed that this precaution is due to the approach of the coronation of the Czar.

AMERICAN.

THE TRANSIT OF VENUS.

WASHINGTON, April 12.—The work of computation has begun, and it is thought that the results of the observations of the last transit of Venus will be known by April, 1887.

THE MISSISSIPPI.

NEW ORLEANS, April 12.—Considerable opposition has developed to the policy of closing the natural outlets of the Mississippi river which carry off the surplus waters, unless preparations are made to protect the country below from overflow.

DIED FROM HIS INJURIES.

SYRACUSE, April 12.—Alexander George, an Onandago Indian, who was hit on the head with a stone hammer by James Stowell, at Jamesville, on April 6th, died last night. Stowell will be charged with assault in the first degree.

BURNED TO DEATH.

SYRACUSE, April 12.—Florrence Morrell, aged 10 years, was burned to death while playing about a bonfire yesterday evening.

BARBAROUS CONDUCT IN HAYTI.

NEW YORK, April 12.—It is stated that the revolution in Hayti is due to the cruelties practiced on the mulattos under President Salomon's administration. There has always been bitterness between the blacks and mulattos. The latter, forming a third of the population, have been shut off from all political privileges. The present Government banished some mulattos, imprisoned others and shot hundreds after a brief incarceration. The prisons are filled with women, children and banished mulattos. In one day seven men, and in another twenty-eight men were taken out of prison and shot without trial. In the latter case the dead bodies were mutilated by blacks. Nearly all the property of the mulattos has been confiscated.

THE MONEY SAFE.

NEW YORK, April 12.—Nothing is known at the German consulate here concerning the complaints that the flood sufferers in Germany have not yet received any of the money subscribed in this country for their benefit. It is thought that the money is all right, but the German officials are slow.

THE PRESIDENTIAL PARTY.

KISSIMMEE, Florida, April 12.—The Presidential party left last evening for Sanford, where they may spend a day or two before going to St. Augustine.

AN EX-MAYOR ON TRIAL.

LONG ISLAND CITY, April 12.—In the trial of ex-Mayor DeBevoise yesterday, DeBevoises' counsel returned to the city $14,000 in bonds which his client had held. The prosecution rested.

ELECTION FRAUDS.

COLUMBIA, S.C., April 12—The State Democratic Executive Committee yesterday adopted a resolution to employ eminent counsel to defend the prisoners charged with fraud and intimidation in the last election. On Tuesday eleven arrests were made in Barnwell county, and yesterday seventeen respectable citizens, three of lower counties, were bound over to appear at the court in Charleston next Wednesday. Altogether sixty arrests have been made.

HAWAIIAN CURRENCY.

PHILADELPHIA, April 12.—The Superintendent of the mint has prepared designs for coins for Hawaiian Island. On one side of the coin there will be King Kalaukua's face and on the other a portion of the great seal of the country. The denomination of the pieces will be indicated in the Hawaiian and English languages. The pieces will correspond to our dollars, half dollars, quarters and dimes.

Letter from Member of Congress.

HOUSE OF REPRESENTATIVES,
Washington, D.C., Feb. 19, '82.

GENTLEMEN,—Inclosed find $1, and will you send me some of N. H. Down's Vegetable Balsamic Elixir by express. I have a bad cold, as has almost every one else here, but cannot find the Elixir, which I used frequently at home and consider a most valuable medicine; in fact, the very best remedy for a cold that I ever used.

Very truly yours, WILLIAM W. GROUT.

THE LEAGE IN AUSTRALIA.

DUBLIN, April 11.—The Irish National League met to-day. It was reported that £5,000 had been received from Irish sympathizers in Australia. A letter from Redmond, who is agitating the question of Irish wrongs in Australia, was read. He says the developments of the Phoenix Park murder case are doing the League much injury there, and have already materially interfered with his success.

THE TRIPLE ALLIANCE.

ROME, April 11.—Cavallotti, a Radical member of the Chamber of Deputies, in a published letter says it is perhaps a fact that the triple alliance was inspired through the fear that Republican ideas would obtain deeper root and spread throughout Europe.

A TEST EXPLOSION.

LONDON, April 11.—There was a test explosion at Woolwich arsenal to-day of the nitroglycerine seized last week at the time of the arrest of a woman and others. The explosion was terrific. The ground for several yards was torn up.

PARNELL NOT TO ATTEND.

LONDON, April 11—Notwithstanding that he is in receipt of a number of pressing despatches asking him to attend the Irish convention in Philadelphia, Parnell has decided not to leave London. The decision is partly due to the condition of his health, and because he desires to attend to the discussion in the Commons of the Criminal Procedure Act.

CAREY'S EVIDENCE.

DUBLIN, April 11.—Carey was in the witness box an hour and three-quarters to-day. He gave a detailed account of the formation of "The Invicibles," but was not allowed to go into the plots against Forster and Earl Cowper. Brady followed the evidence closely, and frequently sent notes to his solicitor. Carey became perfectly cool towards the close of his evidence. One of the knives found in Ringsend basin was produced, that he might identify it as one of those supplied by Sheridan from London.

AMERICAN.

RAILWAY COMMISSION,

NEW YORK, April 12.—The Secretary of the Railroad Commission has striken out one million from the accounts of the Loan and Improvement Company, for improper charges ofor the construction of the elevated railway.

WHISKEY INFORMERS.

To the Editor of the Review.

SIR,—As several persons in the township of Ennismore have made the statement that I acted as a whiskey informer against hotel keepers in that township, and as the cry has done me injury, I beg to give a flat denial to all such rumours and in proof of my statement being correct I refer to the License Inspector and the Commissioners.

I remain yours, etc.,
PATRICK TANGNEY.
Ennismore, April 11th, 1883.

SPEAKING TALENT.

The Montreal *Star*, a thoroughly independent journal, gives the following account of the speaking talent in the House of Commons:—

"The Budget debate sufficed to draw out the best talent existing on both sides of the House, and by the result it was evident that the Reformers are at a great disadvantage as compared with their political opponents on this score, and that, too, in larger proportion even than the great difference in numbers between the two parties. The Government of the day has naturally, by its *National* policy drawn to its support a strong following of gifted, patriotic and zealous young men. There are, however, a number of able and experienced parliamentarians on the opposition side. Messrs. Blake, Laurier, Charlton, G. W. Ross and Paterson are all talented men and good debaters. But, excepting Mr. Davis, the lone Liberal representative of Prince Edward Island, who is certainly a very good speaker, there is not one young member on that side who can be compared with young Tupper, or Wood, or Shakespeare, or Gordon; while Foster stands head and shoulders above them all in oratorical ability."

Forcing a Marriage Settlement.

A Montreal despatch says that a new way of compelling an old farmer to settle his property, or a portion of it at least, on his young and lately married wife, was for a mob of some two hundred of her friends to surround the house of Ovila Vennier, of Cote St. Michael, a little out of the city, and by aid of bells, tin horns, and other rough instruments, charivari him into complying with his better half's wish. He was not to be intimidated, however, as he sent for the police to come to his relief. When they arrived the riot around the barricaded castle was at its climax. Two men named Larivee and Pigeon, who were conspicuous in leading the noisy crowd, were pounced on and taken prisoners. Their companions attempted to rescue them from the sleighs as the officers were driving off in triumph, but on the latter drawing their revolvers the tormentors gracefully retired, and the prisoners were lodged in the police cells.

An Answer Wanted.

Can any one bring us a case of Kidney or Liver Complaint that Electric Bitters will not speedily cure? We say they can not, as thousands of cases already permanently cured and who are daily recommending Electric Bitters, will prove. Bright's Disease, Diabetes, Weak Back, or any urinary complaint quickly cured. They purify the blood, regulate the bowels, and act directly on the diseased parts. Every bottle guaranteed. For sale at 50 cents a bottle by Taylor & McDonald.—1

Dyspepsia and Liver Complaint.

Is it not worth the small price of 75 cents to free yourself of every symptom of these distressing complaints, if you think so call at our store and get a bottle of Shiloh's Vitalizer, every bottle has a printed guarantee on it, use accordingly and if it does you no good it will cost you nothing. For sale by J. D. Tully.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

THE BABIES ARE ALL GOING OUT IN OUR CARRIAGES.

THE CAMPAIGN IN THE COURTS.

Up to the 11th instant, Wednesday evening, the seats of 31 members, returned at the late elections, had been petitioned against, whilst Messrs. Johnston of Middlesex, and Metcalfe of Kingston have each had two petitions fyled against them.

The following is a list of the petitions fyled, given, as near as we can make out, in the order in which they were fyled, this latter being a point of some consequence, seeing that the law requires them to be tried as near as may be in the order in which they are fyled, and that there is little probability of the judges being able to overtake all the work thus provided for them before the meeting of the Legislature—a fact which renders the chances of the campaign peculiarly favorable to the Conservatives:

DOMINION PARLIAMENT.

The House of Commons was chiefly occupied last week with the prolonged debate upon the budget. Throwing off the mask which they assumed before the general election, member after member upon the Opposition side rose to utter their old diatribes against the National Policy. They were ably answered from the Government benches, and it was admitted by all impartial authorities that the Conservatives had far the best of the discussion. This applies not only to the leaders on each side, but to the younger members, among whom Mr. Foster, M. P. for King's county, N. B., especially distinguished himself, so much so that it it prophesied that he will be the foremost orator in the House.

On Monday Mr. Colby introduced a bill to facilitate the incorporation of charitable, philanthrophic, and provident associations, and it was read a first time.

The second reading of the Orange Incorporation Bill was again allowed to stand for a week, as the committee in charge of the bill had not determined whether to press it or not.

Sir C. Tupper, in answer to Mr. Blake, said that 166 miles of the Canada Pacific, north of Lake Superior, were under construction.

Mr. M. Bowell stated that it had been determined to make no change as to the importation of spirits in bond.

Mr. Hawkins moved for a special committee as to the Judge of the county of Kent refusing him a recount in the Bothwell election. Mr. Hawkins thus showed that he did not, like Mr. Mills, shrink from an investigation, but as such an enquiry into the conduct of a judge, or as to a matter before the courts, could not be allowed, the motion was negatived after a sharp debate, Mr. Hawkins pledging himself to substantiate his charges on another occasion.

On Tuesday Mr. Caron moved the second reading of the bill to amend and consolidate the Militia Acts, which was carried, and some progress was made in committee.

A Fine Arrangement.

The municipalities are anything but pleased with Mr. Mowat's little circular, advising the County Judges not to send any offenders to the unhappy Central Prison except able-bodied workers. By this neat arrangement the Central will get the benefit of the convict's labor, while the municipalities are compelled to support the lame, the halt and the helpless. Mr. Mowat has a great head.—*Toronto Evening Canadian.*

YOUNG'S POINT.

From Our Own Correspondent.

NAVIGATION.—The lake from here to Lakefield is open for navigation. The whistle of the Cruiser and the jolly appearance of Captain Secret at the wheel steering into the locks would be welcome after our long dreary winter. The captain might take a run up as far as the Point and bring up any freight that is lying at the station for this place, as the roads are impossible for wheels and the sleighing is all gone.

THE STEAMER FAIRY.—Mr. Chalmers is having the steamer Fairy thoroughly overhauled; when finished she will look like a new vessel. She will make her first trip to Lakefield this season in about 10 days. Clear and Stoney lakes, if the weather keeps mild, will be clear of ice in about two weeks.

LAKEVIEW HOUSE.—Mr. Jas. E. Kearney is having his hotel thoroughly overhauled this spring. Mr. Coates from Lakefield is painting and papering the rooms from top to bottom. James is looking forward to doing a large business this summer.

THE NEW HOTEL.—Mr. W. J. Kearns has rented the new hotel buildings from Mr. McFarlane. He has every prospect of doing a large business this summer, as the American Canoe Association will be the means of attracting large numbers of visitors to this place. This new hotel, along with the Lakeview House, will be able to accommodate a good number of summer tourists and others who desire to made this a stopping place. Both hotel keepers will keep canoes and boats for hire.

THANKS.—Mr. G. Joplin and Mr. McFarlane through your correspondent, beg to express their heartfelt gratitude to the many kind friends at the Point and elsewhere who have shown such generous sympathy by subscribing money, lumber, work, &c., to assist them in rebuilding, as, unfortunately, there was no insurance.

REMOVAL.—A wandering fellow with a wife and two small children, who took up their abode near the shore of the lake for about two years, has removed about 3 miles distant. He was very fond of hens and poultry of all discriptions, and his removal is a small loss to the community.

ENNISMORE.

From Our Own Correspondent.

WEATHER NOTES.—Although we have not had such heavy snow falls in March as in some years, for instance as in 1870, when there fell 2½ feet, during the month, still we have received a considerable share of storms, the severest of which was on the 18th and 19th, following a rain storm there when fell 11 inches with a piercing northeast wind, the thermometer never rising above zero, during its continuance. Snow fell on 8 days to the depth of 15 inches 5·100 of an inch; rain fell on 3 days to the depth of 1 inch 3·100 of an inch, making a total of water of 3 inches 82·100 of an inch. The intensity of the cold was extraordinary. On 11 mornings the thermometer went below zero, but the steadiest cold days not only for the present March, but during my experience commenced on the night of the 18th; at sun rise on the morning of the 19th the thermometer stood 2° below zero, on the 20th at 6° below, on the 21st at 15° below, on the 22nd at 18° below, on the 23rd at 12° below, on the 24th at 6° below, and on the 25th at zero, making a total average temperature for the month of 15° 26·21 at sun rise and sun set, while March of 1881 averaged 22° 19·21, and March of 1882 averaged 26° 1·21. Although mild for a few days after this, still near the latter end of the month we experienced again a fall below zero.

CROP PROSPECTS.—We can give no information regarding our fall wheat owing to the continuance of winter suffice; to say should old prophets predictions be true that plenty of snow makes good fall wheat, we have got it this year.

CATTLE AND TREES.—We have a good stringent by-law in this township, but until the legislature by statute stops cattle from running at large, it will be of little use planting shade trees, as they will be liable at any time to be destroyed by cattle straying on the public highways.

COUNCIL MEETING.—The Council met in Warsaw on Friday, April 6th, all the members present. The minutes of the last meeting were read and signed. Communications respecting Harrison's Municipal Manual, expense of lunatics, road scrapers, Wilson's Municipal Works, and Ontario Statutes, were submitted. Mr. Kelly was appointed to make arrangements with Mr. Callaghan for the care and preservation of the bridges on the Indian River, south of Warsaw, in running through the logs of the Messrs. Rathbun. It was moved by Mr. White, seconded by Mr. Crowe,—That no action be taken by the Council, in the matter of the dispute between George Read, Esq., and James Dewart, respecting the north east lot 12, con. 8, Dummer.—Carried. Orders were given for the following amounts:

Robert McCracken, sal. as Collector...	$60 00
Widow Campo, charity...	20 00
G. Payne, jr. timber for bridges...	20 22

A by-law to appoint pathmasters, poundkeepers, and fence-viewers was passed. The Council adjourned to meet in old Town Hall as a Court of Revision, on the 1st of June next.

Preparing for an Attack.

In consequence of threats made in Ottawa to blow up the eastern block of the Parliament buildings the Dominion authorities have thought proper to ask for police aid from other cities. Detective Hodgins and Constables Geddes, Verney, Patton, and Cuddy have been sent from Toronto in response to this request. On the arrival in Ottawa they inspected the underground passage in the Parliament buildings, and have had permission granted them to enter the buildings and Rideau hall at all hours of the day and night. The night-watch furnished by the Dominion police has been doubled, and every precaution is being taken to prevent the possibility of trouble. Detective Hodgins had an interview with Col. DeWinton in reference to some suspicious circumstance which took place at Government House recently.—*Mail.*

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) ARE THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Bushe, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

NORTHWEST COAL.

Precious Metal on the Eastern Slopes of the Rockies.

That coal is abundant not only in the valley of the Souris river, but more or less throughout nearly every portion of the territories west of the 106th degree of longitude west of Greenwich, is now practically certain. In addition to what was done by the geographical branch of the department, extensive explorations, with a view to the discovery of coal, were undertaken by private individuals in the course of the past season, and the result has been to confirm all that was previously conjectured in regard to its abundance and great commercial value. The fact that 800 applications for coal locations, each of 320 acres, have been recorded in the department in the past twelve months, is an evidence of the extent to which public attention is directed to this valuable element in the industrial wealth of the Northwest. It has been thought expedient in the public interest to reserve from ordinary sale and settlement, and set apart for coal mining purposes, the Dominion lands in several townships at different points in the territories. These reserves, which will probably be enlarged and added to in the future, consist of tracts, varying in area, situated respectively near the sources of the Souris river, at Medicine Hat Coulee on the South Saskatchewan, east of Fort McLeod on the Belly river, and a tract on the Bow river between the eighteenth and twenty-second ranges of townships west of the fourth meridian. It is meditated, in accordance with the provisions of the regulations submitted for the approval of Parliament, to offer during the coming summer some portion of these lands for sale, so that due preparation may be made to furnish fuel to incoming settlers. The eastern slopes of the Rocky Mountains give promise of being almost, if not altogether, as valuable for deposits of the precious metals as their western slopes have proved to be. Numerous applications are being received for the privilege of exploring for and mining gold and silver, and regulations designed to encourage the prosecutions of these explorations and operations will be laid before parliament, for approval, during its present session.—*Winnipeg Sun.*

Convict Cunning.

A convict in the Kingston penitentiary has made a most ingenious attempt to secure his liberty. It is the custom of convicts when they enter their cells after supper to pull the door behind them until the lever falls into the socket. The guard, on making the usual inspection to see that all the doors were closed and every man in his cell, found one door open, but saw the inmate, as he thought, sitting beside his bed with his hand up to his head. The guard spoke, but received no answer. Thinking the convict was sick, he entered the cell and touched him on the back, when the figure fell over on the floor. The official found he had been addressing a stuffed man, where the convict was he did not know. An alarm was given, and the safety bell, which is rung when all is safe, was kept quiet. A search was instituted, when the missing culprit, who had seen that his disappearance had been noticed, came walking out of the tailor shop and gave himself up. He had repaired to that spot to don a suit of civilian's clothes, and when all was quiet he intended scaling the walls and making himself scarce. It appears that he utilized the straw in his bed-tick to stuff the figure which he had left in the cell.—*Mail.*

Attempted Murder.

Another attempted murder by a veteran of the British army, named Smith, has occurred in Montreal. This time it was by stabbing his wife with a knife, and the alleged cause is the same that instigated Jones against the disturber of his peace. The wound is troublesome, and will confine the woman to the hospital for some time, but her medical attendants say it is not dangerous. Both parties in this affair bear indifferent characters, being only too well known to the police authorities for their reckless and depraved habits. They had two children at the time of the stabbing on the city's funds in the general hospital. The scoundrelly husband, who is a confirmed loafer and drunkard who will not work, went to see his offspring on the day of his violence in a state of intoxication. He had to be turned away by an official of the establishment, after frightening the poor children by telling them he intended to put their mamma out of the way. The tender little things made piteous appeals to their brutal and unnatural parent not to kill mamma. Such depravity is very sad to mention.—*Mail.*

Probably a Murder.

On Saturday evening James O'Brady, known as "Irish Brady," hostler at McCartney's hotel at Thamesford, came to the bar-room drunk and asked Geo. Allan, who was tending bar, for a drink. Allan refused and O'Brady retired to bed, where he seems to have thought the matter over, and about 1 o'clock Sunday morning again came down stairs. Going behind Allan with a heavy poker he hit him a tremendous blow on the back of the head, knocking him to the floor and breaking in his skull. The bystanders, enraged at the attack, made a rush on O'Brady, who was knocked down and badly beaten. Both men were taken to bed and Dr. McWilliams, the only medical man in the village, sent for. He was found to be away from home and no medical aid was obtained before noon on Sunday, when he returned. As soon as he found the state Allan was in, he sent immediately for two other medical men to Ingersoll. It is said that Allan cannot live, as his brains are protruding.

Perishing in Flames.

At eleven o'clock on Monday night the post office at Kamouraska, Quebec, was totally destroyed by fire, together with a barn and hangard—nothing was saved. A sister of the postmaster perished in the flames. It was with the greatest difficulty that the registration office, which was an adjoining building, was saved. The cause of the fire is not known, but it is supposed to have originated from a defective chimney.

Catarrh cannot be cured by any local remedy. It is a deep-seated and constitutional wrong-being, the tendency of which is to lay the whole respiratory economy in ruins. The Fountain of Health will reach the seat of this malady.

In the well-known libel suit of McLean against the Buffalo *Evening News* the jury last evening returned a verdict for $20,000.

The Fountain of Health cures Catarrh, Rheumatism, Scrofula, and all humours, such as Blotches, Pimples, Old Sores, Ulcers, and all obstinate diseases of the Skin and Blood; this it does by its power to cleanse the blood.

In the New York Senate last night the Niagara Falls Park State bill was taken up, and after debate was ordered for a third reading.

Headache, Biliousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

At the assizes in Brampton on Monday the jury gave the Rev. Mr. Beatty $300 damages against the woman Leischman, whose slanderous statements recently made such a sensation.

Bret Harte in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. Gray's Syrup of Red Spruce—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Mr. O'Connor Power intends bringing before Parliament a scheme proposing the expenditure of £5,000,000 in Ireland for the promotion of home colonization, provision being also made for optional emigration.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

DISCHARGED.

Thursday, April 12.—John Reardon, who was charged by John Newton with raising a disturbance in his house on February 27th, was discharged.

VAGRANCY.

Adam Dobbin was charged by James McWilliams with being a vagrant. He has been an inmate of the gaol for some time, and was returned for two months,

CHARGE OF STEALING.

Mrs. Margaret Bookhout charged James Campbell with stealing goods belonging to her. He elected to be tried by the Magistrate.

The evidence of the complainant showed that Mrs. Bookhout lived in Mr. Campbell's house, and that they lived near each other. She owed three months rent, at four dollars a month, and Mr. Campbell came into her house and spoke of taking things to pay the rent. Afterwards he took some clothes off a line, and then Mrs. Bookhout had him arrested.

The Magistrate held that there was no intention on the part of Campbell to steal. He had a right to take the goods, only the act should be followed by certain legal formalities, and he had not been allowed a reasonable time to do this before he was arrested. He therefore dismissed the case.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

Daily Evening Review

FRIDAY, APRIL 13, 1883.

THE Hamilton *Tribune*, in an editorial on what it calls its "Catholic Vote Correspondence," unblushingly admits the theft of the documents, and does not deny the forging of parts of them. Then it exultingly boasts that it is safe from punishment for its infamous crime, because the thief it employed cannot be prosecuted without bringing disgrace upon his innocent family. It would be hard to decide which is greatest, the criminality of this impudent boaster, or his cowardice in shielding himself from the consequences of his crime by such an unmanly defence.

BEHIND THE TIMES.

WHILE the Lindsay *Post* knows all about who is to compose the Meredith Administration which is to take the place of that of Mr. Mowat at no distant day, it was, up to Friday the 13th inst., at least, entirely ignorant of the fact that the previous Saturday's Ontario *Gazette* contained the appointment of the notorious S. S. Peck to the "judgeship" of the provisional county of Haliburton, and whose Superior Court town is the same as that in which the *Post* is published. Come, friend *Post*, there is no use trying to ignore this Peck appointment. It will come up, and you will have either to defend or condemn it.

The Golden Eye.

The work of fitting up the steamer Golden-Eye for the season's work was commenced this morning.

An Accident.

This morning an employee in Mr. Britton's stave factory, on Harvey street, had the thumb of his right hand accidentally cut off at the first joint, in the machinery.

Lost and Found.

A boy named Turcotte, about eight years of age, caused some excitement in the western portion of the town to-day, by seeking half a day of recreation. He left his home early in the morning, before breakfast, and went up the creek to the quarry with a comrade to gather wood. It was not known where he had gone, and his mother soon became very anxious about him, and her anxiety increased as the hours passed by. The creek runs near the lad's home, and as the swollen waters looked savage enough to swallow several careless little boys, it was feared he had fallen into it and had been carried away by the current. A search was instituted, but of course it was fruitless, and shortly before noon the boy returned, like a veritable Tom Sawyer, relieving the anxiety of his friends; but he was not as bad as the piratical Tom, as he was unaware of the excitement and grief he was causing at home.

Railway Notes.

Mr. Leonard has again commenced work on the Ontario and Quebec railway bridges at Norwood. It is thought that the abutments will be ready for the iron work in two weeks.

The Port Hope *Guide* has the following:—

> "Mr. Barnett, the New Mechanical Superintendent of the Midland Railway, in order to reduce expenses, has made arrangements with the G. T. R. at Belleville for the necessary light repairs that will be required to be done at that point of the Grand Junction branch. All the machinery in the shops at Belleville has been removed to Port Hope, and the foreman and his assistants transferred to the shops here."

Mr. Hugh D. Lumsden, of Toronto, engineer of the Ontario and Quebec Railway, is at the Oriental Hotel.

Speaking of the visit of the deputation to Ottawa in regard to the Midland Harbor, the Port Hope *Times* says:—

> "The Directors' car of the Midland Railway conveyed the deputation to Ottawa, and the polite attention given to the party by the representatives of the Company, Mr. A. White, the popular and able Traffic Manager, and the gentlemanly and accomplished Chief Engineer, Mr. Macklin, and others, secured the comfort and enjoyment of the trip by all participating in it."

ACCIDENT ON THE GRAND TRUNK.

A Brakeman Run Over and Almost Killed at Belleville.

Special to the Review.

BELLEVILLE, April 13.—At 2.30 this morning, as a freight train was going west, about a mile from the Grand Trunk station, Henry Hicks, a brakeman, who was stretching the bell-rope, fell between the cars. Four cars and the van passed over him, cutting off his right hand and left foot and inflicting several other serious injuries, from the effects of which his death is certain. The unfortunate young man is aged twenty, and is a resident of Colborne. He has been but a short time on the road.

THE PHŒNIX PARK MURDERS.

Brady, One of the Conspirators, Sentenced to be Hanged.

By Telegraph to the Review.

DUBLIN, April 13.—In the Brady trial a clerk named Kennedy swore that he spoke to Brady, who was accompanied by a girl, in Dominic street, between seven and eight o'clock on the evening of the Phœnix Park murders. He recognized the girl as Annie Meagher, who testified yesterday. She was with Brady that evening. The witness also met Brady the following day. The latter declared that the murders would ruin the cause of Ireland. The defence announced that they would call no other witnesses. The argument of the Counsel for the defence and prosecution followed. The Judge charged the jury. The jury retired and soon returned and announced that they found Brady guilty of the murder of Lord Frederick Cavendish and Mr. Burke. Brady was sentenced to be hanged. Dr. Webb moved for the arrest of judgment. He alleged that under the crimes Act the jury was not legally formed.

New Instrument's.

Now that summer is almost with us and the citizens are once more enjoying their evening walk, they will no doubt be pleased to hear of the arrival of the last lot of new instruments ordered by the Peterborough Band, they having reached here on Thursday, from England. The band are now the fortunate possessors of a complete new set of the finest instruments manufactured, being of the celebrated Besson make. The last lot is composed of 1 Bb. bass, 1 alto, 2 b cornets, and 1 b cornet, which was expressly manufactured for Mr. Millar. The latter instrument is said to be a very superior one, and in the hands of a cornet player like our bandmaster (who is second to no b flat cornet player in the Dominion), will give a delightful effect to the music played by this band. The band room has been refitted and put in splendid shape for the members, pidgeon-holes for each individual's music, and racks for the respective horns, having been put in and other improvements made. We notice Mr. A. Freeman has returned to town and resumed his place in the ranks of the band. His B. flat cornet will have a telling effect in the band, as his capabilities as a musician are decidedly above the average. With their new instruments, and such musicians as the band is commposed of to play them, we bespeak for the band even a more prosperous season they have hitherto had. Their Friday night open-air rehrarsels will soon be announced, and a grand promenade concert to defray the expenses of the last lot of new horns, is among the events of the near future.

Fatal Fire Near Wellesley.

On Tuesday morning about 7 o'clock the alarm of fire was heard, and found to be from a farm house about a mile from the village of Wellesley, Ont., belonging to John Hamel, who, with his wife, was absent, and left his five children at home, the oldest boy being about ten years old. When they awoke they found the house on fire, and the boy picked up courage to secure three of the smaller children, but a boy of about four years old would not come out, and consequently was burnt to the bones. When picked up nothing could be indentified of the child. The others when free ran over half a mile to the next house barefooted, with no clothes on but their shirts.

THE DEFENCE.

DUBLIN, April 12.—The counsel for the defence argued for an hour in support of an *alibi* for the prisoner James Mullett. Another prisoner made a statement to the Crown on the strength of which, it is said, he will be accepted as an approver.

BRADY CHEERED BY THE MOB.

DUBLIN, April 12.—As Brady was conveyed back to prison there was hisses for Carey and cheers for Brady. The demonstration was so marked that two offenders were arrested.

ONLY TELLING HALF.

DUBLIN, April 12.—In his evidence Carey said he had been informed by Mallon, chief of the detectives, if his evidence was given freely, and was confirmed by that of other witnesses, he and his brother would be pardoned. This statement caused a sensation. His attention being called to trifling details discovered lately regarding the movement of Fitzharris' cab in the park on the day of the murder, and which are not given by the witness, Carey remarked that he so far only answered questions put by the counsel, and could, if unrestricted and if desired, tell a great deal more. The cross-examination was very severe and searching. The counsel for the defence said Carey's hands were steeped in blood. Carey said "That's not true." Subsequently Carey said he was only telling half what he knew, and was more friendly to the counsel for the defence than the counsel himself was aware of. He told the latter to bear in mind that he was not telling everything he knew against his client.

FRIDAY, APRIL 13, 1883.

A GANG OF FORGERS.

Of course the *Examiner* eagerly seizes upon the opportunity of circulating the partially stolen and partially forged document, which were first published in the Hamilton *Tribune* as a correspondence between Sir Charles Tupper and Mr. J. A. Macdonell.

It is just what might be expected that the *Examiner* would assist in a crime, of a nature similar to those already committed by itself. They say "It is only the first step that costs," and our contemporary being already guilty of forgery on its own account, is quite ready to join with this gang of forgers, if an opponent can thereby be injured. It will be remembered how our contemporary either committed or knowingly uttered a forgery published by it on June 8th, 1882, being a letter purporting to be written by "A man from Galway" in the Township of Ennismore, though, as our contemporary well knew, it was not written in Ennismore by a man from Galway, and such signature and address were forged in order to give colour to a false and dishonest attack upon ourselves.

It will also be remembered that on a previous occasion, our contemporary forged or uttered the forgery of a pretended extract from a parliamentary report, absolutely reversing the figures in the genuine document thus falsified, so as to make it appear that the Reeves and influential farmers had condemned the National Policy, when in reality they had expressed themselves in favour of it. On yet another occasion it similarly reversed the figures in a forged paragraph professing to be an extract from the market reports of the REVIEW, so as to make us say exactly the contrary of what we did say.

To any one incredulous as to such baseness and criminal depravity existing in a position where some degree of morality better than that of a gaol bird might be expected, we may say that we can show the proof of these forgeries to anyone who is curious.

We observe that though the *Examiner* professes to extract these stolen and forged Tupper-Macdonell documents from the Hamilton *Tribune*, in reality it takes them from the Toronto *Globe*, for it gives the Toronto, not the Hamilton version, and they have an important difference in one paragraph of the obviously forged letter attributed to Sir Charles Tupper, though the forger stops short of affixing another man's name to the fabrication. The public has been informed by a Reform journal that one set of these forgeries was in the hands of the *Globe* staff, and it is possible that the *Tribune* procured from the same forger another set, in which he made a slight but material variation.

And these are the weapons adopted by the "party of purity,"—theft and forgery. We cannot see that a thief who steals a five dollar bill and then raises it to ten dollars, or the man who obtains it from the thief and forger and then passes it, is one jot worse morally than the *Tribune*, *Globe*, *Examiner* and the rest of the gang.

In allusion to the stolen and forged documents recently published the Hamilton *Tribune* says:—

> "They cannot be both. Either they are stolen or they are forgeries! If they are forgeries, then they need not have been stolen! If they were stolen then they need not have been forged, and are consequently genuine!"

Queer logic this. Let us put a case. Supposing someone was imprudent enough to leave the *Tribune* writer alone in a room where there was a $5 note lying loose. It would not be much stretch of the imagination to presume that he would steal it, nor further to imagine that he might raise it to a higher denomination and then pass it. Would not the note then be both stolen and forged, and would he not stand in the same relationship to it that he does to this stolen and forged correspondence, for the receiver and utterer are admittedly as bad as the thief and forger? To complete the parallel it would only be requisite that he should have been in the room by the indiscreet connivance of one of the family, and that he should threaten, if prosecuted, to blight the good name of herself and her relations.

THE Newmarket *Era*, an independent Reform journal, quotes our remarks as to the name of Mr. Gordon Brown, the survivor of the brothers who made the *Globe*, being struck from the list of the Directors of that journal, and appends the following:—

> "Let us add—most of those now on the directorate who occupy more or less prominence and distinction, attained that distinction through what the *Globe* did for them in the days of the Browns."

THEFT, FORGERY AND FALSEHOOD.

The following letter, written by Mr. John A. Macdonell to the *Mail*, shows plainly the nefarious character of the plot, recently framed by some leading Reform organs and apparently endorsed by the remainder, to attack the Macdonald administration by means of stolen and forged letters:—

SIR,—My attention has been called to the fact that some partly stolen and partly forged correspondence, alleged to have passed between Sir Charles Tupper and myself in the year 1879 on the subject of the purchase of the old Bank of Upper Canada building from the Government of Canada by the Christian Brothers, of which his Grace the Archbishop is in this diocese the head, has been published in a Hamilton paper, ostensibly as a special telegraphic despatch from its Ottawa correspondent. The fact that such a message passed over the wires obviates the necessity of characterizing the special correspondent in question as a very special liar. The remark, however, will apply with equal force to the editor of the journal in question, who published the correspondence knowing it to be false in material part if not in whole.

The gravamen of the attack which has been based upon the letters in question is that Sir Charles Tupper is alleged to have repeated in writing to me a statement alleged to have been made by Sir John Macdonald to him, that "no reliance is to be placed on the breed," *i. e.*, the Irish Catholics. Sir Charles Tupper is perfectly aware that I am myself a Roman Catholic, Sir John Macdonald is aware that my mother was an Irish Catholic, and both know that my then partner, Mr. Foy, is a Catholic Irishman. It is not probable, therefore, that Sir John Macdonald would make use of such an expression, intending it to be repeated to me, and that Sir Charles Tupper would put in writing, thereby insulting us both, who, in addition to being political friends, were also the partners of his son. The fact that Sir John Macdonald never made the statement to Sir Charles Tupper, that Sir Charles Tupper never repeated it to me, never wrote, and that I never received such a letter, disposes somewhat effectually of the material portion of the scandal, and leaves the stigma of so dastardly a statement with the newspaper which first gave currency to it. I live in hope, however, that the Irish Catholics will survive it.

So far as my letter is concerned, I can only say that it was a private letter, and that I kept no copy of it. How far it is true, and how far untrue, I cannot at this distance of time say. It contains one expression, however, which certainly is not mine. The term "gent" is, I am informed, commonly used by that class of persons of whom the editor of the paper in question is typical. I never made use of it in my life, in conversation or in writing, and would not, therefore, have applied it to the distinguished Archbishop of Toronto.

It is apparent, therefore, that in addition to the black dishonor of reading and then publishing a private letter, these people have committed both theft and forgery.

I am at a loss to know to what to liken them. To compare them to pirates would be injustice to the latter, for they at least have one merit—they sail under their proper colors. Perhaps the best plan is not to attempt a comparison.

Yours, &c.,
JOHN A. MACDONNELL.

CAMPBELLFORD.

A PUBLIC PARK.—The *Herald* has started an agitation for a public park for the village. Campbellford has a good band, and if it had a park the villagers could revel in bliss during the summer.

HYMENEAL.—The *Herald* says that two worthy bachelors have been united in the "holy bonds," within the past few days, Mr. E. A. Bog, manager of the Standard Bank, who was married in Toronto, last week, to Miss Vanston; and Mr. J. F. Cleary, merchant, who took for his partner in life, on Tuesday last, Miss Nealon of Seymour east. Marriage ceremony in the Catholic Church.

ANOTHER BATCH WESTWARD.—James Kennedy, son of Mr. D. Kennedy, returned to Manitoba on Monday of this week. Mr. H. Huycke went away on Monday of this week, to take up his abode at Turtle Mountain, North-West Territory. On the same train, bound for destinations in Manitoba and the North-West, were Messrs. Courtland and R. Sloggett, Wm. Russell, James and David Milne, Wm. Duncan and Benjamin Bennett, all of Seymour Township. A large number of acquaintances assembled at the station, to bid them good-bye and wish them a safe journey.

NORWOOD.

GLASS BROKEN.—A dog jumped through a window in Messrs. Clark & McWilliam's store and broke a large light of glass.

NORWOOD'S WANTS.—The *Register* says that Norwood wants a barber, a fire-engine, and a first-class photographer.

CHANGED HANDS.—Mr. Jno. McMillan has sold part of his property on Peterborough street on which Mr. D. Foster's livery stable is situated, to Mr. Chas. J. Searight. We believe Mr. S. intends erecting a large cabinet shop thereon as soon as the weather becomes favorable.

NAVIGATION ON PETERBOROUGH STREET.—A number of "the boys" launched a skiff, built for service on Lake Scugog, on the water on Peterborough street on Monday evening, and enjoyed a pleasant sail on our principal business street. The "oldest inhabitant," even with his "freshest yarn," is now decidedly below par.

FAREWELL SUPPER.—On Wednesday evening, 4th April, Mrs. S. J. Griffin was met by a number of her friends at the residence of Mr. P. P. Cope, and tendered a farewell supper. A very enjoyable time was spent, and the company were unanimous in expressing their regret at the departure of the guest and in wishing her all prosperity in her new home in Dakota.

Brakeman Cut in Two.

A Canada Pacific brakeman named Roy was killed while in the performance of his duty. His train had stuck on the heavy up grade at Sault au Recollet, and he was sent back to torpedo the Quebec train, which was momentarily expected. While prostrate at his work the Quebec train came flying along to mount the grade, and cut him in two. Death was instantaneous. A coroner's jury returned a verdict of "accidental death."

The worst Scrofulous Sores, the most indolent Tumor, and the most foul Ulcer known, may be cured by the combined use of Burdock Bitters and Burdock Healing Ointment. Ask your Druggist for these infallible remedies.

A SECRET.—The secret of beauty lies in pure blood and good health. Burdock Blood Bitters is the grand key that unlocks all the the secretions. It cures all Scrofulous diseases, acts on the Blood, Liver, Kidneys, Skin and Bowels, and brings the bloom of health to the pallid cheek.

"BLOOD WILL TELL." A face adorned with Pimples, Boils, Blotches &c., is not a particularly pleasant sight, and invariably betokens an impure state of the Blood. Dr. Carson's Stomach Bitters free the system from all gross humours, renders the Blood Pure and Cool, aids digestion and gives a healthy appetite. For sale by all Druggists in large Bottles at 50 cents.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old enduring skin disorders [illegible] however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. [illegible]

SULPHOLINE LOTION; a FLUID [illegible] is the most potent remedy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as advised on [illegible]. In two or three days the effect will become apparent in a diminished appearance of the malady, a [illegible] tendency to [illegible], and complete [illegible] of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)
THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health [illegible] climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC renews and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting disease, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. (next size, 11s.) Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

LUMBERING.

Messrs. R. & G. Strickland have cut this season in their limits in Hindon and Oakley, over [illegible] cubic feet of timber for the Quebec market. They have also cut about 10,000 from the same limits.

COUNCIL MEETING.

The regular meeting of the Village Council of Lakefield was held in the Council Room on Monday evening last, the 9th instant.

Present,—Councillors K. Urquhart, T. J. Nelson, Wm. Cox, and J. R. McWilliams.

Councillor Cox occupied the chair in the absence of the Reeve.

The minutes of the former meeting were read and confirmed.

Moved by Councillor McWilliams, seconded by Councillor Nelson,—That the following accounts be paid and that the Reeve's order for the several amounts be issued, viz:—

[illegible]	$1.75
[illegible]	15.00
[illegible] of Lumsden's Hall	6.00
[illegible], wages	8.10
A. Mowry, wages	8.75
Edward Parton, wages	7.50
Total	$51.85

—Carried.

Moved by Councillor Urquhart, seconded by Councillor McWilliams,—That the Council be appointed as a committee of the whole to take into consideration the purchase of a part or the whole of Mr. John Hull's lot for the extension of [illegible] street from [illegible] street to the corporation line, with power to act.—Carried.

Moved by Councillor Nelson, seconded by Councillor McWilliams,—That the Clerk be authorized and required to engage a P. L. S. to survey and lay out all streets in dispute under the direction of the Council.—Carried.

Moved by Councillor McWilliams, seconded by Councillor Urquhart,—That the Council as a committee of the whole with power to act, examine the streets and walks of the village on the 23rd instant, with a view of making the necessary repairs and improvements.—Carried.

Moved by Mr. Nelson, seconded by Mr. McWilliams that a by-law to raise money for current expenditure be now read a first time.—Carried.

Moved by Councillor McWilliams, seconded by Councillor Urquhart that a by-law to raise money for current expenditure be now read a second time in committee of the whole.—Carried.

—The Council went into committee of the whole on the By-law, Councillor Urquhart in the chair. The committee reported the by-law authorizing the Reeve and Treasurer to raise the sum of $700 for the use of the School Board and Council.

Moved by Councillor Urquhart, seconded by Councillor Nelson that a By-law to raise money for current expenditure be read a third time and passed, engrossed, sealed and signed by the chairman and clerk.—Carried.

Moved by Councillor Urquhart seconded by Councillor McWilliams, that a By-law be passed at the next meeting of this Council for the purpose of compelling property owners to keep the sidewalks in front of their property passable during the winter season and to have them thoroughly clear of snow or ice not later than April 15th in each and every year. After considerable discussion this motion was allowed to stand as a notice of motion till the next meeting of the Council.

Moved by Councillor Nelson, seconded by Councillor McWilliams, that this Council do now adjourn.—Carried.

SPECIAL MEETING.

A special meeting of Young Canadian L. O. Lodge No. [illegible] will be held on Tuesday evening next the 17th inst., at 7.30 o'clock.

SCHOOL BOARD MEETING.

The regular monthly meeting of the Lakefield Public School Board was held in the Council room, Lakefield, on Tuesday evening last, the 10th inst.

Members present,—Messrs. Caldwell, Sanders, Gordon and Wilson.

Upon motion of Mr. Sanders, seconded by Mr. Wilson, Dr. Caldwell took the chair, in the absence of Mr. Galvin, the Chairman of the Board.

The minutes of the last regular meeting were read and confirmed.

Communications were received from Mr. August, Head Master, re teaching singing in the school and procuring necessary books. From Mr. Shearer, acknowledging testimonial, and from Miss Tanner, asking an equalization of salaries.

Moved by Mr. Sanders, seconded by Mr. Goodes,—That the communication of Miss Tanner be received, but that at present there appears nothing to justify this Board in changing its previous determination in the matter of salaries.—Carried.

Moved by Mr. Sanders, seconded by Mr Wilson,—That the communication of Mr. August be received and laid over for future consideration.—Carried.

Moved by Mr. Wilson, seconded by Mr. Gordon,—That Mr. Shearer's acknowledgement of testimonial be received.—Carried.

Moved by Mr. Gordon, seconded by Mr. Wilson,—That the following accounts be paid and the chairman issue his order for the amounts, viz:

E. R. Cunningham, for wood	$14 10
H. Sage, cutting and splitting wood	1 50
Total	15 60

—Carried.

Moved by Mr. Gordon, seconded by Mr. Sanders,—That the Village Council be required to borrow $300 and place the same at the disposal of this Board, for current expenditure.—Carried.

Moved by Mr. Wilson, seconded by Mr. Gordon,—That this Board do now adjourn.—Carried.

A Bloody Affray.

In Windsor, Ont., on Monday evening, a bloody affray took place in the street between five drunken desperadoes from Detroit and a couple of police officers, backed up by a dozen citizens. Knives were used freely, and finally revolvers were drawn. A Windsor constable was fatally injured, and half a dozen of those assisting him more or less hurt, one coloured man probably fatally also. Three of the roughs were captured and locked up.

Illegal Leases.

Lease holders of land on the Seneca Indian reservation near Salamanca in New York State have been ordered to vacate their locations within thirty days, the lease obtained from the Indians being illegal. Some of the settlers have been in possession thirty years, and have made extensive improvements. United States troops will enforce the order of the Secretary of the Interior.

A Convict's Suicide.

Matthew Allen, a convict in the Kingston penitentiary, committed suicide by jumping from [illegible]. He was a stout, powerful man, weighing about 190 lbs. His skull was fractured and his back was broken. He was aged about 35 years, and one of the quietest men in the insane ward. He was morose, and seldom spoke. He had, previous to his confinement in the insane ward, been in the clothing department of the penitentiary.

DON'T PULL IT.—Use Newton's one minute toothache cure. Relief at once; of all dealers, 15cts.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. For sale by John McKee, druggist.

A HEARTY RECOMMENDATION.—Jacob A. [illegible] of [illegible], states that he has taken Burdock Blood Bitters with great benefit in a lingering complaint, and adds that he would gladly recommend it to all.

HEADACHES, Biliousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer, despairing of a cure, can be remedied by that unfailing regulator and unfailing tonic—Burdock Blood Bitters. Ask your Druggists for proof.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to take long walks in the pine woods of California for the benefit of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY'S SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants,—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches, in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific R.R. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

The Cells.

The police cells were occupied last night by four tramps. No arrests were made.

A Fight.

In a fight with a man named Murphy, on Hunter street on Thursday evening, John Dwyer had his head badly cut. He was thrown on the sidewalk, where he lay for some time, until a gentleman picked him up and got him started home.

For the Drives.

Fifty men left Peterborough on Wednesday, hired by Messrs. Campbell & Huston to work on the drives in Muskoka. This morning thirty-five more men departed for the same territory, hired by Mr. Dollar to drive on the French river. The wages paid are from $20 to $25 per month.

Entertainment.

An entertainment was given on Thursday evening in the Orange Hall by members of McWilliams Lodge of True Blues. There was a good attendance. The programme consisted of music, singing and farcical dialogues, and the audience was well pleased with the entertainment.

Rabbit Shooting.

As the law now stands, says an exchange, rabbits, owing to their herbiverous propensities, may be shot at any time of the year, and have been classed on the list of destruction with English sparrows. Hares must not be destroyed between the 1st of March and the 1st of September.

The Weather Probabilities.

The weather to-day has been very fine, the sun shining brightly. The probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Fresh winds, followed by moderate gales from the eastward; fair to cloudy weather; stationary or higher temperature.

The Methodist Conference.

Revs. Dr. Sutherland, President of the Toronto Conference; John Bredin, chairman of the Cobourg District; John Shaw, chairman of the Peterborough District; Dr. Jeffers, chairman of the Belleville District; H. S. Matthews, of Millbrook, and T. W. Jeffrey, met in the Methodist Church, Port Hope, this week, to consider certain matters pertaining to the meeting of the Toronto Conference, which held here in June next.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlors.

Photographic.

Mr. Jas. McClelland's Studio will be closed until Saturday next, April 14th.

Payment of Pensions.

Major Milligan, Staff Officer of Pensions, was in town to-day paying their pensions to the pensioners of the district.

The Minority Government.

The Toronto *Mail* of Thursday, April 12th, says:—

"We republish this morning a statement prepared by one of the ablest and brightest of the Conservative press, the Peterborough REVIEW, showing the relative strength of the vote cast for the two parties in the provincial elections. The mode adopted in the REVIEW gives every doubtful point to the Opposition, yet leaves the Liberal-Conservatives in a majority of 2,146 on the total vote polled. The REVIEW explains its own figures so briefly and clearly that we need only call the attention of our Liberal-Conservative contemporaries to them. They should be republished in every paper supporting Mr. Meredith in the righteous fight against Mowatism in Ontario."

Polar Exploration.

It should not be forgotten that Capt. Cheyne, R. N., is to lecture this evening in Bradburn's Hall on the Franklin Search Expedition, the lecture being illustrated by beautiful views shown by the oxy-hydrogen lime light. There are many reasons why this lecture should be well attended. Capt. Cheyne is a Canadian who has attended rank and high repute in the Royal Navy, he himself took an important part in the expedition he describes and therefore can narrate it with the graphic details of an eye witness, and the lecture with its illustrations is prepared in such an attractive form as to give general satisfaction to his audiences. The efforts of the Peterborough Mechanics' Institute to procure such interesting and instructive lectures should also be encouraged.

Capt. Cheyne's Lecture.

On Thursday evening Capt. Cheyne gave the first of his two lectures in Bradburn's Hall, the subject being "Egypt and the Recent War." The Rev. V. Clementi, Vice-President of the Mechanics' Institute, introduced the gallant lecturer in appropriate terms, and spoke of the successful efforts of the Institute to afford the people of Peterborough opportunities of hearing lectures of this high class. Capt. Cheyne prefaced his lecture by saying that he had much desired to visit this town again, as on the last occasion he could not do justice to the illustrative views on account of the destruction of his instrument by the railway baggage master whom he severely condemned. He promised his audience that they should be better satisfied this time, and he was as good as his word, the oxy-hydrogen lime-light displaying with beautiful effect the views which were thrown upon a large screen. Starting from England in a five frigate, one of the old fashioned "wooden walls," he took the audience with him past Gibraltar and Malta to Alexandria and thence to Cairo, Thebes, the cataract of the Nile, Suez and the great canal. Besides general views of the cities and other localities, there were presented beautiful illustrations of many of the wonders and curiosities of that strange land, the pyramids both inside and out, the Sphynx, the Memnon Vocal Statute, Obelisks, pillars, ruined temples, mummies of deceased Pharaohs, and living Arabs and Egyptians, with interesting explanatory remarks by the lecturer. The second part was a graphic account of the recent war in Egypt, some of its striking incidents by sea and land being described and illustrated very effectively. The portraits of the commanders of the sister services, Sir Garnet Wolseley and Sir Beauchamp Seymour, seemed to attract special interest, as did that of the Duke of Connaught. The representation of a life-like portrait of Her Majesty closed the lecture. Afterwards Capt. Chenye showed to a few who remained one or two of the illustrations of his former lecture to show how different the views looked with his very effective apparatus instead of the makeshift he had to employ then, and certainly they look beautiful under these more advantages circumstances. To-night the lecture will be on the "Search for Sir John Franklin," a subject with which Capt. Cheyne is quite familiar, having been one of the most prominent among the gallant band of Arctic explorers.

A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

GRAY'S SYRUP OF RED SPRUCE GUM.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

ADVERTIZING !

One of the most trying problems which a business man meets with, is that respecting advertizing. In what channels, and to what extent is it profitable to advertize. Also what kind of advertizing should he adopt. It is certainly necessary for a merchant to bring his business promimentally before the public, and as far as possible, to let them know that he has something that will be to their advantage to call and inspect.

Daily Evening Review

SATURDAY APRIL 14, 1883.

We have to apologise to the Lindsay *Post* for inavertently stating that it was ignorant of the appointment of S. S. Peck to the Bench for Haliburton. We looked for any remarks in our contemporary's editorial or general news columns, but found none. We overlooked in the local column, printed in the smallest type it uses, a bare quotation of the appointment from the Ontaro *Gazette*, with the appended remark: "This in one of the offices Mr. Peck held before he entered the political arena," not quite accurate, by the way, for it was a reward for political services. The main fact remains that the *Post* (though as it seems aware of it) had no comments to make *editorially for or against* this disgraceful appointment.

THE BUTTER TRADE.

To the Editor of the Review.

SIR,—Will you kindly permit me to caution farmers against using tinnets or tubs made from MAPLE WOOD, for packing butter in. This wood injures the butter that comes in contact with it, and renders it undesirable for shipping to Europe.

Tinnets of any kind of wood should be used as little as possible. THE BEST PACKAGE IS AN ASH FIRKIN WITH A SLIP COVER. Butter is worth more in firkins than in tubs.

I would recommend butter makers to use Liverpool fine dairy salt, and be careful not to over salt. They have plenty of salt air in England, and consequently do not relish salt butter.

LAKEFIELD.

From Our Own Correspondent.

T. V. C.

The T. V. C. survey party, which was engaged during the winter taking soundings, etc., between Lakefield and Hall's Bridge, has been disbanded, having completed their work. Several of the men came to Lakefield on Thursday last.

MUD.

The street leading to the station in Lakefield is simply a disgrace. People in trying to get to the station have literally to wade through the the mud. Mr. Cox promised publicly about three months ago to give the street to the station as a present to the village, but for some reason it seems impossible to get him to carry out his promise. The Council have the lumber bought and are ready and waiting Mr. Cox's pleasure to put down a good sidewalk to the station, but the Council will not build a sidewalk on private property. Mr. Cox gets many a blessing while people tramp through the mud.

LECTURE.

Com. Cheyne lectured in the P. C. A. Hall in Lakefield on Monday evening last on the "Great Search for Sir John Franklin," and on the following evening on "Egypt." These lectures were well attended and very much appreciated.

NAVIGATION.

The water between Lakefield and Young's Point is clear of ice and has been for about a week. Your correspondent has been informed that the steamer Fairy will begin to run to Lakefield on Monday next. Mr. Chalmers has a quantity of lumber and shangles to tow to this village for the purpose of shipment.

THE WHEAT TRADE.

LONDON, April 13.—A few months ago large quantities of American wheat were bought for forward delivery. The purchasers assumed that the continuous bad weather would cause prices to rise. A decline, however, of five shillings per quarter occurred, and heavy losses have thus been caused in London and the provinces, and a number of failures are probable.

NEW GUINEA.

LONDON, April 13.—A commission has been sent from Queensland to take possession of the island of New Guinea, as a dependency of Queensland.

THE KHEDIVE'S BROTHERS.

ALEXANDRIA, April 13.—The two brothers of the Khedive, whose vessel was overdue, have arrived safely.

ANARCHIST INCENDIARIES.

PARIS, April 13.—The military bakehouse at Bordeaux was destroyed by fire to-day. The conflagration is believed to be the work of Anarchists.

POLITICAL APPOINTMENT.

PARIS, April 13.—M. Cascot, Minister of Justice under Gambetta, has been appointed President of the Court of Cassation. The appointment is regarded as an indication of the tendencies of Prime Minister Ferry.

SUICIDES AT BELGRADE.

BELGRADE, April 13.—The widow of Col. Marcovich, who attempted in October to shoot King Milan, has committed suicide in prison. Helen Knittuani, connected with the same offence, also committed suicide in prison recently.

ARREST OF SOCIALISTS.

PARAGUE, April 13.—Five Socialists were arrested to-day. The arms and documents found upon them were seized.

PUBLIC RELIEF WORKS.

LONDON, April 13.—At a meeting to-day of the Liberal members of the House it was resolved to urge upon the Government the necessity of undertaking without delay the public relief works.

A WAR IMMINENT.

HONG KONG, April 13.—The French Minister arranged the Tonquin affair satisfactorily last December, but the new French Minister rejected the arrangement. The result will probably be a long and costly war for France. China will use her best troops, which will probably be commanded by European leaders, and will, perhaps, have the assistance of a Russian ally.

EARTHQUAKES.

PANAMA, April 5.—There have been fifteen earthquakes on the Isthmus during the past week. The most of them were slight. At Turbo on March 5th a shock destroyed seven houses.

AMERICAN.

EMBEZZLEMENT,

NEW YORK, April 13.—It is reported that arrests will be made on account of the alleged fraud in the finance department in connection with the bond coupons. It is said that the Mayor and Comptroller have ascertained the names endorsed on some warrants paid on the second presentation of the coupons. The Mayor says the embezzlement will probably reach $150.000.

THE WAR CLOUD.

NEW YORK, April 13.—The large orders which have lately been given by the Chinese Government to German manufacturers for arms, ammunition, and vessels of war, have attracted general attention, and other facts which have just come to light, show that China has begun in earnest to prepare for war with Japan. It is the attributed resolution of the Chinese Government to establish a permanent naval station in Corea, in order to prevent the Japanese from settling in that region. There has been a continuous increase of armaments on the part of Japan, and notably the augmentation of the Japanese navy this year, at an outlay of $3,000,000, and it is evident that a collision with that nation will eventually prove unavoidable.

MURDER.

DECATUR, Ala., April 14.—Jesse Campbell murdered Wm. Sakes and his wife with an axe. They accused him of slandering Sakes' wife.

HIGH WATER.

WATERTOWN, N. Y., April 14.—The Black river is higher than since the flood in 1869. The ice carried off the flumes and dam at Carthall.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

SOMETHING PLAIN! Cold in the Head is the seed, the Nasal Cavity the field, Impure Blood fertilizes the soil, and the growth is first Catarrh then Bronchitis, Consumption and Death. One to four bottles of Fountain of Health is warranted to cure ordinary Catarrh.

A SPRING MEDICINE. During the winter months the system accumulates poisons which become dangerous as the warmer weather sets in. Do yourself the justice to take one bottle of Fountain of Health to cleanse the blood.

JOHN HODKINS, 226 Wilton Avenue, Toronto says:—"I have been able to discontinue tobacco by using Fountain of Health, and feel much better every way. It has also cured two of my daughters of Dyspepsia."

THE POPE'S DECISION.

LONDON, April 14.—It is stated that the Pope has decided that no priest who participated in the agitation in Ireland shall become a Bishop.

AFTER "NUMBER ONE."

LONDON, April 14.—Several detectives have gone to the United States for the purpose of tracking Tynan, "Number One," identified by Carey from a photograph.

BRADY PROTESTS HIS INNOCENCE.

DUBLIN, April 14.—When the jury in the Brady trial announced the verdict yesterday a murmur went round the court room, and Brady, who had been singularly composed, turned ashen pale. When asked if he had anything to say, he responded in a loud, clear and firm voice, "I am not guilty of the charge the informers have sworn on me. These men would swear away the life of any one to save their own." After the sentence was pronounced, Brady, who had recovered his composure, with solemn vehemence protested his innocence. The crowds in the street received the announcement of the verdict with disfavor. There was no serious demonstration.

THE TORPEDO BOAT.

JERSEY CITY, N. J., April 14.—The missing Fenian torpedo boat is at Pam.

THE PRINCESS LOUISE.

NEWPORT, April 14.—The British frigate Tenedos, with the Princess Louise on board, arrived this morning.

RHODE ISLAND LEGISLATURE.

PROVIDENCE, April 14.—The Legislature adjourned *sine die* yesterday.

PHIPPS AT HOME.

PHILADELPHIA, April 14.—Phipps, ex-Superintedent of the Alms House, charged with forgery, and extradicted from Canada, arrived here yesterday,

THE CHARGES AGAINST HILL.

WASHINGTON, April 14.—It is understood that Secretary Folger will appoint a committee to investigate the accusation against Architect Hill. Folger yesterday permitted Hill to plead on the charges. Hill says the charges are mostly stale and do not trouble him in the least.

SILVER DOLLARS.

WASHINGTON, April 14.—The accumulation of silver dollars on the Pacific coast is taxing the storing capacity of the sub-treasurer. There are now forty-five million dollars stored there and the amount is increasing. In the east there seems to be a good demand for these coins just now.

STRIKE OF SPINNERS.

PHILADELPHIA, April 14.—The woollen and cotton manufacturers yesterday decided that they could not advance the wages. A strike today promises to close all the spinning mills in the city, which will throw a thousand out of employment.

GETTING COMMON.

COLUMBIA, S.C., April 14.—Ex-Chief Justice Welliard, Counsel for the prosecution in the election cases, received a letter threatening death unless he withdrew from the case. Welliard makes light of the matter.

O'DYNAMITE; ROSA THREATEND.

NEW YORK, April 14.—O'Donovan Rosa has received a letter from London signed by the Chief of the Black Cross, threatening him and his followers with death. Rosa, last month, sent a letter to President Arthur, requesting a contribution to the skirmishing funds. He received no answer.

LAW BREAKERS PUNISHED.

NEW YORK, April 14.—Three hundred violators of the excise law were punished here during the past week.

FATAL RESULTS OF A FALL.

NEW ORLEANS, April 14.—Will Stevens, a prominent politician, died yesterday from injuries received by being thrown from a buggy in the Central Park, New York, six years ago.

FATE OF A GOLD MINER.

NEW YORK, April 14.—Frederick Wagner, whose body was found in Colorado, was not a relation of the late Senator, but was a merchant here, who became deranged about California.

CLOSED BY THE SHERIFF.

HUNTINGDON, Pa., April 14.—The Barre forges were closed by the sheriff. Judgments for $40,000 have been entered.

DAMAGE BY ICE.

MONTPELIER, Vt., April 14.—An ice gorge gave way yesterday, carrying off one hundred feet of the bridge of the Montpelier and White River railway, and one hundred and sixty feet of the Sabine trestle bridge. Other damage was done.

BANKRUPT AND ARRESTED.

ATLANTA, April 14.—The establishment of Gillett Bros., tobacconists, has closed its doors. Liabilities, $62,000; assets, $20,000. Many of of the firm's books are missing. One of the brothers was arrested.

A BEACHED STEAMER.

NORFOLK, Va., April 14.—The steamer City of Merida was hauled off the beach at Lambert's Point yesterday on her way to the docks at Portsmouth, where her cargo is being discharged.

STEAMERS ARRIVED.

NEW YORK, April 14.—The Neckar and Elbe from Bremen, the Lydian Monarch from London, and the State of Georgia from Glasgow, have arrived.

CHARGES OF CRULTY DENIED.

NEW YORK, April 14.—The Heytian Consul denies the story of cruelty to mulattos in Hayti. He says they have a fair share of office. Two of the President's Ministers are mulattos, and his wife is white. The Consul discredits the report that the revolutionists defeated the Government troops. He received a despatch saying that the Government expected the rebels to evacuate Miragoane every moment.

THE PRESIDENTIAL PARTY.

ST. AUGUSTINE, Fla., April 14.—The preparations for the reception of President Arthur are complete. The party will be met at the wharf by a large assemblage.

Daily Evening Review

SATURDAY, APRIL 14, 1883.

THE BOTHWELL ELECTION.

The motion of Mr. Hawkins, M. P. for Bothwell, for an inquiry into the conduct of the County Judge in refusing him a recount, though it could not be entertained in that shape nor while legal proceedings are pending, afforded him an opportunity of refuting from his place in Parliament the calumnious attacks that have been made upon him. But now the more unscrupulous of the Opposition journalists have commenced a fresh attack upon him for censuring a judge, and for discussing the subject while before the courts. It may be remarked that the "Reformers," on the platform, through the press, and in Parliament, have been far more bitterly attacking the Returning Officer, who is an election official, as the County Judge is in this matter, and is as much entitled to protection from attack in the execution of his office. They also have no scruples about anticipating the legal decision in the case, though they object to any discussion on the other side.

The Ottawa *Free Press*, with its usual untruthfulness and want of honesty when it wishes to injure an opponent, says:—"A recount before the County Judge was demanded and obtained. This resulted in the Judge declaring Mr. Mills elected." This is a wilful falsehood, for the Judge refused the recount demanded by Mr. Hawkins, and declined to count the ballots. We *simply state the fact* without discussing whether the Judge was right or wrong, as we have no means of knowing whether the demand for the recount, as provided by law, was made with the requisite formalities. That is a question to be settled by the courts. Neither will we discuss whether a returning officer, whose duty it is to sum up the statements of the deputy-returning officer shall accept or reject such statements as are unsigned. We believe that it is a point that has not yet deen decided by a higher court, and both the practice of returning officers and the decisions of County Judges appear to differ in regard to it. We may remark, however, that in the Maritime Provinces a judge has thrown out votes for a similar reason, and has returned the candidate who obtained only a minority of the ballots, without any complaint from the opposition, but then this representative of a minority sits upon their side of the House.

COWARDICE AND WEAKNESS.

The *Globe* is and always has been great on what it is pleased to call "Bleu Dictation." Just now it sees and can see nothing but Bleu dictation, in the prospective defeat of the Orange Bill as introduced by Mr. John White. Because Sir John Macdonald does not choose to force his views upon his French following by making Orange incorporations a ministerial question, the *Globe* cites it as another evidence of "cowardice and weakness" on his part. It may be, but the *Globe*, if it had any consideration for the feelings of its particular friend—Mr. Mowat—ought to be the last one to cry "cowardice and weakness" under such circumstances. Has the *Globe* forgotten, or does it think the people of Ontario have forgotten Mr. Mowat's double dealings, cowardice and weakness a few years ago with regard to this same Orange Incorporation? When did Sir John Macdonald play the double game of trying to please both parties by first personally supporting a measure, and then behind the curtains strangling it, as Mr. Mowat did? When did Sir John play the coward by pronouncing a measure just and reasonable, and then at the back of some power behind the throne advise the crown to withhold its consent thereto as Mr. Mowat did? And when did Sir John in all his "weakness" even present the spectacle which poor Mr. Mowat is continually presenting before the country, whether it be in the matter of an Orange bill, the appointment of a Registrar, or the appointment of a Stipendiary magistrate. The *Globe* if it were wise would forbear referring to subjects calculated to call for comparisons which are anything but complimentary to its friends and especially to the cowardly and weak Government which now rules in Ontario. We say cowardly, because it stands trembling on the brink of an election which it fears and cannot avoid to obtain a responsible Treasurer, and weak, because it no longer represents a majority of the people, and must, in a few months at furthest, drop out of an existence which was obtained and has been maintained by trickery and corruption.

A fresh lot of choice patterns in Prints, to arrive this week at Turnbull's. See them.

THE GLOBE ON THE RAILWAY COMBINATIONS.

As we have before had occasion to remark, the "cheek" of the *Globe* in relation to the progress of railway combination in Canada is positively amazing to behold. Ever since the amalgamation event of last year it has been *shedding crocodile tears over the destruction of* competition and the establishment of monopoly in Ontario. And yet our contemporary cannot point to a single utterance of its own in opposition to railway monopoly measures, when these were pending before the Local House, during the session of 1882. A little over a year ago Mr. Mowat and his colleagues were engaged in pushing through a batch of railway bills, the combined effect of which it was obvious must be to strengthen the Grand Trunk and give to it a larger and more sweeping control than ever before, at the same time crippling the Great Western in such a way as to precipitate that long talked of and much dreaded event—amalgamation. Did the *Globe* then raise its voice against what was going on; did it say even a word in opposition? Not a word. Instead of speaking up for the public interest, as it would most certainly have done, and to some purpose, had such a thing been attempted in former years, "the great *Globe*" was mum. Like a heathen idol, eyes it had but it could not see, a tongue it had but it could not speak—on this question, at all events. Let those among us, and there are many such, who know what the *Globe* was in days gone by, imagine what it would have said, and what the effect of its opposition would have been, had fusion or measures leading openly toward it been attempted then.

The great amalgamation event of 1882 is quickly to be followed by the still greater combination event of 1883. With the accomplishment of the latter, competition will be extinguished and combination made supreme from Quebec to the Pacific ocean. This gigantic result being now at hand the *Globe* falls to raving against Sir John and his colleagues, because they did not retain the Canada Pacific railway as a government work. As we had to say yesterday, *for the creation in Canada*, both in and out of parliament, of a public opinion opposed to the ownership of either railways or telegraphs by government, the *Globe* is mainly responsible. In this respect the *Globe's* influence, efficiently exercised on the wrong side of the question for over a quarter of a century, has done more than all other influences combined to mislead public opinion. That our great national highways, which ought to be, are now in the hands of companies, is the fault of the *Globe* mainly. It is futile to say that Sir John did this, or that Sir John did that, in the matter. Can anybody point to a single utterance of Mr. Mackenzie's, or of Mr. Blake's either, in favor of government ownership of railways or telegraphs? Or was the *Globe* ever known, before a very recent date, and after the deed had been virtually done, to give forth anything of its own looking even remotely towards such ownership? Certainly not.

It is a melancholy fact that opposition to the National Policy, and to government ownership or control of railways, which is logically part and parcel of such policy thoroughly carried out, comes nearly altogether from the Reform side. From the Conservative side there have been occasional signs of a disposition to take the popular view, and to assert the power of the commonwealth in this matter of controlling railways and telegraphs. But from our Reform leaders the idea has so far got nothing but ridicule and discouragement. "Would you really propose the absurdity of the government owning and operating telegraph lines?" was what Mr. Mackenzie said to Sir Charles Tupper about a year ago—or words to that effect. There is no Reform leader in the House of Commons, of whom it can be proved, from his speeches, that he does not hold substantially the same view as Mr. Mackenzie on this question. Ask any one of them to-day what his ideas are of the sphere and duties of government with regard to either railways, telegraphs, or the protection of home industry. Unless he has decidedly changed of late, he will have to admit that in his view the duty of government is to let all those severely alone, except so far as enforcement of contracts and protection of life and property are concerned. Without admitting themselves to have been in the wrong these reform leaders of ours cannot "go back" on the doctrine of noninterference which they have learned from their trusted oracles—the English professors of the "dismal sciences." On main questions concerning the public welfare they have gone fatally and fatuously wrong, and have therebi well deserved their present exclusion from power in the Dominion. And the *Globe* will make nothing by trying to put upon Sir John the blame for having carried out its own doctrines. A pity it is that he ever carried out any such doctrines at all; but it does not belong to the *Globe* to say so.—*Toronto World, (Independent Reform).*

THE VETO POWER.

THE Newmarket *Era*, an independent Reform paper, has the following sensible remarks as to the Veto power:—

"Just now certain sections of the press are calling for a revision of the British North America Act, in the sense of preventing the Central Authority exercising a veto power in reference to Provincial Legislation. We think it would be a sorry day for the Province to allow such a change. Those who favor such a constitutional change, are simply advocates of Provincial sovereignty—nothing more. In Ontario one of the strongest arguments in favor of doing away with an Upper House, at the time of Confederation was the assurance the veto power vested in the Central Authority gave to the Province; and without this power, all the Provinces would be subject to the whims or caprice of political partizans to a dangerous degree."

THE
PACIFIC NORTHWEST!
Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the *Northern Pacific R.R.*, the *Oregon Railway & Navigation*, and the *Oregon & California RR. Co's* and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

MILLBROOK.

From Our Own Correspondent.

PRESENTATION.—At a public meeting held in the lecture-room of the Methodist Church on the evening of Tuesday, April 3rd. Mr. Wm. Might an earnest and faithful worker in the Sabbath School for the last twenty years, filling the responsible position of Superintendent for the last fourteen years with credit and satisfaction to the school, was presented with a complete set (6 volumes) of Clark's Commentary and two volumes of Foster's Cyclopedia of Prose Illustrations, beautifully and substantially bound, as a mark of appreciation and respect, accompanied by the following address, on the occasion of his resigning the Superintendency of the Sabbath School, his business requiring him to take up his residence in Peterborough:

DEAR SUPERINTENDENT.—We, the officers, teachers and members of the Bible Classes of the Methodist Sabbath School, Millbrook, having learned with profound regret that you intend leaving Millbrook, to take up your residence in Peterborough, feel it our duty to give you some tangible expression of our esteem and love.

During the fourteen years that you have had charge of the Sabbath School, important changes have taken place. With the increased accommodation afforded, you have seen it grow into one of the largest and most flourishing in the county. You have also seen a large number of the scholars covenanted to God, and having grown up to manhood and womanhood are at the present time useful members of the Methodist Church.

We feel assured that the tender memories and pleasant associations in connection with the Sabbath School will cheer you in hours of difficulty, toil and trial.

We ask you to accept these books, not for their intrinsic value, but as a small mark of our sympathy and affection. Permit us to express the wish that you may be equally as useful in the Sabbath School at Peterborough as you were here, the hope that you may have happiness and prosperity in your new home and the prayer that when your work for the Master is finished on earth, you may triumphantly pass home to the realms of the blest, where the surging waves shall cease to roll.

Signed on behalf of the Officers, Teachers, and members of the Bible Classes,

Committee { SARAH DEAN,
T. B. JENKINS,
W. G. BERRY.

Millbrook, April 3rd, 1883.

Mr. Might was completely taken by surprise, and replied in a few well-chosen remarks. He carries with him the best wishes of the friends he is leaving.

ENGLAND.

A YOUNGER brother of the late John Brown has been appointed to the post of confidential servant to Queen Victoria.

CARDIFF has been selected by the arbitrators in preference to Swansea as the site of the University College for South Wales.

THE statue of Lord Beaconsfield in London will be unveiled by Sir Stafford Northcote on Thursday next, the anniversary of the famous leader's death.

The House of Lords has reversed the judgment of the lower courts condemning Bradlaugh for sitting and voting in the House of Commons not having taken the oath.

MRS. FOSTER, the mother of the British Cabinet Minister, founded the first society in the world for the prevention of cruelty to animals.

DR. ANDREW CLARK has, we learn, again warned Mr. Gladstone against imprudent excess in making long speeches. He is permitted to speak briefly, but not to indulge just now in orations, however much he may be tempted to do so.

IT is said that nearly 7,000 persons made application to the Dean of Canterbury for tickets of admission to the enthronement of the Archbishop, although it would be impossible to seat more than 2,000, and only 500 could find standing room in the nave of the cathedral.

MR. HUGH GLADSTONE, a member of the firm of J. M. Gladstone & Sons, Liverpool, committed suicide in that city by taking strychnine. Mr. Gladstone's father, accompanied by his brother John (father of the Premier), went to Liverpool from Leith and established a large business there. The firm has always been much respected, and no reason is yet assigned for the rash act of the unfortunate man whose death is now recorded.

ONE of the largest brewers sitting in the British House of Commons has said that the falling off in the revenue derived from the duty on exciseable liquors will be very much larger than is really expected. In fact, to use the hon. gentleman's own words, "It will astonish us all." He ascribed this to Sir Wilfred Lawson—a most significant circumstance, and what he himself designated "a wave of temperance," the like of which has never been known in British history.

Handwriting.

An interesting discussion on the subject of handwriting, took place in a libel suit now being tried at Detroit. Experts in writing gave evidence showing the means by which they determine whether letters are written by the same hand or not. They say that a person will probably vary his hand a little every day, or that the letters written on the same day may appear to differ, but that the general superstructure of the letters is the same. There are slight differences indeed in one's hand every time he writes, but there is a general drift of style which distinguishes it. The angle, the formation of the letters, the spacing, the placing of the punctuation marks, are all characteristics not to be overlooked. Every man's writing has an individuality, and it is claimed that it is possible to form a pretty accurate estimate of one's character by his handwriting. The experts also profess to be able to classify hand writing as regards nationality. The handwriting of Americans differs from that of English or Scotch writers, and the Canadian is more like the English than the American.

It was not Alive.

The St. Louis *Republican* tells of an amusing incident that occurred in a church of that city a couple of Sundays ago. A gentleman was the owner of a very unique pin in the shape of a large black spider, the body of which is a large amethyst. This ornament was presented to a young lady friend and she wore it on her dress to service. It so happened, and unfortunately, that a young gentleman near her perceived the life-like ornament on the young lady's dress and to all appearances crawling up to her face. A look of terror overspread his features, and without any hesitation he endeavoured to brush off what to him appeared a tarantula. He missed it and brushed at in again, when the almost audible smiles of a few who witnessed the gentleman's heroic endeavours attracted the young lady's attention. He became very red in the face when he discovered his mistake, and it will be a long time before he attends that church again.

MRS. S. W. CURRY, of 95 Richmond Street, Toronto, says: "Pain in the Back, Liver Complaint, and Billious Headache were my ailments. I got prompt and permanent relief by using one bottle of "Fountain of Health.'

Daughters, Wives, Mothers, look to your health! The many painful and weakening diseases from which you suffer, dispairing of a cure, can be remedied by that unfailing regulator and unfailing tonic—Burdock Blood Bitters. Ask your Druggists for proof.

"BLOOD WILL TELL." A face adorned with Pimples, Boils, Blotches &c., is not a particularly pleasant sight, and invariably betokens an impure state of the Blood. Dr. Carson's Stomach Bitters free the system from all gross humours, renders the Blood Pure and Cool, aids digestion and gives a healthy appetite. For sale by all Druggists in large Bottles at 50 cents.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

India's Population.

The population of India numbers 253,891,821 persons, occupying 1,392,588 square miles, and inhabiting over 43,500,000 dwellings. It is massed in 714,707 towns or villages, and is made up of 129,941,851 males and 123,949,970 females. Religiously, the population is divided as follows: 187,937,450 Hindoos; 50,121,585 Mohammedans; 6,426,511 native worshipers, who represent the aborigines of India; 3,418,884 Buddhists; 1,862,634 Christians; 1,853,426 Sikhs; and 1,221,890 Jains. Out of all these hundreds of millions only 203,000 persons speak English.

To arrive this week at Turnbull's, a choice lot of Polka-Spot Dress Goods, in Black and Colors.

One lonely tramp occupied the police cells last night.

Railway Notes.

The Lindsay *Warder* says that the traffic on the Midland has increased considerably lately, and many special trains are now on the road bringing down lumber and produce for the eastern markets.

Busy already on the Mantle Department, at Turnbull's. Why? Because the public are realizing that we keep good materials and never turn out any misfits.

The Market.

The attendance on the market this morning was not large, the roads not being in a good condition for farmers who live a distance from the town to come in. Eggs did not appear to be scarce, but they were high, the price being about 17c. and 18c. a dozen, and butter sold as high as 20c. per pound.

Look Out for the Dust.

Although the ice is not yet all off our streets, yet the dust is already beginning to fly and a very few days more of this weather will require the watering cart to keep it under control. We trust those having to do with the watering of George street are bearing this in mind, and will be ready to turn out as soon as required.

New Store.

A new book and stationery store has been opened by Messrs. J. Salisbury & Co., with an entirely new stock of books, stationery, fancy goods and notions, in the store on George street opposite Messrs. Munro & Alexander's. They have commenced on the principle of selling cheaply, and a call on them will repay anyone for the trouble taken.

Flemming Again.

The Toronto *Mail* says that there is now every probability that Flemming, of "Fund W." notoriety, will leave Toronto for Montreal in the course of a very few days. The *capiases* on which he is held in durance vile will be set aside, and he will leave to inspect the interior of Montreal prison. His friends believe that his detention in Montreal will be of short duration, as they claim that the laws of Quebec cannot interfere with his personal liberty any more than those of Ontario. It is expected that one of the Toronto detectives will accompany him on his excursion.

Good and reliable Goods in Ducks, Denims and Cottonades, always in stock at Turnbull's.

Photographic.

Mr. Jos. McClelland's Studio will be closed until Saturday next, April 14th.

Being Overhauled.

Mr. Hilliard, finding the old process of milling behind the times, is now having the Blythe Flouring Mills overhauled and refitted with the roller process for grinding flour.

The Weather Probabilities.

The weather to-day is mild and partly cloudy, with cooler winds. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Strong winds and moderate gales from the east and veering to the south and south-west; generally fair weather to-day; local rain to-night, and on Sunday higher temperature.

Heavy Cashmeres for Mantles, Plain and Brocaded, at Turnbull's.

A Jewish Journal.

We have received another journalistic curiosity, *The Daily Jewish Gazette*, published at No. 44, East Broadway, New York, and printed wholly in the Jewish character. It is said to be the only Jewish daily journal in the world. Besides the quaint appearance due to the unaccustomed characters, it has another noticeable peculiarity due to the Oriental fashion of reading from left to right, so that the first page is what we would take for the last, and the fourth where we would place the first. We cannot, unfortunately, give an opinion of its merits.

Butter Packing.

The letter which we publish in another column from Mr. Claxton on the subject and the style of butter packages should be attentively considered by farmers and dairymen, who sell butter for export. As the butter on arrival in England is turned out and the outer portion is tasted to judge it and fix its price, it is obvious that the very part thus tried is that which is subject to taint from the material or deterioration from the admission of air through faulty construction, and the whole package is classed with this damaged portion. The price paid to our farmers by butter exporters is necessarily governed by the prices received, so it is a matter of immediate importance to the producer. A little care may put money in his pocket.

Remember Turnbull's first choice Kid Gloves are warranted.

Laconics.

—Fine weather.

—"Sun fish" on the corners.

—Get the watering cart ready.

—Not a large attendance on the market.

—Maple syrup on the market this morning. Sweet and a little dear.

—Is Peterborough to have a Cricket Club this season? Who will make a move?

—The noon Midland and Grand Junction trains brought in a large number of passengers.

—The high water carried away some "Missing Link" ties from the bank of the creek to-day.

—The Waterworks Company have filled holes where the ground sank over the water mains put in by them. More such holes need attention.

—The millinery stores are in full blast. Many heads of families may feel inclined to transpose that sentence before the season is over but they must try to keep their temper.

Personal.

The many friends of Mr. Samuel Belcher will regret to learn that he died on Easter Sunday morning, at his residence in Ireland. He made warm friends here during his visit to Peterborough two years ago, who will sympathise with his sons and other relations on the loss they have experienced.

The Very Rev. Vicar-General Rooney, of Toronto, arrived on the noon train. He will assist at the ordination services in St. Peter's Cathedral to-morrow morning.

Mr. W. J. Morrison, of Winnipeg, called on us this afternoon, and reports business booming in the North-West. The gold mines are attracting much attention, and the immigration is likely to be large this season.

The Port Hope *News* says that the Rev. W. A. V. Pattyson, junior pastor of the Canton Circuit, son of the Rev. W. M. Pattyson, has been granted a few weeks leave of absence to recuperate, after his arduous duties during the winter. He was the recipient of a handsome presentation previous to his departure by friends in the circuit. He is in every way worthy of the confidence and esteem in which he is held.

Those who desire neat and stylish Millinery at close prices, should visit Turnbull's Show Rooms, which are now open.

Arctic Explorations.

On Friday evening Capt. Cheyne, R. N., delivered a lecture in Bradburn's Hall on the subject of the search for Sir John Franklin. The lecturer was himself attached to several of the most important of the expeditions sent out for this purpose, and which even succeeded in finding some traces of the great explorer, though the final discovery was achieved by the private expedition under the command of Sir L. McClintock, R.N., which was dispatched by the devoted Lady Franklin. Very clear and carefully prepared maps enabled the audience to follow intelligently the various explorations, and beautiful views, portraits and other illustrations brought vividly before the eyes the thrilling tale of brave adventures and hair breadth escapes, as graphically narrated by an eye witness. He was enthusiastically applauded when he expressed the hope that he would, by means of his projected use of balloons, yet plant the British flag at the North Pole. We hope that he will live to do so, but that in the meantime the Canadian Government may see its way to utilize his ready services and his great experience as an arctic explorer and surveyor by entrusting to him the congenial task of making a thorough survey and examination of Hudson's Bay, our Canadian Mediterranean, and so render feasible than means of egress for our great Northwestern territory.

Arrested.

John Adlim was arrested to-day on a complaint laid by his wife that she is afraid of him. He will appear before the Magistrate on Monday.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlour.

Immigration.

There arrived in the Dominion during the month of March 8,596 immigrants, and during the first three months of the year $20,646, against 26,191 in 1882. There remained in the Dominion during the first three months of this year 11,609 immigrants, against 9,844 in 1882.

A Life Saving Present.

Mr. M. E. Allison, Hutchinson, Kan.: Saved his life by a sample Trial Bottle of Dr. King's New Discovery, for Consumption, which caused him to procure a large bottle, that completely cured him, when Doctors, change of climate and everything else had failed. Asthma, Bronchitis, Hoarseness, Severe Coughs, and all Throat and Lung diseases, it is guaranted to cure. Trial Bottles free at Taylor & McDonald's Drug Store Large size $1.00.—1

Oh, What A Cough!

Wil you heed the warning. The signal perhaps of the sure approach of that more terrible disease Consumption. Ask yourselves if you can afford for the sake of saving 50 cts., to run the risk and do nothing for it. We know from experience that Shiloh's Cure will Cure your Cough. It never fails. This explains why more than a Million Bottles were sold the past year. It relieves Croup, and Whooping Cough, at once. Mothers do not be without it. For sale by J D. Tully.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used more and more favourably to [illegible]. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury). THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

ADVERTIZING !

One of the most trying problems which a business man meets with, is that respecting advertizing. In what channels, and to what extent is it profitable to advertize. Also what kind of advertizing should he adopt. It is certainly necessary for a merchant to bring his business promimentally before the public, and as far as possible, to let them know that he has something that will be to their advantage to call and inspect.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

ON THE LOOK OUT.

CORK, April 16.—Three gun boats are cruising off here. It is stated that they are waiting to intercept a vessel from America carrying infernal machines.

THE DYNAMITE CONSPIRACY.

LODNON, April 16.—Bernard Gallagher, arrested in Glasgow and brought here, was arraigned this morning on a charge of being connected with the dynamite conspiracy prisoners. The Crown counsel stated the prisoner was a brother of Dr. Gallagher and had frequently been visised by him and Curtain, another prisoner. Gallagher was remanded until Thursday. The prisoner before leaving Glasgow informed the police that he was confident of his ability to clear himself of the charge.

THE PHILADELPHIA MEETING.

LONDON, April 16.—Mr. Parnell announces that if the projectors of the Irish convention at Philadelphia will postpone the meeting until autumn he might be able to attend it. He therefore advises that the convention be deferred until fall.

A THREAT IN VIENNA.

VIENNA, April 16.—The President of the Reichrath has received a letter stating that an attempt will be made soon to destroy the Parliament building. The structure is now surrounded by mounted police, who will arrest suspicious persons.

A BANK ROBBED.

NEW ORLEANS, April 16.—The watchman of the Metropolitan Bank was seized and gagged last night. The Bank vault was blown open and robbed. The safe inside the vault was undisturbed. The cashier says the amount stolen will not exceed two thousand.

CURLEY ON TRIAL.

DUBLIN, April 16.—The trial of Daniel Curley, indicted for participation in the murder of Lord Fredrick Cavendish and Mr. Burke, began this morning. Webb asked to be released from defending the prisoner. After the case of Curley is disposed of, the Judge said he would consider the request.

AMERICAN.

KEENE'S RACER.

NEW YORK, April 16.—James R. Keene denies that his racer Foxhall has gone amiss. He says the horse is backward in training.

CREMATION.

NEW YORK, April 16.—The Cremation Company here has already secured subscriptions for two thirds of the amount necessary to erect a chapel and furnace.

A MEXICAN PRINCE.

NEW YORK, April.—Prince Augustine de y Turbide, grandson and only living decendant of the former Emperor of Mexico, and who was adopted by Maximilian, arrived here yesterday from Europe. He prosesses republican principles.

RESIGNED.

ST. PAUL, April, 16.—Lieut.-Col. Jeyes, of the 18th infantry, who captured Sitting Bull and his band, has placed his resignation in the hands of General Terry.

FATAL HOTEL FIRE.

ALBION, Iowa, April 16.—The Atlantic House was burned yesterday morning. Reams, the proprietor, was badly burned. The charred remaims of Wm. McGill, Charles Quinlan and Carl Speigle were found in the ruins.

IMMIGRATION.

NEW YORK, April 16.—The tide of immigration to this port has recently assumed large proportions. Yesterday 4,460 immigrants arrived. That number is the largest of any one day since early last season.

ROBBED IN A STREET.

NEW YORK, April 16.—Manuel Diag was robbed of six hundred dollars by three footpads in Broome street on Saturday night.

RIVERS AND HARBORS.

WASHINGTON, April 16.—Up to June 30th last the government expended nearly $9,500,000 for improvement of rivers and harbors in the State of New York. From 1817 to 1866 the state itself expended nearly $98,000,000 on its canals. Of the government money nearly $5,500,000 was required to furnish harbors for inter-state and inter-national commerce, which feeds the canal system. It is stated that it will require one million dollars to improve the Hudson river and three millions to improve New York harbor. The expenditures of the government has been insignificant on account of river and harbor improvements in the Empirestate, which benefit merely state or local commerce.

DAMAGE BY A STORM.

ST. PAUL, April 16.—Considerable damage was done to buildings in southern Minnesota during Saturday's storm.

A DIVINE DEAD.

COLUMBIA, S.C., April 16.—The Rev. Dr. Geo. Howe, President of the Southern Presbyterian Theological Seminary, died yesterday, in his 82nd year. He was one of the most eminent theologians in the Presbyterian church, and the author of several religious works.

GOING TO SHUT DOWN.

CINCINNATI, April 16.—All the distilleries in Cincinnati district will shut down or limit their operations to one-fifth the capacity after July 1st. At present the distilleries are running at forty per cent. of their capacity.

THE CUT OF PINE.

ST. PAUL, April 16.—The work in the pineries is practically suspended. The total of cut logs on the streams above here is 435,000,000 feet, or fifty millions in excess of any former year.

OBIT.

ST. PAULS, April 16.—Leonard Hodges died here on Saturday, aged sixty. He was well known in this country and Europe as a writer on forestry.

THREATENED STRIKE.

PHILADELPHIA, April 16.—The cigar makers who are members of the Knights of Labor yesterdy resolved to demand an increase of one dollar per thousand. They declare that if the increase is refused they will strike on the first of May. It is claimed that many manufacturers will accede to the request.

AGGRESSIVE WARFARE.

NEW YORK, April 16.—An Irish Confederation, made of six delegates from fourteen County Associations, was organized for benevolent purposes. Last night they elected a delegate to the convention of Irish Societies at Philadelphia in April 26th. The delegate was instructed to vote in favor of "aggressive warfare."

HIGH WATER.

SARATOGA, April 16.—The high water in the Hudson river to-day has compelled the abandoning of trains on the Schuyltrville and Mechanicsville division of the Boston, Hoosac Tennel and Western Railway. The manager hopes to have trains running to-night.

MORE POST OFFICE FRAUDS.

BOSTON, April 16.—It is stated that Government Superintendent Horgan testified before the agents detailed to investigate the charges of corruption and dishonesty on the part of those engaged in the construction of the extension of the Boston Post Office, that Jno. Fennelly, plumbing contractor, carried men on the pay roll at much higher prices than he actually paid and madea profit of seventy per cent. in furnishing the stock supposed to be used in the building. In the latter matter Horgan says that chief Clerk Parsons assisted Fennelly. Testimony was also given indicating the suspicious removal of books before the investigation opened. Witnesses testified that several loads of costly timber purchased for the building were sent to Parson's residence. Large quantities of sand belonging to the Government were sold to vessels for ballast. Hill foreman of the painters, had timber sent to his house at the Government expense. It is also alleged that much of the work is imperfectly done.

A HAND CAR ACCIDENT.

MAHONOY CITY, Pa., April 16.—The brake of the hand car on which Prof. Levy, the musician, accompanied by twenty men and women were returning here from Delana station, broke yesterday morning coming down a heavy grade. The car rushed along at a terrific speed. When near here many jumped off and were more or less bruised. The car ran a quarter of a miles beyond the station and collided with a horse car, hurling the occupants in all directions. All escaped serious injury, except Levy, who was thrown under the wheels and crushed to death. His body was mangled almost beyond recognition.

A TREMENDOUS METEOR.

FORT WORTH, Texas, April 16.—A despatch from William's Ranch says that at two o'clock yesterday morning a meteor fell on the outskirt of the town, killing several cattle and destroying the dwelling of Martinez Garciap, who with his wife and five children were burried beneath the ruins. The meteor resembled a massive fire ball. There was a shock similar to that of an earthquake. The meteor is still hot and steaming. It is embedded in the earth probably one hundred feet, and towers above the surface seventy feet, and will cover about one acre. The concussion was terrific. Almost every window in the town was shattered. People were hurled violently from their beds, and goods in the store houses were thrown from the shelves. No lives were lost as far as known, except Garciap's, although several buildings fell. The cattle fled in every direction, and the air was filled with sulphurous gas. The wildest confusion prevailed. This is the largest meteor that has ever fallen. It has already been visited by many people. It occasioned great excitement all over the surrounding country.

Excited Thousands

All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.00.—2

Personal ! To Men Only !

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not endure.

MIDNIGHT TELEGRAMS

PANIC IN PRODUCE EXCHANGE.

PARIS, April 14.—A panic was caused on the produce exchange by the death of Biederman, one of the largest oil brokers in Paris. No quotations were made on the exchange yesterday. A general collapse of the market was feared. It is stated, however, that all engagements dropped will be met.

A VICTORY FOR BRADLAUGH.

LONDON, April 14.—Bradlaugh, who with the proprietor and editor of the *Free Thinker*, was charged with publishing a sketch of the diety and blasphemous libels, has been acquitted.

MORE BLOODSHED FEARED.

PANAMA CANAL, April 15.—More bloodshed among the Canal labourers is feared. The government makes no effort to organize a police force, alleging lack of funds. It is suspected, however, that the government fears that the force might be used for a revolutionary purpose. The government refused to let the Canal Company establish a police force.

ARRESTS AT LIMERICK.

LIMERICK, April 14.—Six more men have been arrested on a charge of conspiracy to murder. The arrests were made in consequence of the disclosures of an informer.

"NUMBER ONE."

DUBLIN, April 15.—The mother of Tynan, who has been identified as "Number One," declared to-day that she believed it was true that her son was a superior officer of the Invincibles.

THE DUBLIN TRIALS.

DUBLIN, April 15.—Although true bills were returned against eleven prisoners charged with the Phœnix Park murders, it is believed only seven will be tried on the capital charge. It is stated that Delaney and McCaffrey will plead guilty. Peter Carey will depose on Monday that he was sworn in as an Invincible by his brother. Kelly will be tried after Curley.

TAREATENING A JURYMAN.

DUBLIN, April 15.—After their verdict was rendered against Joe Brady on Friday, the foreman of the jury found a letter at his home making a frenzied appeal for the return of a verdict of not guilty, and warning him that otherwise he would surely be killed.

THE TONQUIN QUESTION.

PARIS, April 14.—Fifteen vessels are waiting at Toulon ready to complete loading stores for the expedition to Annam in the event of the answer to the ultimatum of Captain Kergaradee being unfavorable. It is stated that the new Envoy will submit to the authorities of Annam a new treaty for defining and granting the rights of France. If this treaty be rejected strong measures will be adopted to give effect to the treaty of 1874.

BRAVERY APPRECIATED.

LONDON, April 14.—The committee of the Board of Trade which investigated the loss of the steamer Glamorgan on the voyage from Liverpool to Boston, finds that the Glamorgan was seaworthy and the loss was due to heavy weather and unavoidable. The report commends the efforts of those on the Glamorgan to save the steamer after the captain and a number of others were drowned, and praises the crew of the steamer Republic for rescuing the survivors.

DYNAMITE FOR ENGLAND.

LONDON, April 15.—The *Observer* states that an English vessel with a large cargo of dynamite has sailed from Antwerp for England. The police are cognizant of her movements.

ORDER AND ANARCHY.

ST. PETERSBURG, April 14.—The secret police here and in Moscow are making numerous arrests at night in consequence of the recent strong revival of Nihilist intrigues. On the 4th inst. thirty-nine arrests were made in a house in Wassily Ostraw, where a quantity of explosives was discovered. The newspapers are forbidden on pain of suspension to publish reports of arrests or trials of Nihilists.

ANOTHER HAUL OF PRISONERS.

LONDON, April 15.—It is rumoured that informers have put the police on the track of every known leader who has not yet been arrested, and that another great haul is soon expected. The legal authorities are determined upon making the swiftest possible operation of law in every case. It is probable that in case of another explosion the manufacture and importation of nitro-glycerine and similar explosive compounds will be prohibited entirely.

THE WHEAT AREA.

LONDON, April 14.—The agent of the Department of Agriculture reports a probable decrease in the area of wheat in Great Britain of 15 per cent., and 10 per cent. in France. There is also a reduction of the area in Russia. In Austria and Hungary a full bredth has been sown. The condition of the plant at the present time is not generally very favourable.

AMERICAN.

LONDON TO BE BURNED.

BROOKLYN, April 14.—Patrick McGatey, a prominent Fenian, says they expect to apply the torch to London soon. They have preparations that will not miscarry. They are not to be frightened by the hanging of a few dozen men.

A DYNAMITE HOAX.

BUFFALO, April 15.—The report that a Hamilton detective had made a discovery of a dynamite factory in Buffalo turns out to be a great "sell" on the enterprising reporters of three local papers. There is not the slightest basis of truth in the whole affair.

MR. GLADSTONE'S POSITION.

NEW YORK, April 15.—A special cable despatch to the *World* says:—If Gladstone ever thought seriously of resigning he has reconsidered his determination, and is showing greater vigour that ever, taking more active interest in public affairs. The blunders of the Administration in questions affecting the Transvaal and South Africa generally have drawn upon it severe criticism.

The Rioters Strikers.

The prosecution of the Lingan, C. B., rioters commenced on Thursday. The conspiracy cases will be heard this week. The men are much alarmed, as the evidence against them is said to be so strong that their committal is a foregone conclusion.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. GETTING READY FOR THE FUTURE.

WHILE lustily shouting that Mowat is safe for another four years, to keep up the courage of its friends, and especially that of the Mowat Government, in order to prevent it resigning, instead of waiting to be kicked out, the *Globe* evidently reads the handwriting on the wall, and is preparing for the future, and the roll which it intends to play when in opposition in Ontario, as well as the Dominion.

As an evidence of this, we note the *Globe* declares that "*no government* has a right, any more than an individual, to attempt to either coerce or bribe a constituency!" What a pity the *Globe* and its friends did not find this out before the elections of June and February last. Why did it not instruct Mr. W. R. Roxburgh accordingly, and denounce him for receiving and Mr. Mowat for using the whole power of the Ontario Government to secure his election in East Peterborough last June. This is no mere rumour. Mr. Roxburgh himself acknowledged and boasted of it on the hustings at Norwood, and if it is denied, or attempted to be denied, there are hundreds who heard him make the statement and can vouch for it. But while this is a case in which the evidence is complete and undeniable, everybody knows that the Mowat Government has on every opportunity used its power as a Government to "coerce and bribe" the electors from one end of the Province to the other, and had the *Globe* not a face of brass, and the ostrich-like gift of thinking that nobody can see except through its own eyes, it would not venture on statements which only serve to remind ninety out of a hundred of its readers how far apart are its preaching and its practice of those whom it supports through thick and thin.

ONE OF THE GANG.

EVEN if we had not learned on the authority of a Reform journal that a member of the *Globe* staff was an accomplice of the stealer, if not the forger, of the so-called Tupper-Macdonell correspondence, it would not be difficult to surmise that he, or some one well qualified to take his place is still connected with the *Globe*.

In its issue of April 14th, under the heading of "Contemporary Opinion" the *Globe* says:—

"SIR JOHN'S SURRENDER.

"Peterborough REVIEW:—In view of the shape events have recently taken in reference to the Orange Bill the Ottawa *Free Press* suggests that the motto "No Surrender" be amended by the addition of the words, except to Quebec *Bleus*."

Now this is another of the dirty tricks in which the *Globe* habitually and shamelessly indulges. The intention obviously is to misrepresent the REVIEW as quoting with approval this vile paragraph of the Ottawa *Free Press*. The REVIEW never gave its sanction or publicity to anything so disgraceful. We are not in the habit of thus calumniating the statesman whom the people of Canada delight to honour, nor of wickedly fomenting strife among the constituent portions of this Dominion. It is a dastardly insult to class us with itself and its allies as attacking the people of Quebec because they are French by race, Roman Catholic by religion and Conservative in politics.

We protest against the *Globe* forging our name to its ribaldry whether original or selected, and endeavouring to claim us as accomplices in the fiendish work of setting Province against Province, race against race, and church against church.

Let the *Globe* and its imitators quote such garbage from the Ottawa *Free Press*, if they must follow their own depraved nature, but we object to the defilement of having such companionship falsely attributed to us.

How far is this "Reform" system of forgery, theft and calumny to be carried?

THE MINORITY GOVERNMENT.

WE have now received the official figures for the Muskoka election, the only constituency for which we had not obtained them when we published our careful detailed statement of the Conservative popular majority. The votes for Muskoka were Fauquier, 2,278; Bettes, 2,078, *or a majority* of 200 for the Conservative candidate. This will make our total:—Conservative, 125,817; Reform, 123,722, being a Conservative popular majority of 2,095, after allowing as independent a number of probably Conservative votes. Algoma *alone* now *remains* to be heard from, and it will undoubtedly swell the Conservative majority.

THE PRINCESS LOUISE.

Her Royal Highness's Life Imperilled by Fire—A Narrow Escape.

The Charlestown (South Carolina) *News* publishes the following correspondence from Bermuda, dated the 29th of March:—

"It is not generally known here, that the Princess Louise's life was imperilled by fire, on the night of the 26th inst. The Princess had retired as usual on Monday night, but was awakened about midnight by the presence of suffocating smoke. Once awakened she saw that her apartments were on fire. She aroused the household, and for a time intense excitement prevailed, the servants hurrying to and fro, carrying water to check the fire, and the ladies in waiting, fearing that the Princess had received some injury, added to the confusion by occasional hysterical screams. Once the fire was out, and all were satisfied that Her Royal Highness had not sustained the slightest injury save the severe shock occasioned by the discovery of the fire, the house resumed its usual quiet. It is not known how the fire originated, but as the day had been damp and chilly, a fire had been kindled in the grate of the Pincess's bedchamber, and it is believed that the fire-place was not secure, and in some mysterious way the fire caught the joist supporting the chamber floor. Invitations for a large dinner party at Englewood on the day following the fire were cancelled, and workmen were called to repair the drawing room ceiling which had fallen, and remove, as far as possible, all traces of the fire.

THE PEACE RIVER.

We take the following extracts from an account of the Peace River published by the Edmonton *Bulletin*:—

"From Rocky Mountain portage to the rapids, 20 miles below Fort Vermillion, a distance of 400 miles, there is an unbroken stretch of navigable water. The current is strong but not swift, and the volume of water is twice as great as in the Saskatchewan at Edmonton. The river has a stony bottom and there are a few islands, but no sand bars. The banks are very high from the portage to the mouth of the Smoky river. Many large and small streams fall in on both sides of the main river, which having a considerable fall near their mouths would give excellent water power. The south bank is heavily timbered all the way from the mountains down, but the north bank is open prairie. * * * *

The banks of the river in the lower part of its course are low and heavily timbered, as is the country on both sides. The total length of the Peace from the head of the parsnip to the junction with the Athabasca is about 850 miles.

The country along the Parsnip and Finlay branches of the Peace is heavily timbered with spruce, hemlock, poplar and birch, with some pine, cedar and fir. The climate is damp and the snow fall very great—sometimes seven feet at Fort McLeod. On the north side of the river, east of the mountains as far as the mouth of Smoky river, the country is mixed prairie and timber, with the prairie predominating for from fifty to one hundred miles back from the river. The land is high, dry and rolling, well watered by numerous creeks. The soil is a sandy loam, and grass grows luxuriantly. So much so that upland hay can be cut. There are many fresh water ponds and lakes, and no alkali is visible anywhere. One of these ponds 20 miles north of the Mountain Portage, is a round basin of perfectly clear water, without inlet or outlet, and stocked with three varieties of trout, which can be caught at all seasons of the year. The timber is generally much larger and of better quality than what grows at Edmonton, the poplar being larger and the spruce freer from knots. Between the clumps of timber the prairie is clean and would be easy to break. There are very few hay swamps, especially near the river. Fort Dunvegan is situated on the river about forty miles above the forks by land and is in the heart of this prairie country. The prairie extends down the river to Fort Vermillion, but does not come quite to the river bank below the Forks. The soil is richer in this lower part, but it is not quite so high or dry as that around Dunvegan. Below Vermillion the land is low and entirely covered with timber.

On the south side the country is well timbered for about 80 miles below the portage. Below that point to the mouth of Smoky river the bank is heavily timbered, but the back country is only partially so, and after a distance of about 20 miles from the river is reached the Beaver Plain commences, which extends southward nearly to the Jasper House, takes in the upper part of Smoky river on the east and extends west to the mountains. This plain has the same general characteristics as that north of the river, except that it has less timber, but it has wood on all sides of it. Below the mouth of Smoky river on the east and south side the country is covered with timber. The soil in the *valley of the river is principally "made" soil* and is very rich."

John Brown's Obituary.

The *Court Circular* refers to the death of John Brown in the following term:—"We have to record the death of Mr. John Brown, the Queen's personal attendant, which took place at Windsor Castle at a quarter-past eleven o'clock on Tuesday evening, the 27th March, of erysipelas. The melancholy event has caused the deepest regret to the Queen, the Royal family, and all the members of the royal household. To Her Majesty the loss is irreparable, and the death of this truly faithful and devoted servant has been a grievous shock to the Queen. In 1849 Mr. John Brown entered the Queen's service as one of the Balmoral gillies, and by his careful attention, steadiness, and intelligence, he rose in 1858 to the position of the Queen's personal servant in Scotland, which in 1859 was extended to that of constant personal attendant on Her Majesty on all occasions. During the last eighteen years and a half he served Her Majesty constantly, and never once absented himself from his duty for a single day. He had accompanied the Queen in her daily walks and drives, and all her journeys and expeditions, as well as personally waiting on her at banquets, etc. An honest, faithful and devoted follower, a trustworthy, discreet, and straightforward man, and possessed of strong sense, he filled a position of great and anxious responsibility, the duties of which he performed with such constant and unceasing care as to secure for himself the real friendship of the Queen."

The Insane Ex-Detective.

The family history of the ex-detective Lafon, who was arrested for insanity, is a somewhat peculiar one. His father was a member of the French Chamber of Deputies, representing one of the arrondissements of Paris. He was first returned in 1848, and served several years. In 1851 immediately after the *coup d'etat* of Napoleon III., the family were forced to leave France for political reasons, and they finally settled down in New Orleans, where Mr. Lafon sr., who was a physician by profession, practised medicine for some years. Meanwhile the son came north, and finally entered the Montreal police force. In 1878 Lafon, the elder, returned to France. A singular feature of the story is that he was shortly after his return appointed medical superintendent of one of the insane asylums of Paris. This position he holds at present while his son is himself confined as a lunatic here.—*Montreal Witness.*

removes the uncomfortable feeling sometimes experienced after excessive smoking or chewing.

HASTINGS.

STRUCK BY A TRAIN.—The *Star says that* Mr. John Steele, jr., lost a fine horse valued at $150.00 on Monday last at the railway crossing near Mr. T. Humphries. It appears that Mr. Steele and his brother were drawing some hay which was stacked near the crossing, and having waited the passage of the regular morning train they left one of the teams (for they had two), standing close to the crossing, when a freight train came in sight. The horses heard the approaching train, and instead of crossing the track turned up the road, the locomotive following close behind. They had scarcely got 150 yards away when the load was struck by the cow catcher, throwing it and the sleigh on top of the horses. One of the horses had its leg broken, which necessitated its immediate killing. The bobsleighs were also considerably shattered.

PORT HOPE.

COUNTY FINANCES.—The *News* says that Messrs. E. E. Dodds and H. A. Clarke, counties' auditors, have completed their work, and find the receipts from all sources for the year ending December 31, 1882, to be $74,811.32; expenditures, $61,003.56, leaving a balance in the bank to the credit of the counties of $13,807.76.

BELLEVILLE.

STOVE FOUNDRY.—The Harte & Smith Stove Foundry Company, of Belleville, was organized on Thursday, with John Harte, of Toronto, as president, and C. F. Smith, of Belleville, as vice-president. The company will at once proceed with the erection of buildings, for which tenders are asked.

Gored by an Ox.

An exceedingly sad accident caused the fatal wounding of Mrs. Rose McEnroe at Montreal. She turned the corner of Panet street just in time to meet a herd of oxen being driven to the abattoir. One of the animals charged upon her, impaling her upon its horns, and it was not until a gang of street labourers had surrounded the infuriated brute that the insensible and mangled woman was taken from the deadly horns. Her injuries are contusions of the back and spine, the scalp badly torn, and severe nervous shock. As she is 60 year of age her recovery is doubtful.

MR. J. R. SEYMOUR, Druggist, St. Catharines, writes that he finds an *ever-increasing* sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blood Bitters is the grand specific for all diseases of the Blood, Liver and Kidneys.

HEADACHE.—Headache is one of those distressing complaints that depends upon nervous irritation, bad circulation, or a disordered state of the stomach, liver, bowels, etc. The editor and proprietor of the *Canadian Presbyterian* was cured after years of suffering with headache, and now testifies to the virtue of Burdock Blood Bitters.

SCOTLAND.

FOX-HUNTING is to be discontinued in Kinross-shire and Fife during the prevalence of foot-and-mouth disease.

AN exhibition of Scottish national portraits and works by old masters is to be held in Edinburgh during the autumn.

THE main line of the Great North of Scotland Railway was blocked with snow from Saturday morning, March 17th, till late on Sunday afternoon.

A NUMBER of the Glendale crofters have held a meeting, and resolved to pay no rent until they receive "more considerate treatment" from the trustees.

ON the 17th March, Moffat played Lockerbie a football match with the snow fully two inches deep. When the play stopped Moffat had seven games, and Lockerbie one.

A SERIOUS outbreak of foot-and-mouth disease was discovered in Haddington-shire on the 22nd March, at the farm of Newlands, tenanted by Mr. Bruce, where a flock of 500 ewes have become affected with the disease.

BORING operations have been conducted on the estate of Denork, belonging to Baillie Ireland, St. Andrews, and three seams of coal, varying from three to six feet in thickness, have been discovered.

THE Glasgow police have apprehended a man named Gallagher, for causing the explosion at the gas-works there. He is an Irish-American, and a brother of Gallagher who was arrested at Lambeth, London, last week.

MRS. MARY SINCLAIR, widow of the late David Sinclair, merchant, Greenock, has left £1,200 to various charitable institutions, and the residue of her estate (about £12,000) for behoof of aged and indigent seamen of Greenock.

MR. WILLIAM PATERSON, of Edinburgh, has just published a history of Mary, Queen of Scots, by her secretary, Claud Nau. The book is printed from the original manuscript in the British Museum, and contains transcripts of important contemporary documents in the secret archives of the Vatican.

A Strange Story.

Intense excitement prevails at Oneida, on the Indian reserve, consequent on the recital of a dream which occurred to one James Ninham. Being then weak-walking he sat down on a chair about 9 in the evening to enjoy a short slumber but scarcely had he closed his eyes when a person seemed to present himself before him, who told him that the Son of Man was coming to judge the world. In a moment he heard a tremendous sound which shook the earth. He was told to look towards the east, and perceived two men, the uppermost of whom was the Righteous Judge. Ninham fancied to hear the Judge proclaim all nations and languages to come to him, and was so terrified that he awoke as if he had been struck with an electric shock. He immediately started up in a kind of enthusiasm, and has expounded his dreams to large audiences in the church. The congregation became greatly excited, many of the Indians promising to lead a pious life henceforth. Another Indian, Rev. Mr. Hill, has also created consternation among his flock by denouncing the inconsistency of the doctrine that the Almighty calls people from this world to His Kingdom, and averring that the devil was sorely responsible for every death that occurred.

Carrying the War into Africa.

One night a dancing party was held in Kingston, and at about 10.30 a detachment from the Salvation Army proceeded to the place of amusement. On arriving there they began to play brass instruments, and finally entered the dancing-room, creating a horrible din. Dancing was suspended, when the army sang, "Oh, dancers, what will you do when He comes?" Suddenly a fiddler struck up the lancers, and a sergeant and corporal advanced and tried to persuade him to join their band, when he could play better tunes if he liked, but instead of acceding he called out "Select your partners!" The dance then proceeded and the army retired from the building vanquished. While it lasted the excitment was keen.

A Timber Merchant's Benevolence.

Mr. Amos Roe, of the saw-mills, Worcester Wharf, gave a treat to upwards of 2,000 poor children in Bingley Hall, Birmingham, on Good Friday. A few years ago Mr. Roe invited several poor ragged children in the neighborhood of his works to breakfast on the morning of Good Friday. The invitation was repeated annually, and the number of children became so large that adequate accommodation for them could not be found at Mr. Roe's works. Last week, through the kindness of Mr. J. Lowe and the committee of the Cattle Show, Bingley Hall was placed at the disposal of Mr. Roe, and there, by nine o'clock, upwards of 2,000 poor children had assembled for the treat provided for them.—*Timber Trades Journal.*

A New Cotton Company.

Mr. Victor Hudon is said to have formed a new company for the manufacture of cotton. On Monday next the workshops will be begun on a property purchased from Mr. Decary, below Hochelaga. The plan of the buiding is entirely new. Messrs. Alphonse Desjardins, M. P., F. Hamelin and M. Giroux are reported as the first directors of the company. The company will ask the Municipal Council of Hochelaga for a twenty-five years exemption of taxes. Mr. Hudon will leave next week for England to purchase the necessary machinery.—*Montreal Witness.*

Railway Construction.

The construction of the Portage, Westbourne and North-Western railway, in Manitoba, is progressing rapidly. Track-laying, which was commenced two weeks ago is progressed twenty miles, so that fifty miles of the road will be in operation in a few days.

Committed for Manslaughter.

The examination at St. John N. B., of Calvin W. Brown, charged with causing the death of a seaman on the high seas has been concluded and the prisoner was committed to gaol for trial for manslaughter.

CATARRH is the seed of Consumption, and unless taken in time is a very dangerous disease. Hall's Catarrh Cure never fails to cure. Price 75 cents. *For sale by John McKee, druggist.*

R. W. G. SECRETARY KEENS, I. O. G. T., says from reports from Grand Lodges the Order shows a gain of 4,500 members over last year's returns.

EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its especialty as a complete and radical cure of dyspepsia, liver and kidney complaints, and all impurities of the blood.

IT is thought that the total cost of the Star route prosecution will be $700,000. It is stated that the first trial cost the defendants $160,000 each.

BISHOP MARTY, of Dakota, says that Sitting Bull will soon join the Catholic Church. Two thousand of the Indians in Dakota belong to the Catholic Church.

AN Island in Vermilion Bay, on the coast of Louisiana, has a solid mass of salt at a depth of twenty feet so hard that it requires to be mined with dynamite and ground in a steam mill.

THOUSANDS UPON THOUSANDS of dollars have been spent in advertising the celebrated Burdock Blood Bitters, but this fact accounts only in part for its enormous sale. Its merit has made it what it is—the best blood medicine ever devised by man.

THE widow of a man who gave Patti singing lessons in New York when she was a girl of thirteen is suing the prima donna for $3,600, with interest for twenty-five years, alleged to be due for four years' instruction.

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

A POET in *Lippincott* gives readers the shiver with the line: "Cold swims the moonlight on the snow." The cold must have been very full, else it would have taken a slide instead of a swim.—*Ex.*

BURDOCK BLOOD BITTERS cures scrofula, erysipelas, salt rheum, piles and all humors of the blood. Cures dyspepsia, liver complaint, billiousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness and general debility, when used in time.

THE complete costume of a fashionable lady of the Friendly Islands has lately been presented to the Public Library of Woburn, Mass. It is a square blanket, tattooed with various devices and made from wood-pulp, or rather bark-pulp.

HEADACHE, Billiousness, Dyspepsia and Constipation promptly relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. As a family medicine they are far superior to Pills. In large Bottles 50 cents.

"BLOOD WILL TELL." A face adorned with Pimples, Poils, Blotches &c., is not a particularly pleasant sight, and invariably betokens an impute state of the Blood. Dr. Carson's Stomach Bitters free the system from all gross humours, renders the Blood Pure and Cool, aids digestion and gives a healthy appetite. For sale by all Druggists in large Bottles at 50 cents.

A SIMILE: "No I can't write in cold blood," remarked Fenderson; "I have to be thoroughly warmed up to do good work." "The same is true of the goose the tailor uses," murmured Fogg in a stage whisper.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

THE Eagle feels best at a height of twelve thousand feet above the earth, while the minute you get a man on the roof of a horse block his knees begin to weaken and he can't remember a word beyond "Feller Citizens."—*Detroit Free Press.*

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

Star Twinklings.

A French observer recently based predictions of the weather upon the twinkling of the stars, and now M. Montegny, a Belgian astronomer, announces that stars scintillate more during auroras then at other times. He also discovered that scintillations increase simultaneously with the magnetic pertubations of the magnetograph. This would seem to indicate that during magnetic storms, and also preceding an atmospheric storm, air is in a state of unusual agitation.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

The Cells.

One tramp lodged in the police cells on Saturday night, and they were occupied last night by one prisoner and two tramps.

Annual Meeting.

The annual meeting of the shareholders of the Midland Railway of Canada will be held in the offices of the company here, at two o'clock tomorrow afternoon.

The 57th Battalion.

The following notice appears in Saturday's *Canada Gazette* :—

"57th Battalion of Infantry, 'Peterborough Rangers,' No. 1 Company, Peterborough. To be 2nd Lieutenant, provisionally : Private Robert Maxwell Dennistoun, vice Ernest Morgan, whose resignation is hereby accepted."

Planting Shade Trees.

The letter which we publish to-day from a correspondent on the subject of planting and protecting trees in our streets deserves the attention not only of our council authorities, but of the general community. Other cities and towns are taking steps in the matter and we should not be behind hand in such an improvement.

The Weather Probabilities.

Sunday was warm and sultry, until about six o'clock, when a heavy gale arose and rain began to descend. To-day is still cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows :—Moderate to fresh westerly winds ; fair weather, and slightly lower temperature.

Sudden Death.

The many friends in Peterborough of Mr. William Kirkpatrick, will be shocked to learn that a telegram has been received from Winnipeg, that he was found dead in his bed this morning. Mr. Kirkpatrick left Peterborough, where he had been visited his relations, only a few days ago. He had been complaining of the state of his health, but there was no fear entertained of such a fatal result.

A Strong Current.

While a young man was washing a covered buggy in the creek this morning, near the Charlotte street bridge, the current upset the buggy and threw him into the water. Although the vehicle turned over several times as it went down the stream, the young man hung to it bravely. When it was finally stopped the top of the buggy was found to be injured and the shafts broken.

A Complicated Dispute.

On Saturday night Mr T. G. Hazlitt and J. McGrath were arrested on the charge of injuring the property of John R. Scott, but they were at once admitted to bail. The difficulty arises from a dispute as to the possession of the pulp mill built by Messrs. Usborne & Co. on the Dickson estate under lease from them, Mr. Scott having purchased Messrs. Usborne's interest. The case was brought before the Police Court on Monday morning, when Mr. Hazlitt pleaded not guilty and asked for an adjournment, which, the other side being also willing, was granted till Wednesday morning.

ORDINATION SERVICES.

The Rev. Messrs. O'Connell and Brotherton Ordained Priests in St. Peter's Cathedral.

On Sunday morning the solemn and impressive ceremony of ordination was performed in St. Peter's Cathedral by His Lordship Bishop Jamot, assisted by the Very Rev. Vicar-General Rooney, of Toronto, and the Rev. Father Conway and Rev. Father Keating, when Messrs. Brotherton and O'Connell, who, having previously received Tonsure, the four minor orders—Porter, Lector, Exorcist and Acolyte—and also the sacred orders of sub-deaconship and deaconship, and after being duly examined concerning their conduct and morals, their knowledge of the sacred scripture, theology, &c., were ordained Priests.

There was a very large attendance at the church, and at 10.30 o'clock the candidates for Priest's orders, arrayed in the vestments of deacons, His Lordship and those who were to assist him, entered the church. The Bishop proceeded with the celebration of the Mass as far as the Tract, when he took his seat, arrayed in full pontificals, as emblematic of the sacred power which, in obedience to the divine command, he conferred upon the suppliant for ordination, and called the candidates before him. His Lordship then addressed the people in Latin, in which language the whole service was performed, asking that if anyone had anything to say against their promotion, they should come forward and speak what they knew. After a pause he then addressed the candidates, reminding them of the sacredness of the duties they were about to assume, and exhorting them to always perform them faithfully. The Litany of the Saints was then chanted, and the Bishop blessed the prostrate candidates three times. At the conclusion of the Litanies the imposition of hands was performed by the Bishop and clergy in stole, by placing their hands upon the heads of the candidates. Prayers followed, and then the Bishop removed the stole from the candidates' left shoulders and crossed it on their breasts, saying in Latin :—"Receive thou the yoke of the Lord, for His yoke is sweet and His burden is light," and he invested them with the chasuble, folded on the shoulders. Prayers again followed this ceremony, and the Bishop then anointed their hands with holy oil, repeating a prayer. Their hands were then bound, and they were presented by the Bishop with a chalice containing wine and water, and patens with a host, both of which they touched, while the Bishop said:—"Receive the power to offer sacrifices to God ; to celebrate mass as well for the living as for the dead, in the name of the Lord." Mass then was continued, the new priests pronouncing the words after the Bishop. The communion was given, and the Bishop then read an admonition, after which the ordained, standing before the altar, made a profession of their faith by reciting the creed. They then knelt before the Bishop, who, placing his hands upon their heads, said :—"Receive the Holy Ghost, whose sins you shall forgive they are forgiven them, and whose sins you shall retain they are retained." Unfolding the chasuble he clothed them entirely with it, and, receiving a promise of obedience, he gave them the kiss of peace. He then admonished them as to their duties, and pronounced over them his blessing. Then Mass was continued until after the benediction, when the new priests knelt before the Bishop, who again admonished them, injoining them to strive and live a holy and pious life. The last Gospel was then said, which concluded the ceremony. His Lordship then addressed the congregation, and invited them to remain and receive the first blessing from the young priests.

POLICE COURT.

MONDAY, April 16.—Mr. A. Rutherford, J. P., and T. Menzies J.P., occupied the Bench this morning.

DRUNK.

Hugh McDonald was charged by P. C. Pidgeon with having been found drunk. He pleaded guilty, and said that he had a return ticket to Bethany, near which village he had been working, but he had no money. He was fined $2 and $1.50 costs or ten days in gaol. He said that if allowed to go to his work he would send the money, but this request was refused.

DRUNK AND DISORDERLY.

John Adlum was charged by P. C. Adams with having been drunk and disorderly on Friday. He was fined $5 and $1.50 costs or thirty days in gaol. His wife said that a family of five was depending on him, and he was given time to pay the fine.

THE PULP MILL DIFFICULTY.

T. G. Hazlitt and John McGrath were charged by Chas. W. Allen with injuring the property of John R. Scott. They pleaded not guilty, and the case was adjourned until Wednesday morning at 11 o'clock. Messrs. Edmison & Wood appeared for the prosecution.

Died Suddenly.

The people of Peterborough were taken completely by surprise on Sunday when they learned of the unexpected and sudden death of Mr. Edward Phelan, jr. So far as the public were aware he was in the enjoyment of his usual health, although as a matter of fact he had not been very well for some time past, and was under medical treatment. He was out on Friday as usual and nothing serious was apprehended until Saturday evening, when a medical consultation was held, and even then his parents were assured that there was no immediate danger. Even through Saturday night his symptoms gave no indication of the approaching termination, and at an early hour on Sunday morning he rose and dressed himself, when his parents became alarmed and sent for the Bishop and the doctor, the latter of whom only arrived in time to pronounce him dying. We need scarcely say that his parents have the sincere sympathy of the whole community and that universal sorrow is expressed for the premature death of one who was known and liked by every one.

THE BACK LAKES BRIMMING.

A Warning to Our Owners of River Property—Look out for Flood Waters.

The following telegram received to-day should be a warning to those who have dams, mills and other property on the Otonabee River to be prepared for a rush of water. The rapid thaw has had its effect above us, and those interested have thus obtained timely notice :—

To T. D. Belcher, Esq., Superintendent Trent Works :

BOBCAYGEON, April 16.—Sturgeon Lake is full and an unusually heavy body is flowing out. Pigeon Lake is rising rapidly. Look out below.

SHADE TREES.

To the Editor of the Review.

SIR,—Is anything to be done to encourage the planting of shade trees this year? Does the Council intend to do anything, or is the beautifying of the town a matter beneath its notice? Will it even pass a By-law adopting as applicable to the town the clauses of the Act, which give to property holders the ownership of trees on the streets opposite their premises? Will the Mayor appoint a tree planting day? Or if the town authorities will do nothing, will the citizens generally take the matter up? Who will take the lead?

Murdered Her Child.

A horrible tragedy has come to light at Brockville within the past few days. A woman living on what is known as the broken front of Estcott, is said to have murdered her child, about a year and a half old, early in December, and buried it in the snow. The body was discovered two or three days ago, when the snow melted away. A coroner's inquest was commenced on Thursday night and adjourned until the next morning. The mother is yet at liberty, and no clue to her whereabouts has been obtained.

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

ADVERTIZING!

One of the most trying problems which a business man meets with, is that respecting advertising. In what channels and to what extent is it profitable to advertise. Also what kind of advertising should he adopt. It is certainly necessary for a merchant to bring his business prominently before the public, and as far as possible, to let them know that he has something that will be to their advantage to call and inspect.

SHADE TREES.

To the Editor of the Review.

DEAR SIR,—Your correspondent on the above subject raises questions which to my mind are selfish and unjust. When matters of such little outlay are always trusted on the assistance of the council, or I may say on the funds of the public, there would be no limit to asking for assistance. If the owner of a lot has no more ambition of beautifying his place at a trifling expense of 20cts a tree, than to ask his neighbours to do that which they have done for themselves by means of their own purses, it is hardly to be expected of the former that he would nurse and take care of the trees, as the next spring there would be another tree planting at the public expense. The expense of tree planting and the care of them, I have had a full share of, and cheerfully without assistance under the most trying circumstances, as trees have been torn out of the ground by mischievous persons; but the greatest of all evils is the cow nuisance, which is permitted to go on by a sympathizing council for the poor man. I think there are some poor men at the Council board whose cows are feeding at the public expense. If Peterborough has no poorer people than such as are able to keep a cow, the complaint of "poor" must fall to the ground.

Yours truly.
W. LECH.

LONGUE POINTE MURDER.

The Prisoner Milley Expiates His Crime.—His Execution in Montreal.

MONTREAL, April 16.—Timothy Milley expiates his dastardly crime of shooting his former employer, Mr. Nesbitt, on the scaffold inside the Montreal gaol this morning. Ever since his conviction no hope of reprieve was held out to him, but indeed he did not expect any mitigation. All the arrangements having been made, the culprit, who had been attended in his cell all night by the Catholic chaplain and two Sisters of Mercy, was led out, the observed of all observers. Until he came near sight of the fatal spot prepared for his exit he preserved his calmness, but when that came in view he trembled like an aspen leaf. His emotion, however, was only temporary, for he soon recovered, and marched without flinching to his doom. When he had been placed on the drop the chaplain recited a prayer, after which the bolt was drawn and the culprit died instantly, almost without a twitch of the muscles. He made no public confession of his guilt to any of his keepers, and left no writing behind, unless a letter of thanks to the Sisters of Mercy who were so kind and attentive to him since his conviction; he showed by the effusion how deeply he felt their zeal on his spiritual behalf. He was very attentive to the services of the chaplain, and seemed quite penitent and resigned to his fate, which he acknowledged he deserved. After the body was cut down the coroner held an inquest, and it was finally buried in the city cemetery at Cote des Neiges.

Drowned in a Cellar.

Miss Maggie Armstrong, who was living with her brother Mr. Stewart Armstrong, on the London Road, near Guelph, was found drowned in the cellar on Friday evening. It is supposed that while preparing tea she went to the head of the stairs for something and fell into the cellar, which is filled with water from two to three feet deep. It is probable that she was rendered insensible by a blow while falling, as there is a severe bruise on the one side of her head. The deceased was a highly esteemed young lady of about 19 years of age.

JOHN MYLNE, Druggist, Bothwell, says, I have a very large sale of Dr. Carson's Bitters. It is one of the few Medicines that does all it is recommended to do. We use them as our "Family Medicine." My experience is that they will cure Headache, Biliousness and Indigestion. For sale by all druggists at 50 cents a bottle.

SOMETHING PLAIN! Cold in the Head is the seed, the Nasal Cavity the field, Impure Blood fertilizes the soil, and the growth is first Catarrh then Bronchitis, Consumption and Death. One to four bottles of Fountain of Health is warranted to cure ordinary Catarrh.

MORMON MISSIONARIES.

NEW YORK, April 17.—Sixty Mormon Missionaries sail to-day for Europe.

HIGH WATER.

TROY, April 17.—The trestle works of the Boston, Hoosac Tunnel and Western railway crossing is submerged by the high water. On Sunday two freight trains were abandoned. The high water has also caused considerable damage at Mechanicsville and other points along the river.

A MARSHAL IN TROUBLE.

SAN ANTONIO, Tex., April 17.—A bill of exceptions, asserting that there are fifty errors in the case of United States Marshal Russell, came up yesterday. The judge signed five exceptions. Russell announced his intentions of accepting sentence and serving two years, provided the Government dismiss all the other cases against him. It is believed that this will be agreed to.

A SUIT FOR HEAVY DAMAGES.

ROCHESTER, April 17.—Yesterday the Buffalo Lubricating Oil Company began a suit against Hiram and Charles Everest, President and Vice-President of the Rochester Vacuum Oil Company, to recover $100,000 damages. The plaintiffs allege that the defendants annoyed them with malicious suits for alleged infringements of patent, enticed away their skilled workmen, made false representations concerning the products manufactured by plaintiffs, &c.

KILLED BY A TRAIN.

ONEIDA, N. Y., April 17.—An unknown man was killed by a train here yesterday. He was terribly mangled. He must have been deaf, or intended to commit suicide, as he paid no attention to the whistle.

PRIZE FIGHT ARRANGED.

NEW YORK, April 17.—A prize fight between Mitchell and Slade was arranged yesterday. It takes place within four months, within 400 miles of Kansas City, for $2,500 a side.

DYNAMITE IN BROOKLYN.

BROOKLYN, April 17.—A dynamite cartridge was found in a factory here yesterday. Several men recently discharged made threats against the foreman. They will probably be arrested.

THE PRESIDENT'S HOLIDAY.

ST. AUGUSTINE, Fla., April 17.—It is stated that the Presidential party intend to go on board the Fallapoosa to-night, so that the ship may be in readiness to sail for Savannah with a convenient tide on Wednesday. The President thinks of stopping at Savannah a day or two and finishing the homeward journey by rail, reaching Washington probably at the end of the week.

THE MISSISSIPPI FLOOD.

HELENA, ARK., April 17.—The second flood from the Mississippi river this year, and the fourth in fifteen months, is now within five feet of the medium height and is rising steadily. The land comprising the valley of the river, if it is inundated by the present rise, it must be abandoned for this season. At this season at no previous period of the history of the Mississippi river has the devastation by a flood been so wide spread, and of such frequent recurrence.

A SHIP CANAL.

ST. LOUIS, April 17.—The proposed ship railway across the isthmus of Tehuantepec has not been abandoned. Cpt Eads states that the work is being vigorously prosecuted, and the railroad will be finished long before the Panama Canal is opened. —Mail

FALLING.

ROCHESTER, N.Y., April 17.—Wall's old City mills fell last night, destroying much property. No one was hurt. The water in the race undermined them. The walls at French Flat fell yesterday. No one was injured.

A BIG FRAUD.

NEW YORK, April 17.—Additional frauds, amounting to $11,000, in connection with the city bond coupons, is reported to be discovered in the Finance Department.

PENSIONS FOR THE HEROES.

LONDON, April 16.—The House of Commons as an additional mark of recognition of the services of Lord Wolseley and Admiral Seymour during the war in Egypt has granted them each two thousand pounds yearly.

AN OBSTINATE GRAND DUKE.

ST. PETERSBURG, April 16.—The Grand Duke Constantine has refused to attend the coronation ceremonies of the Czar. Great efforts have been made, more or less directly, to secure his attendance. He was retired to the Crimea shortly after the death of his brother, Alexander II. On his departure, it is alleged that he informed his nephew, the present Emperor, that he would never return as long as he occupied the throne.

NIHILIST TRIALS IN RUSSIA.

ODESSA, April 16.—The trial at Odessa by a military court of twenty-six members of the South Russian Workmen's Federation, some members of which were presented by Strelnikoff previous to his murder, has resulted in the conviction of all the prisoners. Three were sentenced to penal servitude for life, seven to fifteen years, four to ten years, four to four years, and eight were banished to Siberia.

AMERICAN.

LOUISE MICHEL.

NEW YORK, April 16.—A Paris cable says that Louise Michel has managed to put in the hands of the editor of the *Intransigeant* many details of her examination before the Judge of Cassation. As stated by that paper, she was on one occasion continuously questioned for eleven hours. She claims she was confronted by a horde of witnesses of whom she never heard anything and never saw before. They testified that she incited the populace to attack the bakers' shops.

MYSTERIOUS SHOOTING.

Very Narrow Escape of a Citizen of St. Catharines.

ST. CATHARINES, April 16.—About nine o'clock on Sunday night as Mr. Isaac Wardell was walking past Godsby's marble works he was accosted by a man, who said, "Hello, Wardell." Mr. Wardell could not tell who he was, but almost immediately after he had passed he heard a bullet whistle past him. He then turned around, and a second bullet struck him in the foot and a third followed quickly, going past his right ear. The party who fired the shots ran away as rapidly as possible. Assistance was obtained, and Mr. Wardell taken home, and medical assistance procured, but the bullet was found to be too far in to extract it. Another attempt was made this morning, but after probing for about two inches the doctors thought it best to wait. The bones of the foot are badly crushed. No cause can be assigned for the act, and at present the case is a mystery. No arrests have been made.—*Mail.*

A Separated Wife's Suicide.

BELLEVILLE, April 16.—Laura Ann Allen, a married woman, aged 25, who resided with her father, Geo. Brintnell, in Cannifton, committed suicide this morning by shooting herself in the head with a revolver. She and her father were preparing to come to town, and whilst he was harnessing the horse she retired to a woodshed, whence three reports of a pistol were heard. This alarmed her mother, who found the suicide lying on the floor insensible with blood oozing from her left ear, the fatal wound having been inflicted in the right ear. The deceased was married nineteen years ago to a man named Allen, but separated from him. They had two children, a boy and a girl, the former of whom is with his father in the United States, and the latter was with her mother. No cause can be assigned for the woman's rash act. Dr. Farley, coroner, visited the scene of the suicide this morning, and after hearing all the circumstances of the case, held that an inquest was not necessary.

An Erudite Town.

A visitor to the old borough of Belford, England, which has given a name to so many places in America asked a native, whom he casually met, what was the staple of the town. "Education," was the reply. Four hundred years ago a London merchant endowed a school there with thirteen acres of London land, and this now supports a first-class grammer school, a commercial school, a preparatory English school, a girls' school and an infant school. No stranger can talk to the inhabitants, whatever degree, without discovering that he is in a most exceptionally erudite place. Next to education, lace is the staple.

Post Office Irregularities.

Mr. D. Spry, Post Office Inspector, Barrie, has been investigating some irregularities in the post office at Bracebridge. It appears a considerable sum of money was missing. The postmaster notified the Inspector, who held an investigation, and fastened the charges on the assistant, George Gill, who was about leaving for the North-West. He acknowledged the crime and made restitution.

WHY DISGRACEFUL.

The Newmarket *Era* among its "Editorial Notes" has the following :—

"The Peterborough REVIEW characterizes the appointment of Samuel Stanley Peck, Esq., by the Ontario Government, to the position of Stipendiary Magistrate for the Provisional County of Haliburton, as "disgraceful." The why and wherefore is not stated."

We may remark that we did not give the reasons for our statement because the facts are so well known in this vicinity, but we would be very loath to withold an explanation when called upon by a journal so fair, moderate and impartial as we have found the Newmarket *Era* to be.

The reason why the appointment of S. S. Peck to the Bench is a disgraceful one is that his career has been such as to prove him utterly unworthy of such an honourable position. His fitting place in Court is certainly not upon the Bench. Having been appointed Treasurer of the Provisional County of Haliburton, S. S. Peck violated not only the rules of common honesty, but also the trust which had been reposed in him, by appropriating large sums of the County money and applying them to his own use. This is no doubtful report founded upon stolen and forged documents, as is the fashion of S. S. Peck's friends, but is the result arrived at and officially declared by Judge Dean, of the County of Victoria, a gentleman whose ability and impartiality no Reformer would care to dispute. It is a pity that S. S. Peck did not come before Judge Dean in his capacity as Judge, and not as a Master in Chancery.

To add to the meanness of this defalcation there is the fact that the County of Haliburton is a young, struggling and far from wealthy municipality, and that this embezzlement of its funds has added oppressively to the burden upon its settlers. Yet S. S. Peck, though he promised to do so, has made no effort to restore to these poor people the money with which they intrusted him, and which he so basely appropriated. He still has their dollars in his pocket, or more probably invested in Dakota.

But the Mowat Administration has not only disgraced itself by appointing such a man to the Bench. They have made themselves in a measure accomplices in his misdeeds. S. S. Peck would undoubtedly have been made to disgorge, even if he had not received his proper punishment, but for his impudent boasts that he had the ear of Mr. Mowat, that he had already secured for the County a large expenditure of public money and that he would obtain still more if he were left unmolested. And it is a shameful fact that this man, who had proved himself to be unfit to handle other people's money, was entrusted by the Mowat administration with large sums from the Provincial Treasury to expend in the county. They actually used the money of the people of Ontario, and placed it in such danger, with the double object of enabling this man to purchase immunity for himself and political support for them.

Though this man has for these reasons experienced a strange leniency in the past from the county authorities, and though he had been allowed to misrepresent them in the Local Legislature, at the recent election the electors revolted from re-incurring such disgrace and spurned him with richly deserved contempt. Yet this peculator whom the electors righteously deemed unworthy to represent them, and whom they dismissed at the risk of losing the corrupt grants he could secure, Mr. Mowat hastened to appoint as their stipendiary magistrate, because he had been a subservient political supporter.

Fancy what a scandal it would be if S. S. Peck were sentencing *some poor settler* for a theft of provisions, and his victim were to allege that he was driven to it by poverty, to which Peck, by appropriating his money, had largely contributed, and that he thought his judge had a better right to be in the dock than himself. He could hardly be punished for contempt of court, for it is a contempt in which every honest man must share.

Is it strange that the Province is eager to be relieved from rulers who make such disgraceful use of the public patronage and public money that has been entrusted to them?

The Marquis of Lorne's New Office.

The London *Post* says it hears that the Marquis of Lorne will probably succeed the Marquis of Ripon as Viceroy of India.

THE FRANCHISE.

THE new Franchise Bill, introduced by Sir John Macdonald, is not yet in our possession, so we cannot discuss its details, especially as regards other provinces.

The broad principles, however, are known, and we may call attention to them as they effect Ontario.

It is evident that a very liberal extension of the franchise is granted. The freehold qualification, now $400, is reduced in cities towns and villages to $300, and the household qualification, which is now $30, is reduced to $20, and in the counties these qualifications are to be $200 and $20. The income franchise is adopted and extended. The principle of the Farmers' Sons franchise is also adopted, but instead of being confined to one class it is now universal, applying to the sons of mechanics, merchants, professional men and others. Lastly the franchise is to be extended to single women.

This is certainly a very liberal programme. One of its greatest merits, is that it does away with the unfair distinction made in Ontario against the urban population, and gives to the son of the mechanic or the merchant the same privilege as his cousin on a farm possesses.

The Opposition critics, both journalists and politicians, taunt Sir John with not having introduced such a measure before. Why did not these critics advise Mr. Mackenzie, when he was in power, to extend the franchise, seeing that he failed to do so, and indeed attempted greatly to curtail it in one province? Why did they not advise Mr. Mowat, when he was in power, to extend the franchise, seeing that he failed to do so, except by a measure of class legislation, by which he hoped to gain a party advantage, and by a partial and restricted income franchise, falsely asserted to compensate for the other extension? Why did they not remonstrate with Mr. Mowat when he was voting down the Opposition's proposal for a broad extension of the franchise?

This new measure has given another proof that Sir John Macdonald and his supporters are the true Liberals, the real "Reformers" of Canada.

THE AMERICAN CANOE ASSOCIATION.

To the Editor of the Review.

SIR,—Judging from the interest that is manifested in the approaching camp at Stony Lake, I think the time has come for calling a meeting of all those interested in the matter, to discuss what is necessary to be done to give our visitors a fitting reception, and if deemed advisable to appoint a local committee to make all necessary arrangements. I would therefore ask all who wish to make the camp a success to attend a meeting at the Council Chamber on Tuesday evening, the 24th instant, at half-past seven o'clock. The adjourned annual meeting of the Boating Club is to be held on the evening preceding, and that body will doubtless do its part, but there are many public spirited gentlemen who are not members of the Boating Club, and it is proposed to make the committee a general one.

From present indications the camp is likely to be a large one, larger than any gathering of amateur canoemen yet held on this continent or elsewhere. New York, Albany, Boston, Philadelphia, Rochester, Cincinnati, Cleveland, Detroit, Chicago, and many other American cities and towns will be represented, and Halifax, Quebec, Montreal, Ottawa, Toronto, Hamilton, and other parts of Canada will furnish their quota, while from our own Midland district we can bring enough canoeists to make a large body of themselves. It is hoped too that the Royal Canoe Club of England will send representatives. As our Peterborough men must be prepared to hold their own against all comers I would suggest the advisability of making an early start. If members of the Boating Club will have their canoes overhauled at once we might have the first grand demonstration on the Little Lake on the first of May. The combined movements of a large number of canoes would have a very pretty and interesting effect. A number of club races both for sailing and paddling will be held during the season.

The following facts as to the Association and the proposed camp may be of interest. The Association is composed wholly of amateurs. The Regatta is open to members of the Association only. The races are intended to be the means of testing in a friendly way the relative merits of various styles of canoes, sails, &c., as well as the skill and strength of the members. To check mere prize-hunters and to ensure the carrying out of the races in a proper spirit, the prizes are limited to flags and other articles of small intrinsic value. The island on which it is proposed to hold the camp will be reserved for members of the Association. The names of those wishing to join accompanied by the fee, $2.00, are to be submitted to the Executive Committee for election. The fee in subsequent years is $1.00. To meet the necessary expenditure the committee of the Association has been asked to sanction the appropriation to that purpose of the fees of new members from this part, and this will probably be agreed to. The camp will be held from the 10th to the 24th of August. The Regatta will be held on the 21st, 22nd and 23rd. The principal races on the first two days will take place in the afternoon so as to give people coming from town time to reach the lake. The Cruiser, and probably the *Fairy* as well, will run between Lakefield and the camp, and special trains will if possible be arranged for. There will be a ladies camp on an island a short distance off. All those camping out will of course provide their own tents, provisions, &c. I learn that a new hotel is being erected at Young's Point with a view to accommodating those who do not wish to camp. Kearney's Hotel, the Burleigh Falls Hotel and possibly some of the farm-houses in the neighborhood may be looked to for accommodation.

I shall be glad to receive as early as possible the names of all those who wish to join the Association, so that we may know how many we can count upon.

Yours, etc.,

E. B. EDWARDS.

The Windsor Disturbance.

In the Windsor row it is said that the friends of the roughs settled with Fulmer, the livery man, for $200 and costs before the case was called, and the charge against the prisoners for malicious injury to property was dropped. Magistrate Bartlett of Windsor, says if any officer under his control refused to prosecute under similar circumstances he would suspend him immediately, and says he is going to have the parties concerned in the case brought before the Quarter Sessions next June to answer a charge of compounding a felony.

BURGLARS IN BELLEVILLE.

[illegible] the [illegible]-factory on Mill street, Belleville, at about four o'clock on Saturday morning, the safe in the office of which was blown open. Nothing, however, rewarded the burglars, as the safe contained only the books and a silver watch. It appears that the burglars first broke into the blacksmith's shop at Baker's carriage factory which is but two doors distant, and procured a sledge and a screw-driver, with which they forced off the [illegible] plate, and [illegible] a charge of [illegible] into the opening [illegible] the door of the safe. [illegible] that the noise of the explosion might have been heard one of the men went out upon the sidewalk to take observations, and was getting in again through the window when he was seen by John VanNorman, one of the workmen employed in the factory, who was going to his daily labor [illegible] VanNorman [illegible] to the door of the office and asked who was there, and the result of the enquiry was that two men jumped from the window and ran southward. [illegible] them, and several others of the workmen, some of whom were in the factory and others arriving [illegible] joined in the pursuit [illegible] upper bridge, [illegible] street, and entered the woods to the west of the road half a mile behind the city, where their tracks in the snow were easily followed. They turned towards the city, and after running about two miles further entered [illegible] through a window in the basement, and made their way up to the top of the steeple. The pursuers, whose numbers had been very largely added to, surrounded the church, and after about two hours the police induced the fugitives to surrender. They were taken to the police station where they gave their names as Frank Johnston and Thomas White. Two hours later they were brought up in the Police Court and remanded for a week. These names are no doubt fictitious, and the fact that a paper with the address, "Q. C. West, Randolph street, Chicago," was found on White leads to the belief that they are professional burglars from that city.

The Work at Fenelon Falls—Considerable [illegible]

The F[illegible]

"Owing to the unfavorable weather during the past winter the work on the canal in this village was not prosecuted as vigorously as it would otherwise have been; but as many men as could be advantageously employed were kept constantly [illegible] except for a few [illegible] when it was too stormy for them to remain out doors. Still considerable progress has been made, [illegible] of Colborne street to the river (between which points the operations have been confined for the last three months) there is a yawning chasm from twenty-five to thirty feet deep for about half its length. The stone taken out has been got rid of in various ways, a good deal having been removed by persons intending building, but an immense quantity has been used in filling up the gully behind the post office, where such a change has been made that a person who had not visited the spot since the canal was commenced would barely recognize it. The shallow excavation above where the locks will be located has been nearly full of water, but it is now drained off, and we expect that in a very short time work will be resumed "all along the line." There are now four derricks employed to lift out the masses of rock, which are drawn away by means of wooden railways, and a good many men and horses are at work; but the scene is nothing to what it will be in a few weeks, when the number of workmen will be doubled, if not quadrupled, and a powerful steam engine, or perhaps two, will be kept busy pumping water out of the cut."

"Tory" Purism.

The days of the Pacific scandal seems to have come again. In those days the country was treated to the humiliating spectacle of professed purists allying themselves with and profiting by the [illegible] of an [illegible] of [illegible]. People [illegible] for nothing, but how much the thieves were paid for their labors by those who benefitted by them, became a matter of conjecture. We may be sure that the price was something considerable. The Globe and its satellites are just now rejoicing in the publication of correspondence alleged to have passed between Sir Charles Tupper and Mr. John A. Macdonnell in 1882, concerning arrears of taxes upon certain Catholic Church property in this city. Mr. Macdonnell is alleged to have stated that the remission of the amount would be of use in disarming the Archbishop in the then pending elections. Sir John A. Macdonald is represented as having stated that he had little confidence "in the breed." What that may mean is a matter of doubt, as Sir Charles is alleged to have been writing to a Catholic when he repeated the expression. The *Mail's* Ottawa correspondent declares that the correspondence has been distorted by forgery, which may well be the case, as a man who will steal will also forge. But, be the facts what they may, what are we to think of a party of purity which has no respect for the seal of privacy? There is no man living who would wish to see his private letters published. A gentleman who finds a private letter feels bound to respect the accidental confidence reposed in him, but there is no difference between the man who purloins another's correspondence and the thief who steals another man's watch or purse. If the upholder of Mr. Mackenzie's "standard of political morality" cannot keep it aloft without committing larceny, they had better furl their banner and run up a black flag.—*Toronto Sunday Canadian.*

The cherry tree which Mr. Gladstone felled in a snow storm during the Easter recess has been presented to the Dundee Liberal Club, whose members propose holding a bazaar in September next, and intend to have a number of articles made of the wood from the tree.

Bret Harte in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. Gray's Syrup of Red Spruce Gum—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

The Accident to the Queen.

Killed by a Falling Tree.

Benjamin Anderson, of Rothsay, Ont., was instantly killed at a wood-bee on Friday afternoon by being struck on the head by a limb of a falling tree, cut by two men a short distance away from where he was working at the time with a number of others. S. Brant, S. Corbett, Robert Fotheringham, and Edward Gamble were also struck and injured by the same tree, but not seriously, except Mr. Brant, who received a bad cut on his head.

Hanlan's Engagements.

In reply to a question as to what races he now had on, Hanlan, who is in Washington, said:—May 30, at Boston, with Kennedy, for $5,000; June 22, an open regatta at Chicago, for $1,000; July 4, regatta at Boston, for $300; about July 15, [illegible] with Ross, for $1,000, [illegible] [illegible] August [illegible] Coney [illegible] [illegible] Lee [illegible] for $2,000 a side, at Point of Pines, the place where Hanlan rows Kennedy. A Strange Affliction.

Chicago has a man who is always eighty-three seconds behind time. His physiological condition has become such that there is a gap in all his sensations between the fact and realization. Pricked with a pin the pain is felt just one minute and twenty-three seconds afterwards; looking at an approaching carriage he will not perceive it till it has passed; talking upon one topic and changing suddenly to another, he will after a brief pause bend his own voice and be led by it to the previous question. His disease appears to be a form of catalepsy, and it is supposed is produced by the inordinate use of tobacco.

SULPHOLINE LOTION.—An External Means of Curing Skin Diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old enduring skin disorders, that have plagued the sufferers for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a fluid pleasant in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the land deserving comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. [illegible], and every year it is used more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury).

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution. In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d. Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, enriches the [illegible] with. For debilitated health, from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver; which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. [illegible] Sold by all chemists. A most valuable and effectual medicine for India, Australia, the Cape, and Colonies generally.

Daily Evening Review

TUESDAY, APRIL 17, 1883.

The Cells.

The only [illegible] last night were [illegible] prisoners. The hearing of their trials drew a large audience at the Police Court this morning.

Railway Notes.

The Port Hope *Guide* says that a slight collision occurred in the Midland Railway yard on Saturday, between the [illegible] car and a locomotive. The engine had her head-light broken and the platform of the car was smashed. No person hurt.

The 24th of May.

At a meeting of the Fire Brigade, held on Monday evening, it was decided to accept the invitation of the Cobourg Fire Brigade to visit that town on the 24th of May, to celebrate the anniversary of the birth of Queen Victoria. They will be accompanied by the Band.

The Weather Probabilities.

The weather continues cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at [illegible] to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh winds, mostly south-east to south-west; generally fair, warm weather, with a few local showers.

Large Funeral.

The large attendance at the funeral of Mr. E. Phelan, jr., this morning is an evidence of the universal favor in which he was held. There was one hundred and sixty vehicles in the funeral procession. The remains were taken to St. Peter's Cathedral, and from there to the Roman Catholic Cemetery, where they received the last sad rites.

Preserve the goods you put into your refrigerator, by ordering your Ice at Town Clock Grocery.

A River Park.

The steamers are now being fitted up in first class style, and expect a big season. Arrangements have been made with Mr. George Savigney for a place on the bank of the river known as Piney Plains. This will make delightful grounds, and will be called Otonabee Park. There is a splendid stretch of water in the front of it for regattas, and the grounds are covered with fine shade trees. There is a good spring of water on it, and tables will be placed in different parts of the grounds for lunches, &c. A dancing hall will also be erected and a lunch counter. The King Fisher will run to the park every morning and afternoon. The Golden Eye will call on her way both up and to Idyl-Wild, so that parties not wishing to take the long trip can stop on the river. This will be a great convenience to our town, as the business men can send their families in the morning and join them in the afternoon. The beautiful park will be formally opened on the 24th of May, with a regatta and a ball. Prof. Martin's quadrille band has been engaged for the occasion. Three beautiful silver cups have been purchased for competition, one for the champion sculler, one for the champion paddler, and one for boys under 16 years of age in canoes. Other races both rowing and paddling will be run. Prizes for running and jumping will be offered for competition, as well as other games.

POLICE COURT.

INDECENT EXPOSURE.

John Laney was charged by P. C. Pidgeon with exposing his person, and he was fined $1 or ten days in gaol. He paid the fine.

DRUNK AND DISORDERLY.

Andw. Stewart, a venerable looking old man, was charged by P.C. Adams with having been drunk and disorderly. He pleaded guilty to the charge, and paid a fine of $1.

DRUNK.

D. Sullivan was charged with having been drunk in a public place. He acknowledged the truthfulness of the charge, but said that it was the first time he had ever been in such a disgraceful position, and he hoped the magistrate would let him off and it would never occur again. His eloquence prevailed and he was allowed to go.

WAGES CASE.

S. Batezen brought a suit against John Armstrong for wages which he claimed to be due him. The defendant did not appear, and judgment was given for $24.

FIGHTING.

Wm. Dennis was charged by P.C. Adams with having committed a breach of the peace, by fighting. He said he tried to part two who were fighting, and got into the fight himself. Fined two dollars or ten days in gaol. "I'll have to go to jail," said he.

J. Beauvais had nothing to say in answer to a similar charge. "Was it the same fight as Dennis was engaged in?" asked the Magistrate. "Yes, sir," was the reply. "Then you'll want to keep him company," the Magistrate remarked, as he marked down $2 or ten days. "I guess I'll go to jail," said Beauvais; but both he and Dennis afterwards paid their fines and were liberated.

Photographic.

Mr. Jas. McClelland's Studio will be closed until Thursday next, April 19th.

Annual Meeting.

The annual meeting of the shareholders of the Midland Railway of Canada is being held this afternoon.

Cleaning the Streets.

The Street Inspector has men employed to-day in scraping George street, which certainly needed this attention. Some ice had to be cut up and placed ready for drawing away.

Personal.

Among those registered at the Oriental Hotel are the following:—W. Gooderham, R. J. J. D. Edgar, H. P. Dwight, of Toronto; F.W. Henshaw, Montreal; Thos. Kelso, Belleville; J. M. Ferris, Campbellford; A. Hagal, W. T. R. Preston, Port Hope; Geo. A. Cox, A White, H. Read, Peterborough; and J. S. Hendrie, Hamilton.

Clearing Sale.

Messrs. Fairweather & Co., in order to make a complete clearance of their stock to afford an opportunity to make some changes in their premises, have resolved to make a clearing sale of the whole of their large stock, which includes the new spring goods, purchased for this season's trade. In order to facilitate the sale they have made the following arrangement:—On Monday, to sell particularly carpets, on Tuesday, house furnishings, and on Wednesday, dress goods and dress silks. The stock is large and varied, and the prices are put down to a low figure.

Lacrosse.

At the annual meeting of the National Amateur Lacrosse Association at Montreal, the Secretary's annual report contained the following reference to the District championship, which will be of interest here, as the Peterborough Club hold the championship of this district:—

"The holding of one of these championships is an honour that any club may aspire to, and feel proud of winning, and it is to be hoped that the coming season will see the whole of these championships persistently competed for. Your council also think at the close of each season a match should be arranged between the district champion clubs, and a medal be provided by the association, which would become the property of the winners."

The American Canoe Association.

The letter of Mr. R. B. Edwards in regard to the meeting of the American Canoe Association in our waters this year, will no doubt be read with much interest even by many who do not care especially for canoeing. The meeting called for Tuesday evening, April 24th, in the Council Chamber, should be well attended, and the arrangement for welcoming these visitors should not be left altogether to those devoted to athletic sports. We are all proud of our town, and should endeavor that a favourable impression of it should be spread as widely by the good reports of gentlemen from such widely separated localities, who may be induced to repeat their visit and recommend their friends to follow their example. So with our waters; the chains of lakes connected with the Otonabee offers such lovely scenery and such comparative seclusion, in spite of accessibility, that a better location could not be chosen for an autumn camp or a holiday trip, to say nothing of the facilities for sport. In addition to this and of more particular importance in business point of view is the fact of these waters affording such facilities for inland navigation, that a comparatively small expenditure will develop them into one of the important commercial routes of the continent. By a personal visit this fact will be impressed upon the minds of our visitors from a distance in a manner that no amount of reading could effect. That this will tend to hasten the opening of this navigable route is obvious. As for the sport itself, none can excell canoeing in its beneficial effect as combining recreation and exercise, both so necessary for the welfare of the dwellers in towns. It is alike healthful, invigorating and innocent to a degree almost unrivalled among athletic sports, and it should accordingly be duly encouraged. We hope that this appeal to our citizens will meet with a fitting response.

Flemming and His Ill Gotten Wealth.

The *Mail* has the following in reference to Flemming, the swindler, of "Fund W." fame:—

"THE FLEMMING AFFAIR.—At the Police Court yesterday Mr. Fenton called the attention of the Police Magistrate to the fact that attempts had been made to remove Flemming the "Fund W." swindler, from the gaol in an underhand manner. Mr. Bright, the Sheriff's officer, and Mr. Elliott, the night watchman, were both spoken of as having acted irregularly. Sheriff Jarvis, who came into the court, promised an investigation into the proceedings of his officer. The detectives who had the matter in charge for the Montreal authorities arrived only just in time to save Flemming from being spirited away. Mr. Wallace Smith, the Chicago lawyer who has been in Toronto for some time watching the case on Flemming's behalf, left here last evening for [illegible], presumably to effect a settlement if possible with the parties there who have [illegible]. Mr. Elliott, the night watchman, called at the *Mail* office last night, and stated that the warrant, regular in every form, was handed him by a Church street lawyer, whom he knew, with directions to serve it. He did not know Flemming or anything of the case, and supposed it was all right. The prisoner was pointed out to him, and he served the warrant in the regular way."

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 cents a bottle.

ADVERTIZING!

One of the most trying problems which a business man meets with, is that respecting advertising. In what channels, and to what extent is it profitable to advertise. Also what kind of advertising should he adopt. It is certainly necessary for a merchant to bring his business prominentally before the public, and as far as possible, to let them know that he has something that will be to their advantage to call and inspect.

WEDNESDAY APRIL 18, 1883.

ANOTHER "GLOBE" FRAUD.

THE *Globe* did not venture to make any attempt to challenge our figures giving a detailed account of the votes at the recent election, and showing a popular majority of over two thousand against Mr. Mowat, though they must have come under its notice since they were republished and adopted by the *Mail* and widely circulated by many other journals. Neither does the *Globe* dare to publish on its own account the total votes, for they would not be so easy to manipulate without immediate detection.

It gives, however, what it falsely asserts to be the official majorities, and so falsifies them as to show a pretended majority for the Mowat administration, the whole calculation being as great a fraud as the recent publication of stolen and forged letters by the *Globe* and its ally the Hamilton *Tribune*, or the *Globe's* forgery of the name of the Peterborough REVIEW to a scurrilous paragraph taken from one of its own gang.

The *Globe* professes though inaccurately to begin with a table of the constituencies where there were only two candidates. Immediately there strikes the eye the number 1 as representing the popular Conservative majority in North Leeds and Grenville. The *Globe* well knows that the constituency is so Conservative that no Reformer dare contest it, and that the competition was only between three Conservatives. Imagine North Leeds and Grenville having only one more Conservative than Reformers on the roll, and then we may judge the value of such a table to show the popular majority.

But even this impudent falsification is surpassed by the fraudulent nature of the second set of tables purporting to give constituencies where more than two candidates stood. After stating that:—"In these cases it is plain that the mere majority achieved by the member elected over the candidate who stood next to him furnishes no index of the popular vote," the *Globe* proceeds to sum them up in this confessedly absurd manner. It also gives an alternative dishonest calculation by counting all the votes of the unsuccessful candidates as against the member elect. This device is adopted because out of the seven constituencies it thus classes six were won by Conservatives, and in some of them there were several Conservative candidates. The result of these doctored figures is to make Dufferin, the constituency in which Mr. Mowat "hived" the Conservatives by his gerrymandering act of 1875 and in which no straight supporter of his dare show, give a popular majority for Mr. Mowat of 126, instead of the enormous majority really cast against him. Russell, too, though returning a Conservative, and having a third candidate of the same party, is stated to give a popular majority for Mr. Mowat of nearly 200, though there was a majority for the Conservative candidates of over 800. East Toronto is also calumniated by being stated to give Mr. Mowat a majority of nearly 200. In Carleton the Conservative majority is not reversed, but is reduced by over a thousand by counting votes for Conservative candidates as in favour of Mr. Mowat.

The next table is that of elections by acclamation, and as to these the *Globe* adopts the right principle of going back to the last general election, though in the case of South Bruce it puts the Reform majority at 505, though in reality Mr. Wells only beat Mr. Baird in 1879 by 79. This plan of resorting to the last general election we thought the fairest to adopt in the somewhat similar cases of elections in which there was no party opposition to throw light upon the state of the party vote. The *Globe* does not adopt this course but prefers the absurdity of counting the majority of Conservative over Conservative, or Reformer over Reformer. By this means it diminishes our majorities in Grey and North Leeds and Grenville by 507 and 346 respectively, and exaggerates their own majorities in Brockville and North Bruce by 231 and 51, which is probably the reason why it adopted a plan on the face of it so absurd.

The case of South Leeds is exceptional. The *Globe* classes Mr. Lees as independent and does not add the votes to its total. Mr. Elliott, the regular Conservative nominee, polled 822, and Mr. Cameron, the regular Reform candidate, polled 104. The *Globe* does not allow us this evident popular Conservative majority of 718 according to its own showing, to say nothing of the 43 votes for Mr. Burrows, another Conservative candidate. In addition to this, if the 889 votes given to Mr. Lees were cast by Reformers, they must belong to that numerous class of Reformers who are heartily sick of Mr. Mowat, for Mr. Lees voted against him in nearly every division last year.

The Globe dare not publish the full returns, for it could not manipulate them so well. The well established fact is that the popular vote was largely in favor of Mr. Meredith and his supporters and condemnatory of Mr. Mowat and his Administration. The *Globe* and its imitators may squirm and falsify figures, but they cannot blind the people of Ontario to the truth.

THE Ottawa *Citizen* says the Peterborough REVIEW has gone to the trouble to make a careful analysis of the vote cast at the late general election in Ontario. It makes out a Conservative majority of 2,145. If the honourable leader of the Opposition in the House of Commons has time to spare he might profitably examine the REVIEW'S figures.

"IT is not the mere fact of corruption having existed that is disgraceful to Canada. The disgrace consists in that we allow corruption to flourish like a green bay tree"—*Globe of the 16th April.* Yes truly, S. S. Peck is flourishing like a green bay tree.

GERMANY AND FRANCE.

Rumours of Preparations to Cross the Frontier—Germany Massing her Troops.

NEW YORK, April 18.—The *World's* London despatch says the message of the Emperor William to the *Reichstag, calling for legislation in* the interest of the working classes, excited as much uneasiness there in official circles as at Berlin. It is believed to have been inspired by distrust of the existing Government of France and to cover the military programme which will pretty certainly be carried out upon the first symptoms of serious political disturbance in France. The correspondent has it upon the best authority that under orders issued from Berlin a fortnight ago six divisions of Germany cavalry and four army corps have been got in readiness to cross the French frontier in three days' time. Some of the Socialist leaders in Germany appear inclined to cut out work nearer home for this force by provoking disturbances among the German working classes, but as such attempt would be disastrous to the people it is not likely to be made. The real danger to Europe at this moment is at Paris, where the men in authority seem to be entirely incapable of understanding the danger to which they are exposing not only the peace of the continent but the existence of their own country. The idea of holding a regular debate on the address, in reply to the message, has been abandoned, because the Liberal groups were unable to agree thereon. Parliament today voted 54,000,000 marks for the construction of branch railways throughout the empire. The workingmen of Berlin are preparing for a general strike for an increase of wages.

THE CANADIAN RAILWAYS.

Rupture of the Negotiations Between the Grand Trunk and Canadian Pacific.

Special Despatch to the Globe.

LONDON, April 17.—Much regret and surprise has been caused here by the sudden rupture of the negotiations between the Grand Trunk and Canadian Pacific Railways, which had culminated in a basis of agreement between these two rival roads being arrived at. The shareholders of both companies, who had already indulged in bright visions of fancied benefits to be derived from the working of the two railways for their mutual advantage, were astonished today by the official announcement that Mr. George Stephen had informed Mr. Tyler yesterday that in consequence of objections raised in America he is unable, for the present at all events, to carry out the arrangements recently made. I understand that the difficulty has arisen chiefly in connection with the construction and control of the Ontario and Quebec Railway. The impression prevails in some quarters that negotiations are merely interrupted rather than definitely broken off, but present indications lead one to believe that it is premature to form an opinion upon that point until there are further developments.

A LOTTERY TICKET.

A Prize Drawn, and the Fearful Tragedy that Followed.

The keeper of a crossing on the East Hungarian Railway won a short time ago some hundred of florins in a lottery, and took the bank notes home. All at once a train was signalled, and he rushed to his post, leaving the precious roll behind him. During his absence his little daughter played with the notes and threw them in the fire. The father returned, missed the notes, and learned what had become of them. In his fury he struck the child a violent blow, which stretched her lifeless on the floor. The mother, who was giving a bath in an adjoining room to a second child, an infant, rushed in on hearing the disturbance, picked up the little girl, and tried in vain to restore her to consciousness. She flew to the bath in which she had left the infant. Another shock awaited her; the child was drowned in its bath. The childless mother rushed out of the house and hanged herself on the branch of a tree. The father, maddened by the loss of wife, children, and money, shot himself with a revolver.—*Oxford Journal.*

CURLEY TO BE HANGED.

DUBLIN, April 18.—In the Curley trial, Adams for the defence, declared that the evidence of Kavanagh did not show that Curley was in the Phœnix Park on May 6th. His presence was indicated by James Carey, who said that Curley was in command of the assassins, but Carey so swore to save his own neck. He was doubtless himself in command. Porter, Attorney-General of Ireland, responded for the Crown. The Judge charged the jury. The latter retired and soon returned and rendered a verdict of guilty. Curley was sentenced to be hanged on May 18th.

Four Shots Fired at the Policemen—Was it a Joke?

OTTAWA, April 18, 1.30 a.m.—Information has just been received here that four shots were fired about midnight at the policemen on duty at Rideau hall. The detachment of Toronto police are on duty there, and they dare not leave the building, as it was thought the shots were intended as a decoy. After firing the individual took to the bush and he has not yet been captured. Col. DeWinton was informed of the occurrence, but not the Governor-General. In the house it was hardly known whether to consider it seriously or merely as a joke.—*Mail.*

A Picton despatch says that another body from the wreck of the Folger came ashore at Gull Pond. It is the body of Nathan Longston, seaman. This is the fifth body recovered from this wreck, and there are four more not yet recovered. The father of the young man arrived there to take the body to Clayton N. Y., for burial.

Ross and Hanlan.

Wallace Ross has forwarded to Hanlan articles of agreement for his approval. Ogdensburg, as has been agreed upon, is named as the place for the race, five miles the distance, and $1000 a side as the stakes. He proposes that the race take place in July, as he cannot well be ready before that time, training here being impossible for a few weeks yet. Ross has also sent a deposit of $500 to the *Turf, Field and Farm.* Ross is very anxious to get on this race with Hanlan and have it definitely decided which is the better man.

THE MIDLAND RAILWAY

THE ANNUAL MEETING OF THE SHAREHOLDERS OF THE COMPANY.

Satisfactory Report of the Directors and Officers—The Election of Directors—Thanks Tendered—The Officers for the Next Year.

The annual meeting of the shareholders of the Midland Railway of Canada was held in the Board Room, Peterborough, on Tuesday afternoon.

The following gentlemen were present:—Messrs. Geo. A. Cox, President, W. Gooderham, Vice-President, J. M. Ferris, Campbellford, T. Kelso, Belleville, J. R. Dundas, Lindsay, H. P. Dwight and J. D. Edgar, Toronto, F. W. Henshaw, Montreal, E. S. Vindin, A. Hugel, Port Hope, H. O'Leary, Lindsay. The following officers of the Company were also present:—H. Read, Secretary, A. White, General Traffic Manager, J. G. Machlin, Chief Engineer, W. B. Ferguson, Superintendent, J. Frith Jeffers, Auditor, and C. H. Crofts, Storekeeper.

The SECRETARY read the advertisement calling the annual meeting at this date.

Mr. G. A. Cox, President, then read as follows the first annual report of the Directors to the Shareholders of the Midland Railway of Canada:—

DIRECTORS' REPORT.

Peterborough, April 16th, 1883.

The Consolidation of the Midland, Toronto & Nipissing, Grand Junction, Whitby, Port Perry & Lindsay, Toronto & Ottawa, and Victoria Railway Companies, under the name of The Midland Railway of Canada, was consummated on the 1st of April, 1882, under an agreement entered into by the several companies, approved at Special General Meetings of their respective proprietors, and ratified by an Act of the Ontario Legislature, 45 Victoria, Chapter 67.

The Directors appointed under the said agreement, have now the pleasure of submitting their report for the nine months from that date to the 31st of December, 1882.

The gross receipts for the period from the first of April to the 31st of December, amounted to $872,837.16, (£179,350, 1s, 10d.) while the aggregate earnings of the different lines for the corresponding period of 1881, amounted to $732,353.76. (£150,483, 12s.) showing an increase of $140,483.40, (£28,866, 8s. 10d.) upon the operations of the first nine months, thus confirming the hopes that were entertained as to the advantages that would accrue from this union of interests; but the full advantages to be derived cannot be realized until the completion of the connecting links between Manilla and Wick, and Omemee and Peterborough, which will place the entire system in direct connection with the city of Toronto, the centre of business for the district served by this line.

It was anticipated that these connections would have been now in operation, but the nature of the work between Peterborough and Omemee (14 miles) has been so exceedingly difficult that the contractors will not be able to complete it before the first of July. The delay in completing this connection is inflicting serious loss upon the Company in preventing a full developement of its business and economical working.

The line Madoc to Bridgewater (10 miles) is completed as is also the Manilla and Wick line (6½ miles) with the exception of a little ballasting.

The working expenses for the nine months have been $552,975.01 (£113,625.00) or 63.35% on the gross receipts, as compared with $470,903.36 (£96,760.19 7) or 64.30% for the corresponding period of 1881. It is reasonable to expect still more satisfactory results when the connecting lines referred to are finished and in operation, and the traffic has been more fully developed.

The net revenue for the period under review amounted to $319,862.15 (£65,725 1 10). It has been appropriated as per the revenue statement submitted, and it will be observed that after providing for the full interest obligations of the Company, $23,106.55 (£4,747, 18s. 3d.) has been carried forward.

The passenger receipts, including mails and express freight increased by $86,773.79, and the number of passengers by 52,173, or 20.70 per cent. as compared with the corresponding period of the previous year:—

The receipts from freight traffic increased by $55,576.21, or 10.90 per cent. The tonnage increased by 53,445 tons or 12.31 per cent. The Company would have been able to report a still larger increase in the freight earnings, but for the unusually heavy quantities of both lumber and grain that were held over for spring shipment.

The total number of passengers carried was 304,093, against 251,920; and the quantity of freight was 406,3000 against 352,855 tons.

The average receipt per passenger was 89c., against 80c.; and per ton of freight $1.38, against $1.33.

The amount charged against capital account was $593,038.13. The principal items were $194,720.69 on account of the construction of the Bridgewater and Perth section; $142,020.39 for improvements, replacing iron rails with steel; $129,393.83 for new rolling stock; and $79,617.12 for new sidings and extensions, new stations, new fencing and machinery.

There have been added to the rolling stock during the past year, a portion of which has been purchased on deferred payments, 12 locomotives, 4 first-class and 19 second-class passenger coaches, 149 box freight cars, 142 platform cars, 4 postal, express and smoking cars, 4 baggage cars, 12 conductor's vans, and 6 stock cars.

There has been a very large increase in the through traffic, via Midland, and the elevators at that point and Port Hope have proved of great advantage. The Directors are endeavoring to secure elevator accommodation at Belleville, as they have every reason to anticipate a still further development of the through traffic, and in order to handle it satisfactorily, ample and efficient facilities are indispensable.

The further capital expenditure upon the line, excepting in the matter of rolling stock, required to meet the increasing business will not be large. A short junction connection is wanted at Lindsay, another at Peterborough, and some more ballasting and fencing will have to be done from time to time, but these are not works requiring the expenditure of large sums.

The winter just passed has proved one of unusual severity, and your Company has suffered from snow and frost, as have all the north and south lines in the country. The traffic prospects are, however, more promising than they have been for years past, and your Directors have every reason to anticipate satisfactory results from the operations of the Company in the present year.

The Directors hope, in future, to be able to publish a full report from the Mechanical Superintendent of the line. Some changes which it has been found necessary to make in the staff of that department, have rendered it difficult to do so on this occasion. The reports of the Engineer and Traffic Manager are appended.

The work of consolidating the staff of the various lines now merged into the Midland has been attended with a good deal of anxiety and difficulty. The various departments of the service are now filled by efficient and experienced officers, devoted to the interests of the Corporation.

It was deemed desirable in the interests of the Company to secure co-operation in London of gentlemen of experience and influence, to advise with your Directors, and assist in the administration of the Company's affairs, acting as a medium of communication between the large number of Bond and Shareholders resident in Europe, and the Board. The Directors were fortunate in being able to arrange for the following gentlemen to act as a Committee in London, viz:—Sir Henry W. Tyler, M. P., Chairman; Henry Grissell, Esq., 17 Montague Square, London; Sir Charles L. Young, Bart., 8 Ashburn Place, Cromwell Road; Lord Claud John Hamilton, M. P., 23 Lowndes Square, S. W.; Ulick Ralph Burke, Esq., 7 Great Winchester Street, London; Edward Joseph Halsey, Esq., 77 Cornhill, London. Mr. E. J. Halsey was appointed Secretary to the Committee and Agent.

Since these appointments were made the Directors regret that they have been deprived, by death, of the aid and advice of Mr. Henry Grissell, and it is with deep regret that they have also to record the death of their esteemed co-Director, Lewis Ross, Esq., of Port Hope. He had been an active and useful member of the Board. He always took a deep interest in the welfare of the Company, and for years rendered valuable services to the Midland Company before consolidation.

Immediately upon the consolidation of the various companies forming the present Midland Railway, being accomplished, your Directors took the necessary steps to place upon the London Market an issue of the Consolidated Bonds of the Company. These bonds were satisfactorily disposed of, and as a result of the operation, the following Sectional Bonds have been taken up and ledged with the Trustees, under the Consolidated Mortgage:—

Grand Junction Section Bonds	£228,000
Whitby & Victoria Section Bonds	210,000
Toronto & Ottawa Bonds	174,700

A portion of the £30,000 of deferred certificates of the Midland have also been taken up, and Bonds are placed with Trustees in London to meet the remainder of this loan.

The Board elected in the place of Mr. Ross, E. S. Vindin, Esq., of Port Hope. All the Directors elected by the Shareholders, retire at the meeting to be held on the 17th instant. They are eligible and offer themselves for re-election. Their names are:—

GEO. A. COX,	JAS. M. FERRIS, M.P.P.
WM. GOODERHAM,	F. W. HENSHAW,
J. R. DUNDAS, M.P.,	ROBERT JAFFRAY,
H. P. DWIGHT,	THOMAS KELSO,
J. D. EDGAR,	E. S. VINDIN.

Alderman Carlisle, of Toronto; N. Lingham, Mayor of Belleville, and Hugh O'Leary, Esq., of Lindsay; represent the Cities of Toronto and Belleville, and the Town of Lindsay.

On behalf of the Board,

GEO. A. COX.
President.

TRAFFIC REPORT.

The following report of the Traffic Manager was, with other reports, appended to the Directors' report:—

Traffic Manager's Office,
Peterborough, April 17th, 1883.

Geo. A. Cox, Esq., President and General Manager Midland Railway of Canada:—

SIR.—Herewith I beg to hand you classified statements of the earnings of the Midland Railway for the nine months ending December 31st, 1882, showing a gross traffic of $872,837.15 as compared with $730,487.16 for the same period in 1881, being an increase of $142,350.00 during the nine months.

These figures shew respectively an increase over 1881 from precisely the same mileage of

18 per cent on *Freight Earnings.*
37 " " Passenger Earnings.
31 " " Miscellaneous Traffic.

Which considering the difficulties we had to overcome in reconciling the conflicting interests of the five Railways as they stood prior to the amalgamation, and in view of our having performed this labour during the period in which this increase was being earned, affords, I trust, ample proof of the wisdom of the amalgamation and the future prosperity of the Midland Railway as now constituted.

At the present writing it might appear from the traffic returns of 1883 that the Midland Railway has reached its maximum earning capacity, but I think it is very generally known that the line was almost completely blockaded with snow during the first thirteen weeks of the present year, and the fact of its having held its own under those circumstances, combined with the signs of manufacturing industry and general improvement throughout the district served by it, (the latter being very marked,) seems to fully warrant the opinion that we shall yet make a still larger percentage of increase during 1883 over 1882.

Coming down to an analysis of the freight earnings, which yield more than two-thirds of our trade, we find in the first staple commodity, viz.: lumber, that in 1882 we earned $171,853, and from the quantity on hand at the present moment, as compared with stocks held this time last year, combined with the known number of logs that have been harvested during the recent winter, we may calculate upon an increase in our lumber receipts of twenty-five per cent.

On square timber in 1882 we earned $21,814, and have already under-contract this year more than double the quantity of timber we carried last year.

In wheat, barley and oats we earned last year $110,275, in the face of somewhat deficient stocks held over until the commencement of 1882; whereas, this year, every granary in the country is loaded down with grain waiting removal, and it is estimated that the farmers have not yet put on the market much more than half of last year's crop. We may, therefore, safely expect an increase of twenty to twenty-five per cent. in local grain earnings; but I base my calculations on an increase of twenty per cent.

In through corn from Chicago last year we earned $51,757, having to contend against a short crop of corn or maize in the Western States; whereas, the corn crop of 1882 is reported as excellent all over the country, and we shall have no difficulty in securing just as much of this traffic as we are able to handle. I therefore look for an increase of thirty-three per cent. on the through corn trade. This would give the following probable increases:—

Lumber	$42,962 00
Timber	21,814 00
Grain	22,056 00
Corn	17,080 00
Total	$103,912 00

In estimating this increase of $103,912, I have taken up $255,699 of last year's gross earnings, leaving the sum of $711,952, being that portion of the earnings on which it is not so easy to correctly estimate what we are likely to do, it being of a miscellaneous nature; but I think I will be perfectly safe in saying that we shall at least make an increase of ten per cent. this year on this class of business over the similar trade of 1882, and we may therefore expect an increase of $175,000 during the year, which will give the company a total gross earnings for 1883 of about $1,240,000.

The additional thirty miles of new railway added to the road and which will be opened for traffic shortly, must necessarily help the receipts still further.

Yours obediently,
A. WHITE,
Traffic Manager.

THE ADOPTION OF THE REPORT.

Mr. COX then said:—GENTLEMAN,—It affords me pleasure to move the adoption of this, the first report of the Directors of the New Consolidated Midland Railway of Canada. The report itself, with the accompanying statements and accounts cover, the operations of the Company so fully that it is not necessary that I should say anything more in support of the motion. I may remark, however, that the nine months now under review have not been altogether free from labor and anxiety. The signing of the consolidation agreement by the various contracting parties did not by any means terminate our duties. The outstanding bonds and securities of the different companies, had to be dealt with; the connecting links constructed; the separate managements consolidated; the staff reorganized; better train service provided; new rates and tariffs prepared, and other duties of a more or less responsible nature, that have taxed the best efforts of your Directors and officers, and it is certainly cause for congratulation that these different matters have been successfully carried through, and that the Directors are to-day enabled to report everything working pleasant and satisfactory, and to show the handsome increase of $140,483.40 on the operations of the first nine months. The full year of 1882 shows a gross earning of $1,067,651.60, an increase of $208,428.31 over the aggregate of the different lines for the previous year. The first three months of the current year, in consequence of the unusual severity of the winter, have been somewhat depressing in their results. Notwithstanding that fact, however, we have every reason to anticipate that 1883 will, upon the whole, be a most successful year, and show a largely increased earning over the past year. The rapidity with which our through grain train from Chicago and western points is being developed, and the important and satisfactory nature of our relations with the Grand Trunk Co'y., one of the largest and most progressive corporations on this continent, are matters of congratulation to the proprietors of the Company and to the district served by this line. With these remarks I beg to move the adoption of the report.

Mr. GOODERHAM seconded the motion. He said that the report was one that could not fail to give entire satisfaction to the proprietors of the railway.

Mr. HENSHAW said that, looking at the general results of the report, only one opinion could be entertained, and that was that the management of the President and those by whom he was surrounded had been marked by success. In the eastern Province a few years ago the name of the Midland Railway was scarcely known, but now it is known throughout the country as one of the most prosperous roads, and with it the name of the President, Mr. Cox, and Mr. Gooderham, the Vice-President. He had risen to congratulate them on the splendid report they had been able to present.

The motion adopting the report was carried unanimously.

THANKS TO THE OFFICERS.

Mr. DUNDAS moved a vote of thanks to the several officers of the Company for the zeal they had manifested in attending to the affairs of the Company. As far as he was concerned it was not a formal thanks he tendered to the officers, general or subordinate, for their zeal in managing the Company's affairs. A general of an army might be ever so wise, but unless he had good officers and soldiers to carry out his orders, his efforts would be futile, and he could speak nothing but unqualified praise of the manner in which the employees of the Midland Railway had conducted the affairs of the road. While he was pleased with the past, he had bright hopes of the future. When in connection with the Sault branch the officers would have ample scope for the fullest exercise of their abilities. The Midland would soon be part of a through line from the east to the west. Like the Confederation in which it existed, it was just beginning to feel its strength.

Mr. VINDEN seconded the motion, which was put and carried.

THANKING THE DIRECTORS.

Mr. HUGEL moved that a vote of thanks be tendered to the Directors for the manner in which they had managed the business of the road. He felt proud to think what he had foreseen and foretold in regard to the Midland Railway was coming true. He had, while manager of the road, advised that the Midland and Toronto and Nipissing should unite, as they had done. The traffic arrangements gave every satisfaction to the towns along the line of the road. He regretted that Port Hope had not, like some other towns, a representative on the Board. This was an ably managed railway; it was extending considerably, and it would be very successful.

MR. FERRIS remarked that perhaps it was as well that the Mayor of Port Hope was not *ex-officio* a member of the Board, as the Council might, as others had done, order him not to attend, and then they would be deprived of the counsel of one of their best members. (Hear, hear, and laughter.)

The motion was carried.

The PRESIDENT, in replying on behalf of the Directors, said that although the corporation of Port Hope was not entitled to a representation on the Directorate, there was a clause in the statute which required that one of the Directors should be a resident of that town. The only cause for complaint that Port Hope could have was the removal of the head office from there, but they reaped many benefits from the road. The workshops were there, and more money was spent there that at any place along the line. There was a good deal of difficulty in keeping the towns satisfied. The different towns claimed the different lines as their lines, and the only way there was to reconcile their interests was to choose a neutral place for the head office—(laughter)—and Peterborough was that fortunate town. The workshops would have to be extended and the plant improved, and town would some day be fortunate in getting them. He desired to express personally his indebtedness to the Directors of the Company, who had assisted him so ably. All that had been said in praise of the officers was not too much, as they were an able and loyal set of officers. He was pleased to know that the efforts they had made had given satisfaction to the company.

Mr. WHITE replied briefly on behalf of the officers of the Company.

THE AUDITORS.

MR. HENSHAW moved, seconded by Mr. FERRIS,—That Messrs. John Burton and H. Walker be appointed auditors.—Carried.

ELECTION OF DIRECTORS.

On motion Messrs. White and Read were appointed scrutineers, and the ballot for the election of Directors was taken. The following gentlemen were elected:—Messrs. Geo. A. Cox, W. Gooderham, F. W. Henshaw, J. R. Dundas, H. P. Dwight, J. D. Edgar, J. M. Ferris, Thos. Kelso, R. Jaffray and E. S. Vindin.

The meeting then adjourned until the second Wednesday in May, at 2 o'clock in the afternoon.

ELECTION OF OFFICERS.

Immediately after the close of the shareholders meeting a meeting of the Board of Directors was held, and Mr. Geo. Cox was re-elected President, and Mr. Wm. Gooderham Vice-President.

Mr. J. R. SEYMOUR, Druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blood Bitters is the grand specific for all diseases of the Blood, Liver and Kidneys.

EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its especialty as a complete and radical cure of dyspepsia, liver and kidney complaints, and all impurities of the blood.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not endure.

THE reason why the surgeons of the International Throat and Lung Institute, [illegible] Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. YOUNG'S POINT.

From Our Own Correspondent.

THE DAM.—The Dominion Government assumed the entire control of this vexed dam business about ten days ago; not a bit too soon before we have a flood to carry the whole affair down the river. Mr. Geo. Chalmers received instructions from the department to build a new pier about 40 feet long, to place below the old one in case of accident in high water, until it is thoroughly overhauled in the fall. The Mowat election dodges anent this long talked of dam business are, therefore, now played out.

THE WATER.—The water in the back lakes is running past here in a hurry, it has not been so high for some years. The Peterborough folks will see lots of it in a few days, and when at its height, it will be unusually high this spring.

SHINGLE MILL.—The shingle mill is now in thorough working order, Strong new belts having been put in last week. Mr. W. J. Kearn's intention is to cut first class shingles, and to be second to none in the market; that is his motto.

THE DRIVES.—Mr. Chalmers intends to send back his foreman and two gangs of men to drive the logs that were cut last winter. Mr. Alex. Wynn goes back to Eel's Lake and brings his logs logs and timber down Eel's Creek into Stony Lake. Mr. P. Cassidy with his gang of men brings out his logs down Jacks Creek into Stony Lake. We wish both foremen lots of water in the creeks, no heads winds, &c.,

For sale by Taylor & McDonald.

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Bilious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

HEADACHE.—Headache is one of those distressing complaints that depends upon nervous irritation, bad circulation, or a disordered state of the stomach, liver, bowels, etc. The editor and proprietor of the Canadian Presbyterian was cured after years of suffering with headache, and now testifies to the virtue of Burdock Blood Bitters.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The Cells.

One prisoner and one tramp shared the police cells last night.

Dam Carried Away.

The dam on Pigeon creek at Omemee was carried away on Sunday, by the high water.

Photographic.

Mr. Jos. McClelland's Studio will be closed until Thursday next, April 19th.

Personal.

Mr. A. P. Poussette appeared in the Police Court this morning, walking on crutches. He was welcomed by the members of the bar and others.

Bridge Threatened.

Information has been received that Gilmour & Co's. drive in Crow river, consisting of about 100,000 saw logs, has broken loose, and that half of them are pressing against the piers of Crow River Bridge, which is in danger of being carried away.

The Result.

There were 130 probabilities issued from the Toronto Meterorological office during the month of March, for this district, with the following results :—Number verefied 102; partly verified, 16; not verified, 12; percentage fully verified, 78·5; fully or in part, 90·8.

The Weather Probabilities.

The weather is cool and cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows :—Winds shifting to north-east and east; fair to cloudy, slightly cooler weather.

The Hose Carts.

The fireman complained on Tuesday night because they were expected to draw the hose carts to the fires. As at matter of fact, they had a long run and were much spent when they arrived there. When the firemen have to run a half a mile or more, even without any encumbrance, they would be none too fresh for fighting the flames.

The Water Still Rising.

Mr. T. D. Belcher, Superintending Engineer of the Trent navigation, has this morning received another telegram from Bobcaygeon to the following effect:—

"Pigeon Lake raised three feet since despatch of 16th. Sturgeon Lake flowing over ordinary high water level, and still raining at rate of eight inches daily."

This should be a timely warning to those interested in property on or near the river.

A Fire.

Between eight and nine o'clock on Tuesday evening the fire alarm was sounded, and the firemen turned out promptly. The fire was at a house owned by Mr. John McKee, on Waterford street. It originated in a frame stable which was being put up in the rear of the house, and spread to a shed adjoining the house, where it was confined by the firemen, the roof of the brick kitchen being only slightly damaged. Considering the distance to the fire, the time consumed in getting on the water was short. The house was insured, but the stable, which was burned, was not.

DESTRUCTIVE FIRE.

The Hotel at Scott's Corners Destroyed—Three Horses Burned.

The hotel at the corner known as Scott's corner, about seven miles from the town, owned by Mrs. Scott, of Port Hope, and occupied by Mr. John Newall, was totally destroyed by fire on Tuesday evening. The fire originated in the stable belonging to the hotel. The hostler was in the stable a short time before the fire broke out, and did not notice anything wrong, but the flames spread with such rapidity that the stable and everything it contained was consumed. Three valuable horses, belonging to Mr. Newall, were in the stable, but they could not be reached, and they perished in the flames. Four tons of hay and other articles were also destroyed.

A shed which stood between the stable and the hotel took fire, and carried the flames to the house, which was also soon in a blaze. There was not much help at hand to assist in checking the fire, and the house also became its prey. The contents of the house were nearly all got out, but $165 in money, which Mr. Newall forgot in the excitement, is said to have been burned.

The origin of the fire is not known, but it is supposed to have been caused by some one smoking. Mr. Newall's loss will amount to about $600, and he had no insurance. We understand that the buildings were insured.

POLICE COURT.

DRUNK AND DISORDERLY.

WEDNESDAY, April 18.—Joseph Carter was charged by Wm. Bell with having been drunk and disorderly on Tuesday. He pleaded guilty. He was fined $2 or ten days in gaol, and was committed.

THE PULP MILL AFFAIR.

T. G. Hazlitt, John McGrath, Matthew Young, Thomas Fair, John Cook and James Fox were charged with having, on the 14th of April, riotously and tumultuously assembled together, and that they did unlawfully damage certain real estate, the property of J. R. Scott.

This case was brought up at eleven o'clock, Messrs. A. Rutherford, J. P., and T. Menzies, J. P., sitting beside the Police Magistrate on the Bench.

Messrs. Edmison & Wood appeared for the prosecution, and Messrs. Poussette & Roger for the prisoners.

Mr. POUSSETTE said that they wished the Magistrate to dispose of the case, but they demurred to the charge and did not propose to plead at the present time.

Mr. WOOD said that he supposed that the Court was not compelled to try the case.

The POLICE MAGISTRATE said that he proposed to hear the case.

Mr. EDMISON said that the Police Magistrate had said that he would have nothing to do with the case. When they asked him to take the information he declined on the ground that he had professionally given advise to Mr. Hazlitt in regard to the pulp mill property, and he wished to know if His Worship had changed his mind and now proposed to sit on the case.

The POLICE MAGISTRATE said that he was now disposed to sit on the case. It was a very intricate case and he did not think the Justices of the Peace would be the worse of his aid.

Mr. RUTHERFORD said that the Police Magistrate had told him that he would sit with them if it was desired that he should do so.

Mr. WOOD—Was he asked?

The POLICE MAGISTRATE said that did not make any difference. He did not think they could object to any Magistrate hearing the case.

Mr. EDMISON—Of course Mr. Hazlitt asked him to sit on it.

Mr. POUSSETTE said he desired to call attention to the extraordinary course pursued in issuing a warrant. If the Magistrate was satisfied that a disturbance was going on he would do right to issue a warrant. He was under the impression, however, that the Magistrate who issued the warrant had been wrongly informed. The usual practice was, when such a charge was laid against a respectable citizen, to issue a summons in the first instance.

Mr. RUTHERFORD said that from the information given him he could not see that he could have adopted any other course than that which he had taken. He was led to believe that there was an assemblage of men in the locality and that violence was apprehended.

MR. POUSSETTE said that it was just as he supposed; the Magistrate had been misled.

MR. EDMISON said that there had been only one similar case in this County in the last twenty years, and the same procedure had been followed in this case. Who Mr. Poussette meant to say had misled the Magistrate he did not know, but if he referred to himself or Mr. Wood, as the counsel, he called upon him to take it back.

MR. POUSSETTE said he meant the prosecutor, of course.

MR. WOOD applied for an adjournment of the case.

The case was, after some discussion, adjourned until 11 o'clock on Friday morning.

Daily Evening Review

THURSDAY APRIL 19, 1883.

BEFORE the recent election the Reform press classed a number of candidates as Conservatives, but now in in order to manufacture a fictitious popular majority for the Mowat administration, they claim the votes for these same gentlemen. For instance, on February 23rd, the Belleville *Ontario* said:—

> "That all is not harmony in the Tory ranks, despite the yells of the *Mail*, is evident by the fact that in Carleton there are two Conservative candidates, in Hamilton two, in South Lanark three, in Ottawa two, in Russell four, and in East Toronto two."

And yet we are now told by the Reform journals that the ballots cast for the greater number of these gentlemen are to be reckoned in favour of Mr. Mowat.

SHADE TREES.

"? ? ?" Replies to Mr. Leck Through The Review.

Oh no! Mr. Leck, my idea was not selfish or unjust. Like yourself I have a fine row of trees in front of my place, but having got them I want to see all the blank places between your place and mine filled up with rows of handsome shade trees. I want to help those who can't get trees, and to stir up those who can, but are too careless to attend to it. I want to see our smart little town take the lead in this, as in all other matters. I want to make it a pleasant place for ourselves, and an attractive place for strangers. Will you not help me, Mr. Leck? Eh? ? ? ?

A Terrible Death.

MONTREAL, April 18.—A frightful death occurred here to-day. Philip Turgeon, a dry-goods clerk aged about 28, left his residence at 3 p. m. yesterday, in apparently good health and perfectly sober. He was brought home at 20 minutes to 4 in a comatose condition, senseless and unconscious. His family, deeming him under the influence of liquor, thought it would wear off, and did not call in medical advice until 9.20 p. m., when a doctor was sent for, who at once summoned another physician. A consultation was held, but the efforts of the medical men proved of no avail, and the unfortunate man died at 6.40 this morning, never having recovered the least consciousness. It seems that during his forty minutes' absence from home deceased visited a tavern kept by one Tessier, where, it is said, for a wager he swallowed in rapid succession five glasses of whiskey and two of beer mixed with wine and whiskey. On taking the last tumblerful it was noticed that the unfortunate man turned suddenly pale and fell senseless, in which condition he was taken home as already stated. Deceased was married and leaves a young wife of twenty years, and an infant of sixteen months. Octave Lartie, carter, the party who wagered with deceased, and one Drouin, who was also present and urged him to drink, have been arrested as accessories to his death. The coroner's inquest will be held to-morrow. It has been ascertained that the tumbler used by deceased was what is styled a soda water tumbler, and that he imbibed about a quart and a gill of whiskey, besides nearly the same quantity of beer and port wine, all within the space of fifteen minutes.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough, the best in the market. J. McALEER.

Sad Story of a Broom.

OTTAWA, April 18.—James Peterkin is a farmer residing in the township of Gloucester, about three miles from this city. On Saturday Mrs. Peterkin, while busying herself about the house, was accosted by her daughter, who asked her mother for the broom. Giving that article to the child, the latter went out in the field in the direction of a creek. The mother thought the little girl was merely going to play and paid no attention to her. A few minutes afterwards Mrs. Peterkin went in search of her daughter, but could not find her anywhere. The broom was floating on the surface of the creek and from this it was surmised that the poor little girl had accidentally fallen in and was drowned.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. and is for sale by all druggists throughout the world. Price 25 cents a bottle.

MIDNIGHT TELEGRAMS

CABLE.

FRANCE AND GERMANY.

BERLIN, April 18.—The *Nord Deutsche Zeitung*, replying to the comments of the French press, says:—"If the monarchy be restored in France it is not likely Germany would declare war forthwith. She would probably await an attack by France, which would soon be made. Under the circumstances, the restored monarch could be induced to declare war on Germany without warning."

UNIVERSITY TROUBLES.

WARSAW, April 18.—Two hundred University students to-day called on the rector and demanded an explanation of the arrest of their comrades. The rector refused an explanation and summoned the police and military, who dispersed the students and occupied the college buildings.

DYNAMITE AT MADRID.

MADRID, April 18.—There was an explosion of dynamite to-day in a commercial establishment at Carballeno. Three houses caught fire, and two persons were killed and several injured.

FIRE IN RUSSIA.

ST. PETERSBURG, April 18.—A fire at Katow-Iwanoski, in the Government of Orenburg, destroyed five hundred dwellings, the telegraph station, post-office, a number of stores, a large quantity of coal and wood, and much mining property.

SUEING FOR MERCY.

ST. PETERSBURG, April 18.—Ten of the 26 members of the South Russia Workmen's Federation, recently sentenced to long terms for Nihilism, have petitioned the Czar for a mitigation of their sentences.

THE ANNAM AND CHINESE WAR.

LONDON, April 18.—The *News* says:—"In the event of war with Annam involving war with China, it is understood France will confine herself to blockading the Chinese ports, as she is well aware of the difficulties of an expedition to Pekin." The *News* adds that it will be a very serious matter to stop trade between China, America, England and Germany, and it will be worth while for France to consider whether Bismarck will submit to such action.

A HOAX.

LONDON, April 18.—The report that an attempt had been made to blow up Salisbury cathedral is a hoax.

EXPLOSION AT DOVER.

DOVER, April 18.—An explosion, supposed to be of dynamite, has just occurred in a coal cellar under the barracks. The shock shattered the windows and tumbled down the chimneys in every direction.

LOUISE MICHEL'S TRIAL.

PARIS, April 18.—Louise Michel is held for trial at the next assizes on a charge of inciting to riot. She will conduct her own defence.

A CLOSE DIVISION.

LONDON, April 18.—In the House of Commons last evening, a motion introduced by Mr. Pell (Conservative) in favor of the immediate reform of local taxation, was only negatived by 217 to 229. An amendment was accepted by the Government postponing consideration of reform measures until the whole question of local government is dealt with. The closeness of the division on Mr. Pell's motion was loudly cheered by the Tories.

A SUSPECT RELEASED.

LONDON, April 18.—McNulty, who was arrested at Wakefield recently on suspicion of being a Fenian, has been released.

A NOTE OF WARNING.

LONDON, April 18.—The Home Office has issued a circular directing the attention of the local authorities to the importance of vigilant observation to prevent persons getting possession of explosives and materials from which explosives are made. A reward of one hundred pounds is offered for information leading to the discovery of any person engaged in the illegal manufacture of explosives.

AMERICAN.

THE NIAGARA PARK BILL.

ALBANY, N.Y., April 18.—The Niagara Falls Park Bill was considered in the Senate. Mr. Grady moved to recommit with instructions to amend so as to make the term of the Commissioners two years instead of five. Lost. Mr. Grady opposed the Bill, which he characterized as a mammoth job that would cost the State untold millions. Mr. Covert said the bill had been advocated earnestly by the most advanced and distinguished people in the State, in all the branches of art, letters and science. It was subsequently allowed to remain on the Senate table a day at Mr. Grady's request.

AN EXTRAORDINARY MURDER.

TAUNTON, Mass., April 18.—Ellen Hasey, aged 65, was found dead in her house in East Taunton this morning, with her head in a tin basin, surrounded by pools of blood from a hole in the forehead. William Flinn was found in an adjoining room severely cut in the forehead. He says Timothy, aged 19, and John, aged 22, her sons, murdered the woman, when he interfered, and was struck by Timothy on the head with a chair. The boys put him in bed. The last thing he remembered was the old woman standing over him, trying to quench the flow of blood. Both sons say they were away from home all night, but tell conflicting stories as to their whereabouts. All the parties have been arrested.

PROHIBITION NOT SUSTAINED.

CHICAGO, April 18.—Yesterday forty-eight cities and towns in Illinois voted upon the liquor question; 17 declared for prohibition, or anti-license, and 31 for license. Of the latter six were for high licenses.

Personal! To Men Only!

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with Nervous Debility, Lost Vitality and Manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N. B.—No risk is incurred, as thirty days' trial is allowed.

JOHN MYLNE, Druggist, Bothwell, says, I have a very large sale of Dr. Carson's Bitters. It is one of the few Medicines that does all it is recommended to do. We use them as our "Family Medicine." My experience is that they will cure Headache, Biliousness and Indigestion. For sale by all druggists at 50 cents a bottle.

A SPRING MEDICINE. During the winter months the system accumulates poisons which become dangerous as the warmer weather sets in. Do yourself the justice to take one bottle of Fountain of Health to cleanse the blood.

NIHILIST ARRESTED.

ST. PETERSBURG, April 19.—Several more Nihilist leaders were arrested. It is stated that among them is the well-known female Nihilist, Vera Sassulitch.

KELLY ON TRIAL.

DUBLIN, April 19.—The trial of Timothy Kelly, charged with connection in the murder of Cavendish and Burke, began this morning. Sullivan and McJerry were appointed by the Court to conduct the defence, the judge having relieved Webb and Adams. The jury were then sworn in. One member is a Parnellite, consequently it is expected that the jury will disagree.

BROUGHT INTO COURT.

LONDON, April 19.—Norman, Dalton, Wilson, Dr. Gallagher, Bernard Gallagher, Curtin, Annsburg and Whitehead, was brought into court this morning. Norman was coveyed by a detective separately from the other prisoners. Whitehead protested against handcuffs being placed on his wrists. He declared the entrance into the court room was like the gates of hell. The prisoners being arrigned, it was announced Norman had turned informer. The rest of the prisoners, including Bernard Gallagher and Whitehead, were formally charged with treason and felony: Poland, the Crown Counsel, said he had a quantity of fresh evidence against the prisoners which would be furnished at the proper time. Norman testified that his real name was Wm. Joseph Lynch, and he was born of Irish parents in the state of New York. Lynch swore that he worked in October last at a coach builders in Brooklyn. He then joined a secret society in New York, the object of which was to free Ireland by force. The members went by numbers. The hall in which he was sworn in was situated on the corner of 2nd street and Bowery, where other clubs met. The managers of the clubs were known as District members. They were not known to each other by name. The members were selected to go on missions. Lynch was sent to Dr. Gallagher, who lived at Green Point, L.I. Gallagher told him he was to go to London and that he would know what for when he got there. Gallagher gave him fifty dollars and told him to take a steerage passage by the steamer Spain, under the name of Norman. Gallagher gave him $100 more and told him to go to London and enquire at the American exchange for a letter addressed to him. Lynch did not want to go, as he had relatives to support, but he finally went. Gallagher gave him a small box. He examined this on the steamer and finding it contained a spring which worked by pressure he became alarmed and threw it into the sea.

A HEAVY VERDICT.

LONG ISLAND CITY, April 19.—Ellen Greavy obtained a verdict for $6,000 against the Long Island Railway for injuries.

A TAX ON SPIRITUALISM.

CINCINNATI, April 19.—A bill passed by the Legislature imposes a tax of $300 upon spiritualistic mediums. The spiritualists lay the responsibility upon the Methodist Church for the laws. The Spiritualists claim that the mediums are the ministers of their religion and that the tax upon the pastors and priests of other denominations could have been included in the act with equal propriety. They declare that the act is oppressive and unconstitutional. They will oppose it the end.

IN PORT.

NEW YORK, April 19.—The Rhaltia from Hamburg, and the Belgenland from Antwerp have arrived.

BILL DEFEATED.

COLUMBUS, O., April 19.—In the Legislature yesterday the bill abolishing the contract system in the Ohio Penitentiary was defeated after a stubborn contest.

LADY DELEGATES.

NEW YORK, April 19.—A mass meeting of the Ladies Branch of the Parnell Land League last night elected two delegates to the Philadelphia convention.

A FAILURE.

NEW YORK, April 19.—Newell & Wright, dealers in oil cloths, have failed. Liabilities, $110,000.

CHARGED WITH BIGAMY.

WATERBURG, Conn., April 19.—Dr. C. Artemus Ward, formerly a Methodist minister in Wyoming, New York conference, was arrested here on a charge of marrying a Connecticut wife while he had another living in Candor, N. Y. He has now what seems to be a pefect defence. His counsel returned from Tioga County and produces a transcript court record granting a divorce to his first wife. There are likely to be several suits brought by Ward to secure damages for false imprisonment.

COAL MINE FIRES.

POTTSVILLE, Pa., April 19.—Mine fires in the coal regions are becoming frequent. Immense sums have been spent in vain efforts to conquer them. The Coal and Iron Company's colliery has been on fire for two years, though every effort has been made to extenguish it.

VETO SUSTAINED.

BOSTON, April 19.—The Governor's veto of the Bill appropriating money for the expenses of various state charitable and reformatory institutions, was sustained in the House yesterday.

A RECENT COLLISION.

NEW YORK, April 19.—The captain of the schooner which sunk after the collision with the steamer City of Merida, said he asked the captain of the steamer to stand by until morning, as the schooner was badly damaged, but without asking the name of the schooner, the steamer sailed away.

A LARGE DRIVE.

McINDOES FALLS, Vt., April 19.—The Lumber Company has started a drive of ninety million feet, the largest ever driven down the Connecticut river. It will require six hundred men to perform the work, and take 125 days to reach Holyoake and Hartford.

A CAVE IN.

ASHLAND, Pa., April 19.—A cave in occurred in the Tunnel Colliery yesterday. Several houses on the surface went down to the earth. The occupants escaped, but lost all their household goods. The occupants were warned some time ago, but took no steps towards moving out until yesterday morning, when a number of other houses in the vicinity were in danger, and the inmates were moving out. The colliery is the deepest mine in the United States. A cave in occured in the Continental Colliery yesterday. Nobody was injured. Work is suspended and 350 are out of employment.

BRAGGING OF CORRUPTION.

UNDER the heading of "The Prince Edward County election" the *Globe* of Wednesday has the following:

"It will be remembered that the election in this county was between two Reformers, Mr. James Hart, and the late popular member Mr. Gideon Striker. The Conservatives, being hopeless of electing a Conservative, gave their support to Mr. Hart, and he received a sufficient number of Reform votes to give him a small majority over his opponent. Mr. Hart has been all his life an active Reformer and a friend of the Mowat Government, and so proclaimed himself during the contest. We learn that Mr. Striker came to Toronto yesterday with a petition against the return, and the funds to make the deposit. Seeing the Attorney-General, however, the latter prevailed on him as a friend of the Government not to file the petition, the Attorney-General having received assurances from various quarters, which he had no doubt could be relied upon, that Mr. Hart had not charged his party, had no sympathy with the Opposition, and would give the Government a loyal support. The petition is therefore not to be filed, and the majority of the Government is eleven instead of nine, as has been assumed."

Now we must say plainly that we do not believe this, but are compelled to set it down as one of the unscrupulous fabrications of which the *Globe* is so lavish. Mr. Hart ran against the gentleman nominated to carry Mr. Mowat's standard, he was supported by the Conservatives and bitterly opposed by the Reformers, he was even personally opposed by the Administration, and finally the local Reformers, who should best know his political status, have prepared a petition against him. We are convinced that Mr. Hart, who is a professed opponent of the Mowat Administration will not be found supporting it.

But supposing the *Globe* tells the truth, see what a position it has placed its party in by its indecent boasting. Either Mr. Striker and his friends were on the point of entering a protest without sufficient cause, simply because Mr. Hart is a political opponent, or else Mr. Mowat, who was in communication with Mr. Striker and must have known his reasons for the protest, *prevailed upon him as a friend of the Government* not to proceed with the petition but to let him take his seat. That is the Premier of Ontario, the Attorney-General and legal adviser of the Crown for the Province, connived at a corrupt arrangement for letting a candidate, not duly elected, misrepresent a constituency, because he would give the Government his support. No matter if the law were broken, no matter if the result was a misrepresentation of the constituency obtained by corrupt means, still Mr. Mowat was quite ready to be a party to the corruption by staying its exposure if he could thereby secure another vote to keep himself in power.

What a nice man for the first law officer of the Province! An instigator of the quashing of law proceedings against a suspected law breaker, an accomplice in shielding a supporter in return for his support! It is any wonder that the Province is dismissing from power men who seem to glory in their corruption?

DOMINION PARLIAMENT.

ON Thursday, April 12, Mr. McCarthy introduced his bill to facilitate the transfer of lands in the territories, by adopting the Australian system.

On Friday Sir John Macdonald introduced his bill extending the franchise, the particulars of which we give elsewhere.

Mr. Blake could not discuss the measure without having it before him, but he opposed it anyway.

Mr. Mackenzie, on the motion to go into committee of the whole on the tariff resolutions, made one of his old speeches in opposition to the tariff policy adopted by the country.

On Monday Mr. White, (Hastings), moved the second reading of the Orange Incorporation Bill.

Mr. Curran moved the six months hoist, which was carried by 106 to 70, after a long discussion.

On Tuesday the tariff resolutions were discussed in committee of the whole.

INDIAN TROUBLES.

An Arizona Town Besieged by the Hostile Red Men—Help on the Way.

CALABASAS, Arizona, April 18.—A prospector was chased within three miles of here last evening. The town is surrounded by camp fires and signalling went on all yesterday from the surrounding mountains. The citizens are mounted and awaiting the attack. A special train from Camp Sanchico is on the way with troops. Capt. Black, of the Rangers, arrived and says that he has traced the Indians who killed McCavas, into the Sierra Madre mountains. Two scouts got in sight of the camp in a deep canon and counted sixty-two warriors. They observed a large amount of plunder and a great many animals. As the Rangers numbered but twenty they feared to make an attack.

Tapping the Telegraph Wires.

A lively breeze has been created in Chicago by the discovery that a bucket-shop firm tapped the Board of Trade telegraph wires and were thereby obtaining the regular market reports as promptly as the Board of Trade and its customers themselves. The manner of accomplishing the steal was by tapping a regular Western Union "commercial department" wire at an obscure point. The tap wire was then run to a private room and a set of Morse's instruments attached; the wire then grounded. Close to the instrument was placed a telephone. The wire of this telephone runs to a room on another street some blocks distant. On a small shelf in this room a Morse instrument is placed so that an operator may sit with one hand holding the telephone to his ear, and with the other operate the telegraph instrument as the reports come through the telephone. How many more of these clandestine connections there are is not known, but the telegraph officials say they are not surprised that they have been made, as a skilful operator could make any number of taps and not be detected; also that it would not be surprising if all the bucket-shops in the city were on a circuit within a month.

Dirty Business.

Certain correspondence between Sir Charles Tupper and Mr. J. Macdonnell of Toronto, recently published in the Hamilton *Tribune* and having relation to the Roman Catholic vote of Ontario before the late general election last year, was stolen from the department at Ottawa —given to an opponent of the Government, who turned over the same to a correspondent of the *Globe*. Knowing the letter to have been stolen and the whole correspondence being incomplete the *Globe* did not like to incur the responsibility of publishing the same; but how the papers got from the office of the latter to the Hamilton *Tribune* is another significant mystery. The publication of stolen private letters is a dirty business any way.—*Newmarket Era.*

A Gale in British Columbia.

A shipping disaster unparalleled at Victoria occured on Tuesday. Four ships were blown ashore from off the harbor. The wind blew a hurricane for fifteen hours. Vessel after vessel parted their anchors and were driven ashore. One sailor was killed by the fall of a spar. The names of the vessels ashore are Gettesburg and Southern Chief, American; Tiger and Connaught, British. On the shore little or no damage was done, except to trees or fences. It is said that the ship masters were warned on their arrival to take their ships inside of Esquimalt harbor, but neglected the warning.

A Windfall.

A man named James Geddes, who has been employed as a labourer in Toronto for some time past, received intelligence one day last week that an aunt of his had died in Wicklow county, Ireland and left him £3,000. Geddes has no doubt been brought up to fill a more pretentious niche in the world's economy than that of a labourer, but drink has reduced him. He is being fitted up by kind friends for his journey to the "ould dart" to take possession of his *dot*.—*Mail.*

ICE! ICE! ICE!

Orders left at Town Clock Grocery, will be promptly attended to.

The Buffalo Gnat.

Deepe county, Ark., advices state that the Buffalo gnat is doing unprecedented damage. The destruction of unprotected horses, mules, and cattle is fearful. It is dangerous to drive stock through the bottom lands of Deepe and Chicot counties, as gnats are there by millions. In Bolivar county, Miss., nearly one hundred mules were killed by the pest this year. Planters in the counties named consider the damage by gnats as great as that by the overflow.

A Fraud.

The Michael Anderson, telegraph operator, who claimed to be heir to the $32,000,000 left in Edinburgh, is a fraud. During his travels last summer he visited Kingston and Brockville. In the latter place he got credit on the strength of his claim, and has not since been seen. The true heir has been found in Montreal, in the person of an old soldier, who is employed by Cooper, Fairman & Co.—*Kingston News.*

A Ghastly Find.

The body of a man was discovered under a small bush in the woods near Antigonish, N. S. The face of the unfortunate man was partly eaten away by some wild animal and the head almost severed from the body. A bloody razor clutched in the right hand told a horrible tale of suicide. Letters found in his pockets were addressed to Neil McPhail, Westville.

Over a Precipice.

A despatch from Chattoona says that on the Lookout Mountain on Tuesday evening, Frees Griggs was driving with his sweetheart. The horse shied on the top of the mountain and plunged over the precipice, two hundred feet. The man and the horse were killed, and the woman was badly injured.

Serious Gunning Accident.

A young man, while gunning on Monday at Longueuil, Que., fired at a bird; the barrel exploded, shattered his head, and imbedded a piece of iron in his skull. Though his left hand has been amputated he has not recovered consciousness. His name cannot be ascertained, and it is feared he will die.

Mistaking His Wife for a Burglar.

William Dorsey of Montgomery, Ala., slept with a pistol under his pillow, in order to be ready to meet burglars. His wife on Monday night left the room, and Dorsey hearing her returning and supposing her to be a burglar, shot and killed her. Dorsey is overwhelmed with grief.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY'S SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

FARM NOTES.—The *Star* says that Mr. Wm. Warner has sold his farm to Mr. Chas. O'Reilly. Mr. D. Keefe has sold his farm. Mr. Henry Humphries, of Asphodel, has rented his farm and will offer his stock and implements for sale by auction on Thursday, 26th inst. C. Lancaster, auctioneer. The fall wheat in this neighborhood looks remarkably well.

DIETING FOR HEALTH.

A man may diet as well as physic himself to death. Some time since a young man called to see me, thin, pale, despondent, and with a great variety of symptoms. On inquiry, I found that he had been reading about diet, vegetable food and other similar subjects, and concluding that as many persons owed their ill health to over eating, he would eat very little of any thing, discarded meat of all kinds, and considered tea and coffee as decidedly poisonous in their ultimate effects. By this means, provisions being high, he concluded he would save money and health too. He had for some time been living on bread and potatoes, a small daily allowance, with as much water as he could possibly swallow, the object of that being to keep himself [illegible]. No wonder that such a man was an invalid—mind and body full of symptoms.

"Dieting" is not starvation, it is living on substantial nourishing food, in amount sufficient to satisfy the wants of the system. A man is in no danger of eating too much, if he will confine himself to two or three plain articles of diet at any one meal; this is a secret which every man and woman in the land ought to know. Living exclusively on cold food will soon engender disease, especially in cold weather. And as certainly will a scant diet do the same if persevered in. A striking illustration of this is found in the history of one of the greatest men of modern times.

Napoleon the First, while a subaltern, was in such extreme poverty in Paris, that he was sometimes not able to raise ten cents with which to purchase a scanty dinner, and consequently had to go without any; he had even to borrow worn clothes from acquaintances, and to go out alternately with his brother, in the same coat. His food was so scanty that his face became pinched, harsh and angular; at length the skin became so diseased that it almost filled one with disgust to look at it, and it required all the skill of that eminent and able practitioner Corvisart, for several years to eradicate it.

LESSON 1.—Disease will as certainly be engendered by too little food as by too much.

2.—Dieting consists of adapting the food in quantity as well as quality, to the wants of the system.—*Journal of Health.*

RUNNING AS AN EXERCISE.

Among the means which nature has bestowed on animals in general for the preservation and enjoyment of life, running, says Mercurialis, is the most important. Since, then, it is pointed out to us by nature, it must be in a high degree innocent. It is very singular that we should apparently do all we can—which, unfortunately, is not much—to make our children unlearn the art of running. Our earliest physical treatment of them seems calculated to destroy their aptitude for it; in a little time it is not often the case that the city boy [illegible] as if he wished to run, we prohibit it so strongly as vulgar, and when he is more grown up, [illegible] and prohibit it altogether. Medical [illegible] and our own countenance [illegible] their share, and never allow our children, boys and girls, to acquire an art innocent in itself and necessary to all. It is possible that a person may get injured from running, but the fault is not in the exercise, but in the person who runs without having had proper training and practice.

Negroes and Indians in a state of nature run daily in pursuit of game for food with a facility which we are astonished, but they are not more liable to consumption on this account than those beasts that are so famed for swiftness. The body of no animal seems better adapted to running than man's. The nobler parts, which might be injured by an immoderate reflux of blood, are [illegible] and the laws of gravity [illegible] forward. He has [illegible] to strengthen his limbs by practice and concentrate his mind on the effort, and there is nothing severe in this, as experience has shown. Indeed running may be made very beneficial to the lungs, and perhaps there is nothing better calculated to strengthen these organs in those who are short-winded, than gradual, careful training in this almost lost art. "As soon as children are expert in walking, turning, and the like," says the sagacious Frank, "running races under proper precautions is an excellent exercise for them." The principal objects of this exercise are to strengthen the limbs, develop the lungs, exercise the will, and promote the circulation of the blood.

Running was so highly esteemed by the old Greeks, that Homer observed that no man could acquire greater fame than by being strong in his hands, feet and limbs; Plato recommends running not only to boys and girls, but to men; Seneca, who expresses strong disapprobation of athletics, recommends running to Lucilius for exercise. The following rules may be observed:

Running should only be practised in cool weather; as, for instance, in the late fall, winter, and early spring months.

The clothing should be light, the head bare, and the neck uncovered. As soon as the exercise is finished, warm clothing should be put on and gentle exercise continued for some time. It is not necessary to have a race course. The teacher of a school may take his pupils into the fields and find suitable ground for them. Then his pupils may exercise their bodies in other ways, acquire strength, ability, health, and the capacity of continued exertion; the will is brought into play vigorously, which is a great aid in the battle of life.

Care must be taken not to overdo, and thus, perhaps for life, weaken or injure the heart. The races, at first, should be short and frequently repeated, rather than long, and full speed should not be attempted for some time.

Running is well adapted to young and middle aged persons, but not to those who are fat. Sedentary persons may find great benefit in it after the day's work is ended. If they live in cities, a quiet spot in the park may be selected and short trials adapted to the strength entered into. Invalids may do the same thing, only they must be more careful than the robust never to over-exert themselves.

Girls may run as well as boys, and, while they cannot go so fast, they can race much more gracefully and beautifully. Indeed, there can be few more attractive sights than that of a race between beautiful girls from ten to twelve years of age. After puberty, the change in the formation of the bones of the pelvis in girls renders running less easy and graceful. In ancient Greece girls were trained to run races as well as boys, and to their superb physical culture was in great part due the grandeur and beauty of Greek life during the years of their ascendency. The modern style of dresses for girls after puberty is also entirely unsuited to running.—*Herald of Health.*

A Romance of Cruelty.

Twelve or thirteen years ago a Miss Patience Chichester lived well provided in Halifax. There was wooed by a dashing, captivating North Carolinian, who represented himself to be a rich planter. She married him against the wishes of her parents, and went with him to North Carolina. His mansion proved to be old and decayed, and his plantation a worn-out farm. She set about putting things to rights, but her husband made life a burden to her by his carousals and wild life. She reproached him and he resented. She declared that she would leave him, and he put a negro with blood-hounds to guard her. Twice she was interrupted in flight. At last after eleven years, she escaped with her children, and returned to her old home. Her parents were dead and her brothers emigrated. Heartsore, she began a wandering life. The other day she appeared in Brooklyn and told her story. The authorities offered to give her tickets back to her husband. She declared she would rather die than go back. So her romance has ended in the Brooklyn Poor House.

A Shooting Affair.

The Osborns, Ill., fishermen, who supply the St. [illegible] have been fishing [illegible] in violation of the laws of Illinois. Several arrests have been made and the parties fined. The constable here on Monday [illegible] with a posse of men to arrest [illegible]. The constable found these fishermen for whom he had no warrant and ordered them to surrender. They refused and [illegible] the constable's posse [illegible], killing Wm. Whitby, fatally wounding Henry Beales, and slightly wounding Johnson Kinmere. There is great excitement over the affair. The majority of the citizens think the shooting uncalled for. The constable and four of the shooting party have fled.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on the label. [illegible] for India, Australia, the Cape, and Colonies generally.

Photographs.

Mr. Jos. McClelland's Studio is now open.

The Creek.

The water in the creek continues high. On Sherbrooke street there are two large holes in the centre of the street, on the approach to the bridge, caused by the water, and the sidewalk there has been moved from its position.

"Ten Nights."

The members of the Peterborough Lodge, I. O.G.T., who presented "Ten Nights in a Barroom" here recently, are going to give the same temperance drama in the F. C. A. Hall, Lakefield, on Wednesday evening next, under the auspices of the Lakefield Lodge.

The Weather Probabilities.

A large quantity of rain fell last night. To-day is cool and cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh winds, shifting to north and north-west; clearing, slightly cooler weather, preceded by local rains in Southern Ontario.

Talent Appreciated.

The Hastings *Star* contains the following complimentary notice of the Peterborough Orchestra:—

> "Messrs. Miller, cornetist; Reynolds, first violin; Butcher, second violin; Freeman, basso, all of Peterborough, furnished the music for a hop in the town hall on last Friday night. The above quartette are members of the 57 Batt. band, and when in camp last fall were invariably selected, in preference to all others, to furnish music for the numberless parties to which the officers in camp were treated by the good people of Cobourg. The talent displayed by these gentlemen is warmly appreciated wherever heard by lovers of good music."

Land Slide.

One of these rather unusual occurrences took place on the Belleville and Madoc Railway on Saturday morning the 14th, causing quite a sensation and alarm among the passengers as well as officials of the mail train going north. On that day, as the train was nearing the cutting close by Moira Lake, about three miles from Madoc, a mount or hill was seen descending from its elevated position at a rapid pace, reaching the railroad track just as the engineer of the train was enabled to pull up, and save what might have been a terrible collision. As it was the engine ran into, and was almost covered with the sliding debris. It is estimated that one hundred and fifty tons slid down the hill, consisting of earth, rock, trees and stumps. It took a large gang of men six or seven hours to clear the track and replace again in its position the engine, which was thrown off and considerably injured by the shock it received.

POLICE COURT.

DRUNK.

THURSDAY, April 19.—Michael Meaty was charged by P. C. Pidgeon with having been drunk. The police thought he had been in the cells before, but he stoutly protested that he had not, and he got the benefit of the doubt and was allowed to go.

Alfred Rose pleaded guilty to the same charge preferred against him by P. C. Pidgeon. He had been in Court a few days before, and was allowed to go, so this time he was fined $2 or ten days in gaol. He was committed.

Edward Sanderson was charged by P. C. Pidgeon with having been drunk. He was allowed to go.

Ground Sinking.

Holes are continually appearing on George street, over the waterworks mains, but they receive prompt attention.

Personal.

Mr. Mathews was present at the annual meeting of the Ontario Pork Packing Association, which met at Hamilton on Wednesday.

The Cells.

Three prisoners, arrested for drunkenness, were lodged in the cells last night. Two tramps also found shelter there, one of them at about half-past twelve o'clock.

The Ontario and Quebec.

Messrs. McDermid & Hendrie have had three hundred men employed on their contract on the Ontario and Quebec Railway during the winter, and eighty teams engaged in drawing stone. There have been 1,800 yards of stone delivered here for the bridge across the Otonabee, and altogether 6,000 yards have been delivered along the line. The force engaged in construction will be increased next week by two hundred and fifty men, who will be employed at Indian River and in Cavan. It was intended to have put on this additional force this week, but the ground was too muddy. The work on the bridge here will not be commenced for a short time yet, on account of the high water in the river.

ICE! ICE! ICE!

Ready to deliver any time. Leave your orders at Town Clock Grocery.

Railway Notes.

The *Mail's* Ottawa correspondent writes under date of the 18th:—

> "A despatch having been received to-day from Toronto announcing that the contractors for the Ontario and Quebec railway had received instructions to proceed with that portion of the road between Carlton and the Don, including Yonge street and other crossings, against which so much adverse opinion has been aroused, your civic representatives immediately took action by waiting on Mr. Schreiber, Government Engineer, and urging upon him the necessity of some conclusion being arrived at which would be satisfactory to all parties. Mr. Schreiber promised to look into the matter immediately."

The "Missing Link" is flooded in the hollow on this side of Tully's cut. The steam shovel has not been working for a few days, but will soon be in operation again. A portion of the bank on which the "dump" car ran out, gave way last week and carried a portion of the track with it. It has now been replaced.

The *World* says that the Midland railway passenger depot at the foot of Berkley street Toronto, was opened on Wednesday morning.

From the report of Mr. J. G. Macklin, Chief Engineer of the Midland Railway, submitted to the annual meeting of the shareholders, we take the following facts regarding the nine months ending on the 31st December, 1882:—The total charge for maintenance was $149,437.30. Fifty-nine miles of new steel rails were laid, replacing iron, as follows:—Midland section, 26½ miles; Grand Junction section, 32½ miles. The number of new ties put in track was 184,432. Of ballast, 73,236 cubic yards was put in the line during the year, distributed as follows:—Midland division, 42,192 cubic yards; Grand Junction, 21,303; Whitby and Victoria, 6,543; Nipissing 12,025; and the cost of ballasting amounted to $21,533.13. The Moira Lake trestle bridges were partially filled in with stone and earth, and the long pile bridge received additional bents throughout. A 50 feet Howe truss was substituted for the trestle bridge at Hoard's creek, and the remainder of the trestle filled in. All structures on the other divisions of the line received any necessary attention in the way of general repairs. New station buildings were put up at Summit, Cambray, Schepeler and Orillia, on the Midland section; at Keene and Birdsall's, on the Grand Junction; and at Rettie's and Fenelon Falls, on the Victoria. New freight sheds were erected, or extended, at Peterborough, Manilla and Mariposa. A portion of the Belleville dock was put in repair. To meet the demands of traffic, additional sidings and extensions to existing ones was found to be necessary. The increase in this respect was 4½ miles. The extra accommodation thus given was chiefly at terminal points. Of new fence, 89½ miles was built, mostly along unfenced portions of the line, 72½ miles of this being barbed wire fence. The following is the description of the rails:—Port Hope and Midland, 101½ miles steel, 18½ iron; Millbrook and Lakefield, 13 steel, 9 iron; Scarboro and Lorneville, 56 steel; Sutton branch (leased), 27 iron; Lorneville and Coboconk, 28 iron; Whitby and Haliburton, 21 steel, 69 iron; Peterborough and Belleville, 49 steel, 3 iron; Madoc branch, 10 steel, 12 iron. Total miles, 254½ steel and 172½ iron, making 437 miles. On the Nipissing division there are 50 miles narrow guage, 56 mixed, and 6 miles, Scarboro to Toronto, over G. T. R., with single rail, owned by the Midland.

Acquitted of Murder.

ST. THOMAS, April 18.—John and Thomas Humphries have been acquitted of the murder of Stewart Cotter, whom they struck over the head with a loaded whip, inflicting fatal injuries. The evidence showed that the assault was the result of Cotter's conduct.

POLICE COURT.

INDECENT CONDUCT.

FRIDAY, April 20.—Michael Merty, who on Thursday was in the Court on a charge of drunkenness and was allowed to go, was this morning charged by Chief Johnston with indecent conduct. His excuse was that he was drunk, but it did not save him. He was fined $5 or twenty days in gaol and was committed.

THE PULP MILL AFFAIR.

The Police Magistrate and Mr. T. Menzies, J. P., and A. Rutherford, J. P., took their seats on the Bench at eleven o'clock.

The lawyers and the principals in the dispute held a long consultation, and finally they came into Court and

Mr. WOOD said that the prosecutor was not present when the alleged disturbance took place and had not seen the acts on which the charge was laid. On further investigation they found that the facts were not as had been represented, and they wished to withdraw the charge and and would pay the costs.

Mr. EDMISON said that the matter had been amicably arranged.

Mr. POUSSETTE said that his client was not altogether satisfied with the way the charge had been withdrawn. It appeared from the withdrawal of the charge that those accused had not been acting improperly. Mr. Allen, who had laid the information, did so without the authority of Mr. Scott. It should be understood that those accused had not acted improperly or in the manner attributed to them in the charge.

After some further discussion the Police Magistrate noted that no evidence was forth coming and that the charge was dismissed with costs.

UNPRECEDENTED EMIGRATION.

Over Two Thousand Persons Leave Liverpool in one Day for Canada.

LONDON, April 19.—Owing to the unprecedented demand for passage across the Atlantic, the Allan Mail Steamship Company were to-day compelled to despatch three of their fleet the Parisian, Austrian, and Grecian, carrying two thousand four hundred emigrants for Canada. A large number also left on the Dominion Line. steamer Ontario, making altogether nearly three thousand people leaving Liverpool in one day for the Dominion, more than double that of any other day on record. Nearly half the number are bound for Manitoba, and it is estimated that they take away capital to the amound of upwards of £100,000.—*Globe.*

"Pathetic Appeal."

The following pathetic appeal to his "great father" has been recieved at the Washington Indian Office from a Sioux Indian at the pine Ridge Agency:—"Sir,—I am a friend of the great father, and am going in the white man's ways. I have noticed white men cutting wood, and I thought I would be like a white man and chop some wood for my wife. A piece of wood flew up and put out my right eye, and now I would like the great father to send me another eye, I can have it put in here. I am getting old and wish my father would send me a cane. When you send the eye, send a brown one, as that is the colour of my other. I shake hands with a good heart. Your friend, BLUE HORSE.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough, the best in the market. J. MCALEER.

HEAD OF THE INNER CIRCLE.

DUBLIN, April 19.—It is stated that Kingston, arrested at Liverpool on suspicion of being connected with the Phœnix Park murders, was for some time head of the Inner Circle of Invincibles.

NUMBER ONE.

LONDON, April 19.—In the House of Commons, this afternoon, the Home Secretary asked Sir H. Maxwell not to press his question whether Tynan (No. 1) was in New York, and whether his extradition would be demanded, as it might prejudice public interests.

NIHILIST'S TRIALS.

LONDON, April 19.—St. Petersburg advices state that several more Nihilists leaders have been arrested. It is stated that among them is the well-known female Nihilist, Vera Sassulitch. The trial of eighteen prominent Nihilists at St. Petersburg resulted in the conviction of all. Six were condemned to death, two to lifelong servitude, and the remainder to imprisonment for from fifteen to twenty years. Those sentenced to death are:—Boganovitch, who laid the mine in Little Garden street for the purpose of blowing up the Czar; Saveli Zlatopolsky, implicated in Hartman's attack on the late Emperor; Michael Gratcnefsky, one of the assassins of the Czar; Telaloff, a participator in the attempt to blow up the imperial train at Alexandrofsky in 1881; Kilmenko, an escaped political criminal arrested with Gratchefsky, and a retired naval officer named Boutzevitch, who escaped from prison at Kieff, where he had been confined on a charge of organizing a revolt of thirteen districts of peasants at Tchegrin, and Smirnitskaya, a priest's daughter.

RIOTS AT ANTWERP.

ANTWERP, April 19.—The municipal authorities have refused to grant a concession to a company desiring to erect a grain elevators in the city. A mob attacked the town hall with stones and other missiles, smashing windows, and injuring several persons. The police charged the crowd and made a number of arrests.

THE BEACONSFIELD STATUE.

LONDON, April 19.—Sir Stafford Northcote unveiled the statute of Lord Beaconsfield in Parliament square to-day. A large concourse was present.

CONSERVATIVE UNITY.

LONDON, April 19.—At the banquet of the Central Conservative Committee, Lord Salisbury and Sir Stafford Northcote delivered addresses, expressing a mutual desire for amity and deprecating the attempt to snatch a victory by means of tactics and make mischief by statements relative to imaginary jealousies among the Conservative leaders.

ANOTHER ATTEMPT ON THE TIMES

LONDON, April 19.—A box containing powder has been found in rear of the *Times* office. A train had been laid to effect an explosion at a convenient moment. One report says the fuse was burning when it was discovered.

AN IMAGINATIVE CLERK.

LONDON, April 19.—The clerk in the postal telegraph office who stated that he was seized by Fenians and forced to answer questions relating to the employees of the Central Telegraph office, has been suspended. The officials believe the story to have been concocted as an excuse for absence from duty.

THE MALAGASSY ENVOYS.

PARIS, April 19.—After the failure of their negotiations in Paris the Malagassy envoys were accused by their enemies and the opposition party in Madagascar with sacrificing the interests of the country to their own private ambition. One of the envoys was also charged with the intention of using British influence to overthrow the Queen of Madagascar. The envoys are alarmed at the idea of returning to their country, where the famous Tanguin poison might be offered them. They have written to their friends in Madagascar in reference to these alarming reports.

A SERIOUS BLAZE.

MILLFORD, Mass., April 19.—One thousand acres of woodland was burned over last night, at Milford and Hodkinton. Several hundred cords of cut wood was destroyed.

A SAD TALE.

AVOCA, Minn., April 19.—The body of Mrs. Bentson was found buried in a stable, with a bullet hole through her head. Her husband suicided in August. Previously the wife disappeared, and he told the neighbors she had gone to visit distant friends. It now appears Bentson murdered his wife.

INGERSOLL OFF AT A TANGENT.

WASHINGTON, April 19.—In the Star Route trial Col. Ingersoll referred in scathing terms to the Brady trial in Ireland. He said Brady was found guilty and sentenced, a motion for a new trial overruled, and all this without a recess of court. Such a trial was a scandal; the world felt it was the work of a mob, and none the less that because it was in the form of a criminal court.

MEXICANS TO CO-PERATE.

WASHINGTON, April 19.—In view of the reported restlessness of several Indian tribes, the War Department is preparing to suppress any outbreak. Seven hundred recruits are already on the way to regiments in the Department of Columbia, New Mexico, Arizona, and Indian Territory.

LYNCH'S STORY CORROBORATED.

NEW YORK, April 19.—An inquiry into the truth of the dynamite conspirator's story, that the society to which he belonged met at the corner, of Bowery and Second-street in this city, shows that "Emerald Lodge," having about 30 members, was in the habit of meeting there.

A DANGEROUS MAN.

PARIS, April 20.—A Prussian named Atocheller, known on the Bourse, yesterday attempted to shoot a police agent on the Boulevard des Italiens. Bystanders prevented him from shooting the officer, but he discharged six shots, dangerously wounding three persons. It is supposed Atocheller was deranged by losses on the Bourse. When arrested he said the French were dogs, and he was glad he killed one of them.

ANOTHER HOAX.

LONDON, April 20.—A box was seized at the *Times* office. It contained only waste paper. Another dynamite hoax.

THE DESTRUCTIONISTS.

LONDON, April 20.—The men arrested in connection with the dynamite conspiracy, were again brought in court this morning. The court room was crowded. Among those present was Herbert Gladstone, son of the Prime Minister and a member of Parliament. A boy employed by Whitehead at Birmingham was placed in the witness box. He testified that Gallagher visited Whitehead and gave his name Fletcher. When he called, Whitehead sent the boy on an errand and told him he need not hurry back.

THE DUBLIN TRIALS.

DUBLIN, April 20.—In the trial of Timothy Kelly, after calling a few witnesses, the Crown announced that their case was closed. Kingston, who was arrested in Liverpool on the charge of being connected with Phœnix Park murders, was arraigned here to-day and remanded to answer a charge of conspiracy to murder.

OUR AUTOCRATS.

FROM a time to which the record of man runneth not back, the great majority of our race have been governed and held in subjection by autocrats of one kind or another, and it continues to be so in the present age and to a too great extent in this free America of ours.

Notwithstanding the innumerable changes worked by old father Time, he has failed to work any substantial change in the desires and ambitions of men. Their desires and ambitions are much the same to-day as they were a hundred or a thousand years ago. We presume they will continue so to the end of time, and will still be governed by the same craving for power and desire to lord it over their fellows which has always continued to exist in the hearts of a large percentage of the human family. Of course under different circumstances, this ruling passion shows itself in different ways, and adapts itself to its surroundings, but the same motives, the same ambitions and the same desires actuate the actual or the would-be railway, stock or produce king of to-day as actuated the greatest tyrant that ever filled the throne of the Caesars. 'Twas ambition (misdirected) that did it. 'Tis ambition (misdirected) that does it, and will continue to bring sorrow and misery and want to thousands of innocent homes in order that one man may have his particular ambition gratified. That this is no fancy picture, but a simple statement of a hard fact, must be so patent to everyone that any citation of facts proving its correctness would be a waste of time and space which can be better employed in making suggestions for the amelioration of some of those phases of autocracy with which we are afflicted at the present time.

In Canada and especially in Ontario it will not be gainsayed that the autocrat of the day is the Railway King—a king from whose thraldom our previous attempts at escape have only served to rivet our chains the tighter, and to place our commercial interests more and more at the mercy of a grasping monopoly until, recently, we had before us the undesirable prospect of seeing Ontario, if not Canadian trade, controlled by a single and all powerful monopoly, the like of which the world have never hitherto seen.

The fact that the negotiations for a friendly arrangement have for the time failed, does not relieve us from the risk of a similar danger in the future, and the very nature of the cause assigned for the failure, that is the pressure brought to bear by "American" railways, introduces another element that may be even more obnoxious.

However, it is to be hoped that in this instance, as has so often proved to be the case before, this grasping after a world wide autocracy may bring about its own down fall, by being the means of rousing the people to a true sense of the dangers of their position and to a determination to teach our railway magnates that the charters which they control were granted in the interests of the people and not for the simple purpose of their aggrandizement at the expense of the masses. While it is no doubt within the power of our own Legislature to prevent any formal amalgamation of the Canada Pacific and Grand Trunk Railways, yet it is difficult to see how they can be prevented, if they so desire, from playing into each others hands to such an extent as to make them so far as the public is concerned practically one, and enable them to charge the public such rates of transport as the competition of the water ways will permit. Of course it is easy to be wise after the event, but as events have turned out there can be little room to doubt but that the large amounts which have been contributed by the people of this Province, since confederation, towards the construction of railways, would have been much better expended in improving and opening up waterways throughout the Province. So far, the practical effect of our large contributions to railways has been, instead of securing competition as was intended, chiefly to increase the powers of the monopoly, from which we sought to escape, and to curtail the power of the people to provide themselves with other and safer outlets.

Notwithstanding their disadvantage of being closed for about one half of the year, our waterways must, unless we are prepared to go in for Government railways, prove our chief reliance as a controller of railway rates. They are, and must ever remain, the people's highway—the highway upon which the modest owner of an old barge can obtain and be accorded the same rights and privileges as the greatest Vanderbilt the world has ever seen, and over which railway kings will be unable to exercise a blighting influence so long as they are kept, as we trust they ever will be kept, in the hands of either the Provincial or Dominion Governments. Let the people of this country then speak out. It is no use crying over spilt milk—what is done cannot be undone, not that we mean that the railway companies should not be held to a strict fulfilment of their contract with the people, upon the strength of which their charters were granted, but let us, while holding them to their bargains, push on the improvement of our water communications. Nature has done much, very much, for us in this respect. Let us make use of our opportunities, and with these developed, and our provinces compelling our Provincial Railways to do that for which they were bonused, we have but little fear that in due time we will be able to teach the would-be autocrats of this Dominion, that it is the people, not they, who rule this Canada of ours.

GLOBE GUTTER RAKINGS.

In answer to our protest against having the name of the REVIEW prefixed to a dirty libel that the *Globe* had picked out of some gutter, it says:—

"The Peterborough REVIEW angrily protests that it never published a paragraph ascribed to it as republished in our columns. We accept the REVIEW's disclaimer at once. We cannot now ascertain the cause of the error, but it was entirely unintentional on our part."

Of course we have to accept the *Globe's* explanation that it was not an intentional insult or a deliberate misrepresentation, though this is but a poor excuse for its criminal carelessness in flinging around its filth, careless of whom it may strike. So much for the private aspect of the matter.

But there is also a public interest involved. We have here another instance of the avidity with which the *Globe* seizes upon any weapon with which to assail the reputation of the statesman whom the people of Canada have placed in the proud position of the first of Canadians.

So long as it can find a handful of mud to throw, the *Globe* cares nothing for its nature or its source, hoping that some of it may stick, and knowing that it cannot defile its hands. Stolen letters, forged documents, slanderous paragraphs, picked up it does not know where—all are serviceable for this disgraceful and cowardly style of warfare.

TEWKESBURY ALMSHOUSE.

Some Horrible Disclosures—Shocking Treatment of Inmates.

An investigation into the affairs of the Tewkesbury Almshouse, Boston, is revealing some terrible things. In the investigation, Mrs. Pope testified that she saw French take an insane woman by the back of the neck and kick her along the yard, the woman screaming loudly. It was the custom to take children, except small babies, from their parents when received, and a woman, for crying for her child, was put into a cell three days, and after that in the insane hospital. A woman was about to be confined, and was kept steadily sewing, and died in labor. It was said that she would have lived had exercise been granted her. Dr. Sanborn testified that while a student in the dental college here in 1878, a man with a covered waggon sold him the body of a female from Tewksbury for $14. John McGovern, tanner, said the skin of a negro was brought to his tannery by W. F. Morrison, who wanted it tanned. The latter said he brought it from Howard, and came originally from Tewksbury. Pieces of the skin were shown. F. Barker, recalled, said a female patient was put in a cell badly ventilated. Dr. Lathrop paid her no attention. Capt. Marsh said if Lathrop did not attend the patient, to let her die. The woman was finally sent away so crippled that she could not walk straight. Another patient was put in the cell; Marsh said to let her stay there till she would eat. She was not insane. Witness thought one patient noisily insane; Dr. Lathrop said he kept his wife awake, and ordered witness to give him medicine which would quiet him and if it failed, to choke him till he stopped. A woman was chained to a post all day. Some eighteen or twenty women were crying for clothing; Capt. Marsh said he guessed they had enough clothing. One woman had to be carried up stairs; Dr. Lathrop helped her along with the toe of his boot. Witness understood the trustees visited the almshouse to get a good dinner and go home. One of them acknowledged such was his duty.

A Cool Bit of Rascality.

A robbery of a very daring nature was perpetrated at the grocery store of Drew & Faine, on Yonge street, Toronto, on Wednesday afternoon. A boy apparelled in an apron, went deliberately behind the counter while Mr. McGregor, the junior member of the firm, was busy attending some customers, and, lading himself with some parcels, walked out of the store. Mr. McGregor observed the action of the boy, but took no notice of it at the time, supposing him to be one of the lads employed there. It was shortly afterwards discovered that the bank-book and a number of deposit slips had been stolen from the desk, b... a quantity of money was left untouched, evidently having been overlooked. The young rascal got safely away with his booty, and no trace of him has yet been found.—*Mail.*

Fears of a Flood at Emerson.

A despatch from Winnipeg on the 18th says:—The ice in the Red river at Emerson is assuming a dangerous attitude, and fears are entertained by the residents of serious consequences. Mayor Nash has telegraphed the Canadian Pacific railway authorities for explosives, and men who understand working them, to blow up the ice. A reply was forwarded that dynamite had been secured and that a special locomotive had left with it and men. The water is rising here fast and the ice is beginning to break up. The bridge on the Souris at Souris City, near Brandon, was carried away yesterday.

See the Louise Button Serge Tops, the latest, at McAleer's.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is much in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY'S SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

BASE BALL CLUB.—The *Register* says that a Base Ball Club was organized here on Tuesday evening.

HIGH WATER.—The water in the Ouse is rising rapidly, but beyond filling a few cellars no serious damage is apprehended. On Monday afternoon Mr. Brown was compelled to cease work in his steam saw mill. On the same day the bridge in rear of the foundry was swept away. In some places the river has overflowed its banks for a distance of one hundred and fifty yards.

ALMOST CONSUMED.—The house of Mr. John Patterson, King Street East, came very near being destroyed by fire on Thursday afternoon. As soon as it was noticed the alarm was sounded and the citizens turned out in large numbers. By the liberal use of water from the neighboring pumps the fire was soon got under control, but not until damage had been done to the house and furniture to the extent of $[illegible]. The origin of the fire is a mystery, as usual.

SERIOUS ACCIDENT.—As Mr. W. Elliott, son of Mr. George Elliott, of Asphodel, was engaged with some others in falling trees, on Friday afternoon, he had the misfortune to meet with a serious accident. It appears that a tree which his brother was cutting a short distance from where he was working was suddenly overturned by a gust of wind, and in falling that a limb struck him on the head, knocking him down and rendering him insensible. He was immediately placed under medical treatment, and is, we are happy to be able to state, rapidly recovering.

THE NATIONAL GAME.—A meeting was held in the Norwood House, on Tuesday evening last for the purpose of organizing a Lacrosse Club. It was largely attended. Mr. P. Slattery acted as Chairman and Mr. A. J. Robertson as Secretary *pro tem.* About twenty persons were elected members of the club. The following officers were elected:—President, Mr. Slattery; 1st Vice-President, Mr. Atkinson; 2nd, Vice-President, Mr. Dennistoun; Captain, Mr. J. A. Harper; Secretary, Mr. A. J. Robertson; Treasurer, Mr. Geo. Buck; Committee, Messrs. H. Vars, A. Eaton and J. Legrow.

BELMONT.

A TOWN HALL.—The Norwood *Register* says that the council of the United Townships of Belmont and Methuen, at a late meeting, decided to erect a town hall. The site site has not yet been selected.

BELLEVILLE.

DISAGREED.—The jury in the Lockerty case, a case of arson, failed to agree; ten were for acquittal, and two for conviction. The prisoner has been admitted to bail.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. THE
PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz: a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruits, and Grasses, in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

[illegible] CONTROL OF SPIRITS.

A Strange Case, as Related by the Father of the Victim.

The father of Miss House, of Paris, Michigan, writes as follows in answer to a letter of inquiry:—

PARIS, March 24, 1883.—Mr. E. W. Capron:—Sir,—You wrote me in regard to the strange case of my daughter, wishing to know all the particulars. I will give you a full description as far as I can. In September last she was taken with a strange spell. We could not tell what was the matter with her. Soon after she was taken with diphtheria, and one evening as she was getting better, she commenced sinking away. We tried every way to keep her up, but she told us that it was of no use, for she was going to die; but we must not bury her, for she would come to life again in about eleven hours. The doctors could not find any signs of life in her whatever. In the time stated by her—eleven hours—she did revive. She then stated that her [illegible] uncle who had died some time before, had come and taken her spirit away to heaven, and while her spirit was gone her body had to lie unconscious.

Since she recovered from the diphtheria she claims that different spirits have come and taken her away. She has lain in a trance for three days at a time several times since. She always tells us when she goes away what time she will be back, and she never varies more than a few minutes at any of these trances, although they have lasted for [illegible] at a time. She never wants to eat a mouthful of anything when [illegible] is [illegible]. She is just as small as ever; says she feels well; is not a bit hungry. She says she had what she wanted to eat in heaven while she was gone. She has been influenced by different spirits and speaks different languages. She talked the Danish language to a Dane when she was under the influence of his deceased son. At one time she claimed to be an Indian who could interpret the English language. She could write in Indian and interpret it in English. At times she will lay as if she were dead, will reach out her hand and we will hand her a pencil and slate, when she will write right along with her eyes tightly closed. At different times she will show different hand-writings.

At one [illegible] she [illegible] in a trance, when she arose very quickly and said, "I want to go home." I asked her where her home was, and she said it was down at her Uncle Joseph House's; that is her uncle's. The consequence of this is that her body is under the control of a deceased cousin—a girl who died over a year ago. When she is controlled by that cousin she can knit a whole stocking, but when she is herself she cannot knit at all. She also, when controlled by her cousin, can crochet lace readily, but knows nothing at all about it when she is herself. This deceased cousin [illegible] knew nothing about [illegible] her lifetime. Joseph House lived at Howard City at the time his daughter died. When my daughter claims to be his she knows everybody that she (my brother's daughter) used to be acquainted with at Howard. When they come up here she shakes hands with them and calls them by their right names, although she never saw them before.

Now, if you can give me any information of such a case, take what pains you can in doing so and I will [illegible] you [illegible] it. My daughter is now her deceased cousin, and we have to let her go to Joseph's house, which she claims is her home. He now lives a mile and a half from [illegible] alone.

Respectfully yours, LEWIS HOUSE.

STOP IT!

Stop what? Why, the [illegible] practice of uncovering the head [illegible] respect to the dead. The dead do not ask for the exposure. And if they did, there is no reason why the living should grant the request. [illegible]

Some weeks ago Dr. Lewis A. Sayre [illegible] as pall-bearer at the funeral of a friend. [illegible] Dr. Sayre caught a severe cold, resulting in bronchitis and pneumonia, from which he is but just recovering. But Dr. Sayre's case is only one of thousands. A recent instance is that of Mrs. Dr. Beard, who, at the time of her husband's funeral, caught a severe cold and died of pneumonia within a few days. Marshall Jewell [illegible] died of pneumonia, and a few days thereafter his wife was also borne to the grave from a cold caught at his funeral, and so it is that funerals beget funerals. [illegible]

[illegible]

There can be no doubt about it—a man, be he clergyman or layman, who [illegible] the chilling air of a cemetery with uncovered head does so at the peril of his life. [illegible] The Jewish idea of reverence insists upon the covered head [illegible], and there is nothing necessarily wanting in reverence in having the head covered during a funeral service, but, on the contrary, much that is irreverent and wicked in disregarding the plainest law of health in removing the head covering at a time when to do so is to expose one to one of the deadliest of diseases. We need to push this absurd custom wholly away, and the clergy and the physicians in their several towns and villages can help us to a newer and better order of things.—*Christian at Work.*

THE New York police yesterday raided seven policy shops. The managers were arrested. The police hired men to buy slips.

THE MONTH OF APRIL is the time that the wise man takes a Blood Purifier. You cannot get a better medicine than Dr. Carson's Stomach and Constipation Bitters. Price 50 cents a bottle. Ask your Druggist about it.

MR. MOONEY, President of the American Land League, has cabled Mr. Parnell that the Philadelphia convention cannot be postponed.

THOUSANDS UPON THOUSANDS of dollars have been spent in advertising the celebrated Burdock Blood Bitters, but this fact accounts only in part for its enormous sale. Its merit has made it what it is—the best blood medicine ever devised by man.

THE stockholders of the Mutual Union Telegraph Company yesterday ratified the lease of the lines of the company to the Western Union Company.

MR. J. B. SEYMOUR, Druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blood Bitters is the grand specific for all diseases of the Blood, Liver and Kidneys.

W. J. ANDERSON, of Clinton, Ont., was robbed of a pocketbook containing nearly $200 just before leaving a Grand Trunk train at Fort Gratiot on Tuesday night.

EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its specialty as a complete and radical cure of dyspepsia, liver and kidney complaints, and all impurities of the blood.

THE President and ex-President of the United States, governors of all the States, representatives of foreign powers, and other distinguished persons, will be invited to attend the formal opening of the East River bridge on May 24th.

STATISTICS OF LUNATIC ASYLUMS show that nine-tenths of their patients are brought to their conditions by abuse of the generative organs. A great Brain and Nerve food, known as Mack's Magnetic Medicine, is sold by our druggists, and comes highly recommended as an unfailing cure in all these diseases. See the advertisement in another column.

THE Orangemen of Kingston, it is said, will shortly hold a meeting and arrange to give Mr. J. White, M. P. for Hastings, a grand banquet in recognition of his support of the Orange bill. Kingston men state that he will be the next grand master.

JOHN MYLNE, Druggist, Bothwell, says, I have a very large sale of Dr. Carson's Bitters. It is one of the few Medicines that does all it is recommended to do. [illegible] Family Medicine. My experience is [illegible] will cure Headache, Biliousness and Indigestion. For sale by all druggists at 50 cents a bottle.

THE MAINTENANCE of a healthy state of the system is the surest protection against disease; experience has shown that by the use of Dr. Carson's Stomach and Constipation Bitters, a perfect state of health can be assured. They free the system from all impurities, cleanse and purify the blood. For sale by all Druggists at 50 cents a bottle.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not endure.

New spring stock at J. McAlee's Boot and Shoe Emporium. Call and see the latest styles.

A Good Fighter.

A Colorado man, who expected a gang of lynchers to come for him about the middle of the night, barricaded himself in the cellar, [illegible] a pet grizzly bear in the place in bed. The lynchers didn't bring any lights, and made a very [illegible] attempt to get the bear out and lynch it, but gave it up after three of them had lost an eye apiece, [illegible] The bear [illegible] reputation as a fighter, and [illegible] didn't mind the work one bit.

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are bilious, blood out of order, liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s 9d.

SULPHOLINE LOTION, a FLUID peculiar to itself, is the most potent remedy in all Skin Disorders. Nothing like Sulpholine had ever before been produced, nor is there anything else in the same degree comparable for its [illegible] action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. [illegible], and every year it is used more and more [illegible] to its widely increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In twelve hours after the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Photographic.

Mr. Jos. McClelland's Studio is now open.

See the Rochester Belmorals, new style, at McAleer's.

The Cells.

One prisoner and one tramp shared the police cells last night.

High Water.

The water in the Otonabee at the town rose six inches last night, and is still rising rapidly. In the Trent the waters are exceedingly high at Campbellford, and are still rising. The switch booms leading to the slide of the Middle Fall have been carried away by Messrs. Gilmour's drive which broke loose in Crow River. The water in Sturgeon Lake is holding its high level, but with a slight inclination to abate.

The Weather Probabilities.

The weather to-day is fine, but rather cool and a breeze that prevails makes one prefer the sunny to the shaded side of the street. The "probs" promises finer, warmer weather. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Lakes, moderate to fresh winds, mostly northerly; fine, warmer weather.

A Cold March.

By the monthly weather review for March, issued by the Observatory, it is learned that the mean temperature was 21°, 94 or 7°. 25 colder than the average. This is the coldest March recorded except that of 1872. There were only two days in which rain fell, the rainfall being the smallest recorded of any March except in 1856, when no rain fell in that month. Snow fell on thirteen days to the depth of over twenty-three inches. Altogether the March of 1883 was an exceptional one.

The Registrarship.

The Toronto *Mail* of Friday says:—

"We understand that the position of Registrar of Peterborough has been promised to Mr. R. Morrow, and that the local Grits are unwilling that the appointment should be made. *If*, as we understand, Mr. Morrow has the Government's promise, and if political exigencies required that before the election the promise should be made, faith should be kept, and the office filled. There can be no object in keeping the office open. Indeed, there is every reason why it should be filled, as we believe the applicants are numerous, and some of those who are pressing consider their political claims stronger even than Mr. Morrow's. In the interest of the public business, the office should be filled at once. Mr. Mowat has hesitated long enough."

Cricket.

A list of the matches which the Toronto Cricket Club had won, published in the *Mail*, drew from the Secretary of the Peterborough Club the following letter, which appeared in the same paper:—

"SIR,—A few days ago I noticed a list of the matches the Toronto Cricket Club had won, lost, and drawn, and mentioning the match on the Toronto Cricket ground with the Peterborough Club, it says it was drawn in favour of Toronto, and why in favour is more than I can understand, as we were twenty runs ahead in the first innings, and the second was not played out."

Yours, &c.,
"SECRETARY PETERBOROUGH CRICKET CLUB.
"Peterborough, April 17."

BENEATH THE WAVES!

MR. GEORGE C. ROGERS, OF ASHBURNHAM, DROWNED IN THE OTONABEE.

Three Men go Over a Dam in a Boat—Whirling in the Eddy and Struggling for Life—Mr. Rogers Perishes in the Water—The Other two Saved.

One of those terrible accidents that at times startle and shock the community occurred this forenoon, in the saddest form. Shortly before noon the news spread through the town with great rapidity that Mr. Geo. C. Rogers, of the Otonabee Flour Mills, Ashburnham, was drowned in the river, and the sad news proved to be only too true.

Two others besides Mr. Rogers were precipitated into the water, and from one of these, and others who witnessed the latter part of the tragedy, we learn that the particulars of the accident were as follows:—

Mr. Rogers wished to have a "bracket," or upright board, removed from the dam above the mill, and at about eleven o'clock, in company with Messrs. Robert Sheridan and R. Whittaker, who were employed by him, started to do the work. They went above the dam and

GOT INTO A PUNT,

first fastening, as a precaution, a rope to a boom above, and connecting it with the boat. They then went down to the dam, taking a saw with them, so that they could saw the board off if they could not lift it. By some accident the boat

WENT OVER THE DAM,

and the rope was too long to prevent it and had to be cut. The punt turned into an eddy in front of a pier, and was there whirled about by the water, while the men strove with determination to keep hold of it. Several times they fell off, but caught the boat again, when it was seen that it was going to be caught again by the water pouring over the dam, and Mr. Rogers told them to

HOLD TO THE BOAT FOR LIFE.

The water caught the boat, which was then turned wrong-side up, and turned over twice, so that when the men came to the surface it was still in the wrong position. Sheridan came up near the boat, and was not able to reach to it, but he seized hold of the rope, and got to it. The punt turned right side up, full of water, and he got into it. At the same time he noticed a pike-pole, which they had with them, close to the boat, and he seized it and looked around for his companions. He saw Mr. Rogers, and reached the pole towards him to assist him, but it was about

SIX INCHES TOO SHORT,

and did not reach him. The punt was carried out into the current, with Sheridan in it and nearly full of water, and soon after Sheridan saw Whittaker rise to the surface of the water, cry for help, and sink again. Whittaker came up the second time, and Sheridan reached the pole to him, and drew him into the boat. They were still far from being out of danger, as very little would cause the boat to upset, and they had only the pike-pole to guide it. While they were carried away by the stream, Mr. Rogers was

LEFT STRUGGLING IN THE EDDY.

He was a good swimmer, and kept himself up bravely. But there was not much opportunity to make use of swimming powers in the cold water, the strong eddy, or the swift current. Mr. Rogers was finally carried out from the eddy into the stream, near the Peterborough shore, and he was seen to rise to the top of the water by several on the bank, and appeared to be

STRIVING TO REACH THE POINT

below the Otonabee Woollen Mills. A man in a canoe was searching for him close to the dam, and when he saw him rise, paddled quickly towards him. Mr. Rogers rose again, but the canoe was not close enough to him to render any aid, and he did not keep above the water long, but

SANK TO RISE NO MORE.

He was last seen a little below the point referred to, and not far out from the shore on the Peterborough side of the river.

Sheridan and Whittaker were meanwhile carried down the river in the boat, and were in great danger of being swamped. They narrowly escaped striking a pier of the Otonabee bridge, which would most probably have again thrown them into the water. They went down the river to Burnham's Point, where assistance arrived, and they were taken to the shore. Whittaker, who could not swim, was very much exhausted.

The news of the terrible accident was carried through the town rapidly, and soon a large number of persons gathered on the banks. Boats were got and taken out into the river, where they were paddled around in the hope of finding the body as it was carried down the river. Numerous parties are still engaged in the melancholy task of searching for the body, but up to the hour of going to press they had not been successful.

RENDER ASSISTANCE.

Any friends of the late George C. Rogers, who can take part in the endeavours to recover his body, can get grappling irons and ropes at the office of the mill. We understand that torches will be provided whereby to prosecute the search this evening.

SHADE TREES.

ANSWER TO QUESTION OF ??? IN PETERBOROUGH REVIEW.

Accepting the truth of your assertion, I would suggest an improvement for you to plant another row of trees inside the fence so as to form an alley? As to my help, I do not feel inclined to do more than to set an example for others to do likewise.

Lacrosse.

This (Friday) evening the first practice game of lacrosse this season will take place on the Ashburnham grounds. Considerable interest is being manifested already by the athletics in this noble game. It is to be hoped that our young men will enter the club with a feeling of pride and spirit, and make Peterborough second to no other place in the Dominion in the matter of producing a lacrosse club that can bear the palm away from all comers. There is any amount of genuine muscular development to choose from and it only requires action and practice to make the Peterborough Lacrosse Club known favourably beyond the limits of Peterborough. A number of the club have been engaged the last few days in getting their training suits in order. A new shoe is introduced this season of very neat design and is just what is wanted for lacrosse. At Joseph Griffin's "City Boot and Shoe Store," opposite Oriental Hotel, is the place you can be supplied with this nobby shoe.

Daily Evening Review

SATURDAY APRIL 21, 1883.

THE LATE GEORGE C. ROGERS.

THE shocking and untimely death of the late George C. Rogers cast a gloom over the whole community such as is rarely experienced. It seemed as if every one felt that he had been deprived of a personal friend, while the loss to the public was as generally lamented.

Mr. Rogers, though still so young, had indeed won the good will and the esteem of all with whom he had been brought in contact, and from his many sided activity there were few among us who could be excepted from this number. *From the experience of his brief manhood it* was hoped that a long life of public and private usefulness lay before him, but unhappily this promising career has been cut short.

As a business man, Mr. Rogers had displayed an amount of enterprise, energy and shrewdness that had made his milling establishment a model one, hardly to be surpassed by any other apart from our great water way, and doing an extensive business that gave employment to many while affording a welcome custom to our farmers. Every improvement most in vogue in this progressive trade had been adopted, and with untiring energy he superintended and directed all the work.

Of his church he was not only a consistent and earnest member, but also an active and zealous worker in Sunday school, vestry and other fields of usefulness connected with it. The incumbent and congregation of St. Luke's will miss him sadly.

As he attended energetically to his business, as he devoted himself to his religious duties, so being wholly a man in body and mind, he entered with zest into the recreation that man needs, especially in the form of manly and healthful athletic sports, in which he had made a name well-known outside Peterborough. And not in sport alone did he employ his bodily vigour and activity, for many whose property was threatened by the fire fiend know that its safety was largely due to his exertions in the very van of those fighting the flames. So too in the militia, he gave his best exertions to the voluntary task with hereditary zest, till he commanded a fine company of the "Peterborough Rangers."

In politics, Mr. Rogers was a consistent Conservative, who could work actively for his party without incurring the ill will of a political opponent. We know that he was even asked to allow himself to be put in nomination for the recent election, but with the modesty which sat gracefully upon him he pleaded his lack of years. His friends hoped that his time would come later.

Of his social relations we need say nothing, for he is too well-known to our readers.

The sympathy of the whole community goes out to his bereaved widow and two young children, to his mourning relations and friends.

An Incredulous Reformer.

"Was that our Blake who voted with the French Canadians on the orange bill division?" enquired a grave looking man yesterday morning at the office of the *World.* "Certainly there is but one gentleman of that name in the house. He has made a bid for Quebec support." "It must be so," replied the bearded stranger, "and corresponds with his speech, which affirmed that the French Canadians had not a fair share of the offices. I was in some doubt, but am satisfied now. Thanks."—*Toronto World.*

POLICE GRIEVANCES.

DUBLIN, April 20.—The Lord-Lieutenant has approved the concessions to the Irish police advised by the committee which investigated their grievances.

JURY DISAGREE.

DUBLIN, April 20.—Kelly's counsel announced that he would produce witnesses to prove an *alibi.* Kelly's brother testified that he was in the company of the prisoner on the 6th of May. On cross-examination the witness' evidence conflicted with that of the employer of the prisoner. Four friends of Kelly swore that the prisoner was in their company at the time of the murders. One of the witnesses testified that he went to Phœnix park with Kelly the day after the murder and both examined the blood-stain. Mr. McInerney made the closing argument on behalf of Kelly, and the judge delivered his charge. The jury retired, and after a while returned and pronounced that they were unable to agree. Kelly was remanded and will be re-tried on Monday.

THE DYNAMITERS.

LIVERPOOL, April 20.—A waiter employed at a hotel in Birmingham positively identified Wilson as a former guest at the hotel. He said Wilson had a large box. A Birmingham cabman swore that he drove Wilson from the hotel to the house where Whitehead was located. A detective belonging to Birmingham confirmed the testimony of the other witnesses regarding the time of Wilson's arrival at the house of Whitehead, and a cabman and other witnesses confirmed the account of Lynch of his movements while in Birmingham. The coat worn by Whitehead at the time of his arrest was produced; it bore the tailor's mark, "Brooks Bros., Broadway, New York." The Crown also produced a *letter signed by Wilson,* and the purchase of earthen pans by Whitehead was proved. It was stated in evidence that he told the vendor of whom he purchased them that he had recently arrived from New York. A rubber-maker identified Gallagher as a customer. After other witnesses had testified, the prisoners were remavded till Thursday.

COPYRIGHT CONVENTION.

BERLIN, April 20.—The copyright convention between Germany and France has been signed.

LADY FLORENCE DIXIE.

LONDON, April 20.—The Marquis of Queensberry, brother of Lady Florence Dixie, publishes a letter, saying he is convinced an attack was made on *her,* probably for the purpose of frightening her.

AMERICAN.

HIS ANTECEDENTS.

NEW YORK, April 20.—It is reported that Dr. Gallagher, arrested in London, when living at Greenpoint, bought acids and glycerine in quantities, also rubber bags. He had a large practice as a physician.

THE EMERALD CLUB.

NEW YORK, April 20.—Wm. J. O'Dwyer says:—"I am a member of the society Lynch speaks of, and in the main his story is true." The janitor of the building in which the Emerald Club meets said that at the meetings, which were usually well attended, about half of the members would leave early in the evening, and as many more come and take their places. The meetings were very quiet and private. A patrolman noticed that recently the meetings were much larger than last fall, and frequently 100 to 150 came out when the meeting adjourned.

IN FAVOUR OF DYNAMITE.

JERSEY CITY, April 20.—At a meeting of Irishmen last night, they adopted a resolution endorsing the action of the Invincibles in Ireland, and favouring the use of dynamite.

A LARGE OFFER.

GREENPOINT, L. I., April 20.—It is understood that $100,000 was offered to any man who would blow up the British House of Parliament, and it is believed Dr. Gallagher was after the purse.

Pliable Wood.

The London *Timber Trades Journal* in its account of the recent Building Trades Exhibition, describes the following as among the curiosities:—There is the Pliable Wood Company, whose stand is deserving a passing notice. They put a card into your hand, with their address printed on it, which is a pure veneer, tougher than pasteboard but with the color and grain of the wood plainly showing, and which is flexible without splitting or cracking. Rather a curiosity than an eligible visiting card, perhaps, but showing to what uses wood can be turned in case of need. They claim too that their process is *indestructible by fire*—that is, it may be assumed, not liable to take fire by anything short of a welding heat. All their preparations of wood take a high French polish; and they exhibit specially pressed match boarding, of various woods, for ceilings, partitions, passages, stairs, &c., rendering lath and plaster unnecessary.

Well Done.

A young woman riding in a street car had endured for ten minutes the fixed gaze of an impertinent dandy, when a simple way of getting the better of him occurred to her. Assuming an expression of horror which gradually relaxed into amusement, she loooked steadfastly for a moment at a point on his coat collar just below his ear, and then with a quiet smile turned her eyes away. Never was the complacency of a young fool more completely disturbed. He fidgetted in his seat, went through dreadful contortions, and almost rolled his eyes out of their sockets in the effort to extend his range of vision to the point below the ear; brushed softly, then eagerly, then frantically the suspected spot, and at last, in an agony of apprehension, rushed out of the car and into an adjacent barroom in search of a mirror.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

ROYAL VISIT.

BERLIN, April 21.—Crown Prince Frederick William starts for Italy for the benefit of his health. He will probably have an interview with King Humbert.

PRECAUTIONARY MEASURES.

DUBLIN, April 21.—Owing to the receipt of private information of contemplated attacks by lawless persons, policemen armed with swords and revolvers have been placed in the central postal, telegraph, excise and customs offices, and every preparation has been made to repel any demonstration.

AMERICAN.

NEGROES RETURNED.

CHARLOTTE, N. C., April 21.—Nine coloured people, who went to Liberia two years ago, returned here in a pitiable condition. They say their friends who accompanied them are sick and dying, but unable to return without help from the people of this country.

A FATAL ROW.

AMSTERDAM, April 21.—A despatch shows that a row between the West Shore railway laborers there last evening took place on the bridge between Amsterdam and Port Jackson. Wm. Kendrick, Robert McKinnon, Frank Dedomarto, Jos. Rizzo and another Italian were participants. All except Kendrick were intoxicated. Dedomarto jumped upon McKinnon and would have stamped him to death had not a citizen taken him off. McKinnon was seriously injured. Rizzo shot Kendrick in the breast and he soon died. He lived in Perryville, Ontario county. The Italians were arrested, and unsuccessfully attempted to escape while being taken to the lock-up. A mob of Irish laborers threatened to lynch the murderer, but the police were prepared for a riot.

FRIENDS FALL OUT.

WATERTOWN, April 21.—Elmes and Higham, participants in yesterdays tragedy, had always been the best friends. The workmen say they never knew that Higham carried a revolver, while outsiders state that ever since the trouble about the property began, the shop has been a sort of arsenal and all the men have been armed. Elmes was married and somewhat eccentric. The murderer was overcome by nervous prostration and grief.

SUICIDE.

BINGHAMPTON, April 21.—Silas W. Brooks, a prominent citizen of Norwich, Chenango County, suicided by hanging, on Thursday.

THE TWO CENT POSTAGE.

WASHINGTON, April 21.—The Third Assistant Postmaster-General says that the deficit on account of the reduction of the letter postage to two cents will not exceed three million next year. There may be a considerable reduction in consequence of the readjustment of postmasters' salaries.

NOTHING CAN BE DONE.

WASHINGTON, April 21.—The law officer of the State Department says that nothing can be done with the dynamite conspirators in this country, except perhaps to have very stringent laws passed regarding the possession or sale of explosives.

MISSING.

NEW YORK, April 21.—Jas. Conway, Chief License Clerk in the Bureau, Brooklyn, has been missing for over a week. His friends are seriously alarmed.

BRENNAN IN NEW YORK.

NEW YORK, April 21.—Brennan, Secretary of the Irish National Land League, has arrived here. He expects to remain some time.

THE PHILADELPHIA CONVENTION.

NEW YORK, April 21.—O'Donovan Rossa and his followers claim that the Philadelphia Convention will adopt the dynamite policy. The leaders of the Lad League party assert that the dynamite faction will fare no better at Philadelphia than at the Chicago convention, two years ago. Patrick Egan believes that the Land League and all other Irish organizations will be able to form a united body at the convention. The primary object of the new organization will be to secure self-government for Ireland. He says it is possible that the Land League at the preliminary meeting may dissolve, and enter the the new body, as the purposes of the latter are its own.

THE DYNAMITE CONSPIRATORS.

NEW YORK, April 21.—Ex-State Senator Coe, of Coe & Merritt, carriage manufacturers, Brooklyn, says that a man named Lynch was employed by his firm about six months in 1881. He was about 50 years of age. Hundreds of persons daily visit the vicinity of Dr. Gallagher's house at Greenpoint, His wife does not believe he is in England. When he left he told her he was going to the west to attend to business, and two weeks ago she received a letter from him, post-marked at a western city, saying he was well and would return shortly.

PRESIDENT ARTHUR ILL.

NEW YORK, April 21.—A Savannah special says that the President was taken seriously ill early on Friday morning. He had a severe attack of bilious colic, and was threatened with a congestive chill. His exposure in the jungles of Florida and over eating was the cause of the attack. The physicians laboured four hours with him before reaction set in and were on the point of telegraphing to Washington for his physician on Friday afternoon. The President was able to go on the deck of the Tallapoosa a short time, but soon went back to bed. In the evening he was resting easily. The attack indicated Malaria in the system and may necessitate an entire change in the Presidents' plans for summer.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough, the best in the market. J. McAleer.

Daily Evening Review

SATURDAY, APRIL 21, 1883.

THE Hamilton *Tribune* says it *did* deny that parts of its stolen correspondence were forged, and asserts that the unsigned letter was a genuine draft. It is of little consequence what the *Tribune* denies or affirms for a self confessed thief is unworthy of evidence even under oath.

THE Newmarket *Era* has the following paragraph:—

"In alluding to a remark about the "why and wherefore" of Mr. S. S. Peck's appointment being "disgraceful," last Tuesday's Peterborough REVIEW says quite enough. We don't want to know any more, and second the motion. The Haliburton Peck would measure a whole bushel anywhere else."

THE *World*, a very independent Reform journal, says:—

"*Sir John Macdonald* has stolen a march on the Liberals in the matter of the franchise. The latter have been too cautious for a progressive party. A true reforming party will force reform; our Reformers always calculate whether a proposed reform will help them to gain or hold office."

THE *Globe* predicts the financial ruin of the Dominion, because it estimates the cost of the working of the new franchise bill at $50,000. A few weeks ago, in the *Globe's* estimation, the saving of from $40,000 to $50,000 in the annual expenditure of this Province was a matter of "no consequence" to the people. Such is Grit consistency.

THE Hamilton *Tribune* replied to our well-deserved rebuke for its cowardly and criminally dishonest conduct that our exposure was "undoubtedly prompted by that spirit of charity so characteristic of partisan journals." However, far our partisanship may have carried us it has never led us to thieve or forge or consort with thieves and forgers for the purpose of injuring a political opponent, nor to boast of immunity for a crime because its punishment must inflict suffering upon innocent people. If the *Tribune* is a specimen of independent journalism, such independence has not a good effect upon the morals.

THE REGISTRARSHIP.

EVIDENTLY Mr. Thomas Blezard, is not made of the same material as the late Mr. T. M. Fairbairn, who occupied precisely the same position to this County and to the Government of the day, when the Registrarship was last vacant, as Mr. Blezard now does. Then there was "no fooling" about the appointment, such as there is now going on. Then Mr. Fairbairn took the bull by the horns, and had his nominee appointed forthwith! Now Mr. Blezard dare not take the bull by the horns and have his nominee appointed. Or perhaps we should say, does not want to, seeing that dame Rumour hath it that it was part of his campaign arrangements that he should appear to stand by one man while winking at the appointment of another. Sly Tom! But the slyest men get caught sometimes. The present appointment is yours by right of established custom, unless your nominee is unfit, and if you don't insist upon your rights, as Mr. Fairbairn did then, you must and will be held just as responsible for the appointment which may be made as if you recommended it.

THE POPULAR MAJORITY.

THE *Globe* professes its willingness to discuss "popular majorities" with the Conservative press, but apparently it is not willing to discuss them truthfully. For instance it says "They one and all fail to say a word about the constituencies where there were no Tory candidates." Now the *Globe* knows very well that the REVIEW did what was fair in this respect, for if it did not read in our columns our publication of the votes polled throughout the province, it must have observed it in the *Mail*, which quoted it and credited it to us. We agreed with the *Globe* in taking the figures for the last general election in cases of returns by acclamation, and we adopted the same course as affording the fairest available test in the very similar cases of contests between candidates of the same party, whether Conservative or Reform.

Again the *Globe* says that its party had no candidate in South Lanark, though it knows very well that Mr. Cameron went to the polls as the regular Reform nominee, and it so classified him before the election.

We committed no such falsifications as the *Globe* did in claiming popular majorities for Mr. Mowat in such Conservative constituencies as Dufferin, Russell and East Toronto, and only admitting a minority of one in Conservative North Leeds and Grenville. We gave the total votes, and made our calculations of them in the fairest possible manner. They have been extensively published, in whole or in part, in the Conservative press, yet not one Reform journal, so far as we have seen, has been able to specify any inaccuracy in them. We defy the *Globe* or any other Reform journal to do so, or to publish the total votes arranged according to any consistent plan.

There was an undoubted popular majority against Mr. Mowat, and this fact cannot be honestly or successfully disputed.

WHICH IS IT?

AT the present time we are supposed to require, and to have, six Ministers to manage the affairs of this Province. As a matter of fact, although we are paying $25,000 per annum for six, we, at most, have not the individual services of more than four.

The Minister of Education is absent on a six months' leave of absence, and the Educational Department for the time being is amalgamated with that of the Provincial Secretary, which, although in a measure excusable under the circumstances, cannot fail to call up the reflection that if these two departments can be managed without injury to the interests of the Province by one Minister for six months, why not at all times? Either the country must be paying for too many Ministers, or its interests are being neglected—which is it?

But, while there is some excuse for the present position of the Educational Department, what of the Treasury? Is it right that it, too, should be left to largely take care of itself, and that the gentleman who is still drawing over ten dollars per day for taking care of the funds of the Province, looking after its great and important agricultural interests, and several of its public institutions, should at the same time be devoting much of his time to other large and important interests for which he is also being well paid? Mr. Wood is no doubt quite equal to the drawing of a salary from the Province and from a loan company and fees as a bank director, all at the same time, but unless he is an unusually clever man, he is scarcely capable of being in two places and discharging several duties at the same time. Hence we think it must be apparent to every one that here again, even if Mr. Wood's present position were not unconstitutional, the interests of the Province must be either suffering by want of a proper attention to its affairs, or by being burdened by too many Ministers—which is it?

Of course everybody understands what is the real reason why, practically, one third of the Ontario Cabinet is vacant to-day. It is not because they ought not to be filled by responsible Ministers. It is not because the business of these departments does not require looking after, but simply because Mr. Mowat is afraid to open a single constituency represented by a gentleman whom he can decently call to his aid, lest it shall be lost to him, and he thereby receive the last kick necessary to prevent his continuing to dispense the patronage of the Province until the House meets, when he is certain to be ejected from his present position.

A PORTRAIT.

THE Reform press eagerly quoted from the Regina *Leader*, edited by Mr. N. F. Davin, some remarks that did not show a very high appreciation of Mr. Meredith as a leader. We doubt, however, whether they will be so ready to reproduce the following protrait of their own leader by the same artist:—

The Belleville *Intelligencer* says:—

"The *Grit* press are delighted because Mr. N. F. Davin, a clever Conservative, says through the Regina *Leader*, of which he is the editor:—'The very fact of desiring Sir John Macdonald's aid proved that Mr. Meredith, even in his own estimation, is no leader of men.' This is Mr. Davin's opinion, and may be taken for what it is worth. However, as the Kingston *News* poins out, let the Grits apply the same process of reasoning to the assistance rendered by Mr. Mowat to Mr. Blake in the Dominion elections of June last year, and they will find that they have the following to *rejoice over*:—'The very fact of desiring Mr. Mowat's aid proved that Mr. Blake, even in his own estimation, is not a leader of men.' How do our Grit friends like the conclusion to which their acceptance of Mr. Davin's induction has led them?"

We think the reasoning of the Kingston *News* perfectly just. If Mr. Blake had been a real leader of men he would long ago have taken a stand which would have made him quite independent of all the aid Mr. Mowat could give him. Never had any man such a chance as Mr. Blake. He was brought into Parliament at a time when the Conservative party was suffering from being in power too long, when the health of the Conservative leader was poor, before Sir Charles Tupper was fully developed, before Dalton McCarthy had been heard of, and when the leader of his own party was not only out of Parliament but had proclaimed himself a "governmental impossibility." Mr. Blake had distinguished himself as a lawyer, and he was brought forward by the *Globe* with such a flourish of trumpets as never was heard about an untried man. Ere he had the opportunity to do anything he was credited with the power of doing everything. One admirer told us he believed Blake could have written an epic poem. And "so he could" we replied, "but nobody could read it." He was born on our soil—a great advantage, for it was calulated to catch the feeling of Nativism which disfigured Canada First, and separated strong spirits from it—but which was yet a power. He had had a good education. Now what has he done with it all? Has he shown capacity, or tact, or statesmanship, or courage? He cowered under the eye of the late George Brown, whose eye was yet no eye to make a first-class man quail; in or out of the House his *finesse* reminds one of nothing so much as a demoralized water barrel trying to make believe it is a magic lantern; his statesmanship—never rose above fads such as Imperial Confederation, sneers in borrowed phrases against British Columbia, and insane attack on the North West. No; Mr. Blake is no leader of men. We should like to see some strong men on both sides of the House. But the machines and the meanest defect of greatness hit off in immortal lines by Alexander Pope:—

Should such a man, too fond to rule alone
Bear, like the Turk, no brother near the throne,
View him with scornful, yet with jealous eyes,
And hate for arts that caused himself to rise;
Damn with faint praise, assent with civil leer,
And without sneering teach the rest to sneer;
Willing to wound, and yet afraid to strike,
Just hint a fault, and hesitate dislike.

—these things have left the House of Commons of Canada with little of the material out of which leaders are made. For let there be no mistake, you must have the real stuff, the incommunicable fire, in order to make a leader. Silk purses are good, and sows' ears are good, but silk purses made out of sows' ears have been failures since the birth of time, and will continue to prove failures in Canada or elsewhere."

ANOTHER QUEBEC FIRE.

Destruction of the Old Parliament Buildings—Half the Library Consumed.

QUEBEC, April 19.—Intense excitement prevailed here to-night in consequence of the burning of the old Parliament house at the top of Mountain hill. The building which this replaced was accidentally burnt about thirty years ago on the same site a short time after its erection, to replace that destroyed by the rebels at Montreal. The late building was not a very expensive one, having cost, it is said, only about $36,000. When the fire commenced, or where it originated, are still mysteries, as when it was discovered half the structure was in flames. It must have caught, however, somewhere near the room of the President of the Council. The brigade immediately appeared on the scene, in fact some of the divisions had arrived before the alarm had been given. Water was had in ten minutes, and six streams were immediately thrown on the burning mass, but by the time this was accomplished flames were bursting through every window of the main block, enveloping the Legislative Council and Legislative Assembly chambers, and up through the large skylights in the centre. The whole city was lit up, and thousands of people immediately thronged the streets *en route* for the scene. Mr. Cumberland was performing in the Victoria hall and the Fortelle company in the Music hall, and as the news quickly spread through both audiences, the larger number of those present got up and left, a slight panic occurring in consequence in the Music hall. Messrs. Starnes and Blanchet were in the Music hall at the time, Mr. Mousseau at home, and Messrs. Dionne and Lynch at the St. Louis hotel. All arrived quickly at the fire, and rendered all the assistance in their power. The Quebec cavalry, who were drilling in the drill-shed, and "A" Battery from the citidal, were at once marched down. Hon. M. Lynch devoted himself at the head of the military to saving as much as possible of the library, the books being thrown out of the windows, and subsequently conveyed to the Archbishop's palace. It is thought nearly half the library is saved. The west wing of the building, containing the committee rooms, is alone saved, and is much damaged. All the walls of the burnt portion are standing, but nothing more. They are of firebrick, clapboarded in part, and not of wood.

The insurance amounts to $76,000, about half of which is on the library. The building is well insured. Fortuuately the originals of most of the bills sanctioned by the Lieutenant-Governor at the close of the late session are saved, so that is hoped an extra session is not necessary. The Government will not re-build, as a contract was awarded a few weeks ago for the erection of a new stone house on the Grande Allee to cost nearly $200,000.—*Mail.*

Only a Boarding House Cat.

At No. 138, Eldridge street, is a boarding house kept by Mrs. Caroline Witpan. Among the boarders is a young girl named Lizzie Altfras. Lizzie has a big heart. About a year ago she was on her way to the house when she noticed about a dozen street gamins throwing decayed vegetables and tomato cans at a miserable sick kitten, who staggered about vainly endeavouring to escape the missiles hurled at it by its thoughless tormentors. She rescued the unfortunate animal and took it home. Through careful nursing and subsequent kind treatment the kitten grew to be a fine sleek cat. It was informally christened "Nellie," and showed not only touching gratitude to its young benefactress but rare sagacity. Its fidelity to its mistress went so far that it would seldom leave her side while she was in the house, and at night shared her bed.

At 4.30 o'clock yesterday morning Lizzie was suddenly awakened by the conduct of "Nelly." The cat was scratching her face vigorously and mewing piteously. The girl did not know what to make of such a proceedings on the part of her pet. She seemed strangely oppressed, and her first thought was that Nell had been lying on her face. She jumped from her couch and ran to the door to get fresh air. Her surprise can be imagined, when, as she opened the door, a cloud of hot, suffocating smoke surrounded her.

Her room was on the second floor back. In the rear of the house, which is an old two-story and attic frame building, is a stable, the roof of which joins the house, a couple of feet below the second-story window. Lizzie rushed toward the window, opened it, and, screaming lustily, jumped to the stable roof. The girl's cries awakened the other inmates, who opened their windows and jumped out to the stable roof. The whole party were in their night clothes. When the fireman arrived and extinguished the flames and order was restored, "Nell" was found beside her mistress.—*New York Truth.*

A Find of Implements.

An extensive find of copper implements near the Sault Ste. Marie has recently been made. It contained twenty-three pieces, consisting of six awls, the largest one above six inches in length, the smallest, three inches, five knives of various sizes, and thirteen pieces composed of axes, hammers, and chisels. They were found lying piled together, straight and close, encircled by a little pile of stones, and are supposed to be the treasure of some ancient miner, as some of them show marks of very considerable age.

A Good Fighter.

A Colorado man, who expected a gang of lynchers to come for him about the middle of the night, betook himself to the cellar, leaving a pet grizzly bear in the place in bed. The lynchers didn't bring any lights, and made a very plucky attempt to get the bear out and lynch it, but gave it up after three of them had lost an eye apiece, two had suffered the loss of thumbs chewed off, and the other six were more or less deprived of skin. The man now has a tremendous reputation as a fighter, and the bear didn't mind the work one bit.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. GEORGE C. ROGERS.

The sun rose up in majesty, all glorious and bright,
Ascending on its mission all radiant with delight,
And lighting up the face of earth till sorrow seemed to hide,
And shedding everywhere the genial beams of sweet spring tide.

The rushing, cold "Otonabee" flowed on its turbed way,
And dashing on from dam to dam, it swept its clamorous lay,
No fate seemed lurking on its swells, no voice a warning gave,
That would prevent a wife's sad tears and spare a ruthless grave.

One being rose that morning who dreampt not that e're night
In the very midst of manly bloom his soul would take its flight.
His gentle wife gazed in his eyes, no thought was cast before
That as he left her that sad morn they'd meet in life no more.

He struggled hard to save the life he saw was doomed to go,
For maddened waters to the brave or kind no mercy show;
Perchance he thought of those he loved, who waited his return,
Instead of meeting him in life they bow their heads to mourn.

In vain with hardy arms he stove to gain the tempting shore—
In vain he strained his every nerve till he could do no more—
The hour had come, the evil hour, that bore that form away,
He sank, the maddened waters seemed to glory in their prey.

Consoling power attend that wife whose future seem's so drear,
And grant that she again may meet the one she held so dear.
In life what disappointments and sad losses we must brave,
Afflicting us till weary limbs are hidden in the grave.

PORT HOPE.

SUDDEN WEALTH.—The *Times* says that two of our townsmen, to whom money would be a wonderful surprise, are reported to have been lifted to affluence by inheriting large fortunes. Congratulations will now be in order.

A SUDDEN DEATH.—Citizens were thunderstruck on Wednesday at noon to hear that Mr. Wm. Roland was dead. On Tuesday afternoon about four o'clock, he was seized with a sudden faint, dropping at the moment a glass of water handed to him by his little son. He never moved or spoke after, although he continued to live until noon on Wednesday. Dr. Powers was called in, and did not consider him in danger at first, but it subsequently became evident that there was no hope. Effusion of the brain is assigned as the cause of death. Deceased was fifty-three years old, a man of intelligence, and generally held in high esteem.

A DIGNIFIED MAYOR.—The *News* says that Mayor Hugel not only lends grace to his position as Mayor, but he purposes surrounding the position with dignity as well. His Worship appeared at the meeting last Monday attired in an official coat, made after the same pattern as the one worn by the Chief Magistrate of Winnipeg. If Mayor Hugel will only continue his good work, by persuading the Councillors to follow his example, they in turn to be followed by the representatives of the press. Then if the Council will enact that Chief-Constable Douglas must shoulder a golden mace, and Assistant-Constable Rankin shall stand at the outer door with a drawn sword, the deliberations of the Port Hope Council will be of an exceedingly dignified and noble character.

GOODERHAM.

IRON WORKS.—The Gooderham correspondent of the Bobcaygeon *Independent* writes:—I hear it is very probable important work will soon be going on in our iron mines, towards their development, in consequence of the bonus offered by the Dominion Government whenever such operations begin. The beggining then will inaugurate a total change in the prospects of this part of Canada, when it is to be hoped (and there is little fear) that Pennsylvania on a small scale which I have so long predicted will be verified in fact.

BOBCAYGEON.

ELECTION.—The *Independent* says that at a meeting called for Monday last, to nominate a successor to Capt. Bottum as Reeve, S. Crabtree Esq., was returned by acclamation.

LOCKS.—Mr. Wm. Kennedy, foreman of the works, has been engaged during the week in putting in a pair of new gates. A diver has been employed who with his suit and pumping apparatus has been a daily source of wonder to large assemblies.

CAMPBELLFORD.

CUSTOM HOUSE.—Campbellford is agitating for the establishment of a Custom House in that village. The *Herald* says that $36,000 worth of goods for the Trent-Valley Mills alone passed through the Belleville Custom House last year.

Customers from a distance, remember that Mantles can be cut and fitted on shortest notice at Turnbull's.

PAPER AND ITS USES.

The great diversity of uses to which paper pulp has been heretofore put has prepared us for almost any statement in regard to its application. We have been informed of paper boxes, paper barrels, and boots; paper floors, ceilings and siding, paper car wheels and rails; and paper dishes, pails, and other furniture that were hardly prepared for the statement that paper chimney shafts were among the possibilities of this almost universally applied material: Perhaps says an English exchange there never was before in the history of mankind so outrageous a violation of preconceived ideas as is embodied in the sentence, "Paper Chimney Shafts." The name is sufficient for a tolerable joke, yet in Breslau a shaft has been erected fifty feet high of paper pulp which has been chemically impregnated so as to resist combustion. Paper has been put to some extraordinary purposes, but we think the use of paper for chimney shafts surpasses all."

The limit to which paper pulp may be used in the various industries has by no means been reached. For several years the most expensive and safest car wheel has been made of this material, using a steel tire. Houses are being built on western prairies of "lumber" made of straw pulp. Railroad bars of the same material are seriously proposed, and now comes along a lively German scientist and makes the stuff fire-proof, and build a chimney of it. Next came ovens, heating furnaces, stoves. Should this development proceed as alll others, it will materially effect the iron trade. The materials for paper pulp—worthless woods and straw—are most abundant and cheap. The limit to its use could hardly be affected by the lack of stuff to make it.

A Treasure Trove.

A number of boys playing in the vicinity of Beasly Hollow, at the western limits of the city of Hamilton ventured in a large cave. The boys had gone there and in their search amongst the rubbish a boy named Cooper found a roll of bills covered with dirt, and to them apparently worthless. Along their route homeward after coming out of the cave Cooper threw away the dirty bills, taking home a couple of the cleanest. The money has no doubt been lost in the cave by some of the theives who had at one time made this a hiding place.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap and quick transportation by railroads and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R. R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchase or to entry under the United States Land Laws.

The Great American Remedy for
COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. [illegible] of the Gum which exudes from the Red Spruce tree —without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S
SYRUP
OF
RED
SPRUCE
GUM.

In this preparation the Gum never separates, [illegible] preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

Daily Evening Review

SATURDAY, APRIL 21, 1883.

Photographic.

Mr. Jos. McClelland's Studio is now open.

Council Meeting.

A regular meeting of the Town Council will be held in the Council Chamber on Monday evening at 7.30 o'clock.

The Cells.

Four tramps were cared for in the police cells last night. Three of them sought admittance at half past eleven, stating that their money was all gone. No arrests were made.

Preserve the goods you put into your refrigerator, by ordering your Ice at Town Clock Grocery.

The Licenses.

The License Commissioners will meet on Monday to consider the applications for licenses to sell liquor. All those at present engaged in the business, and several more, have applied for licenses.

The Weather Probabilities.

The weather to-day is fine. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Winds shifting to eastward; fair to cloudy weather, with local rains to-morrow; higher temperature.

Midland Railway of Canada.

The traffic of the above railway for the week ending April 14th, 1883, was as follows:—Passengers and mails, $6,442.94; freight, $15,720.46; total, $22,163.40, as compared with $21,690.07 for the corresponding week of 1882, being an increase of $473.33; and the aggregate traffic to date is $226,255.06, being a decrease of $3,563.25 as compared with 1882.

A Welcome Present.

The Chairman of the Town Charity Committee was to-day presented by Fishery Inspector Cochrane, with a large quantity of fresh fish seized in one of the stores, the close season being from the 15th of April to the 15th of May. The Chairman of the Committee has succeeded in giving them out to worthy persons.

See the Louise Ruchon Serge Tops, the latest, at McAleer's.

Fife and Drum Band.

The fife and drum band in connection with Mc[illegible] Lodge of True Blues has been reorganized. New instruments have been provided, to which the officers of No. 3 Company, 57th Battalion, assisted, and the services of Mr. C. [illegible] have been secured as instructor. The band consists of the following instruments: Three kettle drums, one bass drum, two triangles, 2 B flat fifes, four flutes and four piccoloes, out of which, no doubt, good music will be brought.

Those who desire neat and stylish Millinery at close prices, should visit Turnbull's Show Rooms, which are now open.

IF YOU WANT large fresh oysters dished up in good style, go to T. Darcy's Restaurant and Oyster Parlour.

The Market.

There was a better attendance on the market this morning. Butter sold at 25cts., eggs lowered to 12cts., potatoes 85cts. and apples $1.50. For maple syrup $1.30 a gallon was asked.

See the pointed toe and patent tip, all the rage, at McAleer's Boot and Shoe Emporium.

P. B. C.

The adjourned meeting of the Boating Club which was to have taken place on Monday evening, April 23rd, has been postponed in consequence of the loss they have sustained in the lamented death of one of their most active members, Mr. George C. Rogers.

Railway Notes.

The Port Hope *News* says that there are fourteen locomotives undergoing repairs at the Midland machine shops. The winter just passed has been especially severe on the engines.

The Campbellford *Herald* says that about 75,000 feet of timber is now lying at Hastings, awaiting shipment over the Grand Junction Railway. Mr. W. J. Butler, agent at Belleville, has been sent out to measure the timber before it is shipped.

Good and reliable Goods in Ducks, Dennims and Cottonades, always in stock at Turnbull's.

The Search Continues.

The search for the body of the late George C. Rogers was continued on Friday afternoon and night. Different methods were adopted of trying to ascertain which way the body would be likely to be carried by the current, and guided by these the searching parties strove to recover it. The river and lake were dotted last night with the lights of those engaged in the melancholy duty, and to-day boats continue to be plied up and down in active search. As yet, however, these endeavours have been unsuccessful.

An Upset.

On Friday afternoon, Mr. Ted Blackwell, of the "Missing Link," while assisting in the search for the body of Mr Geo. C. Rogers, got a cold bath. He was in a single canoe, and endeavoring to pass through the eddy just south of Wilson's Woollen Mill, when his craft was capsized by the strong current, and its occupant took an involuntary tumble. The water was exceedingly cold, and Mr. Blackwell was chilled through when rescued by two boys in a punt. He is a good paddler, having gone up the Burleigh shoot, but the Otonabee was too strong for him.

New stock of Rochester Balmoreals, new style, at McAleer's.

Personal.

The Lindsay *Warder* says:—

"Mr. W. M. Robson has disposed of his business to Mr. J. M. Armstrong, of Peterborough, and retires from business. Mr. Robson has been one of the leading business men of Lindsay for many years, and his well earned retirement will be much regretted. Mr. Armstrong will, we believe, prove himself to be a thorough and pushing young business man and worthy the patronage of the public."

Mr. C. F. Bunbury, general agent for the Provident Mutual Life Association of Canada, is staying at the Oriental, being in town for the purpose of appointing agents and doing other business for his company. The Association is purely mutual, and is doing a large and growing business.

Court Peterborough No. 29, C. O. F.

At a meeting of Court Peterborough No. 29 of the Canadian Order of Foresters on Friday evening, the following officers were elected for the ensuing term:—

Jas. Byrne	W. C. R.
F. J. Jameson	P. W. C. R.
Jas. Kendry	W. V. C. R.
R. C. Wright	W. Rec. Sec.
Wm. Steele	W. Fin. Sec.
Geo. Kingan	W. Treas.
Robt. Robertson	W. Chap.
David Gamble	W. S. W.
Jas Graham	W. J. W.
D. Hillier	W. S. B.
W. James	W. J. B.

This Court has had large accessions to its membership, and is now one of the most numerous and flourishing benevolent societies in Peterborough, as it is in the Dominion.

The Registry Office.

In commenting upon the delay of the Mowat administration in appointing a Registrar for the county of Peterborough, the *Mail* says that "In the interests of the public business, the office should be filled at once." As we have quoted the *Mail's* remarks, it is only proper that we should point out that we cannot agree with our contemporary in this respect, though the mistake at such a distance is quite excusable. Those who have had business to transact in the office know that the public interests would not suffer if Mr. Grundy were confirmed in the position which he has filled so well for more than four months, as acting Registrar, after being Deputy Registrar for many years. The vacancy, however, should be filled in some manner, so that it may be seen which if any of the corrupt promises made of this office, for the purpose of influencing electors, is to be kept. The County also has an interest in the matter, as it is being deprived of its share of the fees.

Answer This Question.

Why do so many people we see around us seem to prefer to suffer and be made miserable by Indigestion, Consumption, Dizziness, Loss of Appetite, Coming up of the Food, Yellow Skin, when for 75 cts., we will sell them Shiloh's Vitaliser, guaranteed to cure them. For sale by D. J. Tully

Shiloh's Catarrh Remedy.

A marvelous cure for Catarrh, Diphtheria, Canker mouth, and Head Ache. With each bottle there is an ingenious nasal Injector for the more successful treatment of these complaints without extra charge. Price 50 cts. For sale by J. D. Tully

Wooden Buildings.

The fact that building promises to be lively in the villages and the small cities is an indication that a large amount of lumber will be consumed. The construction of a good sized frame building often calls for more lumber than a large building in a city. Frequently in the latter there is not much wood used, except for floors, and for sash and doors and their casings. There is a disposition in large cities to make the buildings as nearly fire-proof as possible, and in order to do this as little wood as possible must be used. Iron must take the place of wooden joist, wire lath the place of wooden lath, and wood crowded out wherever practicable. As it is somewhat cheaper to build of wood than of brick, and as a wooden house, in appearance, suits the taste of many as well, it is a rule that wood is used where fire limits are not known. The tendency to build of other material than wood will grow in the large cities as the fire limits are gradually being extended, and capitalists come to fear the fire-fiend more and more. Architects are getting to understand the fact that fires in cities need not be of usual occurrence. Brick, stone, iron, terra cotta and glass will not suffer from fire unless some inflammable material is used with them.—*Northwestern Lumberman.*

Arbor Day.

His Honor the Lieutenant Governor of the Province of Quebec has just issued a proclamation in accordance with the bill passed during last session respecting the culture of forest trees, which enacts, among other things, that the Lieut. Governor in Council shall have power to fix a day known as Arbor Day. The proclamation provides that, as the climate is not the same in all parts of the Province, two divisions will be made; one, to be called the Western Division, will include the counties west of Three Rivers, and the other, the Eastern Division, will embrace the counties situated east of Three Rivers and Nicolet. The 7th of May is fixed as Arbor Day for the Western Division and the 16th of May for the Eastern Division. All persons throughout the Province are invited to set aside the above mentioned days for the planting of forest trees, and all corporations, municipal, religious and others, are especially requested to use their influence for the success of this important work,

Farming in Manitoba.

A large area of land was broken in the Turtle Mountain section last summer, and at least four times the amount of land will be under crop during the coming season compared with the last. Settlers are busily engaged in ploughing and seeding. The snow disappeared two weeks ago, and spring work has been prosecuted vigorously ever since. Seeding is well advanced, and another week or two of good weather will enable the farmers of that favoured section to get in all their grain crops.

A fresh lot of choice patterns in Prints, to arrive this week at Turnbull's. See them.

JOHN HODKINS, 335 Wilton Avenue, Toronto says:—"I have been able to discontinue tobacco by using Fountain of Health, and feel much better every way. It has also cured two of my daughters of *Dyspepsia.*"

$100 REWARD! If one bottle of Fountain of Health does not relieve ordinary Catarrh, any dealer is authorized to refund the money it cost you, and $100 will be paid for a case that five bottles will not cure.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to take long walks in the pine woods of California for the benefit of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Busy always on the Mantle Department, at Turnbull's. Why? Because the public are realizing that we keep good materials and never turn out any misfits.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION. BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.
DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.
In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.
Sold by all Chemists and Medicine Vendors throughout the world. Prepared by Jas. Locke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TERRIBLE CYCLONE.

A Town Destroyed—Many Persons Killed and Wounded—A Forest Obliterated.

By Telegraph to the Review.

WISSON, Miss., April 23.—A frightful cyclone passed over Wisson yesterday afternoon. Its approach was made known by deep, rumbling sounds, and some people supposed it was an earthquake. Thunder roared and the lightning flashed with alarming force. Fences were torn down, and trees uprooted and cast hundreds of yards away. East of the railroad in Wisson the damage was light, but in the western portion of the town the destruction was awful. In Peach Orchard street, where there are a large number of houses in which the operatives of the Mississippi Mills live, the greatest destruction occurred. The people on all sides were sobbing, and the groans of the wounded beneath the ruins was appalling. Dwellings were torn to atoms. The pine forest just beyond the town was blown out of existence. The church bells were rung and people thronged to the scene from all directions. When the storm somewhat abated the work of removing the dead and extricating the wounded began. Calvin Read died from excitement. The doctors soon arrived and did all in their power to relieve the wounded. It is estimated that twelve persons were killed. Two or three children are missing. A hundred and fifty or two hundred dwellings were blown from their foundations. Some escapes were miraculous. The number of people with broken limbs is estimated at seventy-five. The wounded will be removed as fast as possible to the houses which escaped injury. Several of the dead lay in a violent rain more than the hour. It is feared that many of the wounded will die. Among the killed are Mrs. Causty and two children, several children of J. S. Gibson, one of whom was found crushed under a chimney, and two persons who were so mangled as to be unrecognizable. A little boy was blown several hundred yards unhurt. Beauregard lay in the direct path of the cyclone. The town is a mass of ruins. The road is filled with fallen trees, and there is not a house standing in the place. The brick stores of Thomson & Co. and Daniels & Co., the largest in the place, were swept away. Timber is scattered for miles. The list of dead and wounded is as follows :—Jno. Ross mortally wounded ; Milton Storey, killed ; Morgan James, mortally wounded ; Isaac Bloom, seriously wounded ; M. M. Daniels, mortally wounded ; Turnbull, of Brookhaven, fatally wounded ; Capt. Lampkins, wife and child, all dead ; Geo. Holliway, mortally wounded ; and Mrs. Holliway, leg broken. The depot was swept away ; not a sign of it remains. Wilcox, both arms broken ; A J. Ferguson and family, ten persons, dangerously wounded ; Chas. Lane, mortally wounded ; Dr. Albert G. Pearce and child, mortally wounded ; their house fell on them. J. O. Williams, killed. It is believed that fifteen persons were killed in Wesson.

STOCK SALE.—The *Herald* says that on Tuesday last Mr. David Toole, of Emily, sold to Mr. L. Laplant, Peterborough, eleven head of fine fat steers, for which he received the handsome sum of $600. Mr. Toole is a believer in raising imported stock and has consequently purchased a thorough-bred Durham bull, two and a half years old. This is one of the finest animals in this part of the country, as it weighs 1670 pounds.

THE DAM.—We noticed in last week's issue of the *Herald* that the mill dam had been partly washed away by the freshet. At that break a few dollars would have made all the repairs necessary, but on Sunday afternoon a large piece of ice together with a number of logs made another sweep at the dam and took the greater portion of it away, entailing a loss of $500 or $600 on the owner, Mr. Stephenson. When the jam struck the bridge it was shaken to its very foundation, but owing to the vast concourse of people who were standing on it it was held in its place until the debris was cleared away. The citizens labored well and are deserving of the thanks of the whole community for the noble work they did. Had the upper bridge given away there can be no doubt whatever but that the lower one would have gone too, thereby sinking the village considerably in debt for a new structure.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough. the best in the market. J. McAleer.

A BIG FIRE IN LIVERPOOL.

LIVERPOOL, April 23.—The loss by the burning of Bates' cotton warehouse and Garner, Bibby & Company's shop chandlery on Saturday night is now estimated at £250,000.

ATOTHER EXTRADITION CASE.

PARIS, 21.—It is reported that Earl Granville has instructed the British Ambassador in Paris to ask the French Government for the extradition of two Irishmen, suspected of complicity in dynamite conspiracies.

ANOTHER ATTEMPT.

LONDON, April 21.—An explosion occurred to-day in the Government manufactory of small arms at Enfield. A quantity of burning tow and pieces of a tin box were found among the *debris*. A passer-by saw two men with a box decamping just before the explosion occurred. Owing to the open situation of the place little damage was done.

A BANK THREATENED.

LONDON, Arril 23.—Letters have been received by an officer of the branch of the Bank of England at Portsmouth threatening the destruction of the building by dynamite. Detectives have been detailed to watch the Bank.

BRADLAUGH AGAIN.

LONDON, April 23.—The Lord Chief Justice rendered a decision in favour of Bradlaugh in his action against Mr. Newdegate, M. P., for maintaining, the suit of Clarke against Bradlaugh, in regard to the latter's sitting and voting in the House of Commons without taking the oath.

THE FENIAN ORGANIZATIONS.

LONDON, April 23.—The *Times* says that the Government has obtained information in recent inquiries that the enrolled members of the Fenian organization in the United Kingdom number 150,000, and that there are besides distinct offshoots of Fenianism, such as the Vigilants and Invincibles. Kingston, who was arrested in Liverpool, belonged to both these branches. Such a double membership is unusual. There are besides a secret section affiliated with the American dynamite party. The police have accumulated information regarding the movements of the conspirators and it is expected that further revelations will be made.

AMERICAN.

THE PHILADELPHIA CONVENTION.

PHILADELPHIA, April 23.—A meeting of the Central Union Land League was held last night to complete arrangements for the Land League convention and for the reception to Patrick Egan on Friday evening. President Dunlevy stated that in all probability President Mooney would suppress all reference to dynamite projects in the convention, as a strict interpretation of the rules of the League forbid the discussion of such matters. The universal Peace Union and the Pennsylvania Peace Society have notified the Central Union that it would send telegraphs to the Irish convention. They will be admitted on the strength of their organizations being in sympathy with the Irish cause.

MEXICAN MINISTER ILL.

NEW YORK, April 23.—The Mexican Minister, Romero, is seriously ill here.

SOCIALIST MISSING.

NEW YORK, April 23.—Philip Van Patten, a Socialist agitator, is missing. His boarding-house mistress received a letter from him saying that he intended to poison himself.

WHO SENT THEM.

JERSEY CITY, April 23.—Ex-Coroner Burns says that Lynch and five others now under arrest in London were sent to England by a committee of the Fenian Brotherhood composed of Rossa, Edward J. Rowe and Joseph Comier. Their action was endorsed by the executive committee. Dr. Gallagher was one of these men. John McAlpine, of Jersey City, clerk in a dry goods store in New York, another, and the man named DeHauty, under arrest at Dalton, was another.

DYNAMITE CONDEMNED.

JERSEY CITY, April 23.—At a meeting of the representatives of the Irish societies here, at which delegates to the Philadelphia Convention were appointed, a resolution was adopted, condemning dynamite as at present applied.

UNITY DESIRED.

NEW YORK, April 23.—Delegates from thirty five branches of the Parnell Land League were chosen to attend the Irish convention at Philadelphia yesterday. They adopted a resolution that the delegates be instructed to promote the wise intention of the promoters of this movement in trying to unite all the organizations unber one head without interfering with the autonemy of any organization in Ireland, and that the Land League of American shall enter the Convention of Irish Societies, like all other organizations.

EMBEZZLEMENT.

NEW YORK, April 23.—W. H. Sinclair, book keeper, and S. B. Halliday, salesman for Land, Robeitson & Co., flower merchants, are missing with $1,500 of the firm's money. There are indications that there has been for months a system embezzlement, by which the firm lost many thousands. They lived extravagantly.

SCHOONER WRECKED.

CHICAGO, April 23.—The schooner Evelyn Boter, from Muskegon for Chicago with posts, was wrecked in a storm on Saturday night. The crew of five men and a woman were rescued by life savers.

DYNAMITE RECOMMENDED.

CHICAGO, April 23.—The old guard of the Fenian Brotherhood and the Fourth Ward Land League yesterday appointed delegates to the Irish Convention Philadelphia. The Fenian delegates were instrucked to advocate a dynamite policy The Land League delegates were uninstructed, but are said to favor force.

MURDEROUS BROTHERS.

ATCHISON, Kansas April 23.—The Barlow brothers, who proclaimed themselves a new James gang, have been arrested. The wife of post master at Normans, who they shot is dead.

FIGHT WITH INDIANS.

HELENA, Montana April 23.—The troops overtook a band of Crees, who stole horses near Benton, and killed their chief. Two bucks were wounded and several others. The remainder escaped across the British lines. The Indians opened fire first.

A CYCLONE.

DES MOINES, Iowa, April 23.—A cyclone passed up Maple River Valley last evening. The Danbury Catholic church was wrecked, three houses were blown down, and other minor damage inflicted. No lives are reported lost.

AMERICAN.

CIGAR MAKERS' STRIKE.

NEW YORK, April 21.—About 500 cigar makers are on strike here, for an advance of a dollar a thousand.

A Singular Shooting Case.

A singular shooting case occurred on Friday morning at Kingston. Edward Mostyn, saloon keeper, who had been annoyed by cats, went into his yard and fired upon one of them with a revolver. Two shots were discharged, but neither was effective so far as the cats were concerned. Some time afterwards he saw some men looking and pointing in his direction, and asked what was the matter. He was, in reply, informed that some one must have been practising with a revolver rather recklessly. He said he had been firing at cats, and then he learned that one of the balls had penetrated the barn of R. Cunningham, a man of sixty years of age, and wounded him in the head. He turned pale, became very much excited, and at once decided to give himself into the hands of the authorities. He also handed over the revolver with which he had done the shooting. Having made a statement showing the case to have been accidental, he was released. The doctors found that the bullet had struck about an inch in front of the ear, and on a level with the top of that organ. The ball entered in an oblique way. It was over half an inch long and about five-sixteenths of an inch in circumference. It struck the bone and glanced off. The doctors probed, but they could not extricate the ball. It has not touched the brain, and the injuries are not dangerous at present.

A Fatal Bed.

On Wednesday the body of a boy named Richard Soady was found dead on the Grand Trunk Railway track about a mile and a half east of Forest with a cut on the top of his head laying open his skull. It appears that he and a boy named Craig had lain down on the north side of the track with their heads on the ends of the ties close to the rail and fallen asleep, when Soady was struck by an engine and instantly killed. An inquest has been held and a verdict of accidental death returned.

An Over-Heated Bed.

At Woodward Cave, Grand Manan, N. B. recently, Miss Louise Ingersoll was burned to death. It appears that the deceased was in the habit of heating a block of wood for the purpose of warming the bed. Being overheated it ignited, and by burning the coverings caused the death of the occupant. All the inmates of the house had retired except one, who discovered the fire only in time to save the rest of the occupants from the same fate.

A Statue of the Queen.

Mr. Thomas Woolner has just completed two important works, a statue of the Queen and a bust of the Premier. The former intended for the Birmingham Town Council Chamber, represents Her Majesty as she looked thirty years ago—standing erect, with folded arms, and wearing a tiara. The bust of Mr. Gladstone is carved out of marble sent from Athens for the purpose by the Greek nation.

THE FRANCHISE.

THE arrangement of the franchise is one of those questions with regard to which there is much room for difference of opinion and argument, and with reference to which it is much easier to propound questions than to give answers that can be defended at every point of attack.

Even by the adoption of what is commonly called manhood suffrage we do not escape from such dilemmas, because even manhood suffrage has to be surrounded with some arbitrary safe-guards, which are more or less difficult to defend theoretically, no matter how just and expendient they may be in practice.

Such being the case, we need not be surprised that those whose business and duty it is to pick holes in Sir John Macdonald's franchise bill for the Dominion are able to propound questions and to point out apparent inconsistencies to which no theoretically satisfactory answer can be given. It is easy, for instance, to exclaim, as is being done, what virtue is a $300 franchise that there is not in one of $299? But the same question could be put and would apply with equal force to any and every property qualification which may be proposed. It is an argument which applies to all property qualifications, and should therefore only be used against the principle of any measure by the advocates of manhood suffrage—a class of whom there are not many in Ontario at least.

Indeed there would be a similar difficulty with manhood suffrage, if any term of residence were required, for why should a week more or less than the requisite time, say a year, make the difference of giving or witholding the franchise. Even if there were no such restriction, why need a man a week under 21 years be unfitted to vote, when he would be competent in a few days. Such lines must be drawn somewhere.

In the present instance, however, we apprehend the chief line of attack upon the franchise bill now under consideration, will be that each province should be allowed to continue to fix its own franchise for Dominion as well as Provincial purposes, and that it is inexpedient and unnecessary to have a common franchise for the whole Dominion for Dominion purposes—a position which we venture to think is neither expedient nor consonant with the spirit of our constitution, although it is unquestionably in accordance with the "fly on the wheel" policy of avoiding difficult questions and of doing nothing where action involves the use of brains and the reconciliation of conflicting interests.

While a continuation of the present system would save ministers trouble and the country a little expense yet it will not be denied by either party that the present system, so far as Ontario is concerned, is far from what it should be, or that those upon whom the duty now devolves of preparing the voters' lists invariably discharge that duty irrespective of party considerations. Indeed, we are inclined to think that the present measure will be worth all it will cost us, by reason of its removing from the municipal arena the preparation of the voters' lists for Dominion elections, and thus one of the great inducements which now exists for making our municipal councils "all right" on the political issues of the day, to the serious injury of the municipalities.

But, apart from these minor considerations, we conceive there is another very good reason why the two franchises need not, and to a certain extent, should not be the same. We take it that the basis of representation should be taxation. If so, then as the basis of taxation in the Dominion is different from that of the Provinces, the franchise should be based upon different qualifications, to accomplish the same purpose in both cases.

Dominion taxation may be said to be derived entirely from two sources, viz: Customs and excise. The amount of taxes which an individual contributes to the Dominion depends, not upon the property, either real or personal, which he owns, but upon what he and those whom he supports consume. On the other hand, any deficiency which occurs in the revenues of the Provinces has to, or will have to, be made up by increasing, in one way or another, the taxation levied upon real and personal property. Taking representation as the corollary of taxation, we have in Canada three different bases of representation, namely: That for the Dominion, based chiefly on customs and excise duties; that for the provinces based on these duties so far as the subsidies are concerned, on licenses and upon real and personal property, as the guarantee fund from which all deficiencies must be made up, and that for the municipalities, whose revenue may be said to be derived entirely from real and personal property. Bearing this fact in mind it is obvious, that, although there may not be any striking difference in the constituency created by each franchise, the principles underlying each are and should be different, if anything like even-handed justice is to be meted out to all classes of the community. For instance, while much can be said against giving the recipient of an income of $400 the municipal franchise, while his income is exempt from municipal taxation, nothing can be said against and much in favor of giving the recipient of the same income the Dominion franchise, because of his undoubted contribution to Dominion taxation. Of course it is impossible to devise any franchise bill that will be theoretically and absolutely just to every class and every individual in the community, but we do believe, and we believe the great mass of the people will agree with us in believing, that the measure now under consideration is framed upon principles that are just and equitable, and best calculated to give to everyone entitled thereto a voice in the management of Dominion affairs, and that it is at least a great improvement on the present franchise law of this Province. Under the Mowat act the income franchise is a delusion and a snare, and the farmers' sons' Act an invidious piece of class legislation which has disgusted even those who have benefitted by it, while the exclusion of unmarried women holding property from the rights of the franchise can be defended on no principle of equity and justice, although Mr. Mowat thought all these classes unworthy the franchise, and according to the great liberal (?) party of to-day, they should continue to be deprived of the franchise for all time to come unless the Provincial Legislatures in their wisdom see fit to grant it to them. That, however, is not the opinion of Sir John Macdonald, and we venture to think that in this as in so many other practical matters, ninety per cent of our young men will prefer Sir John's old Toryism to Mr. Blake's Liberalism.

THE CORRUPT PARTY.

THE Belleville *Intelligencer*, commenting on the boasts of the "Reformers" that they have conducted the elections purely, remarks as follows:—

"The record which the Grit party have made for themselves as the champions of the doctrine of purity in elections is not such as to inspire confidence in the foregoing statements. The record shows that, of the members elected to the Dominion Parliament and the Ontario Legislature since the election courts were constituted, 47 Grits were unseated, of whom seven were disqualified, and in addition, one of their candidates, who protested the election of his successful opponent, was himself disqualified. Of the Conservatives elected to the same bodies within the same period, but 31 were unseated, of whom only two were disqualified, and the disqualification of these gentlemen was not because of their corruption, but because each drank a glass of beer in a tavern on polling day. These facts are sufficient to shew who the corruptionists are."

THE TRIBUNE CRIME PARALLELED.

Theft and Forgery Combined—An Innocent Person Nearly a Victim—Saved by Friends.

The following report appears in the Montreal *Star* of April 18th. If it had been published in a Conservative journal, instead of such a thoroughly independent paper as the *Star*, it might have appeared to the Hamilton *Tribune* as a shadowing of its own crime, so close is the resemblance. We have in it the combined theft and forgery which the *Tribune* illogically declared impossible, and the immunity experienced by the defender through unwillingness to make the innocent suffer, is similar to that which the *Tribune* shamelessly boasts as its safeguard against the punishment due to its own despicable crime. The following is the story:—

"Detective Kellert on Monday arrested John Martin, aged 19, clerk in the Store Department, G. T. R., on a charge of stealing three tickets to Winnipeg about a year ago. Martin was then in the Audit Office, and having managed to abstract three blank tickets, filled in the word "*Winnipeg*." In doing so he was cunning enough to imitate closely the handwriting of a boy in the office. Martin sold the tickets to a scalper, and when, three months afterwards, they were returned to the office, it was found by the number on them that they had never been issued by the company. On account of similarity of handwriting an innocent boy was suspected of the theft, and put to a great deal of annoyance. The case was placed in the hands of the city detectives, who followed the youth to an insurance company's office, where he had been employed after leaving the G. T. R., and endeavored to make him confess to the robbery, and, failing that, tried to find proofs of his guilt. A few days ago the case was placed in the hands of Detective Kellert, and he managed to lay hands on the guilty party. Martin, who fancied that the affair was altogether forgotten, confessed to the offence, and also to imitating his fellow clerk's handwriting. On account of his family, and general good conduct, the Company did not wish to proceed in the case, and, accordingly, Martin was brought before the Police Magistrate yesterday morning, and, after a warning was discharged."

MILLBROOK.

GOOD HORSES.—The Orillia *Times* says:—W. M. Fair of Millbrook, County of Durham, has purchased from Mr. John Lott, of Edgar, the far-famed stallion, "The Comet." This horse is known to be one of the best stock-getters ever brought to this country, and the famous breeders of East Simcoe and North Ontario have lost the best horse which ever came to the country. The Comet's stock has brought more money than any other class of horses. One buyer alone bought at the Grand Central hotel, over $4000 worth for Manitoba market. The following gentlemen can testify to the Comet's stock being the best brought to this market: John T. Harvie, W. Ramsay, Chris. Moore, James Hillard, H. McElroy, V. S., Longford Lumber Company and James Dorham.

FRANKFORD.

BOOM BROKE.—The *Intelligencer* says that Percy boom, near the village of Frankford, broke on Thursday morning, and the logs that were in it went down the Trent river at a rapid rate. The water in the stream was very high, and when our informant left the scene the safety of Frankford bridge was threatened. A number of Rathburn's river drivers went to Trenton take cake of the logs when they came to the mouth of the river.

BURDOCK BLOOD BITTERS cures scrofula, erysipelas, salt rheum, piles and all humors of the blood. Cures dyspepsia, liver complaint, biliousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness and general debility, when used in time.

PAPER DOORS.

In the use of wood for constructing doors great difficulty is experienced from the shrinkage, swelling and warping to which the material is subject, while the general use of metal for such purpose is rendered impracticable by its weight.

To obviate these objections, a door composed of two or more sheets of paper-board, secured together and rendered homogeneous, has been devised.

Boards of properly prepared paper are taken, each having the requisite dimensions for a door and a thickness of one-third or one-half the proposed thickness of such door, and within the outer board or boards, openings are cut that correspond in size, shape and location to the ordinary panel openings. The edges of these openings are preferably molded, but, if desired, may be left plain and separate mouldings may be secured thereon after the door is completed. The outer boards thus constructed are then coated upon their inner faces with a suitable adhesive mixture, preferable composed of forty-nine parts of glue and one and one-eighth parts of bichromate of potash disolved in water, and placed upon opposite sides of a central panel board, after which they are passed between rollers and subjected to a heavy pressure which causes the boards to firmly adhere to and become practically homogeneous. The door may now be covered with any desired fire or water-proof coating and then painted in the ordinary way, after which it may be hung and trimmed in the usual manner, and from the nature of the material employed is free from all changes which are produced by atmospheric causes upon wood, costs much less than metal, and has less weight even than a door constructed from pine.—*Paper Trade Journal.*

Child's Body Found.

The body of a child was found by one of Mr. John Geary's hired men on the third concession of London Township. An inquest was held at Collin's hotel, London West. The medical testimony showed that the body was that of a healthy male child that had been born alive, and that had died from asphyxia soon after birth. The jury rendered a verdict of wilful murder against some party or parties unknown, and recommended a strict investigation by the police.

A Tree Within a Tree.

The vigorous growth of a tree in close seclusion from light and air has recently surprised farmer Samuel Howard and his neighbours of Sharpsburgh, Miss. Having cut down a large black locust, he found to his amazement that he had felled at the same time a tree of another kind which had grown to a height of twenty feet and a diameter of ten inches within the locust's hollow trunk, and had moreover put out several branches.

ENGLAND.

Colonel Bell Martin, formerly of the Dragoons, was killed at Bishopstoke on Good Friday while attempting to enter a train in motion.

The Welsh farmers have sustained heavy losses in consequence of the death of large numbers of lambs, owing to the severe weather.

Lord Aberdare has notified his intention of subscribing £500 towards the fund for the establishment of a University College for South Wales.

The six largest cities in the United Kingdom are—London, 3,814,571; Glasgow, 705,109; Liverpool, 591,084; Birmingham, 400,757; Manchester, 393,675; and Leeds, 309,126.

The Government have received offers from several of the London Volunteer Corps to take a share in guarding public buildings, or in any similar service wherein they can be useful.

On Monday last the British House of Commons voted a pension of £2000 yearly to each of Lord Wolseley and Baron Alcester (formerly Admiral Seymour) during their lives, and after their death to go to their next heirs.

A straight, dark-red line on the floor of the House of Commons is one of the most interesting relics in England. It was originally intended to prevent members drawing their swords on each other, and it is to-day considered out of order for a member, when speaking, to overstep it by [illegible].

IRELAND.

It is said that there is the most urgent necessity for meeting the distress in Ireland.

Three British gunboats are cruising off Cork harbour to intercept a vessel from America, said to be loaded with infernal machines.

On March 28th there were upwards of one hundred young men and women left by the Drogheda steamer, en route for America.

How greatly political sympathy has changed, even in Dublin, may be judged by the fact that three Conservative Poor-Law Guardians have been elected in place of three [illegible].

A [illegible] took place in Glencolumbkille, Donegal, on March 10th, in the planting of some hundreds of thousands of gift trees being inaugurated on that day.

At Belfast assizes, Albert George Porteous, [illegible] found guilty of [illegible] stealing it from Belfast to Coleraine, was sentenced to twelve months' imprisonment on the 28th ult.

During 1882 Ireland produced 127,777 tons of coal. To this total Connaught contributed 6,601 tons; Leinster, 82,714 tons; Munster, 22,963 tons, and Ulster, 15,499 tons. Ireland produced 2,615 tons of fireclay, Leinster contributed 115 tons, and Ulster, 2,500.

Another agitation is at work to get the Irish police to renew the strike. Circulars advising it have been issued from Belfast to all the police stations. In reply, the authorities at Dublin Castle have issued a letter to the police appealing to them not to act rashly, and promising that the conclusions arrived at by the Commission regarding their alleged grievances would be published immediately.

SCOTLAND.

A tremendous gale raged at Aberdeen on the 29th March. A circus tent was blown down, and other damage done.

Mr. Gladstone has forwarded £25 to the Lord Mayor for the London Mansion House Fund for the relief of the distress in the Western Highlands.

On the 29th ult., the scaffolding of the new U. P. Church at Mossvale was blown down by the gale and did considerable damage to surrounding property.

A petition against the introduction of instrumental music into public worship has been signed by 255 of the Free Church congregation at Fort William.

While some boys at Lennoxmill were playing at "hanging" the other day, one named Charles McIlwee was nearly choked to death, and would have been had not the rope broke.

Over a dozen persons left the Innerleithen railway station on the 20th of March for the Colonies, mostly for Queensland, and others are to leave for the United States, Canada and Australia.

Representations have been made to the Society of Antiquaries with the view of preventing the act of vandalism proposed to be perpetrated by the Town Council in repairing the Old Bridge of Dumfries.

In consequence of the non-arrival of the trading packets of Leith at Kirkwall the bakers there are being put to great straits, the supply of flour being almost exhausted, and a short supply of bread can only be produced.

A recent meeting of the Edinburgh U. P. Presbytery was rendered rather [illegible] by [illegible] interruptions by the Rev. E. Gemmell, who refused to obey the orders of the Moderator, and defied either him or the officer to touch him.

Effect of Sunlight on Flour.

It frequently happens that wheat or rye flour in spite of the greatest care in baking, yields an inferior loaf, and the failure is commonly attributed to adulteration; but when submitted to investigation neither microscopic nor chemical tests reveal any adulteration. Such flour is returned to the miller or dealer as unfit for use. The miller says the flour was injured by the heating of the stones, and the dealer attributes the defect to the circumstance that the sun must have shone upon the sacks during transportation. It has been proved by numerous experiments that flour cannot bear the action of the sun, even when not exposed directly to its rays. When flour is exposed to the heat of the sun an alteration takes place in the glutton similar to that produced by the heating of the stones. For this reason it is advisable that the transportation of flour should take place, if possible, on cool day or by night, as well as that flour should be stored in a cool place.—*Boston Journal of Chemistry.*

A deputation has presented the Crown Prince of Prussia and his wife with a large sum of money which was raised for them at the time of their silver wedding. The Crown Prince intends to apply the money for furthering the welfare of the people.

The month of April is the time that the wise man takes a Blood Purifier. You cannot get a better medicine than Dr. Carson's Stomach and Constipation Bitters. Price 50 cents a bottle. Ask your Druggist about it.

Great interest is felt in Kingston in the case of Harry Andrews, whose body was found at Chicago, and under circumstances which indicate that he was murdered. Harry was a son of Mr. H. B. Andrews, once a prominent butcher of Kingston, who removed to Ottawa.

Thousands Upon Thousands of dollars have been spent in advertising the celebrated Burdock Blood Bitters, but this fact accounts only in part for its enormous sale. Its merit has made it what it is—the best blood medicine ever devised by man.

Woollen mills established in New Zealand have proved highly successful, and already consume over 5,000 bales a year. The most important are within ten miles of Dunedin, the capital of Otago Province. Much of the machinery is American.

Mr. J. R. Seymour, Druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend B. Burdock Blood Bitters as the grand specific for all diseases of the Blood, Liver and Kidneys.

The International Polar Commission announces that owing to the [illegible] of the American and other Governments not to prolong the polar observations at different stations, all the expedition, excepting where ice-bound, will return to their homes next September.

Statistics of Lunatic Asylums show that nine-tenths of their patients are brought to their conditions by abuses of the generative organs. A great Brain and Nerve food, known as Mack's Magnetic Medicine, is sold by our druggists, and comes highly recommended as an unfailing cure in all these diseases. See the advertisement in another column.

A young physician informed a pretty lady patient, who was suffering from chronic sore throat, that the only cure for it was a beard. "That's of no interest to me," she replied, "I've got no beard." "True," he replied, gallantly; "but you can use mine as often as you want to." They were married a few months later.

John Miller, Druggist, Bothwell, says, I have a very large sale of Dr. Carson's Bitters. It is one of the few Medicines that does all it is recommended to do. We use them as our "Family Medicine." My experience is that they will cure Headache, Biliousness and Indigestion. For sale by all druggists at 50 cents a bottle.

The maintenance of a healthy state of the system is the surest protection against disease; experience has shown that by the use of Dr. Carson's Stomach and Constipation Bitters, a perfect state of health can be secured. They free the system from all impurities, disease and purify the Blood. For sale by all Druggists at 50 cents a bottle.

Bret Harte in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. Gray' Syrup of Red Spruce—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Sulpholine Lotion.—An External Means of Curing Skin Diseases.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seemed past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produces a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

Sulpholine Lotion, a fluid peculiar to itself, is the most potent enemy to all Skin Discolors. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

Sulpholine Lotion.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used more and more favorably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

Sulpholine Lotion.—Bottles containing nearly half a pint.—Sold by Chemists everywhere. Made in London, Eng.

LIVER COMPLAINTS.

Dr. King's Dandelion & Quinine Liver Pills (without Mercury.)

THE BEST REMEDY FOR BILIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Pepper, London. Specially valuable Pills for residents abroad and travellers.

Pepper's Quinine and Iron Tonic strengthens the nervous and muscular systems, improves digestion, animates the spirits, restores the health. For debilitated health from the effect of hot climates this tonic is invaluable.

Pepper's Quinine and Iron Tonic rouses and develops the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

Taraxacum and Podophyllin.—Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach and feeling of general depression. It sets the sluggish liver in motion, very gently acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

WISE people are always on the lookout for chances to increase their earnings, and in time become wealthy; those who do not improve their opportunities remain in poverty. We offer a great chance to make money. We want many men, women, boys and girls to work for us right in their own localities. Any one can do the work properly from the first start. The business will pay more than ten times ordinary wages. Expensive outfit furnished free. No one who engages fails to make money rapidly. You can devote your whole time to the work, or only your spare moments. Full information and all that is needed sent free. Address Stinson & Co., Portland, Maine.

THE

PACIFIC NORTHWEST!

Oregon, Washington, and Idaho

Offers the best field for emigrants—viz. a mild, equable, and healthy climate; cheap lands of great fertility, producing all varieties of Grain, Fruit, and Grasses in wonderful abundance; an inexhaustible supply of Timber; vast Coal Fields, and other mineral deposits; cheap transportation by railroad and river navigation; direct commerce with all parts of the world, owing to its proximity to the Pacific Ocean.

NO DROUTHS, NO INSECT PESTS, NO HURRICANES, WHIRLWINDS, OR OTHER DESTRUCTIVE PHENOMENA.

The lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred.

Oregon wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R.R., the Oregon Railway & Navigation, and the Oregon & California RR. Co's and their numerous branches in the great Valleys of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific RR. and the Oregon Railway and Navigation Co's systems. This renders certain a rapid increase in the value of Lands now open to purchasers or to entry under the United States Land Laws.

Daily Evening Review

MONDAY, APRIL 23, 1883.

POLICE COURT.

INDECENT CONDUCT.

MONDAY, April 23.—John Smith was charged with having acted improperly. He was informed by the Magistrate that, for having so acted, he stood indebted to the Court to the amount of $2. He liquidated the debt and departed.

The Cells.

One prisoner lodged in the police cells on Saturday night and shared them with two tramps. On Sunday night he was alone in them.

A Chimney on Fire.

A blazing chimney on Hunter street caused a little excitement on Saturday night. At a short distance away there appeared to be a large fire, but no damage was done.

Water Lowering.

The high water in our back lakes is on the decline. No dam has been carried away on the Otonabee or Trent, though many have gone on the Ottawa, Rideau and other waters.

New stock of Rochester Balmorals, new style, at McAleer's.

The Town Council.

A regular meeting of the Town Council will be held this evening in the Council Chamber at 7.30 o'clock. The question of purchasing the old Ontario Bank building for town purposes will probably be decided.

Not Yet Recovered.

The body of the late Geo. C. Rogers had not, at 3 o'clock this afternoon, been recovered. On Saturday night and on Sunday a vigorous search was made in the river and the Little Lake, but it was unsuccessful. Searching parties are still at work.

American Canoe Association.

In consequence of the melancholy accident which has so recently shocked the community, the meeting called for Tuesday evening to take action with regard to the proposed visit of the Association, has been postponed. Due notice will be given as to the time of holding the meeting.

The Cemetery.

The Little Lake Cemetery grounds have now become dry and the grass is green. Many persons visited the cemetery on Sunday afternoon, thus beginning those weekly pilgrimages to that sacred and beautiful place. Thus early in the season we would beg to call the attention of the Council to the desirability of having a sidewalk laid down to the cemetery.

The Murry Canal.

The Brigton *Ensign* says:—

"Work in earnest will, in all probability, begin on the Murry Canal by May 1st. The dredge is already digging away at the western end, and is rapidly shortening the distance between where it quit last fall and the high land. It is likely that another dredge will shortly arrive, and thus rapid progress will be made. Preparations to prosecute the work with derricks, scrapers and shovels are being vigorously effected, so that a vast amount of earth will be moved this season."

Photographic.

Mr. Jos. McClelland's Studio is now open.

The New Woollen Mill.

The new woollen mill on Hunter street is rapidly approaching readiness for work. Nearly all of the machinery has arrived and been placed in position, and work is being done now to supply the motive power.

The Weather Probabilities.

To-day is clear and the sun shining brightly, but there is a cold wind. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Fresh to strong north to east winds; continued cool, fair to cloudy weather, with local rains in southern Ontario.

The Unbreakable Hat.

This is the appropriate name given to one of the most comfortable as well as the most serviceable hats just out, which can be obtained at the fashionable hat store of Mill Bros. on George street, where, also, all the leading styles for this season's wear may be found in stock. This firm are in a position to always bring to us the newest styles of hats as they appear in the cities. Try the "Unbreakable."

Marks of Respect.

On Sunday St. Luke's Church was draped in mourning out of respect for the decease of the late George C. Rogers. The minister and congregation alike gave outward evidence of their sorrow at the loss of such a member of the Church. In the evening in St. John's Church, appropriate hymns were sung, and at the offertory the organ pealed out the melancholy, but nevertheless grand strains of "The Dead March in Saul."

See the pointed toe and patent tip, all the rage, at McAleer's Boot and Shoe Emporium.

The Propagation of Fish.

As will be seen from the following announcement in the Canada *Gazette*, the waters of the Otonabee from the Lock's bridge down, of Rice Lake and of the Trent River have been closed for fishing purposes and set apart for the propagation of fish:—

"On the recommendation of the Honorable the Minister of Marine and Fisheries, and under the provisions of the 15th section of the Act passed in the session of the Parliament of Canada, held in the 31st year of Her Majesty's Reign, chaptered 60 and entitled 'An Act for the regulation of Fishing and protection of Fisheries,' His Excellency, by and with the advice of the Queen's Privy Council for Canada, has been pleased to order and it is hereby ordered, that that portion of the Otonabee river from Lock's Bridge, Peterborough, to its inlet at Rice Lake, the waters of Rice Lake and tributaries with the River trent down to the Bay of Quinte, in the Province of Ontario, be and the same are hereby set apart for the natural and artificial propagation of fish during the space of three years from the 1st April, 1883"

Railway Notes.

President Tyler informed his stock holders the other day, that the Grand Trunk owns £1,192.00 of Chicago and Grand Trunk stock, which cost them just £3,000.

The contractors for the grading of the Ontario and Quebec Railway in the vicinity of Toronto have been instructed to prepare at once for track-laying between Carleton Junction and the Don.

The *Mail* says that on Thursday a new order went into effect with regard to freight for points on the Midland Railway. This will in future be received only at the Berkeley street station in Toronto, instead of at the Grand Trunk as heretofore. The new arrangement will relieve the Simcoe street sheds very considerably.

The Omemee *Herald* says that on Tuesday the site for Messrs. Laidley & Waugh's large new grain storehouse was laid out, and work will be commenced almost immediately. From what we can learn we are under the impression that a new station will also be built at the junction of Sturgeon street and the crossing at no distant date.

The Grand Trunk holds, as stated by its President, a large amount of Midland bonds, not less than £120,000, upon which it is recieving 5 per cent. interest, and upwards of £900,000 of its ordinary stocks and £102,000 of Grand Junction ordinary stock, the two last items being obtained at merely nominal amounts.

The President of the Grand Trunk Railway at its last annual meeting stated its mileage as follows:—

Grand Trunk proper	1,511
Great Western proper	812
Wellington, Grey and Bruce	169
Chicago and Grand Trunk	335
Detroit and Milwaukee	189
Midland Railway of Canada	471
North Shore Railway	220
Total mileage	3,466

On Friday Mr. Abbott presented a petition to the House of Commons from the Canada Pacific Railway Company, asking to be permitted to present a petition for a private bill. The circumstances under which this petition was necessary Mr. Abbott explained were that "an agreement was executed between the executive of the Canada Pacific Railway Company and the three lines of railway forming a continuous line between Montreal and the terminus of the Credit Valley Railway Company, by which these companies agree to lease their lines to the Canada Pacific Railway Company. The Canada Pacific Railway Company has no power to execute this deed under its charter." The Clerk read the petition, which set forth that the Canada Pacific Railway Company had been in negotiation with the Credit Valley Railroad Company, the Ontario and Quebec Railway Company, and the Atlantic and North-West Company; that they had only arrived at a decision that morning, and that ratification of the agreement by Parliament was necessary. The Bill was referred to the Committee on Standing Orders.

A Public Improvement.

The fence at the front and side of the George street Methodist Church, is being removed with the view of replacing it by a handsome fancy picket fence. This will be a great improvement and is an example that might be followed by other public and private property holders.

Railway Accidents.

A return brought down in Parliament shows that the number of killed in 1882 was 147, as compared with 99 for the year previous, and the injured 307 against 147 the previous year. As to the injured these figures do not represent the actual facts, seeing that the Grand Trunk made return of injured for the first time in 1882. There can be no doubt that the accidents have increased.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its specialty as a complete and radical cure of dyspepsia, liver and kidney complaints, and all impurities of the blood.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not endure.

Daily Evening Review

TUESDAY APRIL 24, 1883.

WE have now before us the detailed official count of the Muskoka election, and we find that the majority for Mr. Fauquier at Nipissing is 2. This is the polling place where it was calumniously charged that the Conservatives stuffed the ballot box, after driving away the deputy returning officer by threats. That after threatening even to disembowel an official these men should content themselves with a majority of two shows a strange moderation, if they were really guilty. It reminds one of the black sheep of an English aristocratic family, who was hanged for murdering an old woman to rob her of two pence halfpenny. Then, however, the murder was proved, but now we have only the wild and unfounded charge of men angry at being rejected by the people.

IN response to our request for its opinion as to the appointment of the notorious S. S. Peck to the Bench, the Lindsay *Post* says:—

"We think it is the loveliest thing out, and quite in harmony with recent events in the north country."

So the *Post* cannot even condemn the appointment of a malefactor as a judge, if made by its political friends. The *Post* jeers at us for apologizing for our trifling oversight in failing to notice its inconspicuous notice of the appointment, without editorial comment. We do not profess to be infallible, and we are always ready to correct any inaccuracy into which we may fall. The *Post* always adheres to its misrepresentations, and perhaps judiciously, or too much of its space would be taken up with apologies to leave the necessary room for its new inventions.

Chopped His Brother's Fingers Off.

Two little children of Mr. James Stewart, G. T. R. station-master at St. Thomas, were playing in the yard at his residence, when the elder of the two, a little boy about three years of age, spied the axe, picked it up, and started chopping. He had not been playing long when he chopped off the two first fingers below the second joint on his little baby brother's right hand.

Collision on the Grand Trunk.

The Grand Trunk morning express from the east was delayed for over three hours on Saturday owing to a terrible collision at Wells, a station near Cornwall. Over thirty cars and two locomotives were smashed to pieces, but no lives were lost. The damage may amount to $70,000. It is stated that the accident was due to carelessness on the part of a telegraph operator at Cornwall.

BRITAIN AND THE UNITED STATES.

WASHINGTON, April 24.—Lord Granville has written an eloquent reply to Frelinghuysen's note, in which the latter maintained that the Clayton Bulwer treaty had been violated by Great Britain to such an extent as to justify the United States in denouncing it. The conclusions arrived at by the British Government are that the meaning and effect of the article of the treaty are not open to any doubt. The British Government has committed no act which can invalidate the treaty and justify the Government of the United States in denouncing it and no necessity exists for renewing the treaty. There might, Lord Granville says, be advantages in defining by an agreement the distance from each end of the canal in which no persons should be commissioned by belligerents in order to maintain the freedom of passage through the Panama canal. Should it be contemplated, and when the time approaches for its completion, Her Majesty's Government would, no doubt, be prepared to give its careful attention to the question of concluding an arrangement with that object, should such a proposal be made, but in the present stage of the enterprise they conceive that it would be premature to entertain the idea for that purpose. "I have not," says Lord Granville, "thought it necessary to allude to the traditional continental policy of United States, as laid down in the Monroe doctrine, since Frelinghuysen in his vote of the 1st of May last, in which he explained the views of his government on the subject, admitted that Her Majesty's government was not called upon either to admit or deny the views therein expressed." Lord Granville intimates that the British Minister will inform Frelinghuysen that Her Majesty's government are animated by a most sincere desire to arrive at an amicable settlement of the questions which have given rise to this correspondence, and that they note with great satisfaction the friendly assurance with which he concludes his despatch, and that the diversity of opinion which now exists will not in any way impair the good understanding happily existing between the people and the governments of the United States and Great Britain.

EXHIBITIONAL.

Now, that we have withdrawn from the Central Exhibition scheme, with which this County and especially the West Riding has been connected for the last eight years, and the course is comparatively clear for the consideration and adoption of any exhibitional scheme that may be deemed advisable, it will not be out of place for us to direct attention thereto with the view of ultimately securing such united action as will be best calculated to advance our own interests, and those for which this County is now receiving the handsome sum of $1,400 per annum from the Provincial Treasury.

In the ordinary course of events there are held within this County in each year no less than eight Agricultural and one or two Horticultural Exhibitions—a number which all agree is not only out of all proportion to our requirements but is a wilful waste of valuable time and of the public money. But while all are agreed upon this point very few are agreed upon the remedy which should be applied. Propose to do away with the existing township societies and you have all the little villages in the country in arms against a suggestion which would spoil their annual holiday and do an injustice to those in the outlying townships where Government aid for such a purpose is most required and in a measure least received under the present system. On the other hand a proposal to do away with the Riding Societies would be equally strongly opposed by another section of the community. Without committing ourselves to any decided opinion as to the course which the Legislature should pursue in revising the basis upon which their grants are now made, we may say that our present opinion inclines to the expediency of curtailing the number of rivulets through which the public grant is now being frittered, away by adopting County rather than Riding boundaries for a large association, and by forbidding the organization of practically County Societies as branch societies, as is the case in this county in the organization of the Smith, Ennismore, Lakefield and North Monaghan Society. Were some such policy as this adopted it seems to us that both the Township (especially in the outlying districts) and County Societies could be materially strengthened, much time saved and the cause of agriculture promoted. But this is beside the question before us, our present object being to consider what we shall do under existing circumstances.

Since the abandonment of the Central has been determined upon we find a very general feeling expressed in favour of steps being taken to provide for the holding of an annual exhibition in the town of Peterborough, which would rival either of the Centrals which have been held here in the past. So far as raising the necessary funds for the prize list is concerned, there need be little difficulty, seeing that they have in the past, and are still more likely in the future to prove nearly self-supporting. The real and substantial difficulty before us, with regard to the holding of such exhibitions, is the want of suitable accommodations. Now as these will have to be provided under any circumstances by local efforts from local sources, we may as well face the matter at once. Every season's delay will only increase the difficulties in the way of securing suitable and convenient grounds, and augment the amount which will be required to meet the outlay therefore. We would therefore earnestly urge that the matter should be taken up at once. The expense need not, and should not fall upon the Agricultural Society alone. There is no reason why the same grounds should not be made use of for several purposes, such as a driving park, a cricket, foot ball and lacrosse ground, etc., nor why all those using it should not contribute to obtaining and maintaining it. So far as location and site are concerned, the requirements of all would harmonize, and there should be little difficulty in arranging for its joint use without any clashing of rival interests. There are indeed but two difficulties in the way of carrying out such a project, and these are raising the money to buy and fit up the necessary ground, and obtaining a suitable location within a reasonable distance of the centre of the town—two difficulties which are increasing every day, and will continue to increase until such a ground is secured.

THE Ottawa *Free Press*, with that antipathy to the law courts and legal proceedings which is so natural in the so-called "Reformers," is now vilifying a witness who is expected to give evidence against Dr. Dowling in the South Renfrew election case, liking him to Titus Oates and James Carey, even before he has testified.

TOWN COUNCIL MEETING

THE TORONTO BANK BUILDING PURCHASED FOR TOWN OFFICES.

Reports of Committees—Fire Matters—A By-law—The Swing at the Lock's Bridge—Leave of Absence—Special Police—An Odoriferous Drain—Gas Lamps.

A regular meeting of the Town Council was held on Monday evening.

PRESENT—His Worship the Mayor and Councillors Cahill, McNaughton, Paterson, Sawers, Douglas, Rutherford, Menzies, Yelland, Hartley and Kelly.

The minutes of the last three meetings were read and confirmed.

COMMUNICATIONS.

From Thos. Swinyard, in reference to electric light.—Fire, Water and Gas Committee.

From Geo. Johnston, Chief of Police, in regard to gas lamps being left unlit, as reported by the police constables, and stating that notice of the missing of the lamps was sent to the Manager of the Gas Company.—Received.

From Jas. McFadden, asking for a sidewalk on Smith street.—Street and Bridge Committee.

From W. J. Hall, asking for street scrapings for garden ground.—Street and Bridge Committee with power to act.

From a number of ratepayers, asking for a sidewalk on the south side of Aylmer street.—Street and Bridge Committee.

From Wm. Bradburn, stating that he was building two buildings on Stewart street, and asking that the grade be struck.—Granted on a division.

From Wm. Marson and others, asking to have George street scraped between Smith and Murry streets.—Street and Bridge Committee with power to act.

From E. Pearse, calling attention to a woman in destitute circumstances.—Charity Committee with power to act.

From E. Burnham, asking for permission to erect wooden buildings in rear of his block.—Building Committee.

From the Immigration Department, asking how many immigrants could find employment here.

From Edg. Pearse, in reference to a House of Refuge for the Town and County.—Finance Committee.

From Edg. Pearse, enclosing a copy of resolution adopted by the Joint Committee of the Town and County in regard to the Lock's bridge, as follows:—"That the tender of the Toronto Bridge Company for building the swing at the Lock's bridge for the sum of $2,950, being the lowest tender, be accepted, and that a contract be entered into with said company by the Town and County in accordance with resolutions of the Town and County Councils."—Received.

THE AUDITORS' REPORT.

A communication was received from the Auditors, Messrs. E. Pearse and James Stratton, submitting their report for the year.—Finance Committee.

ACCOUNTS.

The following accounts were read and referred to the Finance Committee.

R. S. Reddy, team	$ 5.00
Anson Spory, lumber	46.78
Jas. E. Belcher, sup. Smith st. bridge	40.00
Jas. E. Belcher, eng. work on street	5.00

The MAYOR called attention to the state of the sidewalks on Brock street, between Bethune and Rubidge streets, and on Bethune street, between Hunter and Simcoe streets.

Councillor CAHILL said the sidewalks on Sherbrook and Simcoe streets were in a bad condition.

It was moved, seconded and carried that the sidewalks be repaired.

FINANCE COMMITTEE.

Councillor MENZIES presented a report of the Finance Committee.

Councillor MCNAUGHTON objected to the report, on the ground that there was not a quorum present at the meeting of the Committee.

The report was withdrawn.

COURT OF REVISION.

Councillor SAWERS read the report of the Court of Revision, recommending that the petitions of H. C. Winch, M. Halpin, Mrs. Skain, Samuel Detcher, A. D. McIntyre and H. T. Strickland be not granted.

Councillor YELLAND said that Halpin was assessed for the house in which he lived, and should not have to pay statute labour tax also.

The report was amended, recommending that Mr. Halpin's petition be granted, and then adopted.

CHARITY COMMITTEE.

Councillor SAWERS read the report of the Charity Committee, recommending that the taxes of John Newton, Mrs. McCabe, and P. Hamlin be remitted, and that Joseph Valois be given work on the street to the amount of his taxes. Also that they had unsuccessfully sought to have the Billings family admitted to the Protestant Home.

Councillor MCNAUGHTON said that he would only favour remitting the taxes of two of the persons named. He did not think that any woman who had a son and daughter able to work should have her taxes remitted.

A long discussion took place as to what had been said in Committee.

Councillor PATERSON would rather that the report had been brought in in a different way. He thought that remitting taxes was done away with.

The report was adopted.

PUBLIC OFFICES.

Councillor SAWERS read the following report of the special committee appointed on the purchase of the Toronto Bank building:—

To the Mayor and Councillors of Peterborough :

GENTLEMEN,—The special committee appointed to consider the desirability of purchasing the Bank of Toronto buildings on the corner of Water and Simcoe streets for town offices, &c., beg leave to report:—

The committee personally and carefully examined the said buildings and found them in very good condition, especially that portion lately occupied by the Bank of Toronto. They consider that with a small expenditure the said buildings could be made very desirable offices for the town; that by throwing the two upper flats into one room a most comfortable and suitable Council Chamber would be obtained; that the offices now used by the contractors of the Ontario and Quebec Railway would be excellent offices for the collector and public offices; that with slight alterations the small brick building at the rear could be made into a secure, healthy and convenient lock-up.

The owner of the buildings, Mr. James Stevenson, has agreed to let the town have them for $4,500, or for such other sum as arbitrators may determine upon; the town to have the privilege of accepting either figures after the arbitrators shall have made their award. Mr. Stevenson further agrees to accept the debentures of the town bearing interest at the rate of 5 per cent. per annum and to run either ten or twenty years.

The committee thought it better, before making out their report, to have the buildings examined and valued by the town Architect and Engineer, which has been done, and his report is accompanied herewith.

Your committee is of opinion that it is desirable that the town should purchase these buildings for the said sum of $4,500, and have the necessary alterations made to render them suitable for town offices, lock-up, &c.

It is also of opinion that the sum asked for them and the terms of payment are very reasonable, and that it is not necessary to arbitrate as to the sum the town should pay for them.

All of which is respectfully submitted,

C. W. SAWERS,
Chairman.

Councillor SAWERS also read the report of the Town Engineer. He then moved, seconded by Councillor PATERSON,—That the report be adopted, and that a special committee composed of Councillors Cahill, Paterson, Rutherford Deane and Hartley be appointed to complete the purchase of the buildings, and to arrange about the making of the same suitable for offices for the Town Treasurer and Clerk, Collector, Police officers, Council Chamber and lock-up. Also, that the Finance Committee do take the necessary steps to obtain and pay the purchase money.

Councillor MCNAUGHTON asked if it was intended to pay for the buildings with next year's taxes?

Councillor SAWERS said that the consideration of that question would be left to the Finance Committee.

Councillor HARTLEY said he had examined the building, and thought the Engineer's report quite correct. It would cost in the neighbourhood of $1,500 to make the alterations.

The CLERK, in reply to the Mayor, said that the present offices were leased until two years from next January.

Councillor MENZIES moved that the report be referred to the Finance Committee to report.

Councillor RUTHERFORD said that after a special committee had carefully investigated the matter, to refer it to the Finance Committee would be an unusual course.

Councillor MCNAUGHTON said that he wished to find out how the money was going to be raised.

Councillor PATERSON said that it was proposed to issue debentures.

Councillor CAHILL said that that part of the question with which the Finance Committee had to deal was referred to it by the motion namely the financial question. A lock-up had to be provided anyway, and he knew of no place where it could be put up. With this building they would have a place for a lock-up, and they would have good town offices, which would cost them $206 a year, instead of over $600.

The amendment was lost and the report adopted.

STREET REPAIRS.

Councillor KELLY moved, seconded by Councillor PATERSON,—That the Street Inspector be authorized to lay down a new sidewalk on Simcoe street, from Aylmer to Rubidge street, and on Rubidge street north to Hunter street; and also on Sherbrooke street, from George to Aylmer street.—Carried.

FIRE MATTERS.

Councillor SAWERS moved, seconded by Councillor MCNAUGHTON,—What the Fire, Water and Gas Committee do inquire into and report to this Council the reason the town team was not on hand to draw the engine to the fire on Tuesday night, the 17th instant.

Councillor RUTHERFORD said that Mr. Cavanagh understood that his contract did not expire until the first of May, and both teams were brought, but Mr. Cavanagh's team was there first.

Councillor MCNAUGHTON asked if Councillor Rutherford had made an agreement for Mr. Cavanagh to draw the engine to the first of May?

Councillor RUTHERFORD.—No.

Councillor SAWERS said that the walls of the stable being erected were only nine inches thick.

Councillor RUTHERFORD said that was according to the specification.

Councillor SAWERS said that the Chairman told him in the Committee that they would be fourteen inches thick.

Councillor RUTHERFORD said be must have misunderstood him.

Councillor SAWERS said the Chairman also told him that there would be a cellar, and now they were going to extras for a cellar.

Councillor RUTHERFORD said he had given no instructions as to extras.

The motion was withdrawn.

CURRENT EXPENSE.

A By-law was passed for borrowing money for the current expense of the year.

THE LOCK'S BRIDGE.

Councillor RUTHERFORD moved, seconded by Councillor HARTLEY,—That the report of the Joint Committee in reference to the swing bridge be adopted, and that the Clerk be instructed to notify the County Clerk of the same.

Councillor RUTHERFORD said that this Council would pay one-half of the cost. The Engineer would not vouch for the swing standing a day.

Councillor MENZIES thought that the town should not pay half the cost. He thought the bridge would stand for 10 or 15 years yet.

The MAYOR said that a resolution was passed by this Council agreeing to pay half the cost.

Councillor PATERSON said it was in the interest of the town to have the bridge there.

Councillor MCNAUGHTON said that the bridge would be of no assistance to the town.

The motion was carried.

CHARITY.

Councillor PATERSON moved, seconded by Councillor CAHILL,—That the Treasurer pay to the Collector, for Mrs. Martin, $5 as charity.

Councillor MCNAUGHTON raised the point of order, that it required notice.

The matter was referred to the Charity Committee with power to act.

LEAVE OF ABSENCE.

Councillor DAVIDSON was granted three months leave of absence.

DISCONTINUED.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES,—That the grant of $3 a week to E. Connor be discontinued.—Carried.

TREE PLANTING.

Councillor SAWERS moved, seconded by Councillor CAHILL,—That it is desirable that this Council should assist property owners and others in the planting of shade trees throughout the town, and it is resolved that Councillors Cahill, Paterson, Kelly, Yelland and Hartley be a special committee to obtain trees and to direct where they are to be planted, and for such other purposes with reference thereto as may seem proper.

Councillor SAWERS said that the Ontario Legislature would give 25 cents. for every tree living at the end of three years, and the trees would really cost nothing.

The motion was lost on the following division:—

YEAS—Councillors Cahill, Kelly and Sawers.

NAYS—Councillors McNaughton, Yelland, Douglas, Menzies, Rutherford and Hartley.

TOWN TRUST COMMISSION.

Councillor CAHILL moved, seconded by Councillor SAWERS,—That John Garvey should be appointed a Commissioner of the Town Trust in place of Mr. Toole, who is absent, and that the Mayor call a special meeting of the Council for that purpose.

Councillor CAHILL spoke of Mr. Garvey's qualifications for the office.

Councillor RUTHERFORD moved, seconded by Councillor HARTLEY,—That Mr. Walter Paterson be appointed.

Councillor MCNAUGHTON moved, seconded by Councillor PATERSON,—That Mr. Hewitt be appointed.—Lost.

Councillor CAHILL said that no Councillor had more respect for Mr. Paterson than himself. But it was undesirable that the Council should appoint a Councillor to the position.

Councillor RUTHERFORD said Mr. Paterson had devoted his time to the interest of the town. He thought it desirable to have a member of the Council on the Commission, so that questions which often arose could be answered. Mr. Garvey had done nothing of a public character to earn the appointment.

Councillor MENZIES said that several gentlemen had held seats in the Council while on the Town Trust Commission. When a man had served faithfully on the Council for years he deserved the preference.

Councillor PATERSON, in reply to Councillor MCNAUGHTON, said that if he was appointed he would consider it an honor, but he did not aspire to the position.

The amendment for Mr. Paterson's appointment was put and carried.

SPECIAL CONSTABLES.

Councillor SAWERS moved, seconded by Councillor PATERSON,—That the Committee on appointments be instructed to appoint six special policemen to serve between 6 p. m. and 7 a. m.

Councillor RUTHERFORD raised the point of order that it required notice.

The matter was referred to the Committee on Appointments.

THE COW BY-LAW.

Councillor KELLY wanted to know why the Committee on Appointments had not been called together. An appointment was required under the Cow By-law.

Councillor DOUGLAS said that he did not think that a meeting had been required.

Councillor MCNAUGHTON called attention to the state of the streets when the waterworks pipes were laid down.

A DEFECTIVE DRAIN.

MR. JAS. STEVENSON was, on motion, heard by the Council. He called their attention to the smell which arose on the corner of George and Hunter streets from the drain. The health of the people there was endangered. The Council should take some action, and he suggested that the course of the drain be diverted.

Councillor RUTHERFORD said the stench was dreadful, and the quicker some action was taken the better.

The matter was referred to the Building and Health Committee with power to act.

THE GAS LAMPS.

Councillor RUTHERFORD, in regard to the gas lamps not being lit, said that the Manager of the Gas Company had told him that after the lamps were lit mischievous boys had tampered with them.

Mr. STEVENSON said there was no desire on the part of the Company but to do their best to carry out the contract with the town. They could not always watch the lamps. This had been an exceptional year, and they had been troubled with water freezing just below the posts. Alcohol was put in and the gas thawed out. This would only occur in the spring. Boys turned out the lamps with sticks after they were lit. Sometimes the boys lit lamps when they should not be lit. On the night that none of the lamps were lit it was moonlight, and another night on which the Company need not light them it would be dark and they would then light them. They had discharged men this winter because they had commenced to put out the lamps before 12 o'clock.

The Council then adjourned for one week.

They free the system from all impurities, cleanse and purify the Blood. For sale by all Druggists at 50 cents a bottle.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to take long walks in the pine woods of California for the benefit of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY'S SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

STIRLING.

SPECIAL SERVICES.—The *News-Argus* says that there were 114 who professed conversion as the result of the recent union Methodist revival meetings in Stirling. Of that number fifty joined the M. E. church, forty-three joined the C. M. church, two were Presbyterians, three Baptists, and sixteen have as yet not come to any decision in respect to church membership.

MARMORA.

BUSINESS CHANGE.—The Stirling *News-Argus* says that it is reported from a most reliable source that Mr. T. P. Pearce has sold out his entire milling property and business at Marmora to Messrs. Carscallen & Gladney, and his residence to Mr. Gordon McWilliams. Also that he (Mr. Pearce) has purchased a third interest in Campion's (formerly Burrell's) axe factory, Belleville, paying therefore $20,000. Evidently he will remove to the latter city.

Horsford's Acid Phosphate

removes the uncomfortable feeling sometimes experienced after excessive smoking or chewing.

A Specimen Infernal Machine.

Two infernal machines are in the possession of Consul-General Fleetwood Edwards, one of which was captured only a short time ago, and which is regarded as most important. It resembles a lump of coal about 15 pounds in weight. From one side a heavy screw projects for an inch. The substance is of iron, but the covering is of black gauze of a dead-sand colour, and gives it the dead black of coal. Mr. Edwards refuses to say in what way he became possessed of the machine, says it was manufactured in New York, and that others of the kind were also manufactured—where or by whom he refuses to say. It contains a liquid explosive, and at the consulate it is said that the pattern of the bomb has been improved since the present specimen was procured. The startling part of the story is best told in the words used by the Consul-General, who says:—"These bombs were to have been mixed with coal and placed in the coal bunkers of British steamship. Falling heavily on the head of the screw or being thrown into the fire by the stockers, they were intended to be powerful enough to sink any ship."

Failing!

That is what a great many people are doing. They don't just know what is the matter, but they have a combination of aches and pains, and each month they grow worse.

The only sure remedy yet found is SULPHUR AND IRON BITTERS, and this by rapid and thorough assimilation with the blood purifies and enriches it, and rich, strong blood flowing to every part of the system repairs the wasted tissues, drives out disease and gives health and strength.

This is why SULPHUR AND IRON BITTERS will cure kidney and liver diseases, consumption, rheumatism, neuralgia, dyspepsia, biliousness, intermittent fevers &c.

SULPHOLINE LOTION.—AN EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.) THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, [illegible] Taraxacum and Podophyllin [illegible] J. Daily Evening Review

TUESDAY, APRIL 24, 1883.

The Cells.

The police cells were tenanted last night by one tramp. No arrests were made.

Personal.

Mr. J. M. Quinn, who has been studying law in Messrs. Peck & Smith's office, has gone to Toronto to continue his studies.

Reward Offered.

The friends of the late George C. Rogers have through Mr. John Burnham, offered a reward of $100 for the recovery of his body on or before Saturday, April 28th, and $50 for its recovery after that date.

A Horse's Tumble.

While a horse was being led out of a car at the station on Monday evening, it backed out of the door in the opposite side of the car, which was open, almost turning a summersault. To the surprise of the onlookers, it was uninjured.

New stock of Rochester Balmoreals, new style, at McAleer's.

Shipping Horses.

Sixteen horses were put into a car to be shipped to Rochester this forenoon. While they were being loaded four of them got away, but after a sharp run they were captured. This held the car until the 10 o'clock train had gone.

A Heavy Animal.

Mr. Doherty weighed on the market scales this morning a bull belonging to Mr. H. Collins, Reeve of North Monaghan. It was a Durham, and weighed 2,400 pounds. Mr. Wainright purchased it.

The Treacherous Bicycle.

A young man had a dangerous fall off a bicycle at the post office corner this morning. He got on the precarious vehicle and as he gave the wheels a turn it threw him off the sidewalk into the street. He did not appear to be hurt.

The Weather Probabilities.

The weather to-day is cloudy and cold. A few flakes of snow fell. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh north to west winds; fair to cool weather; slightly higher temperature.

Preserve the goods you put into your refrigerator, by ordering your Ice at Town Clock Grocery.

New Hackman.

In another column appears the card of Mr. E. Whitfield, announcing that he has purchased the hacks, &c., of the late E. Phelan, and soliciting a share of the public patronage. We can recommend Mr. Whitfield to the public as the right man in the right place, and parties entrusting him with their orders may rely upon getting satisfaction.

Mind Reading.

Mr. Stuart Cumberland, who astonished the learned of Toronto and other cities, will visit Peterborough on Wednesday and Thursday, May 2nd and 3rd, and give his marvellous demonstrations. His wonderful powers in mind reading have astonished all who saw him, and his exposition of the tricks of Spiritualism is highly spoken of.

SUICIDE.

A Young Lady, Depressed by Melancholy, Seeks Relief in Poison.

Miss Florence Myles died this morning from the effects of taking poison, which, it appears, she had swallowed with the intention of taking her life. She had been employed at Mr. Wallis', in North Monaghan, about a mile and a half from town, and on Monday morning she drank solution of corrosive sublimate. When taken sick she was driven Peterborough. Dr. McCrea was sent for, and called in with him Dr. Bingham, at about two o'clock. Remedies were given and the science of medicine was used in trying to prevent fatal results, but it was seen from the first that all efforts to save her life would be unavailing, and she died this morning.

Miss Myles, who is about 26 years of age came to this country from England about six months ago, and since arriving here become depressed in spirits. No reason is known why she committed the act except that she had been melancholy. Before dying she made a deposition, witnessed by the physicians, in which she stated that she took the poison herself with the intention of taking her life.

ICE! ICE! ICE!

Orders left at Town Clock Grocery, will be promptly attended to.

THE LICENSES.

The Commissioners Consider Some of the Applications—Those Granted.

The License Commissioners for West Peterborough held a meeting on Monday afternoon, to consider the applications for licenses to sell liquor, and decided to grant the following for the Town of Peterborough:—

TAVERNS—J. E. McIntyre, T. G. Choate & Sons, A. P. Morgan, Wm. Croft, T. Cavanagh, Elizabeth Darcy, John Sullivan, M. Halpin, John Wilson, Wm. Chamberlain, A. D. Fauscher, P. Brault, Wm. Bell, W. Snowden, Jas. Young, Wm. Kenneally, James Dolan and Jas. Morris. There are other applications to be considered.

SHOPS—Harry Rush, B. Morrow, John Cameron, Geo. Mitchell, M. Quinlan, J. O'Shea, E. McKelver, Geo. Pope and John Garvey, with other applications to be considered.

The Commissioners adjourned to meet again on Monday next.

Snow.

Several times to-day snow has fallen, sometimes quite heavily. A flurry in the afternoon reminded one of mid-winter, the flakes were so large and came down so thickly.

COUNTY OF HALIBURTON.

At the meeting of the Dysart Municipal Council, on Saturday, April 14, some documents were read of an interesting character relative to the position of the County. At the last meeting of the Haliburton County Council it was resolved to pay the indebtedness to the bank, and not to pay the railway debentures. Arrived at maturity they were dishonoured, and a holder of the debentures, a gentleman named Mountary, commenced a suit against the county. On taking the opinion of the county lawyer it was found that there was no defence to the suit, and judgment was allowed to go by default, and the execution of course follows. This position was brought about by the refusal of the municipality of Dysart to pay over its county rates to the county treasurer. At a former meeting of the County Council a resolution was passed appropriating $250 to each municipality in the county for road purposes, to be spent under the direction of the respective reeves. This resolution was acted on and a rate levied on the county to meet the expenditure. This rate Dysart declared to be illegal and refused to collect it, and, indeed, did not collect it. Thus the County Treasury was left without sufficient funds to meet its engagements, for Dysart refused to pay not only the money due for the alleged illegal road appropriations, but also all other county rates, and Dysart pays more than half of the entire county taxation. The Reeve, Mr. Illman, consulted Mr. Barron, of Lindsay, on the subject, and a very clear and lucid opinion from that gentleman was read to the Dysart council on Saturday. Mr. Barron gave his opinion that the resolution of the County Council was illegal. The vote of $250 to each municipality was illegal because they had no power to make grants of money in aid of ordinary roads in particular municipalities. Inasmuch as the county had no power to make the grant they had no power to levy the rate, and any by-law for that purpose would be *ultra vires*. The Municipality of Dysart was therefore justified in refusing to levy the rate, but whilst justified in refusing to pay that particular rate, it was not justified in refusing to pay the other rates, including the railway rate, and he advised that these rates should be paid over, care being taken that they were properly applied to the purposes for which they were levied. In the discussion which followed the reading of Mr. Barron's letter, the subject of the propriety of Dysart seeking to leave the county was more than once alluded to, and ultimately it was decided that the ordinary county rates should be paid over to the county treasurer, but that the railway debenture rate should only be paid to the sheriff.

It is worthy of note that the Dysart assessor has this year made a very startling change in the municipal assessment. The land of the English Company was last year assessed for a sum of about $240,000, but as it has been in the market for sale, and been practically sold for a sum of $80,000, the assessor would not assess it at the old figures, and reduced the assessment to $100,000. At the same time he reduced the assessment of the lands of the settlers proportionately. One result of this will be the extinction of a very large number of parliamentary votes. Another result will be that in order to levy the necessary amount of taxes, the rate on the dollar will have to be greatly increased. The rate this year, it is said, will be nearly ten cents on the dollar, and whether this can be legally levied is a subject of general conversation in that district. It is quite clear that the position of the county of Haliburton is such as to demand the utmost circumspection in its management, for the people have contracted debts which it is very difficult for them to pay. No doubt its affairs will receive the necessary calm and deliberate consideration from those who have been appointed by the people to manage their affairs, and it is to be hoped they will arrive at a favourable conclusion.—*Bobcaygeon Independent.*

Daily Evening Review

WEDNESDAY APRIL 24, 1883.

OUR LAWLESS ATTORNEY-GENERAL.

The Toronto *Tribune*, the Toronto Catholic weekly, published in the interests of the Reform party, says:—

"We regret to learn, from a rather strongly worded and profusely explanatory paragraph in Wednesday's *Globe*, that Mr. Gideon Striker, the defeated candidate for Prince Edward, has been dissuaded from filing a petition against the return of Mr. Hart."

And pray who dissuaded Mr. Striker from going on with the petition against Mr. Hart's return? The immaculate Reform Premier of Ontario. Why? Because, his organs says, he had assurances from Mr. Hart that he would give him his support. It is unnecessary to add anything to that we said on Saturday in regard to Mr. Mowat's scandalous conduct in this matter. Truly the Reform leaders in the Province of Ontario are an "organized hypocrisy." —*Ottawa Citizen.*

THE TOWN GAS LAMPS.

To the Editor of the Review.

DEAR SIR,—Permit me a little space in your valuable paper to say a word in my own behalf as regards a statement made at the Council meeting on Monday night that men have been discharged for putting out the gas lamps before 12 o'clock. I got my orders from the gas manager Drury to start to put them out at half past eleven o'clock. Now for myself and a few others who have had the misfortune to be discharged, it ought to be seen if it is men or manager that is to blame. I am, Yours &c.,

A DISCHARGED MAN.

Peterborough, April 24.

We learn on enquiry of the Gas Co. that the men are instructed to start at half past eleven to a quarter to twelve for Ashburnham, where the lamps are first extinguished, it being calculated that it will be twelve o'clock before they reach the town again.—ED. REVIEW.

MAILS ASTRAY.

To the Editor of the Review.

DEAR SIR,—Yesterday evening the conductor on the Midland train put off two bags for Port Hope at the Fraserville Station. As we received no bag for Springville, we thought it likely that it was carried on to Port Hope, in exchange. This is the second time within a few weeks that our mails has miscarried. More caution should be exercised, as much inconvenience is caused, and there might be serious results from the delay of urgent letters.

Yours truly,

JOHN DUNDASS.

Springville, April 24th, 1883.

POLICE COURT.

DRUNK AND DISORDERLY.

WEDNESDAY, April 25.—Michael Dicey was charged with having been drunk and disorderly on Sunday. "I suppose you got the liquor in a hotel?" queried the Magistrate, but a smile was the only answer. Fined $2, which he paid.

LANDLORD AND TENANT.

Andrew Stutt charged Jas. Moore, who, he claimed, had been living in a house of his, with having removed boards from the interior of the house. The case was dismissed, the costs, $2.30 to be paid by the complainant.

Boat Upset.

On Tuesday afternoon while Mr. A. Rogers was engaged in searching for the body of his brother, the late George C. Rogers, near the Otonabee bridge, his boat was upset by the current and carried down the stream away from him. He was rescued by some men in another boat, and was much exhausted.

Sons of England.

A meeting was held on Tuesday night in connection with the organization of a Lodge of the Sons of England in Peterborough. Several committees were appointed, and the following officers were elected *pro tem*:—Mr. A. G. Compigne, Chairman, and Mr. A. Herridge, Secretary. Meetings will be held on Monday evenings until the work of organization is complete. The signs are encouraging.

THIS DAY'S TELEGRAMS.

Press Despatches to the Review.

CABLE.

THE CZAR'S CLEMENCY.

ST. PETERSBURG, April 25.—It is reported that the Czar has decided to commute the sentence of all Nihilists now in prison under sentence of death, and to pardon a large number of others.

RACE AT NEWMARKET.

LONDON, April 25.—The race for the 2,000 guineas' stakes at Newmarket to-day was won by Lord Falmouth's Galliard, with Goldfinder second, and Prince third.

"NUMBER ONE."

LONDON, April 25.—The *Times* says that it is understood that the evidence against Tynan, (Number One,) is such as to justify the Government in asking for his extradition.

THE JURY AGAIN DISAGREES.

DUBLIN, April 25.—At the trial of Kelly this morning the judge summed up the evidence strongly against the prisoner's claim of an *alibi*. The jury were out a short time and announced that they were unable to agree.

AMERICAN.

GRANVILLE'S DESPATCH.

WASHINGTON, April 25.—Mr. Frelinghuysen has prepared a reply to Lord Granville's last despatch on the Clayton-Bulwer Treaty, but refuses to make it public. In a Cabinet meeting yesterday there was some talk regarding the operations of the dynamiters in this country.

A REVOLUTIONARY APPEAL.

NEW YORK, April 25. — The Revolutionary Council of the Fenian Brotherhood is circulating a proclamation here, calling on Irishmen for help to exhaust the resources of civilization against England.

MURDER IN DAKOTA.

CREEL CITY, Dakota, April 25.—It is stated that the Ward brothers, who were found murdered in a shanty, jumped a claim belonging to one Bell. Bell, with twenty friends, surrounded the shanty and fired into it, killing the Wards. Several arrests were made. There are threats of lynching.

TELLER DISAPPEARED.

GREENVILLE, S. C., April 25.—J. F. Cleveland, teller in the National Bank of Greenville, has disappeared. His accounts are short of $5-000.

THAT TERRIBLE CYCLONE.

NEW YORK, April 25.—Despatches from Mississippi, Georgia and South Carolina show that over 250 lives were lost by Sunday's storm, and nearly 1,000 persons injured, some fatally and many seriously. At Beauregard and Wesson, Miss., the loss was about $200,000. Near Hotonlinden, Miss., thirty people were killed, and in the vicinity of Pine Bluff seventeen. The houses of thirty colored families at Aberdeen, Miss., were swept away. Five persons were killed and twenty-five wounded. The gaol has been converted into a hospital. On Alitt river, Georgia, a float with six negroes was swamped and all were drowned. On Putney's plantation, Georgia, five persons were killed and eighteen wounded. Hailstones four inches in diameter fell in some places. The Griffin and Carrollton Railway was damaged to the extent of $10,000. On Woodruff's plantation Woodruff's baby and five other children were killed. The cyclone cut clear of Smith. Wherever it touched the destruction of crops and property of all kinds was wide-spread.

FOR THE CONVENTION.

NEW YORK, April 25.—Several special trains started for Philadelphia this morning with delegates for the Irishmen's Convention.

ARRESTED FOR HOMICIDE.

POKEEPSIE, April 25.—Noah Page, of East Fishkill, has been jailed on a charge of killing Morris Robinson, while intoxicated. Robinson abused Page's daughter and her child. Page beat Robinson with a club so he died.

DETECTIVES AT THE CONVENTION.

PHILADELPHIA, April 25.—It is thought that several English detectives will watch the proceedings of the Irish convention. Rossa has arrived.

ATTEMPTED MURDER AND SUICIDE.

NEW YORK, April 25.—Frank Larkin, a member of the Baltimore base ball club, living at Williamsburg, yesterday shot his wife in a drunken crazy and then cut his own throat. Both are in a critical condition. He also shot a policeman in the cheek, who attempted to arrest him.

DEPUTY-SHERIFF DISMISSED.

NEW YORK, April 25.—Tom Gee, Chinese deputy-sheriff has been dismissed, charges having been made that he had been collecting weekly sums from the Chinese gambling dens for their protection. He is said to be worth $100,000. The matter will be submitted to the Grand Jury.

ARRESTED FOR ROBBERY.

NEW YORK, April 25.—Dwight Lathrop, who was arrested in Tennessee, was jailed here yesterday on a charge of robbing the N. K. Central Railroad of $12,000

FOUR LEPERS.

NEW YORK, April 25.—A committee of physicians yesterday visited four lepers on Blackwell Island. They are unanimous in the opinion that a lazaretto should be established.

THE CONVENTION OPENED.

PHILADELPHIA, April 25.—The Convention of the Irish National Land League of America was called to order at noon by President Mooney. There was a large attendance. The decorrorations are tasteful. Quite a number of lady delegates were present. The Convention selected the following temporary officers:—President, Jas. A. Mooney, of Buffalo; Secretary, J. J. Hynes, of Buffalo; Assistant Secretaries, Wm. F. Sheehan, of Buffalo, and J. D. O'Connell, of Washington. Mooney, upon taking the chair said they had hoped to welcome Mr. Parnell, but owing to the present aspect of affairs he was absolutely impossible for him to absent himself from Parliament. In unfriendly quarters, he said, it is sought to make it appear that he fears to join us lest words spoken or action taken in our Convention might compromise him. Such statements are pure falsehood. Parnell knows the loyalty of his American allies. He does not and need not fear them.

PUGILISTS GONE TO ENGLAND.

NEW YORK, April 25.—Mitchell and Slade the pugilists, sailed for England yesterday.

THE EMERALD CLUB.

NEW YORK, April 25.—The Emerald Club met at the usual place on Bowery street last night. There were a hundred members present. They refused to answer questions.

MIDNIGHT TELEGRAMS

CABLE.

SENTENCED TO DEATH.

BELGRADE, April 24.—Helen Marcovitch, who attempted to shoot the King, and subsequently tried to commit suicide, has been sentenced to death.

THE LAND OF PHAROAH.

CAIRO, April 24.—Colvin, English Minister of Finance, has urged the British Government to reduce the annual instalments to be repaid out of the Egyptain funds for purposes of indemnity. He thinks it would be a wise policy to relieve the country as far as possible from its heavy burdens.

KELLY'S TRIAL RESUMED.

DUBLIN, April 24.—The trial of Kelly was resumed. The witnesses who testified at the former trial to prove an *alibi* repeated their testimony. McGowan, who once contested a seat in parliament, gave evidence tending to prove an *alibi*. Fifteen witnesses testified in favor of the prisoner's claim to an *alibi*.

MR. GLADSTONE'S REPLY.

LONDON, April 24.—In the House of Commons Mr. Gladstone, replying to Mr. Bourke, said he did not think it in accordance with the public interest to make a statement touching communications with the United States Government on the subject of the outrages. A quantity of dynamite has been discovered in the forts at Chatham. No fuse was attached. It was probably placed there as a threat.

DYNAMITE IN DUBLIN.

DUBLIN, April 24.—A large force of troops have left for camp at Curragh, county Kildare, where much alarm has been caused by the discovery of a fenian plot to blow the camp up. Renewed precautions are being taken here because of numerous letters received threatening to blow up the public buildings with dynamite.

AMERICAN.

ALL ON ACCOUNT OF A WOMAN.

BROOKLYN, April 24.—Casino Barbaro and Antonio Prutone, with their seconds, were arrested for fighting a duel this morning. The cause of the encounter was jealousy of a woman. The men fired shots at each other, but were so frightened and excited that neither could aim straight.

A PRIZE FIGHT.

WATERFORD, N. Y., April 25.—John Powers of Troy, and Thomas Atkinson, of Saratoga fought a prize fight near here last night for $200 a side. Powers won easily in five rounds. Atkinson was badly punished. Warrants were issued for seventeen spectators. Five Troy policemen witnessed the fight.

Curiosities of the Patent Office.

An English journal pays a flattering tribute to American intelligence when it remarks that "a good percentage of the inventions are of American origin. In that country of genius everybody invents." Yet there is a ridiculous side to the question. Some of the applicants for patents create a laugh at their expense if they do not get the protection of the Government for their "inventions." One man claims protection for the application of the Lord's Prayer, repeated in a loud voice, to cure stammering. Another asks protection in behalf of a new and useful attachment of a weight to a cow's tail to prevent her switching it during the milking operation. A lady patented a hair crimping pin, which she specified might also be used as a paper cutter, a skirt supporter, a child's pin, a bouquet holder, a shawl fastener, or a bookmark. A "horse refresher" is a hollow pit, perforated with holes, and connected with a flexible tube, with a water reservoir in the vehicle, so that the driver can give the animal a drink without stopping. The "snorer's friend" is a lugubrious contrivance to be attached to church pew backs, so that one may sleep through a dull sermon in peace and comfort without attracting attention

Attack on a Circus.

O'Briens' circus and menagerie exhibited in Dover, Del., on Saturday, and was attacked by the mob after the evening performance. The mob opened fire on the wagons being hauled to the depot for embarkation. Eight or ten circus employees were shot, some seriously. Charles Henderson, one of the proprietors, was shot in the eye and the head. One of the drivers was shot from a wagon. The police made no arrests. A committee of citizens waited upon the sheriff and requested him to restore order and call out the militia if necessary to suppress the outbreak. Several private residences and places of business were riddled with bullets. The mob was dissatisfied with the show. It is stated there is no hope of the recovery of Henderson.

The Picture He Prefers.

The Hon. Alex. Mackenzie gets more crabbed and dyspeptic every day. On Friday last he made an onslaught upon the Canadian artists who painted the portraits of the speakers of the House, and declared that he would sell the whole lot for $5. We don't doubt it. To a man of his nature a picture on a bank bill is much more attractive than a picture on a wall. He comes of that class of iconoclasts who destroyed all the works of art in Scotland at the bidding of John Knox, and whose worthy descendants sold their unfortunate king for a few bawbees per head. Perhaps it is the sight of Mr. Anglin's portrait which arouses the covenanting conscience.

A Tribute to Parnell.

The address to the Irish race was issued in Dublin on Saturday by the Mansion House Parnell tribute committee, and signed by the Lord Mayor. It enumerates Parnell's achievements and concludes, "We ask our countrymen all over the globe to give Parnell a pledge that the praises and blessings heaped upon his name are no empty homage, and in tendering him the sympathies and admiration of our race to cheer him for those further achievements which will complete the fabric of our national freedom."

EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its specialty as a complete and radical cure of dyspepsia, liver and kidney complaints, and all impurities of the blood.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "granting it out." What we can cure let's not endure.

THE FORGERS AGAIN.

ONCE more the *Examiner* is having recourse to forgery in order to make its readers believe that its falsehoods are supported by some respectable authority.

Speaking of the report in the Montreal *Gazette* of a speech by Mr. Mousseau in reference to the boundary question, the Cobourg *World* mutilated a sentence because the part it omitted directly contradicted its false charge against Sir John Macdonald. Our local contemporary, more bold in crime, pretends to give the whole sentence, but forges an important alteration of two words, so as to attribute to the *Gazette* report a meaning it does not bear.

As the *World* will not give the whole sentence, and the *Examiner* forges an alteration in it, we reproduce the entire sentence as published in the *Gazette*. It is as follows:—

"When at St. Jerome in 1878, with the Hon Mr. Masson, I laid down the condition on which *we would hold* our position as members of the Federal Cabinet, I said, "If the Province of Ontario is to acquire an additional territory of [illegible] acres more that she was given under the British North America Act the Province of Quebec will have the right to demand an equivalent."

The Cobourg *World* omitted the first few words in reference to Mr. Masson, and then dishonestly asserted that the report made Sir John Macdonald a party to the convention. The *Examiner* by an impudent forgery changes the words "we would hold" into "we held," so as to make the *Gazette* report appear to supports its false assertion that a pledge had then been asked and given.

The facts of the case, with which the words of Mr. Mousseau, as reported in the *Gazette*, in no respects conflict, are as follows:—

1. The conversation was between a private member of the Conservative party and his friend, to whom he was giving his views of their proper course if offered portfolios.

2. Mr. Mousseau was not given a portfolio in the new cabinet, and, therefore, neither asked nor received a pledge as a condition of holding it.

3. Mr. Masson did receive a portfolio, but neither asked nor received any pledge as to the boundary question, not following the advice given him by Mr. Mousseau.

4. Mr. Mousseau was some time later taken into the Cabinet, but did not ask or receive any pledge as to the boundary question, probably because he was content with the action of Parliament.

5. Mr. Mousseau and Mr. Masson in their private conference did not object to the boundary of Ontario being legally fixed wherever it might be, but to the matter being settled by an irregular and invalid agreement.

The Reform press cannot wrest the report of Mr. Mousseau's words in the *Gazette* into anything opposed to these facts without dishonest mutilation, or still more dishonest forgery.

As to the "equivalent" for Quebec, if Ontario should obtain its point by the grace of Mr. Mackenzie without the decision of our highest court or the action of Parliament, it would necessarily be open to Quebec or any other Province to endeavour to make similar bargains with Sir John Macdonald or his successors, and the door would be left open to constant appeals to the executive.

The "equivalent" sought seems to be in the shape of an extension of Quebec northward from the watershed to the Hudson Bay, a claim which could not be successfully contested if the award of the arbitrators was accepted.

In spite of Mr. Mowat's efforts to hinder Ontario from obtaining her legal rights by an authoritative decision, we will ere long obtain them, whether they are more or less than the award lays down.

THE COURT HOUSE PARK.

CAN nothing be done to improve and keep our Court House Park as it ought to be kept, and in such a condition as would make it a credit and an ornament to the town? Every now and then spasmodic efforts are made in this direction, but the money so spent is comparatively lost by the want of a continuity in the attentions which such a place requires. It seems to us that there should be little trouble or cost involved in doing all that is required in the direction we are now suggesting. At the present time we understand that the caretaker of these grounds—Mr. McWilliams, the gaoler,—has, and we regret to say is likely to have throughout the summer, a gang of able bodied men at his disposal, and we observe that Mr. McWilliams' finds no difficulty in, very properly, putting these men to work in cutting wood on the street and in tilling his garden, which proves that they could with equal safety be employed on the Court House Park. Such being the case the cost would be almost nominal to have the trees thereon cared for as they should, the grounds cleaned up as they ought to be, and, now that we have water works, having the grounds regularly watered and the grass kept cut throughout the season. For its watering all that would be required would be the laying of a small pipe up the centre of the grounds, the digging for which could be done by prison labour, and the purchase of a moderate length of garden hose. For the cutting of the grass all that would be required would be the purchase of two or three lawn mowers, and for doing what is necessary in the way of taking care of the trees all that is requisite is that the prisoners should be superintended by some one capable of directing them as to what should and should not be done. The whole expense involved in these suggestions would be so trifling, that we are sure the ratepayers would sustain our council in incurring the whole of the actual expenditure required for the present season, even were the County Council to refuse to contribute any portion of the same at its June sitting, which, judging by their past actions, they are not likely to do. If anything, however, is to be done this year, action should be taken at once.

AN ILL BIRD.

THE *Examiner*, always anxious to have a kick at its own country so long as it is under the Government of Sir John Macdonald, is now slandering the Canadian manufacturers of agricultural implements and machinery. It will be news to Mr. Wm. Hamilton, Mr. John Whyte, Mr. Peter Hamilton and others that prices have not been diminished since the adoption of the present tariff, and that protection has induced such slovenliness that farmers prefer the American machines, yet such are the statements published by the *Examiner*. What matters it if our manufacturers and mechanics are calumniated, if a blow can be dealt to political oponents? Certainly the *Examiner* is a conspicuous exemplification of the adage that "It is an ill bird that fouls its own nest."

QUEBEC'S EQUIVALENT.

THE Geographical Society of Quebec has petitioned the Dominion Government to explore a portion of the North East Territory, its requirement being as follows:—

"That from information gathered from interesting reports of the Geological Survey, as well as from hunters and other sources, this Society has reason to believe there are clay lands to the north of the Province of Quebec, fit for the establishment of parishes, but the extent of which is not known to them. Lake Mistassini is almost wholly unknown. It is, however, on record that this lake is of much greater size than shown on some of our maps, and is not unworthy, possibly, of comparison with some of the larger American lakes, and that its minerals and fisheries are presumably of great value. That this Society strongly recommends that an exploring party be sent out this summer to spend the following winter on lake Mistassini and to report in the spring of 1884; that such party be under the charge of an experienced surveyor, and an explorer educated in commercial fisheries, provided with ample outfit and with instructions to examine generally into the physical geography of the whole country from lake St. John to Hudson's Bay. The Society has ascertained that a maximum expenditure of [illegible] per month would cover all expenses, and as the settlement of the Northeast Territory is of as much vital importance to the Province of Quebec as that of the Northwest is to the Province of Ontario, and the cost for surveys comparatively trifling, they hope the Dominion Government will take the necessary measures to place its real position before the public, so that an enlightened and correct opinion may grow up with respect to a territory so little known as the one referred to and which is drawing so much attention at the present moment."

REVIEWS.

THE FORESTS OF ENGLAND.—We have received a very interesting little work "The Forests of England, and the Management of them in bygone times," published by Oliver & Boyd, Edinburgh, and Simpkin, Marshall & Co., London. It is written, or chiefly compiled, by John Croumbie Brown, L. L. D., Professor of Botany in the South African College, Capetown. The author laments the paucity of work on forestry in England as compared with the cartloads of volumes in other languages. This work deals in a very interesting and instructive manner with the subject of the ancient forests of England, chiefly in relation to their history and law, but we are glad to learn that it is likely to be followed by other hand-books on subjects relating to forestry.

THE EDISON LIGHT.—Mr. Thos. Swinyard, of Hamilton, Ont., has published a pamphlet containing testimonials as to the advantages of the Edison Electric Light. These are in the form of answers to a series of questions, and give a very favorable report. They are from such establishments as the New York *Herald* office, and a number of leading mills, factories, hotels, &c. We learn that a charter and patent rights for Canada have been obtained, and we hope that shortly a factory for the construction of the machinery will be added to the other industries of Hamilton.

ON THE INTERCOLONIAL RAILWAY.—A. H. Dixon, of Toronto, has published, for the Intercolonial Railway, a beautiful illustrative work entitled "Pleasant Places by the Shore and in the Forests of Quebec and the Maritime Provinces, *via* the Intercolonial Railway." It is a most artistic production, even the cover being an art gem, and the numerous illustrations are beautifully drawn and engraved. The author, W. Kelly Reynolds, describes in a most attractive manner the beautiful scenery and other leading features of the districts in question. Such a publication should prove a strong inducement to tourists to select this route for their holiday excursions or even for a longer stay.

BURDOCK BLOOD BITTERS cures scrofula, erysipelas, salt rheum, piles and all humors of the blood. Cures dyspepsia, liver complaint, biliousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness and general debility, when used in time.

THOUSANDS UPON THOUSANDS of dollars have been spent in advertising the celebrated Burdock Blood Bitters, but this fact accounts only in part for its enormous sale. Its merit has made it what it is—the best blood medicine ever devised by man.

CANADIAN MACHINES VS. AMERICAN.

The following letter appears in the Toronto *World*:—

SIR: It has graciously pleased Mr. Sutherland, M. P. for Selkirk, to state in the House of Commons of Canada that "though Canadian machines were cheaper, they were much inferior in make to those of American manufacture."

Allow me to say, through your columns, that as a manufacturer of portable engines and threshing machines I take exception to Mr. Sutherland's remark, which is insulting alike to the manufacturers and mechanics of Canada, and, moreover, I am willing to meet at any time, in fair competition, before impartial judges, any American portable engine or thresher that was ever brought into this country by the Winnipeg firm of agricultural implement dealers spoken of by the honourable gentleman, as I feel perfectly confident that for materials used, workmanship, economy in fuel, (using either coal, wood, or straw), and actual results in work done, I can show to Mr. Sutherland that not only are my manufactures equal to those of his American friends, but that they actually excel them—the engines using less fuel and water, and with the threshers doing eminently superior work.

JOHN ABELL.

Woodbridge, April 20, 1883.

It Takes a Woman to get Even.

On a Lake Shore train coming into Detroit the other day was a newly-married couple, the bride appearing to be about twenty-five years old and the groom being a dapper little chap a year or two younger. A lady who came aboard at Wyandotte took a seat just ahead, and after a few minutes she heard the pair criticising her bonnet and cloak and general style. Without showing the least resentment in her countenance she turned around in her seat and said:

"Madam, will you have your son close the window behind you?"

The "son" closed his mouth instead, and the "madam" didn't giggle again for sixteen miles.

WELLAND, Ont., March 23, 1882.

My little daughter was troubled with Catarrh for two years, and was very much benefitted by the use of "Hall's Catarrh Cure." She is now about cured.

W. T. HOUSE.

WELLAND, Ont., March 30, 1882.

I have used "Hall's Catarrh Cure," and judging from the good results I derived from one bottle, believe it will cure the most stubborn case of Catarrh if its use be continued for a reasonable length of time.

REVIEW OFFICE

Several new ones have just been obtained, including the favorite Clydesdale Breed of Horses.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree —without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink teas made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its antispasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

BIG FIRE IN MONTREAL.

Canada Manufacturing Company's Premises Destroyed.

MONTREAL, April 22.—A fire broke out early this morning in the Canada Manufacturing Company's premises in Notre Dame street. The first known of it was by a lady occupying with three others of her sex the third story. Hearing a rushing noise, she jumped out of bed and opened a door in the rear, when she was driven back by a dense volume of smoke. There was no retreat for the inmates as the stairs were on fire, but the brigade was prompt, and by the aid of a ladder all four were got down to terra firma, but in their night dresses only. The building was used for a confectionery factory and was in the rear of the main building, facing the street. A couple of explosions resulted in carrying away the roof. The fire then spread to the front building, the upper flats being stored with goods belonging to the company, and the lower flats and basement being occupied by Charles Alexander, restaurant keeper and confectioner. The flames also spread to the adjoining store, belonging to J. L. Carson & Co., stationers. The premises belong to Molson's bank, and the insurance of thirty thousand dollars in English offices will cover the estimated loss. The loss of J. S. Carson & Co. is principally by water, and will probably amount to three or four thousand dollars, also covered by insurance. The origin of the fire is unknown.

YOUNG'S POINT.

From Our Own Correspondent.

MEAN CHICKEN THIEVES.—This place is at present infested with some bad sort of fellows, who seemingly delight in robbing hen roosts and stealing people's geese for a roast in the woods. They must be revelling in drink at the tavern all day and do the robbing by moonlight. It is a pity they do not get a charge of small shot in some soft part, which they are sure to get if they do not quit this nefarious practice, therefore they had better take warning. One or two parties are strongly suspected. The first stealing match of the season was robbing Mr. D. McLean's hen roost of two fine laying hens about two weeks ago, the last was on Sunday night, the stealing of geese; one belonged to Mrs. R. Young, and the other was lifted off her nest sitting on fifteen eggs belonging to Mr. Jas. Welch. Now this sort of conduct will have to be put a stop to at once. The villagers are determined to keep a sharp look-out in future, and the culprits will be imprisoned without the option of a fine.

THE ROADS.—The roads are in excellent condition for travelling,—especially on the Smithtown side of the river. The roads on the Douro side from the bridge here to Wilson's farm are in such a disgraceful condition that words of your correspondent cannot be too strong as regards the Reeve and Council. There are two very bad places that want immediate attention before the township have to pay the piper for damages. The Burleigh stage got stuck in one last Monday and could not get out without assistance. Mr. Geo. Chalmers happened to come along just in the nick of time, and with his usual good nature gave a helping hand, took one of his horses out of his conveyance and helped Hugh, the stage driver, out of the hole. The vehicle was fast disappearing out of sight with mailbags, passengers, &c. Now, Mr. Reeve, pray give this road your earliest attention as you promised the writer last winter.

Iron Mining.

The Belleville *Ontario* contains the following regarding the North Hastings mines:—Messrs. Stewart and Ganjot have been working the Miller hematite Mine, owned by Mrs. T. C. Wallbridge, for some time, and have met with much encouragement. About 1,000 tons have been mined already, and will be shipped to Cleveland via Belleville as soon as navigation opens. A shaft has been sunk about 70 feet, and at that depth there is forty feet of drifts in solid ore. The mine will be worked during the summer, and the above gentlemen hope to export a large quantity of ore. This mine is situated just sixty feet east of the old Wallbridge hematite mine, which has been worked for some time by the Bethlehem Iron Company. Nothing is being done in the latter mine at present, but it is proposed to resume operations shortly. There is still a vast quantity of ore in sight. The St. Charles specular mite has been worked a greater part of the winter, and over 300 tons have been taken out. The mine is now fairly developed and those who are operating it feel encouraged with the good quality of ore they are working in. Our informant tells us that this is the finest and most valuable ore that has been found in Canada, as yet. Mining operations will be resumed here during the summer.

The Hovering of Birds.

The question of the hovering of birds is now under discussion in the columns of *Nature*. Mr. Hubert Airy seeks to show that a bird can only hover in an absolutely changeless position, over slantingly ascending air currents, head from the wind; the Duke of Argyll maintains that horizontal air-currents suffice, head the wind; Mr. David Cunningham belives that cyclonic winds with the vertically ascending air currents explain the mystery best; Mr. William Galloway adopts a theory involving slight, and therefore imperceptible, decent in horizontal air currents; Mr. J. Rae believes that no air currents at all are necessary (which seems to involve the theory that the hovering of birds is miraculous); and Mr. Larden pointed out that the lifting power of the air would not exist were there no friction (any more than a "frictionless ship in a constant stream" would be moved "were it sufficiently tapering"), shows that hovering in horizontal air currents could last but a very short time. This is a very pretty problem as it stands; and the whole question of flight, says *Knowledge*—at least, as birds fly, and as men, by aid of machinery will fly, if they ever fly at all—is involved in it.

Alleged Infanticide.

KINGSTON, April 23.—Details of a most shocking case of alleged infanticide came to light this morning. It appears that about five weeks ago a young woman named Susy Philips came here from Corbyville, near Belleville, and hired as a domestic. On Saturday morning she remained in bed stating she was sick, and at noon Dr. Fenwick was sent for. The suspicions of the proprietor of the house were confirmed, and on looking into the water closet the body of a full grown infant was observed. It was recovered and handed over to the doctor in whose possession it now is. The girl, who is 19 years of age, owns that the child is hers, but claims that its death was accidental. She is now in a critical condition. She states that a young man promised to marry her, but she refused to tell his name, and also that of her sister. She has received a letter from [illegible] Palmer, of Corbyville. She is a young woman of good address, and no doubt belongs to a respectable family. As soon as she recovers she will be taken before a magistrate, and made to account for the death of the child. No inquest will be held.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough. the best in the market. J. McAleer.

Smothered in Sugar.

John Anderson, a middle-aged German, met with a terrible death at Montreal at about 4 o'clock on Saturday. He fell in a vat of saccharine matter in the sugar refinery, 88 King street, and was smothered before help could reach him. An inquest will be held to-morrow.

Sweden's Great Fort Destroyed.

A despatch from Christiana, Sweden, announces a terrible fire at Karls Krohna, the principal naval station of the kingdom, involving the complete destruction of the great fortress which guarded the main entrance to the harbour. The fire spread with great rapidity, and during its progress four officers of the garrison and two men were killed.

A New Industry.

ST. CATHARINES, April 23.—The secretary of the Erie Preserving Company left here on Saturday last. The company has made arrangements to occupy the premises known as the Novelty works. The secretary stated that $6,000 worth of machinery has been shipped to this city to be used in their business here; he has also made contracts for the produce of sixty acres of tomatoes, at twenty-five cents per bushel, and wants at least fifteen more. The company intend to commence operations to-day. In addition to the canning of vegetables and fruit it is intended to extend operations to condensing milk and preserving various kinds of meats and soups.

THE MONTH OF APRIL is the time that the wise man takes a Blood Purifier. You cannot get a better medicine than Dr. Carson's Stomach and Constipation Bitters. Price 50 cents a bottle. Ask your Druggist about it.

[illegible] have a very large sale of Dr. Carson's Bitters. It is one of the few Medicines that does all it is recommended to do. We use them as our "Family Medicine." My experience is that they will cure Headache, Biliousness and Indigestion. For sale by all druggists at 50 cents a bottle.

MR. J. R. SEYMOUR, Druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blood Bitters is the grand specific for all diseases of the Blood, Liver and Kidneys.

HEADACHE.—Headache is one of those distressing complaints that depends upon nervous irritation, bad circulation, or a disordered state of the stomach, liver, bowels, etc. The editor and proprietor of the *Canadian Presbyterian* was cured after years of suffering with headache, and now testifies to the virtue of Burdock Blood Bitters.

THE MAINTENANCE of a healthy state of the system is the surest protection against disease; experience has proven that by the use of Dr. Carson's Stomach and Constipation Bitters, a perfect state of health can be assured. They free the system from all impurities, cleanse and purify the blood. For sale by all Druggists at 50 cents a bottle.

STATISTICS OF LUNATIC ASYLUMS show that nine-tenths of their patients are brought to their conditions by abuses of the generative organs. A great Brain and Nerve food, known as Mack's Magnetic Medicine, is sold by our druggists, and comes highly recommended as an unfailing cure in all these diseases. See the advertisement in another column.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY'S SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfactory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, Ulcers, Salt Rheum, Fever Sores, Cancers, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. *For sale by* Taylor & McDonald.

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Billious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

Rifle Association.

The annual meeting of the Peterborough Rifle Association will be held in the orderly room in the Peterborough drill shed this evening at half past seven o'clock.

Correction.

In giving a list of the names of those to whom Licenses were granted, on Tuesday, two errors crept in. The name of James Norris should have been John E. Norris, and the name of F. Brault should have been Joseph Brault.

Snow Fall.

Snow fell profusely on the route of the Grand Junction track on Tuesday morning. At Hastings and near here, there was quite a little storm. Weather prophets now predict a short and hot summer.

The Weather Probabilities.

Last night was very cold, and the hard weather is causing fears for the safety of the fall grain. To-day is cool and cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh winds, mostly north and west; generally fine weather, possibly preceded by a few showers of snow or rain; gradually rising temperature.

Prize Tea.

We have received from Mr. J. E. Bailey, a package of the celebrated prize tea, supplied to him by Mr. James Tant of Toronto and London England, the importer. We find on trial that this tea is excellent for flavor and strength. A beautiful or useful prize is given with each pound purchased. Mr. J. E. Bailey, of the Rochester Fruit Store, George street, is sole agent for these teas, which will be found as good value for the money as any in the market.

Oddfellows' Anniversary.

Thursday April 26th, being the sixty-fourth anniversary of the Independent Order of Oddfellows on this continent, the members of the fraternity in this town have made arrangements for the fitting celebration of the event. On Thursday evening at 8 o'clock, there will be a literary and musical entertainment in the Hall of Otonabee Lodge, No. 13, in Cluxton's Block, George street. Both lodges unite in giving this entertainment, and the members can obtain tickets at the studio of Mr. G. B. Sproule, for the admission of themselves and their friends. We learn that their is an excellent programme, both local and foreign talent being comprised in it. Refreshments will be served at the close of the entertainment. On Sunday evening at half-past 6 o'clock the members of both Lodges will meet at the Hall of the Peterborough Lodge in Cox's Block, and will thence march in procession to the George Street Methodist Church, where a sermon on the occasion will be preached to the Order by the Rev. John Shaw, Chaplain of Otonabee Lodge. Visiting brethern are cordially invited both to the entertainment and to the service.

A ROW ENDS FATALLY.

FRANK LITTLE KILLED IN A QUARREL IN AN HOTEL IN CENTREVILLE.

From a Wrestling Match to Blows—Lying a Day and a Half Unconscious and Without a Physician—An Inquest Held—All Through Drink.

A vague rumor has been current in town for a couple of days that a man had been killed in a tavern in the village of Centreville, but in the particulars or facts of the case the story was deficient. The fact is, however, that there was only too much foundation for the report, for Frank Little died in an hotel in that village on Saturday morning, and an inquest held on Monday by Dr. Gray, of Bailliebore, disclosed how he came by the cause of his death.

John Aitkins, the proprietor of the hotel, was one of the witnesses at the inquest, and by him the greater part of the particulars were related. Frank Little, a painter who was about 40 or 45 years of age, came to the "South Monaghan House," in Centreville, which is in the township the name of which the house bears, and in Northumberland County, on Tuesday, the 17th of April, and engaged board for a week. His friends live in Chicago. On Wednesday he was engaged at his trade in Bloomfield, and on Thursday morning he said to the landlord before breakfast that he was not well and took a glass of gin. After breakfast it was raining, and he did not go to his work, but engaged to do some painting for Aitkins, and mixed the paint for that purpose' During the forenoon he drank, the landlord says, probably seven glasses of gin. He also says that Robert McClung (who is a brother-in-law of Aitkins) and Little commenced wrestling in the bar-room and that after a time he saw they were getting vexed and told them to stop. Little went out of the bar-room, and in a short time came in again, and the first thing Aitkins saw was McClung strike him and knock him down. Little got up and leaned on the bar a little while and then walked out and turned towards the shed, but fell. Aitkins then went out and took him into the bar-room, and he and William Martin carried him into the kitchen, where they laid him on a buffalo robe. At that time he was insensible, "like a man who was limber drunk." At about ten o'clock he was removed to a sofa. The next (Friday) morning he was still unconscious and apparently in a heavy sleep. Aitkins tried to waken him, but could not. Little remained on the sofa till 9 o'clock on Friday evening, when Aitkins went for Dr. Gray. When the physician arrived he saw that the man was beyond medical skill, and he died at six minutes to six on Saturday morning. In reply to a juryman, Aitkins said that he gave Little a slap in the face, and that both McClung and Little were drunk.

The evidence given by Robert McClung was substantially the same as that given by Aitkins as to the wrestling. He said that after Little went out, when Aitkins stopped their wrestling, he came in again and rushed at him, swearing what he would do. McClung then struck him, but he did not see him fall. Little walked around the room and was still in it, McClung says, when he left for home at 2 o'clock. McClung stated that they were both drunk, and that he saw no other person strike Little.

Edward Stinton had another story to tell of how Little was used after he was struck by McClung. He stated that at 2 o'clock he saw John Aitkins and Wm. Martin taking Little out of the bar-room. They lifted him up and let him fall three or four times, and appeared to use him very roughly. He was not unconscious until he fell against the bar. He saw Aitkins toss Little head over heels, and his head appeared to come down on the floor.

Joseph McLaurin heard a noise in the bar-room and went in. He saw Aitkins and McClung tusselling, and Barney Wait had a hold of Little. McLaurin told Wait to let go of Little, which he did. McLaurin afterwards saw Little lying outside, with Aitkins, he thought, pouring water on him, and he saw Aitkins drag Little into the bar-room.

Mrs. Mary Finnamore saw Aitkins drag a man out of the bar-room at about 3 o'clock on Thursday afternoon, she thought by the shoulder, and put something to his lips and then drag him in again by the leg.

John Tait saw Barney Wait shake Little in the bar-room, and afterwards saw Little lying outside. He saw Aitkins drag him in by the leg.

John Lightfoot saw Little on Wednesday and he was then well. He also saw Aitkins drag him into the bar-room by the leg.

Wm. Martin positively denied having helped to carry Little into the kitchen, or having touched him at all.

Albert Hilton saw McClung and Little wrestling at about ten o'clock in the forenoon on Thursday. He saw McClung strike Little twice, and the second blow felled him to the floor. Aitkins picked him up and placed him on a bench. This, Hilton said, all happened before noon.

A *post mortem* examination was made by Dr. Henry Turner and Dr. E. L. Burnham. They found the left eye blackened, an abrasion of the skin on the nose, on the top of the right shoulder, on the right elbow and the left elbow, and on both knees. These injuries, they believed, were received within three or four days of his death. On removing the scalp a severe contusion with some extravasation of blood was found on the right temple, and another contusion on the back of the head towards the right side. On removing the skull cap and opening the head, a large clot of blood was found which covered nearly the whole of the right hemisphere of the brain. This clot, in their opinion, would represent fully six ounces of fluid blood. The substance of the brain appeared to be healthy.

The verdict which the jury rendered was that "Frank Little came to his death by injuries received from John Aitkins and Robert McClung in a drunken row in John Aitkins' hotel."

The friends of the unfortunate man, Frank Little, were telegraphed to in Chicago, but no one having come to look after him he was buried on Tuesday afternoon in the burying ground at Centreville. The men implicated by the verdict of the Coroner's jury had not been arrested on Tuesday evening.

In a Free Country.

The *Arthur Enterprise* brings serious charges against the License Inspector of that place, who is described as a notorious partisan. He has deprived two Conservatives of their licenses for political reasons. They are thus commercially ruined for holding opinions of their own in a free country.—*Toronto Evening Canadian.*

Pushing on the Work.

It appears from the circular issued by Mr. George Stephen, of the Canada Pacific Railway, that there is to be no shirking the construction of the Lake Superior section, but that it is being vigorously prosecuted and that the entire line will be completed and ready for traffic by 1886. This is some three years ahead of the time allowed by the contract. It is evident that the company is in earnest, and that it is anxious to provide an outlet for the products of the great North-West.—*Toronto Telegram.*

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION. BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Berks, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, headache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

PARK.

To the Editor of the Review.

SIR,—Allow me again through your columns to call attention to the park question. The summer will be soon upon us, and a place of this kind, if properly prepared, would indeed be a very pleasant resort for our citizens during the warm summer evenings. The Court House Green was a very good and pleasant resort, but unfortunately the law was against us, and in consequence our resort to it was cut off. Mr. Smith, our present Mayor, discussed the matter *of having a park very favourably last summer*, and strongly advised having one, but since that time nothing has been done in the matter. I do trust that our distinguished and influential citizens will do what they think will be necessary towards pushing the matter, and ere long have an attractive summer resort for our citizens. Thanking you, Mr. Editor, for the space afforded,

Yours Truly,
CIVIS.

ROSS AND HANLAN.

Special to the Review.

ST. JOHN, April 26.—Ross is satisfied with the changes made by Hanlan in the terms of the race at Ogdensburg.

OUR LAWLESS ATTORNEY-GENERAL.

The Belleville *Intelligencer* says:—

It has been suggested that Mr. Mowat, finding that Mr. Striker (acting on his advice) had allowed the time for petitioning to expire, the best has been made of a bad mistake, and the *Globe* has endeavoured to win over Mr. Hart by representing the Premier as having voluntarily advised the withholding of the petition. What success such an attempt would be likely to meet with is thus indicated by the Picton *Gazette*:

The *Globe* undertakes to gloss over the whole affair by stating in effect that the Government will find in Mr. Hart a slavish supporter. In this they will find out their mistake in due time. It is true Mr. Hart made certain concessions which he will faithfully carry out; further than this his friends can rely upon him to act fairly, independently, and in the interests of his native province.

Boy Drunkards.

Two lads named Andrew Wilkinson and Jas. Kelly were before the Magistrate on Tuesday, accused of drunkenness. The latter, who is not more than thirteen years of age, has been arrested half a dozen times as an inebriate, and the police say he is a confirmed drunkard. During the past six months no less than sixteen children under thirteen years of age have been arrested for drunkenness, and in nearly every instance it was found that they had purchased the whiskey in unlicensed dens.—*Mail.*

THE DESTRUCTIONISTS.

LONDON, April 26.—Dr. Gallagher, Bernard Gallagher, Whitehead, Dalton, Ansburgh, Wilson, and Curtin were again arraigned this morning. A clerk employed in the American exchange testified that Dr. Gallagher called at the exchange and enquired for letters addressed to "Galer," and showed the utmost anxiety to gain possession of them. The witness thought Ansburgh, who was with him, was passing under the name of Galer for the purpose of procuring the letters. A Birmingham druggist testified that Whitehead bought at his store 160 pounds of nitric acid, 300 pounds of sulphuric acid, and 50 pounds of glycerine. On cross-examination the witness said that Whitehead was apparently only stocking his shop with acid used by various manufacturers.

SUMMONED TO ROME.

DUBLIN, April 26.—Bishop Croke has been summoned to Rome to consult the Pope regarding the state of Ireland.

FIRE IN LONDON.

LONDON, April 26.—Six buildings, belonging to Francois and Joseph Badert, seed, oil, and oil cake merchants, have been burned. The loss is very heavy.

THREE ARRESTS.

DUBLIN, April 26.—James Verlon, James Ryan and Patrick Murphy have been arrested in the Crashen district in connection with the alleged conspiracy to murder by the Invincibles.

TRIAL OF FAGAN.

DUBLIN, April 25.—*Fagan, after being arraigned*, pleaded "Not Guilty." The Court assigned Messrs. Adams and Bryne to defend him. Great difficulty was experienced in forming a jury, as 75 persons called *failed* to appear and were fined £100 each. Carey, the informer, testified that he arranged to stab Mr. Foster after plots to shoot him failed. He did not attend the meetings of the *Assassination Society* held on Sunday on account of Sabbatarian scruples, even though he wished to kill them. He believed it was no sin to kill Burke.

AMERICAN.

A FIRE.

NEW YORK, April 26.—A citizen saw flames issuing from the second story of a wing of the Home at five o'clock this morning. He gave the alarm, and the *firemen* burst in the windows and soon subdued the flames. The Sisters being aroused succeeded in removing 200 children to another part of the building without a panic.

THE DYNAMITERS.

NEW YORK, April 26.—The *Herald's* Washington despatch says that notwithstanding Mr. Gladstone's intimation that representations have been made to this government regarding the dynamite conspirators, no note has been received at the State Department, nor has the question come before the *President* in any form. If the British Government should call the attention of our Government to the matter it will be but a repetition of a similar complaint made by the United States when Minister Adams, by the direction of the Secretary of State, laid before Earl Russell copies of official correspondence relating to the manufacture of Greek fire at Windsor, Canada, to be used for firing certain cities in the United States by rebel emissaries.

RAILWAY MATTERS.

NEW YORK, April 26.—The trunk line representatives yesterday decided to settle in money payments the balances accruing from the passenger traffic to some roads under the differential rate agreements.

THE IRISH CONVENTION.

PHILADELPHIA, April 26.—The Irish National Convention met at the Horticultural Hall this morning. Delegates from all reputable Irish organizations in the United States and Canada, in accord with the Dublin platform, were entitled to seats. As a result, the delegates' seats were full, as were the galleries. Mrs. Parnell entered escorted by Alexander Sullivan, of Chicago, who introduced her, amid tremendous applause, as "Greater than the mother of the Gracchi."

HEAVY SUIT.

NEW YORK, April 26.—George Francis has sued Friendman & Co., brokers, for the recovery of $34,000 he claims to have lost in stock speculation.

THE GRAIN PEST.

SAN FRANCISCO, April 28.—The grain pest has appeared in several counties in California, and threatens to make serious inroads.

A SAD DEATH.

PATERSON, N. J., April 26.—Wm. Jacobus, aged 16, *started to cross Dandee Lake yesterday* in a small boat, but was swept over a dam. He was thrown out and the boat struck a rock, bottom up. After half an hour's struggle the boy swam to the boat and *stretched himself* across it exhausted. His parents and sisters and nearly a thousand persons gathered on the shore. Great but unavailing efforts were made to rescue the boy, who called out that he was dying with cold. At the end of four hours a boat was guided to the spot by a rope, but the youth was dead.

PETROLEUM.

PITTSBURG, April 26.—Oil decreased from 93¾ to 90¼ yesterday. On Rosedale running rate, 1,000 barrels a day has been struck. It is expected that considerable new territory will be opened in consequence of the strike.

A STEAMER'S SHAFT BROKEN.

NEW YORK, April 26.—The steamer Hapsburg was spoken on the 17th inst. with a shaft broken. All on board were well.

A DESTRUCTIVE FIRE.

NEW HAVEN, April 26.—The New Haven clock shop, covering an entire block, is burning. The loss will be $200,000. Many jumped from the third story window breaking legs and arms. Several hundred employees will be out of work.

Daily Evening Review

THURSDAY, APRIL 26, 1883.

THE Reformers are now attacking the Hon. Mr. McLelan because he is too economical in his department of Marine and Fisheries. They are also finding fault with his departure for England to attend the International Fisheries Exhibition. If he did not practice strict economy, or if he failed to be present on an occasion of so much importance to one of Canada's chief industries, he would be censured all the same. The critics are hard to please; in fact, nothing could satisfy them but having the affairs of our country to mismanage again.

OF course the *Examiner* republishes the fraudulent figures of the *Globe*, which endeavours to manufacture a popular majority for Mr. Mowat by such dishonest devices as showing a majority of Reform votes in the Conservative constituencies of Dufferin, Ottawa, Russell, and East Toronto, and by allowing a Conservative majority of one in North Leeds and Grenville, where no Reform candidate dared to seek election. The *Examiner* prudently makes no endeavour to point out a single inaccuracy in our figures, which by giving the total votes polled shows a popular majority of over two thousand against Mr. Mowat.

THE Belleville *Ontario* has the following among its "Political Points":-

"The Hamilton *Tribune* says:—"The three graces" is suggested to the party press as a much more ornate expression than "thief, liar, and a forger." The Peterborough REVIEW will appreciate this, no doubt."

We must confess that we cannot appreciate the spectacle of a criminal glorying in his infamy. The Hamilton *Tribune* is confessedly either a thief or a receiver of stolen goods, and has obviously either committed or uttered a forgery. We think that the Belleville *Ontario* would be better employed in condemning than in countenancing such crimes as theft and forgery, even though committed by its friends for the benefit of its party.

STILL FALSIFYING.

THERE seems to be a perfect mania for falsification among the Reform journals from the highest to the lowest. The following extract from the Hamilton *Spectator* gives a first instance of this practice:

"From the manner in which the Hamilton *Spectator* speaks of Mr. Peter Redpath having gone to England to live in a fine mansion and spend his Canadian-earned money we are inclined to think our contemporary wishes to thrash Sir Leonard Tilley over the back of the wealthy sugar monopolist.—*Toronto Globe.*

"The only defence we can make to the above is that the *Spectator* did not speak of Mr. Peter Redpath having gone to England to live in a fine mansion and spend his Canadian-earned money. In the second place the *Spectator* has no desire to "thrash Sir Leonard Tilley." In the third place Mr. Peter Redpath is not a "wealthy sugar monopolist." With these trifling exceptions the paragraph quoted above is faultless."

DOMINION PARLIAMENT.

ON Thursday April 19th, there was a long debate on the proposition to give a bounty of $1.50 a ton on Canadian pig iron for three years, and of $1 a ton for three years thereafter. The resolution was carried.

There was also considerable discussion in committee over the Militia expenses and the duties on books.

On Friday, the principal business was in Committee of Supply. Mr. Ross and Mr. Mackenzie made an attack upon the Speaker of the Senate in regard to his portrait, and were reminded that if Mr. Macpherson could not be forgiven by Reformers for his pamphlet exposing their misgovernment, it would be more manly to attack him in his own House where he could defend himself.

On Monday, a motion for papers lead to an interesting discussion in regard to our growing trade with South America.

On Monday, Mr. Abbott introduced a bill to enable the Canada Pacific to lease the Credit Valley, the Ontario & Quebec, and part of the Atlantic & Northwestern, for the purpose of giving another through line to Montreal, an agreement for that purpose having just been arrived at.

Mr. Blake, criticised this as an alliance with the Canada Southern and Vanderbilt.

The bill was read a second time.

The bill in reference to booms in navigable waters was also read a second time.

LAKEFIELD.

From Our Own Correspondent.

BOATING AND CANOEING.

On Tuesday evening last a public meeting was held in the Council Room, Lakefield, which was largely and enthusiastically attended. Upon motion Mr. Farncomb took the chair, and Mr. W. M. Graham acted as secretary. Mr. R. C. Strickland, who had called the meeting, explained its object. He thought it was quite time that Lakefield, the place where canoeing sprung from, should have a canoe and boating club, and he urged all present to take hold and help to form a club that would be a credit to the place. Messrs. George Cochrane, R. A. Strickland, Geo. A. Strickland, T. J. Nelson, W. C. Sanders, F. Lillicrap, the chairman and others made short speeches, all urging the necessity of having an energetic club formed at once. Mr. R. C. Strickland moved, seconded by Mr. F. Lillicrap,—That a club be formed to be called the Lakefield Canoeing and Boating Club.—Carried unanimously. The following officers were unanimously elected for the ensuing year, viz:—

Mr. R. C. Strickland	President.
" George Cochrane	Vice-President.
" W. M. Graham	Secretary.
" W. H. Casement	Treasurer.

EXECUTIVE COMMITTEE.—R. A. Strickland, W. C. Sanders, F. Lillicrap, Thos. Gordon, G. A. Strickland.

It was moved by Mr. R. C. Strickland, seconded by Mr. F. Lillicrap,—That a regatta be held near Lakefield by the Lakefield Canoeing and Boating Club on the 1st of July next.—Carried unanimously. It was also decided that a fee of one dollar be charged for each member of the club per year. At the close of the meeting the chairman received a warm vote of thanks. The clergymen of the village were made honorary members of the club. Rev. Mr. Farncomb returned thanks on behalf of himself and the clergymen of the village, and said that he, at least, would do all he could to advance the interests of the club. He believed in such healthful and invigorating sports, and he had no doubt of success. At the conclusion it was determined that the executive should meet in a few days to draft a set of by-laws, which will be submitted to a meeting of the club to be called at no distant day.

CRICKET CLUB.

On Tuesday evening last, the 24th instant, *after the public meeting to form a Canoeing* Club, the members of the Lakefield Cricket Club held a meeting in the same place for the purpose of re-organizing, at which the following were elected office bearers for the ensuing year viz:—

Mr. John Clarin, elected	President
Mr. James Watson, (re-elected)	Captain
Mr. R. C. Strickland, (re-elected)	Vice-Cap.
Mr. W. D. Strickland, (re elected)	Sec.-Treas.

MANAGING COMMITTEE.—T. J. Bird, David Madill, G. A. Strickland

Mr. R. C. Strickland stated that he had leased from Mr. R. A. Strickland the field formally used as a cricket ground for five years, and that he had made the necessary improvements and wishing to encourage the good old English game in the Village of Lakefield, he would make the lease a present to the club free of expense for the term. A cordial vote of thanks was unanimously passed and tendered to Mr. Strickland, for his generous donation. The Lakefield Cricket Club re-organize early, and with very fair prospects of success for the season.

HIGH WATER.

The water in the lake north of Lakefield and in the Otonabee River at Lakefield, is much higher than it has been for 12 years. It has been gradually rising until the water in many places is level with Water street, but seems to have reached its height, and if anything this Wednesday evening to be a little receding. The dam here although very shakey is holding its own. The general opinion among the experienced is that the most trying time will be for the dam when the water begins to fall, as the bulk of water on the dam keeps it in its place firmly. It is hoped that a new dam will be built before another season as the present old rickety structure cannot stand long. Important interests depend on the maintainance of this dam.

MASONIC MEETING.

The regular monthly communication of Clementi Lodge, A. F. & A. M. will be held in the Masonic Hall, Lakefield, on Tuesday evening next, May 1st, at 8 o'clock.

LEAVING THE VILLAGE.

We understand that Mr. Sacret intends shortly to leave Lakefield, having sold his interest in the steamer Cruiser to Mr. W. H. Casement, who becomes sole proprietor. Mr. Sacret has been a resident of Lakefield for many years. He was first captain of the Chippawa, and laterly captain of the Cruiser ever since it was built. Captain Sacret, as he is generally called, is widely known, and which is seldom the case universally admired on account of his kindly and generous treatment of every one he comes in contact with. He leaves Lakefield amid the general regret of his citizens and warm wishes for his future prosperity and happiness.

OVER THE DAM.

Last week a couple of boat houses, and a frog house were driven from their moornings by the rising water and carried over the dam. One of these went over in the night, but the others went over in the day time, and were seen by a number of persons. They were precipitated over the dam into what is called the boil, and seemed at once to separate into fragments no two boards remaining together.

JAY GOULD TO RETIRE.

Mr. Jay Gould has declared to his near friends his intention to retire from his active business life on the completion of his steam yacht, the Atalanta, built for his projected tour around the world. His son, Mr. George J. Gould, a young man of 23, is to take his place as a speculator, and Mr. Gould himself will lead a private life. Mr. Gould's fortune is carefully estimated in round numbers to be $1000,000,000, of which $20,000,000 is in the stock of the Western Union Telegraph company and $20,000,000 in the stock of the Missouri Pacific Railroad company. In real estate he has never put much money, considering the size of his fortune. His investment in this kind of property altogether amounts to about $5,000,000. The remainder of his wealth is in securities, mainly in the shape of the bonds of the different railroad companies. But one large deal, in speculative parlance, remains to be consumated previous to his retirement, and that is, from the account given, the proposed alliance between the Southwestern system of railroads and the East Tennessee, Virginia and Georgia system and other tributary roads. The "boys," as Cornelius and Wm. K. Vanderbilt are called, have taken their father's place in the market, and Mr. Gould's contemplated retirement will be even more complete than that of William H. Vanderbilt, for Gould's has been a life of speculation.—*New York Times.*

MRS. S. W. CURRY, of 95 Richmond Street, Toronto, says: "*Pain in the Back, Liver Complaint*, and Billious Headache were my ailments. I got prompt and permanent relief by using one bottle of "Fountain of Health."

SOMETHING PLAIN! Cold in the Head is the seed, the Nasal Cavity the field. Impure Blood fertilizes the soil, and the growth is first Catarrh then Bronchitis, Consumption and Death. One to four bottles of Fountain of Health is warranted to cure ordinary Catarrh.

BELLEVILLE.

DROWNED.—The *Intelligencer* says that on Saturday, the 21st of April, Joshua Marricle, a native of the Indian Woods, in this county, was drowned at the head of Deer Lake. The deceased was in the employment of Rathbun & Co., driving sawlogs. He was last seen sitting on a log in the river, with his pike-pole beside him. A number of men were in the vicinity, but none saw him fall off the log. He was perfectly sober. But for his pike-pole being still lying on the log, his comrades would not have found him. His remains passed through Tweed on Sunday evening, for interment at the Indian Woods.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalculæ which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Horke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

Packing Apples.

Apples are thus packed for the New York market: A basket of high-coloured and medium-sized specimens is placed in the bottom of the barrel as close as possible. with the stems all down, and the barrel is shaken as often as a basketful is put in. It is tilled half an inch above the chimes, the head is pressed in by means of a screw, and the barrel is then turned over and marked on the faced head, so that when opened it shows an even and uniform surface. Apples thus faced will bring from twenty-five to fifty cents more than those not faced.

Fossil Remains Found in Manitoba.

While examining the coal areas of the Saskatchewan Mining Company, Mr. Lawson, engineer of the company, says he discovered the remains of an ancient forest at a depth of over two hundred feet from the top of the ravine. The stumps are plainly visible, and are about two feet in height, and look very much as though the forest had been laid low by the woodman. In addition to this interesting discovery, the fossil remains of a gigantic reptile were found under the coal in a stratum of light sandstone. The skeleton is over thirty feet in length and is partly exposed, the remainder being firm embeded in the earthly matter. Mr. Lawson has two of the creature's tusks.

Intemperance in Quebec.

QUEBEC, April 24.—Despite the fearful lessons of the past week the bibulous element continue to indulge their appetites and to intensify the horror and alarm with which the public mind has been inspired by recent events. Yesterday another young lad belonging to St. Roch's was jolted out of a wagon while in a state of intoxication, and alighting upon his head sustained such a concussion of the brain that his recovery is very doubtful. A second individual in the same state fell from a gallery into the yard, a distance of about twenty-five feet, but fortunately sustained no injury; and another sudden death which occurred at an early hour this morning, is believed to have been caused by abuse of strong drink. One of the preachers on Sunday last estimated that 43,000 deaths had been caused by intemperance in this province within the last decade.

Care of Saws.

A glance at the different saws that are sent to a saw factory for repairs, is sufficient to demonstrate that, notwitstanding the writers on the care and management of saws would seem to have worn the subject threadbare, there are many mill owners and sawyers who do not understand the first principles of keeping a saw in order. They seem to be blissfully ignorant of the use of that indispensable tool in all well regulated mills, the saw gummer, and we find saws filed with square corners under the teeth, inviting a crack which will ruin the saw plate once and forever. The swage also, simple as is its use in the hands of a good workman, is to others only another devise to defeat the very purpose for which it was intended. We have examined saws whose points were hammered down in such a manner that they could not possibly do good work. There is no excuse for this. The economical production of lumber demands that the saw be kept in good order. Every man who has charge of a saw should familiarize himself with the requirements of his position. If his establishment is not supplied with a gummer he should procure one and learn how to use it; and if, as is probably the case, a swage is used, he should also know how to use that. In the hands of ignorant persons the swage may do more harm than good. These remarks apply more particularly to those establishments commonly known as country mills.—*The Wood-Worker.*

Lubricating Oils.

It is stated that a good test for lubricating oils is to place single drops of the different kinds to be compared in line across the end of a piece of plate-glass about twenty-four inches long, one end being six or eight inches higher than the other to form an inclined plane. The drops of oil run down this smooth plane in a race with each other. The quality of the oils for lubricating purposes is shown by the distance travelled and the traces left by the drops. Thus, on the first day sperm oil will be found in the rear; but it will in time overtake the rest, and retain its power of motion after most other oils have dried up. A light-bodied oil flows quickly, like water, but also dries quickly, whereas what is needed is a good body combined with a limpid flow. Many oils have a good body, but have a tendency to gum; and this will be distinctly shown upon the glass. It is scarcely necessary to remark that the test slip should be covered from dust while the experiment is being made. The above method will show the physical qualities of different descriptions of oil; but if the presence of acid is to be detected, another simple device may be adopted. In a sheet of bright copper a number of shallow pits are made by the blow of a round-faced hammer. Samples of oil left some days in these dishes on a shelf in the engine room will show, by the formation of verdigris, where acid is present. The existence of a blue tinge of fluorescence in a glass phial of oil is frequently assumed to indicate presence of mineral oil; but this is an illusory test, since the same is frequently observed in the purest and freshest vegetable oil.—*Scientific American.*

See the advertisement in another column.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Improved Sawing Machine.

An improved sawing machine has been recently patented by Mr. H. K. Olsen, of Coalville, Utah Territory, and designed for falling trees and sawing logs into lengths. The machine can be driven by hand or power, and is capable of working either horizontally or vertically. It has an automatic screw feed for moving the saw forward when making a horizontal cut, and this feed is readily detached when it is desired to saw vertically, so as to allow the saw to feed by its own gravity. The entire apparatus is mounted on a light portable frame, so that it may be easily transported from tree to tree or log to log, as occasion may require. The crank shaft and the driving shaft are mounted in sliding boxes, movable up and down by the windlass at the top of the inclined posts. The crank is wide to admit of the lateral movement of the connecting rod, and it is adjustable as to the length of its stroke; the design of this arrangement being to adapt the machine to different kinds of work. The saw guide moves through a sleeve that is adjustable along the slotted bar by means of the screw in the slot of the bar. The screw receives its motion from the driving shaft of the machine by a belt. As the crank of the drive wheel is turned the saw is reciprocated, and at the same time moved forward to its work. When it is desired to saw vertically, the feeding screw is disconnected from the saw guide, and the slotted bar is placed in a vertical position, as shown in dotted lines in the engraving. The joint between the saw guide and the connecting rod is swiveled to admit of turning the saw at desired angle. This machine works rapidly and easily, and may be operated by one or more men, or by horse or steam power.—*Scientific American.*

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Billous, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SULPHUR AND IRON BITTERS costing only 50c. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and defer the evil day sometimes indefinitely.

SULPHUR AND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any medical compound known to the medical faculty.

I. O. O. F.

We beg to remind our readers of the musical and literary entertainment to be given this evening at the Hall of the Otonabee Lodge, in Cluxton's Block, to celebrate the sixty-fourth anniversary of the Order in America. There is an excellent programme.

◆

The Weather Probabilities.

The weather is a little milder but continues cool and cloudy. The weather probabilities or the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate winds, mostly southerly; generally fair, warmer weather; possibly local showers.

A Trip to Lakefield.

The members of Peterborough Lodge, I. O. G. T., visited Lakefield on Wednesday night and gave a representation of the "Ten Nights in a Bar-room," under the auspices of the Lakefield Lodge. There was a good attendance in the P. C. A. Hall, and the entertainment was favorably received. The Peterborough members were afterwards entertained by their Lakefield brethren at a tea in the Temperance Hall.

Arthur Brook Acquitted.

Arthur Brook, who was charged with killing his father, German Brook, in California last January, has been acquitted. The only evidence that could be produced against him was circumstantial evidence, and the jury, after half an hour of dileberation, returned a verdict of "not guilty," which was greeted with cheers in the court room. The story Arthur Brook told at this trial was the same as previously given in these columns, namely that two men entered the house and shot his father and shot him in the arm.

THE LICENSES.

The East Riding Hotels—Resolutions Adopted by the W. R. Commissioners.

The License Commissioners for the West Riding of Peterborough have adopted the following resolutions:—

Whereas powers are given to Commissioners to pass resolutions for regulating the traffic and barter in spirituous and fermented liquors, R. S. O., Cap. 181: The Commissioners of the West Riding of Peterborough, therefore, enact as follows:—

That a number not exceeding two persons qualified to have a tavern license, shall be exempted from the necessity of having all the tavern accommodations required by law.

That the number of taverns to be licensed for the town of Peterborough for the ensuing year shall not exceed nineteen, and that the number of shops shall not exceed ten for the town of Peterborough.

And whereas serious complaints have been made of the violation of the law during prohibited hours, it is hereby resolved, for the better observance of the Sabbath, that upon conviction before the Police Magistrate or justice of the peace for the above offence, this Board shall take such steps as they deem necessary to remove or cancel the license of any one so convicted.

They have also granted the following licenses outside of the town:—

LAKEFIELD.—Tavern,—Geo. Berubee, Mrs. Purser, Thos. Mason, Thos. Pettitt.

SMITH.—Tavern,—L. G. Fobert, J. C. Kearney, H. Pearson, with several others to be considered.

THE EAST RIDING.

The *Examiner* publishes the following list of the licenses granted by the Commissioners for the East Riding:—

ASHBURNHAM.—Tavern,—C. Young, Mrs. David Wheeler.

Shop,—C. Young, John Garvey, J. C. Sullivan.

BELMONT.—Tavern,—J.F. Purdy, N. Prenezveux.

DOURO.—Tavern,—M. Geurin, M. Mahoney.

BURLEIGH.—Tavern,—A. C. Holmes.

APSLEY.—Tavern,—A. McIlmoyle, T. Pratt.

NORWOOD.—Tavern,—Geo. Henderson, Mrs. Brennan, M. McGregor. Shop,—W. H. Mullens.

OTONABEE.—Tavern,—Mrs. John Smith, A. Erskine.

KEENE.—Tavern,—John Gall, John Frost.

WARSAW.—Tavern,—Mrs. E. Tully.

WESTWOOD.—Tavern,—C. McDonnell.

Four applications were laid over till the next meeting of Commissioners on Saturday, April 28th.

For Fresh and Choice Onion Seed, go to Mason's Seed Store and Plant House.

THE RIFLE.

The Annual Meeting of the County of Peterborough Association.

The regular annual meeting of the County of Peterborough Rifle Association was held on Wednesday evening, Col. H. C. Rogers, President, in the chair.

The report of the Secretary-Treasurer was read, and after being audited and found correct, was adopted.

The following officers were then elected for the present year:—

PRESIDENT—Col. H. C. Rogers, re-elected.

1ST VICE—PRESIDENT—Rev. V. Clementi, B. A., re-elected.

2ND VICE-PRESIDENT—Lt.-Col. J. Z. Rogers, re-elected.

SECRETARY-TREASURER—Major Bell, re-elected.

COUNCIL—F. Hall, T. Munro, and W. H. Hill.

It was, on motion, decided to affiliate with the Ontario Rifle Association again this year.

It was decided to continue the monthly matches on the last Thursdays in May, June, July and August, at which prizes and ammunition will be awarded the same as during last year. The Ontario Rifle Association medal will be awarded to the member making the highest aggregate score in any three of the matches.

A discussion took place as to the best way of making improvements on the range, and the matter was left in the hands of the Council to be attended to at once. A marker will be on the range every Thursday afternoon after the first of May to have the range in order and to mark for those who wish to shoot on those days.

Canoe Building.

A company has been formed and incorporated for the manufacture of canoes, boats, and their necessary equipments. The company is composed of Messrs. John Burnham, M. P., J. Z. Rogers, Geo. C. Rogers (since deceased), H. T. Strickland and John Ludgate.

In the case of Stethem *vs.* Ullyott, which was tried at the recent chancery sittings here, the Chancellor has now given judgment as the question then reserved of costs in the matter, stating that if the plaintiff were not content with the amount of damages paid in, he might go on in the Master's office to try and prove a greater amount due him, in which case further directions and costs would be reserved. If he did not elect to do this, he was to get the costs up to the time when the money might have been got out under the provisions of the Act; no subsequent costs to either party. No costs of the injunction motion, as the defendants had acted in a very high handed way, and ought not to be encouraged by getting costs.

Hamm-Conley—Hanlan-Lee.

A meeting of the Halifax rowing association was held on Monday evening, at which a communication from Hanlan, in reference to the proposed double-scull race was submitted, requesting that articles of agreement suitable to the backers of Hamm and Conley be forwarded for his and Lee's consideration, or that a delegate of the association meet the latter two at Lowell, Mass. Considering the time that must unavoidably elapse before the arrangements for the event can be made, it was decided to agree to the latter request, and a member of the association was selected to proceed to Lowell as soon as possible with instructions to use every effort to arrange a desirable contest. The place at which the race should be rowed was also left open for consideration at the meeting in Lowell.

Manitoba Railways.

Applications will be made at the next meeting of the Manitoba Legislature for charters for the following lines of railway:—Portage Southern, running from Portage la Prairie to the junction of the Canada Pacific railway and C. The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

REVIEWS.

HARPER'S MONTHLY MAGAZINE.—The May number of Harper has for a frontispiece a beautiful engraving entitled "The Sisters," from a picture by C. A. Abbey. Mr. H. Bishop contributes an interesting description of "San Francisco," and Anna B. Blake has some lively sketches of the "Roman Carnival." The historical papers are a continuation of "The Treaty of Peace and Independence," by G. Ticknore Curtis, and "The Middle Colonies before the Revolution," by John Fiske. In art we have "The National Academy of the Arts of Design and its Surviving Founders," by B. J. Lossing, and "Art Study at Home and Abroad," by J. F. Weir. In literature Mr. W. H. Pollock contributes a paper on "Anthony Trollope," with an admirable portrait. W. C. Conant gives a full description of the "Construction of the Great Brooklyn Bridge," with profuse illustrations. Some suggestions as to "Fresh air in Summer," by T. M. Cowan, will be found of value. A new serial novel by an anonymous author, entitled "A Castle in Spain," is begun; the opening chapters promise well, and there are six telling illustrations by Abbey. A short tale, "Nehemiah's Plan," has an excellent moral, and there is some good poetry. The usual *editorial miscellanies* complete a very interesting number.

SEVERED BY A SAW.

A Young Man Completely Beheaded in a Mill near Trenton.

TRENTON, Ont., April 26.—Yesterday a frightful accident occurred in Lyman Heaton's saw mill, about four miles from Wooler, a village in the *seventh concession of Brighton*. The mill caught fire from some unknown cause, and was filled with dense smoke. The engine was promptly stopped, and Mr. Stewart Heaton, a son of the proprietor, entered the mill to ascertain where the fire was, but being blinded by the smoke he slipped and fell with his neck across a large circular saw, which had not yet ceased to revolve. He was found about fifteen minutes afterwards with his head completely severed from his body. Little damage was done to the mill by the fire.

IN the present month Dr. Carson's Stomach and Constipation Bitters should be taken to purify the blood and fortify the system against the severe changes of weather. It improves the circulation and cures Dyspepsia, Billousnes and Sick Headache. In large bottles at 50 cents. Sold by all druggists.

FORTY ARRESTS.

DUBLIN, April 26.—Three more alleged Invincibles have been arrested in Crusheen district. About forty arrests have been made. Most of the suspects have proved to be farmers, against whom nothing could be shown except expressions of opinion and sympathy. The Government officials commence to think that Mr. Clifford Lloyd is overdoing the matter, especially as almost all the arrests have been made upon the statement of a single convict.

CORK, April 26.—Carmody and Morgan, who were arrested on the charge of being implicated in the dynamite conspiracy, have been discharged from custody.

IMPORTATION OF LIVE STOCK.

LONDON, April 26.—Lord Carlingford, President of the Council, in receiving a deputation headed by the Duke of Richmond, which came to confer on the subject of foot and mouth disease among cattle, said the deputation practically asked the general prohibition of sending live stock to England. The department was only prepared to use its powers where need existed. Assertion made in America that the disease was practically non-existent there might be incorrect, but generally speaking there was very little of the disease in that country, especially in the west.

HOLOCAUST IN POLAND.

WARSAW, April 20. In a fire to-day, in a cabinet-maker's workshops, sixteen workmen were burned to death.

RELIEF FOR IRELAND.

LONDON, April 26.—A motion of Mr. Trevelyan, Chief Secretary for Ireland, for leave to introduce a bill making temporary provision for the relief of the destitute and poor in Ireland, was carried by a vote of 124 to 9.

ANOTHER BRUTAL MURDER.

DUBLIN, April 26.—A farmer's son was found to-day, beaten to death, outside of Cavan. Several arrests have been made.

CETEWAYO.

LONDON, April 26. The reports of tribal difficulties in South Africa surprise the Government, and it is feared that they may ultimately call for interference. It is doubtful if Cetewayo will ever again be acknowledged as head of the Zulus.

A STIR ABOUT ARMENIA.

LONDON, April 26.—The *Times* says that Lord Dufferin on his return to Constantinople from Egypt will be instructed to remonstrate strongly with the Porte regarding the condition of affairs in Armenia. Many diplomats believe that if the condition of Armenia is not improved Russia, after the coronation of the Czar, may intervene forcibly.

AMERICAN.

ARRESTED FOR MURDER.

GRAND FORKS, Da., April 26.—The arrests on account of the Ward murder include C. J. Uline and Wm. C. Farrington, sons of prominent citizens of St. Paul.

With Two Husbands.

Among the immigrants who arrived at New York on the steamship *Lake Manitoba*, from Liverpool last week, was a woman who was in doubt as to whether her name was Matthews or Preece. Mary Jordan met Mr. Matthews in Bristol, Eng., eleven years ago, and married him. Soon afterwards her husband came to America to seek his fortune, and neglecting to keep her informed of his movements, she naturally put his name on the death-roll. After five years supposed widowhood Mrs. Matthews met Mr. Preece, and soon afterwards took his name, the nuptial knot being tied by a clergyman near Bristol. Like her first husband, he too came to the United States a few months after marriage. Unlike the first husband Mr. Preece corresponded with his wife, and last December sent money to pay her passage hither. Mrs. Preece came, and when she stepped ashore found two husbands waiting to greet her. Her countenance betokened :—

"How happy could I be with either,
Were t'other dear charmer away!"

There were loud and angry words betwen the two men, but the woman maintained a judicious silence. Finally the trio went to a neighboring hotel, and the upshot of the matter was that husband No. 1 gave satisfactory reasons for the failure of his wife to receive his letters, and husband No. 2 stepped down and out.

Talmage on Newspaper Men.

"Encourage newspaper men for you know what annoyances they go through. Their most elaborately prepared articles sometimes thrown out because of pressure on the columns; expected to make accurate report of some speaker who is so indistinct of utterance that the entire discourse is one long stenographic guess; the midnight that finds you asleep demanding that they be wide aweke; their most careful work defamed by one careless type setter; their lives ground out between the wheels of our great brain manufactories; sickened with the approaches of those who want a newspaper commendation or retraction; now called on to sketch a funeral, and now a pugilistic encounter; shifted from place to place by the sudden revolutions any day liable to come in any journalistic establishment; precarious life becoming more and more precarious. Be affable to them whom you have no axe to sharpen on their grindstone. Discuss in your own mind what the nineteenth century would be without the newspaper, and take every opportunity to cheer all who have anything to do with this great interest, from the chief of the editorial staff down to the boy who throws in the morning and evening paper on your basement window."

A Blessing to all Mankind.

In these times when our Newspapers are flooded with patent medicine advertisements, it is gratifying to know what to procure that will certainly cure you. If you are Billious, blood out of order, Liver inactive, or generally debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of Taylor & McDonald.—2

MRS. S. W. CURRY, of 95 Richmond Street, Toronto, says: "Pain in the Back, Liver Complaint, and *Billious Headache were my ailments.* I got prompt and permanent relief by using one bottle of "Fountain of Health.'

SOMETHING PLAIN! Cold in the Head is the seed, the Nasal Cavity the field, Impure Blood fertilizes the soil, and the growth is first Catarrh then Bronchitis, Consumption and Death. One to four bottles of Fountain of Health is warranted to cure ordinary Catarrh.

FOUND GUILTY AND SENTENCED.

DUBLIN, April 27.—In the trial of Michael Fagin Judge O'Brien, charging the jury, stated that the testimony of the informers against the prisoner was fully confirmed by other witnesses. The jury, after a short deliberation, announced a verdict of guilty. Fagin protested his innocence. He declared that he was a Fenian and would die one. The judge sentenced him to be hanged on the 28th of May.

CHURCH AND STATE.

PARIS, April 27.—The Council of State has decided that the Government can stop the salaries of all clergymen, including Bishops.

THE DYNAMITERS.

LIVERPOOL, April 27.—Oherlihy and Kennedy, who were brought from Cork charged with being engaged in the dynamite conspiracy, have been remanded for a week.

HANGED.

TROY, April 27.—Debosseys, the wife murderer, was hanged at Elizabethtown to-day.

NEWMARKET RACES.

NEWMARKET, Eng., April 27.—The race for a thousand guineas' stakes, for three year old fillies, was won by Hauteur, with Millibran 2nd, and Lovely 3rd.

THE TONQUIN AFFAIR.

PARIS, April 27.—The preamble of the bill providing for an appropriation of five million francs for the expedition to Tonquin, says the Government does not contemplate an aggressive or warlike enterprise.

KINGSTON ON TRIAL.

DUBLIN, April 27.—*A prisoner named Gibney* and Eugene Kingston were arraigned to-day, on a charge of conspiracy to murder Poole, the Fenian, who turned informer. Divine, who was arrested at the time of the affray when Detective Cox was murdered, swore that he was a Fenian. He stated that several Fenians, including Sullivan, imprisoned as suspects, and one Boland, of Manchester, condemned Poole to death, and ordered Kingston to execute the sentence.

AMERICAN.

A SAILOR'S YARN.

GLOUCESTER, Mass., April 27.—The crew of the schooner Annie Hall assert that on Grand Bank, on March 30th, they discovered a live turtle at least forty feet long, thirty wide and thirty from the apex on the back to the bottom of the under shell. It had flippers twenty feet long. It was not deemed advisable to attempt a capture.

FALL IN OIL.

PITSSBURG, April 27.—Oil fell 8½ in less than half an hour yesterday, owing to a report that a new well in Warren county was flowing 4,000 barrels a day. A later report placed the flow at one thousand. The situation is regarded ar critical.

NOT A HERETIC.

NEW YORK, April 27.—The Rev. R. Heber Newson denies that there is any basis for the charge of heresy made against him.

THE PUGILIST SULLIVAN.

BOSTON, April 27.—Sullivan, the pugilist, says the report of his ailments were greatly exaggerated. His physicians say that he is in no wise impared.

A HEAVY VERDICT.

PATERSON, N. J., April 27.—The relatives of George D. Emarest, who was killed at Parker's creek by an accident last summer, obtained a verdict of $30,000 against the N. J. C. Railway.

DETECTIVES AT THE CONVENTION.

NEW YORK, April 27.—The *Herald's* Washington despatch says it is said that the secret service is employed in Philadelphia during the holding of the Convention of Irishmen. It is alleged that the coming together of so many representative leaders of the Land League would also attract the extreme advocates of the dynamite policy, and the assemblage at Philadelphia gives the Government detectives a better opportunity of acquainting themselves with their personal movements, information, which, it is claimed, may be of great service in the event of the British Government calling attention to societies in the United States inimicable to the peace of the two countries.

BONDS PLACED.

NEW YORK, April 27.—The entire of fifty million of the West Shore Railway bonds have now been placed. This insures the money necessary for the completion and equipment of the road.

A FATAL LEAP.

NEW YORK, April 27.—Remen, a well-known Jewish rabbi, last night attempted to jump to the bridge before the ferry boat was made fast. He fell between the boat and the bridge and was horribly crushed and killed.

THE DYNAMITE PARTY.

PHILADELPHIA, April 27.—A great many of the Rossa faction started for home at midnight. It is said that their departure was due to dissatisfaction with the works of the Convention. Several secret meeting were held by the dynamite party in Philadelphia last evening.

Trial bottles free at Taylor & McDonald's Drug Store. Large size $1.00.—2

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. AN INTERESTING PARALLEL.

THERE is a similarity in the political and judicial careers of the Hon. Oliver Mowat and Mr. Samuel Stanley Peck which is at once striking and suggestive.

Mr. Mowat was a politician who had a happy knack of making politics and the advancement of No. 1 run parallel to each other. Mr. Peck was a politician whose guiding star proved to be No. 1.

Mr. Mowat became a judge, so did Mr. Peck.

Mr. Blake took Mr. Mowat off the bench, to which he had retired, for party purposes. Mr. Mowat did the same with Mr. Peck.

Mr. Mowat, was rejected by his constituents —the electors of Ontario. Mr. Peck was rejected by his—the electors of Haliburton, So far so good, but unfortunately for Mr. Mowat, he cannot at the present time at least, be done unto as he has done by. Mr. Mowat has replaced Mr. Peck as a judge over his former constituents, but Mr. Blake is not in a position to return Mr. Mowat from whence he took him—much to Mr. Mowat's discomforture. And lastly, during his judicial and political career, Mr. Peck proved to have handled the people's money with much greater advantage to himself than to the people to whom it belonged. Let us hope that when Mr. Mowat comes to render an account of his stewardship, the parallel will not be completed, although the manner in which he, without even the authority of his colleagues, took from the public chest a sum of $1,500 to stop the mouth of a dismissed public servant, and the manner in which an over expenditure on a public institution was kept from the knowledge and scrutiny of the people's representatives for one or two sessions, does not justify us in asserting that the parallel will not be completed, even in this respect, when Mr. Mowat comes to render an account of his stewardship, and when the Provincial finances receive an overhauling such as they have not received for a decade at least.

A GRAVE CHARGE.

THE *Examiner* brings a very grave charge against Mr. Mowat, nothing less then that the Attorney-General of Ontario has been a party to an arrangement to defeat the ends of justice, and, in fact, has been the *instigator* of the corrupt act, by causing the discontinuance of proceedings against a member of the Provincial Legislature, not because it was found that be was innocent of the charge, but because it is supposed that he will support Mr. Mowat. The following are the *Examiner's* words :—

"Several days ago G. Striker, of Picton, went to Toronto to protest the election of James Hart, M. P. P. for Prince Edward. Seeing the Attorney-General, *however*, the latter prevailed on him not to file the petition, Mr. Mowat having assurance that Mr. Hart had not changed his party, had no sympathy with the Opposition, and would give the Government a loyal support. The petition was not *filed*."

MR. MOWAT'S APPOINTMENTS.

"*The notorious* Peck, *whose memory is so inodiferous in the nostrils of politicians of all parties, has actually been made a Stipendiary Magistrate! Probably in the whole history of vulgar and cynical Grit dealing with the magistracy and judicial offices, a more disgraceful appointment was never made by that party.*"—*Mail.*

But *is* not the appointment of Mr. Peck in keeping with the record of the Mowat Government in such matters? It is not very long ago since a certain lawyer, practising in a western town, who was "unrobed" by the Law Society of the Province of Ontario for appropriating to his personal use money entrusted to him by clients, at least one of his victims being a defenceless widow who placed the fullest confidence in his honesty, was appointed to the important post of Registrar! And yet Mr. Mowat is regarded as the Apostle of Purity, the most virtuous of Canadian politicians.—*Ottawa Citizen,*

New Dynamite Acts.

An experiment with dynamite was recently made by one of the officers of the navy yard. A quantity of dynamite was confined on the top of a stone five feet square and five feet thick by a wooden box one foot square and three inches high, without top or bottom, the explosive being laid loosely inside the impromptu fence. A fuse was applied and the assembled officers scampered off in different directions, fully expecting that the wooden enclosure would be blown into fragments. The explosion took place, upon examination it was found that the wooden box had not been injured, while the dynamite had exploded downward in the direction of the greatest resistance, shattering the stone throughout.—*Washington Critic.*

THE STONY LAKE MEET.

Preparations for the Reception of the American Canoe Association.

Canadian canoeists, or at least Peterborough representatives of them, are making preparations for the meeting this year at Stony Lake of the American Canoe Association. Mr. Tyson, the secretary of the Toronto Canoe Club, has returned from Peterborough, where he lent a hand in the final arrangement by the Peterborough men of the programme. Early this month Commodore Edwards and Mr. Tyson drove out to Stony Lake and laid out a regatta course close to the island on which the association encampment will be located.

The island on which the camp will be is a high granite islane with trees growing apparently out of the rocks. It is probably nearly three-quarters of a mile long, with numerous bays and indentations. It contains eighty-five acres. It lies about one-third of a mile off the south shore of the lake, with no islands intervening. There are numberous islands to the west and north of it. The open water of the lake stretches out off the north-east corner of it. Here has been located the sailing course of the A. C. A. regatta, commencing at the point of a small island lying about a stone's throw away. For the sailing race a couple of small rocky islands without trees were selected as offering suitable turning points of the triangle, and on measuring around them it was found that they could thus obtain a course of exactly a mile and a half with no chance of mistaking the course. One side of the triangle was found to be exactly half a mile, and thus was had a capital mile paddling course with a turn. They also laid out and measured a half mile course so as to make a mile with turn, on the south-east side of the island, thus securing against a windy day.

The promise of these islands has been secured from the Government. An ice-house has been built on one of them, and wharves or landing stages will be put up, There is good water in the neighbourhood.

A member of the Peterborough club writes to a friend in New York State :—"We are making ready for the largest camp of the A. C. A.—the largest camp of amateur canoemen ever held. To do justice to ourselves we must have as many Canadians alone at the camp as there were *members* all told at Lake George last year. Now how many will you bring from your side of the line? I know the way is long, the difficulties many, but it is not so far as it seems going to a strange country, and it perhaps will be a long time before the association will come to us again. If every member will think of it in this way and come this once, if possible, we will endeavour to send him home with the feeling that it was well to come. The people of this town and neighbourhood, old and young, ladies as well as men, are greatly interested in the expected visit of the American canoeists, and I do hope there will not one stay away who can possibly come. Everyone is talking of going to the camp, old and young, ladies and all. There must be a *ladies'* camp. In fact they are already making up their parties. They are coming from Lindsay and other towns. So come, my brother paddlers from over the line, and bring your wives and sisters."—*Mail.*

THE LIQUOR QUESTION.

The Rules so Far Adopted by the Parliamentary Committee.

OTTAWA, April 23.—Mr. Foster, M. P., and Senator Vidal appeared before the Senate Committee on the liquor traffic legislation on Saturday and represented the views of the Dominion Alliance. The principles so far adopted by the Committee are decidely in the interest of temperance. The following rules will be binding on Boards of Commissioners in granting licenses :—The number will be restricted, in country districts as well as in cities and towns, to four taverns for the first thousand of the population, and one to every 400 of the population over 1,000 ; *in cities and towns* three shops or saloons may be licensed for the first 1,200 of population and one for every thousand of population over 1,200. The Board will regulate the number of shop licenses in the country. In the case of the first application from any party for a license, none will be granted unless one-fourth of the electors in the district petition in favor of it ; but, in any case, a petition from a majority of the electors in any district against the granting or renewal of any license will be fatal to it. *For license purposes*, the district will be the same as the polling sub-division. It appears the deputation from the Licensed Victualler's Association and that from the Dominion Alliance both agreed to the constitution of the licensing boards *as proposed by Sir John Macdonald*, namely, one County of Superior Court judge, the Warden or Mayor, and a third person to be appointed by the Dominion Government. The law will be uniform throughout the Dominion. The present licensing boards, whether appointed by provincial or municipal authorities, will be abolished. Fees will be imposed, payable to the Dominion Government, simply to defray the expenses of the machinery of the new lay. The different provinces will continue to fix and receive the tax for the *licenses themselves.*—*Montreal Star.*

Another Great Factory.

Manufactures in the province of Quebec are *still extending*, and from the success they have already met with will no doubt continue to increase further. A large and influential meeting of capitalists was held in Montreal on Wednesday, to complete arrangements for a monster textile and print works at the village of Magog, where thirty thousand dollars have been already spent in erecting a dam for a constant water power. The capital of the company is one million dollars, of which one half has already been subscribed. The capacity of the mill will be sixty thousand spindles, and twelve hundred *operatives will receive constant employment* therein. It is estimated that it will turn out one and a half million dollars' worth of cotton goods annually. The water supply will be inexhaustible, being from Magog lake, and as the railway comes into the site there will be no difficulty in shipping the goods or getting the supplies of raw material. It is believed that this is only the beginning of great industrial enterprises in the neighbourhood, where an eminent English engineer has declared the water-power to be unsurpassed in the whole country. The following shareholders were elected to the directorate to-day :—W. Hobbs, president ; George Thornton, M.P.P., vice-president ; James Dakers, John Thornton, T. C. Keefer, C. C. Colby, M.P., Joel Leduc, J. H. Ward, A. T. Cross, and George R. Grant, directors.

A Negro Boy's Revenge.

At Brick House Gully, Texas, a negro boy Adams, aged 12, being under the impression the boys of the neighborhood were going to flog him and suspecting Cuney Nelson, aged 11, as one of the party, tied a rope around his waist and mounting a horse tied the other end to the saddle and rode rapidly off, dragging Nelson through the prairie until dead. He then took a train to Houston, where he was captured.

A Reliable Witness.

Mr. Whyte, late proprietor of the Mansion Saloon, King street, Toronto, writes as follows about Dr. Carson's Stomach and *Constipation* Bitters : "I have used Dr. Carson's Stomach Bitters for nearly four years, and I believe it to be the best medicine in the world. I would not be without it for anything. I have induced scores of people to try it, and when taken according to directions, I have never known it to fail. I call the Bitters, "The Doctor." It has certainly been my family doctor ever since I first used it, and will continue to be as long as it acts the same as hitherto. I strongly advise all my friends and the public generally who suffer from any *affections* of the Stomach, Bowels, Liver or Blood, such as Dyspepsia, Indigestion, Liver Complaint, Headache, Dizziness, Costiveness, Impurities of the Blood, Rheumatism, Neuralgia, etc., to buy a bottle of 'The Doctor,' and I am certain that not one will regret having done so. I do not think there is any medicine in the whole world equal to Dr. Carson's Stomach and Constipation Bitters." [Signed] JAS. WHYTE.

Bucklen's Arnica Salve.

The greatest medical wonder in the world. Warranted to speedily cure Burns, Bruises, Cuts, *Ulcers, Salt Rheum, Fever Sores, Cancers*, Piles, Chilblains, Corns, Tetter, Chapped Hands, and all kinds eruptions, guaranteed to cure in every instance, or money refunded. 25 cents per box. For sale by Taylor & McDonald.

EVERY PERSON TO BE A REAL SUCCESS in this life must have a specialty; that is, must concentrate the abilities of body and mind on some one pursuit. Burdock Blood Bitters has its especialty as a complete and radical cure of dyspepsia, liver and kidney *complaints*, and all impurities of the blood.

"GRUNT IT OUT."—The above is an old saw as savage as it is senseless. You can't "grunt out" dyspepsia nor liver complaint, nor nervousness if they once get a hold. They don't remove themselves in that way. To take a few doses of Burdock Blood Bitters is better than "grunting it out." What we can cure let's not endure.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic ; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly affected with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

LIVER COMPLAINTS.

DR. KING'S DANDELION & QUININE LIVER PILLS (without Mercury.)

THE BEST REMEDY FOR BILLIOUSNESS, STOMACH DERANGEMENT, FLATULENCE, PAINS BETWEEN THE SHOULDERS, BAD APPETITE, INDIGESTION, ACIDITY, HEAD-ACHE, HEARTBURN, and all other symptoms of disordered liver and dyspepsia. Acknowledged by many eminent surgeons to be the safest and mildest pills for every constitution.

In Boxes at 1s. 1½d., 2s. 9d., and 4s. 6d.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable *Pills* for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers *of every kind, chest affections*, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, *the constitution greatly strengthened*, and a return to robust health certain. Bottles, 32 doses, 4s. 6d. ; next size, 11s. Sold by chemists everywhere. The name of *J. Pepper, Bedford Laboratory, London*, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by *J. Pepper, London.* This *Fluid* combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness disturbance of the stomach, and feeling of general depression. *It acts the sluggish liver in motion*, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

IN REMEMBRANCE

OF HAROLD DOBBIN, WHO DIED APRIL 9TH, 1883, IN HIS SEVENTH YEAR.

It seems but like a troubled dream
That dear little Harold is really gone,
That he has crossed the silver stream,
That he has reached the great white throne.

Dear child, the light of his parents' eyes
For a few short summers, not quite seven,
Ere the angel came in death's sad guise,
And bore little Hallie away to Heaven.

We know he is one of the jewels fair
Adorning our priceless Saviour's crown,
Under the Shepherd's tender care
Shut safely in from the world's cold frown.

'Tis hard to lose a first-born son,
To say "Not my will, Lord, but thine :"
His earthly course was quickly run
To bloom in a richer, fairer clime.

While travellers worn by weary ways
Are left to linger on the road
The still, small voice soft whispering says
"Be still and know that I am God."

But God's ways are not as our own
To us they seem mysterious ;
Death claims the young, not old alone,
Still Jesus, pitying, cares for us.

Immigrants for Canada.

The steamer Sarnia, of the Dominion line, arrived on Wednesday at Portland, Me., with 620 passengers, mostly bound for homes in Manitoba and the North-West.

Sunk in a Collision.

The ship County Aberdeen, from Calcutta, collided on its owner lightship with the ship British Commerce, bound for Melbourne. The latter sunk with twenty five of the crew. The weather was thick at the time.

Captured by Indians.

Prof. A. F. Banelier, of the American archaeological institute, S. F. Balder of Tucson, and a Mexican, have been captured in Sonora by Apaches and taken into the mountains. They have doubtless been murdered. Banelier had been investigating Indian antiquities for some years. His family reside at Highland, Ill.

Bricks of Gold.

Mr. A. W. Ross, M. P., on Wednesday received a telegram at Ottawa from Winnipeg, stating that a three pound brick of gold from the Consolidated mine had reached Winnipeg, and that another from the Argyle mine would arrive on Monday. There is great excitement in Winnipeg.

A Self-Confessed Murderer

The police arrested at Rochester a disorderly person named Grimes, who claims to be the man who murdered Lord Leitrim. He had three companions and wants to surrender. He says be came to this county two years ago. He is thirty years of age and claims to be a native of Donegal county, Ireland.

BURDOCK BLOOD BITTERS cures scrofula, erysipelas, salt rheum, piles and all humors of the blood. Cures dyspepsia, liver complaint, biliousness, constipation, dropsy, kidney complaints, headache, nervousness, female weakness and general debility, when used in time.

WORD has been received at Washington that the Chippawa Indians in the Turtle Mountain district, Minn., are dying of starvation.

THOUSANDS UPON THOUSANDS of dollars have been spent in advertising the celebrated Burdock Blood Bitters, but this fact accounts only in part for its enormous sale. Its merit has made it what it is—the best blood medicine ever devised by man.

THE Portage la Prairie Milling company recently sent a car load of flour to Ontario as a sample. They have just received an order for ten car loads.

MR. J. R. SEYMOUR, Druggist, St. Catharines, writes that he finds an ever-increasing sale for Burdock Blood Bitters, and adds that he can, without hesitancy, recommend it. Burdock Blood Bitters is the grand specific for all diseases of the Blood, Liver and Kidneys.

CHANDLER DELL, aged 15, employed as a car checker in the Canada Southern yard at Victoria, Ont., was killed the other day in attempting to get on a moving train.

HEADACHE.—Headache is one of those distressing complaints that depends upon nervous irritation, bad circulation, or a disordered state of the stomach, liver, bowels, etc. The editor and proprietor of the *Canadian Presbyterian* was cured after years of suffering with headache, and now testifies to the virtue of Burdock Blood Bitters.

IN the case of Ramsay, the proprietor of the *Freethinker*, and Foote, the editor, charged with publishing blasphemous libels, the jury disagreed. The prisoners were discharged.

STATISTICS OF LUNATIC ASYLUMS show that nine-tenths of their patients are brought to their conditions by abuses of the generative organs. A great Brain and Nerve food, known as Mack's Magnetic Medicine, is sold by our druggists, and comes highly recommended as an unfailing cure in all these diseases. See the advertisement in another column.

REAR-ADMIRAL BALDWIN, commanding the U. S. naval forces on the European station, has been ordered to proceed with his personal staff to Moscow to attend the coronation of the Czar.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Daily Evening Review

FRIDAY, APRIL 27, 1883.

The Cells.

The police cells were occupied last night by two tramps. There was a blank at the Police Court this morning.

Just So.

The Midland *Free Press* intimates that there are blocks of buildings in Peterborough, one of which is as good as any two in Port Hope. The *Free Press* man is evidently acquainted with the two towns.

Railway Notes.

There are now about 125 men on the pay roll of the Midland Railway shops in Port Hope, the *Times* says.

The *Register* says that Mr. McDonald commenced grading on his contract on Mr. D. Doughlin's farm on Monday last. A large number of Italians are being employed on the road near Norwood.

New stock of Rochester Balmoreals, new style, at McAleer's.

The Weather Probabilities.

Winter still lingers in the lap of spring. We have an indistinct recollection of seeing that remark somewhere before, but it is a truthful one this time, as a few flakes of snow this forenoon proved. The weather continues cold and cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh west to south winds; higher temperature; generally fair weather, with local rains.

Pedestrianism.

A go-as-you-please race will take place in the Drill Shed on the evenings of Monday and Tuesday, May 14th and 15th. Several local pedestrians have been training this winter, and as the amount of the prizes offered is large, the match will doubtless be one well worth witnessing. The walking will commence on each evening at 8 p. m., and continue for three hours, the pedestrians making the highest total score to be the prize winners. The prizes are, for the first $50, second $25, third $10 and fourth $5. The entries are to be made by Friday, the 11th of May.

For Choice Garden and Field Seeds, go to Mason's Seed Store and Plant House, Post Office Block. George Street.

Immigrants Expected.

The Rev. Father Lynch and Messrs. Hackett and Kelly have received communications from Mr. H. Hodgkin, Hon. Secretary Mr. Tuke's emigration fund, announcing the arrival in Peterborough probably at the beginning of May, of the three families for whom it is requested that employment may be found as early as possible. There are Frank Toger and family of the following ages:—Males 50, 16, 10, 8 and 6, females 40, 14, 12 and 3 years. Wm. Belle and family, males 44 and 22, females 48, 18, 16, 12, 8, 6 and three years; Edward Butler and family, males 32, 9 and 7, females 30 and 2 years. Any one who can provide employment for any of them can communicate with Mr. Kelly or Mr. Hackett.

See the Louise Button Serge Tops, the latest, at McAleer's.

THE CENTREVILLE TRAGEDY.

Aitkins and McClung Arrested—What a Friend Says of Frank Little.

John Aitkins and Robert McClung, who are charged with having killed Frank Little in Centreville, were arrested on Wednesday and taken to Cobourg. The affair caused considerable excitement in the vicinity of Centreville, but there did not appear to be as much excitement or indignation manifested as there usually is in such a case. Little having been injured on Thursday and not having died until Saturday, and the affair having been kept unusually quiet, it did not appear to have given the public mind such a shock as it would had fatal results immediately followed the row. Of Aitkins, a gentleman in Peterborough who has been acquainted with him says that he was a quiet man and was not a man whom one would expect to take part in such a disgraceful row. He attributes his fall and actions to drink. Of the unfortunate victim of the affray the Port Hope *Times* says:—

"A friend of Frank Little, and one who knows him well, says that he was a quiet, inoffensive fellow, and had no disposition to fight either drunk or sober. In fact, his constitution was so weakened by dissipation, that he was unable to fight if he desired, much less to throw a man like McClung in a wrestle. When in his cups he was almost an imbecile, and just of a disposition to be made a butt for the freaks of drunken companions. For several years he has been 'knocking about' in the section, painting here and there whenever he get a job, and was known in Port Hope, Millbrook, Peterborough, Lakefield, Bailieboro, and other places. Our informant tells us that deceased belonged to an excellent family in Vermont State. Possessing pious parents and blessed with a splendid education, at one time he had bright hopes for the then future. Like too many others, he slighted his opportunities, and finally became a wreck and an outcast. Many a time he has related the experiences of his past history to this friend, and wept as he thought of the reckless life he was leading, and compared it with what might have been. McClung is in offensive and quiet when not in liquor, and in this case his freaks are attributed to his being led on by his brother-in-law, Jno. Atkins, who does not bear the best of reputations."

To-Night.

A meeting of the members of the Lacrosse Club will be held this evening at the usual place, after the practice. A large attendance is requested, as the meeting is called for consultation as to the celebration of the 24th of May.

Personal.

Mr. John Carnegie, M.P.P., has left town for a visit to Scotland, and will probably be absent about two months.

Mr. R. S. Davidson has returned from his trip to the south, and was greatly benefitted by it.

Mr. J. Deacon, of Lindsay, is at the Oriental Hotel.

Oddfellows Entertainment.

The musical entertainment given on Thursday evening, by the two Oddfellows Lodges, in commemoration of the sixty-fourth anniversary of the order in America, was an undoubted success. The fine new hall of the Otonabee Lodge in Cluxton's Block, was crowded to its utmost capacity, and we are certain that there could not have been one present who was not we'l satisfied with the evening's entertainment. Mr. W. Cluxton, N. G. Otonabee Lodge, took the chair and opened the proceedings with a few words of welcome. The singing was of unusual excellence. Mrs. Hopkins, of Lindsay, sang two solos and was encored for both of them, having a rich and highly cultivated voice. Miss Howden and Miss Annie Howden, of Millbrook, both gave solos, and were deservedly applauded. Miss Cluxton sang her solo with the success which would naturally be expected by all acquainted with her vocal talents. Miss Bowman, an old Peterborough favorite, sang two songs, her sweet tones and easy execution securing her an encore. The duet of the Misses Shaw was admirably given and well appreciated. Mr. Elliott's solo was well rendered. Mr. A. Choate also acquitted himself well. The glees of the St. John's Church choir showed careful training. Of the instrumental music we may mention favorably the solo by Miss A. Delaney, and the accompaniments of Miss Errett, Miss Cluxton, and Mr. Ewing. Mr. Miller's quadrille band played several pieces with their well-known skill. The refreshments served after the concert reflected great credit on Mr. Long, by whom they were supplied.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

COMPLAINTS.

So far this season great complaints has been made by some of the merchants regarding trade. So General Report says. We admit that's true.

But our trade increased far beyond our expectations, and when other houses were making great complaints, we were quickly selling out large amounts of Dress Goods, Silk and Cashmeres, and our name spreading far and wide through Peterborough.

WHY IS IT?

Because customers are finding out the right place to buy their Dry Goods, and where every customer is served on the same terms.

WHERE IS THAT PLACE?

AT

GIROUX & SULLIVAN'S.

MIDNIGHT TELEGRAMS

CABLE.

COMPLIMENT TO RIFLEMEN.

LONDON, April 27.—The programme for the rifle matches at Wimbledon includes two competitions instituted as a compliment to the American National Guard, for military rifles at 500 and 200 yards. The match at the latter range has been named after Col. Bodine. Thirty-two prizes will be offered each competition, ranging from £10 to £1. It is expected the Prince of Wales will distribute the prizes.

WARRANTS ISSUED.

DUBLIN, April 27.—Eight warrants for arrests have been issued in consequence of the revelations of Devine to-day. He said that dissensions arose in the ranks of the murderers, and Sullivan was also sentenced to death. Gibney was appointed to co-operate in the murder of Poole. The party who murdered Cox were out for the purpose of killing Poole.

PHŒNIX PARK MURDERERS.

DUBLIN, April 27.—Fitzharris will be placed on trial on Monday as one of the principals in the Phœnix Park murders. The trial of Timothy Kelly has been postponed until Wednesday.

GERMANY AND THE VATICAN.

BERLIN, April 27.—It is stated that Bismark's last note to the Vatican was excedingly courteous, although it contains final proposals the rejection of which by the Vatican will cause a definite cessation of all correspondence, and result in the recall of Von Schloezer, the German representative at the Vatican.

NITRO-GLYCERINE FACTORY.

LONDON, April 27.—A nitro-glycerine manufactory has been discovered in Northampton. The discovery causes great excitement.

A SUSPECTED JOURNALIST.

CORK, April 27.—The police last night secretly examined a witness relative to the movements of the American journalist MacDermott, who fled from Liverpool to take passage for America the day Featherstone was arrested.

WAR PREPARATIONS.

BERLIN, April 27.—The Government in order to facilitate the conveyance of troops if needed, has decided to lay a second track on all the railroads leading to Russia. The Russian Government is equally active.

THE QUEEN'S CONDITION.

LONDON, April 27.—The Queen will be able to stand unassisted upon her feet before a fortnight elapses. The injured knee is strengthening daily, and Her Majesty's general health is also gradually improving.

PROBABLE ELEVATION.

LONDON, April 27.—An intimate friend states that the Affirmation Bill is a Liberal measure, and Gladstone proposes to carry it. Gladstone will retire from the Premiership and accept a peerage, with the title of Earl of Midlothian. Cardinal Newman is the only dignitary of the Catholic Church who supports the Affirmation Bill. The English Catholics are aftonished at his action. The Government expects to carry the Bill by only a small majority.

ROYAL VISITOR TO VIENNA.

VIENNA, April 27.—Prince Frederick William, son of the Crown Prince of Germany, arrived here to-day. The depot was decorated with Austrian and Prussian flags, the Emperor wearing the uniform of the Prussian Guards. He met the Prince as he alighted from the train, and cordially embraced him, while the band played the Prussian hymn. A Court dinner will be given on Friday, and on Saturday there will be grand military review.

See the pointed toe and patent tip, all the rage, at McAleer's Boot and Shoe Emporium.

MORE ARRESTS.

DUBLIN, April 28.—One Nevin was arrested here in connection with the murder conspiracy. Nevin was mentioned by the informer Devine as appointed by the Fenians to find the hiding place of Poole, who was condemned to death. Devine also stated that Nevin was afterwards charged by the assassins with deceiving them. The police have discovered several men wanted for participation in the murder conspiracy of Ireland. The police here are constantly communicating with the police in Manchester, Liverpool, Newcastle and London, touching the movements of surpected persons.

GUILDHALL THREATENED.

LONDON, April 28.—Alarm was caused by the receipts by the Corporation of London of an anonymous letter declaring that the Guildhall would be destroyed by dynamite on the sixth of May. Police have been detailed to guard the building.

AMERICAN.

A DEFAULTER.

BAMBERG, S. C., April 28.—J. Billings, cashier of a bank here, is a defaulter in several thousand dollars. He has been bailed.

THE SIXTH FATAL SHOT.

WASHINGTON, April 28.—The intelligence that Congressman Thompson had killed another man has caused a deep sensation here, where he is well known and extremely popular. A friend thinks it was well understood that whenever Thompson and Davis should meet they would shoot. Thompson bears the reputation of having great pluck and nerve. A friend says that Davis is the fifth or sixth man who has fallen by Thompson's pistol, which, however, he declares had never been drawn except in self defence. While Thompson was a member of Morgan's Command during the war he shot down two men who levelled rifles at him. After the war, when he was prosecutor of the court of Harrisburg, three Thompsons were sitting in the court room armed when four Davises, with whom the Thompsons had a fued, entered also armed. Shooting began. Three Davises were killed. Thompson was acquited on the ground of self-defence. Thompson's age is 38, of small size, quiet, unobtrusive and was quite prominent in Congress last session.

A LADY MURDERED.

DARWIN, Tenn., April 28.—Mrs. Mary Harrison, a prominent lady, was found dead in bed yesterday with two bullets through her brain. The greatest excitement prevails. It is suspected that Dr. Curry, who boarded at her house, made a proposal which she resented and to cover up the crime he murdered her.

PIGEON SHOOTING.

PHILADELPHIA, April 28.—A pigeon shooting match will soon occur at Rivertion between Charles Macullister, the noted amateur, and a young English nobleman. Jay Gould's son George backs the nobleman with $5,000. The members of the Rivertion club back Macullistee to the same amount.

RAILWAY MATTERS.

UTICA, April 28.—The application of the West Shore Railway for the appointment of the second commissioner to appraise the lands of W. H. Watson was argued yesterday by ex-Senators Conkling and Kernan. Conkling maintained that the West Shore Company was never legally organized. The North River Railway, with which it consolidated, existed only on paper, and though its franchise was only for 55 years, it leased itself for 99 years. Kernan argued that the railroad company was legally organized. The decision was reserved.

ARRESTED.

ST. LOUIS, April 28.—A woman elegantly dressed, who it is said to have once figured prominently in a murder case, has been arrested here at the request of a prominent and wealthy New Yorker. No names are given. The prisoner says her husband has been in correspondence with the wife of the man who had her arrested. Through the correspondence she learned of the wife's intention to desert her husband. The prisoner informed the husband and was arrested. It is said that the New Yorker is coming here.

DO THE PARTY ADOPT IT.

Heinous as is the crime of which the Hamilton *Tribune* and its accomplices have been guilty in stealing, forging and circulating their alleged Tupper-Macdonnell correspondence; foul as are the means adopted for an assassin-like attack upon the reputation of Sir Charles Tupper and Sir John Macdonald, there is still another aspect of the affair which is of even greater interest for the public.

There is absolutely forced upon us the consideration of the question whether this system of theft and forgery is to be regarded as endorsed and supported by the Reformers in general—whether as a party they adopt and countenance the use of such weapons.

As the matter at present stands this question must apparently be answered in the affirmative, and we will plainly state the reasons which force upon us this conclusion.

These confessedly stolen and obviously forged documents have been used, adopted and made the text for attacks upon the Conservative party by nearly every Reform paper that we have seen (and we see a great many) from the leading organ down to its most paltry satellite—from the Toronto *Globe* down to the Peterborough *Examiner*. Some of these journals have expressly defended the theft and the use of the stolen documents, if thereby political opponents could be attacked. Not one of these journals has to our knowledge condemned these crimes, or repudiated complicity in them. The only journal that has spoken with honest indignation on the subject, which they can possibly claim as a Reform paper in any degree, is the Newmarket *Era*, and it, if Reform, is certainly not Grit, but belongs to the large class of Reformers who look upon Sir John Macdonald, his colleagues and supporters as the real Liberals of Canada. Several of the Ottawa correspondents of the leading Reform journals have also unblushingly avowed that they are on sufficiently confidential terms with some member or members of this gang of criminals to have been entrusted with their secrets, and even to have been shown these documents or copies of them. Under these circumstances we are forced to consider that the Reform press as a body are accomplices in theft and forgery, or at least open or tacit supporters of such crimes as a means of attacking their opponents.

Neither can this crime be looked upon as an exceptional and isolated case. It seems rather to be part of a regularly avowed and organized system. We all remember how the leaders of the Reform party paid a certain John Norris, a confidential clerk of the Hon. Mr. Abbott, to steal documents from his employer. We remember how they paid the blackmailer, McMullen, for certain private documents, which he was hawking around for sale, it being confidently asserted and not denied that Mr. Blake himself was a party to the purchase. We remember how Mr. John Young, M. P. for West Montreal, stole a letter from the post office with the aid of some official or officials, Boyes being very likely made a scapegoat for others, and how Mr. Young, after consulting, as he confessed, with his party leaders, retained and made use of this letter which he had stolen.

When we find the leaders of a party making themselves accomplices in such thefts; when we find the party organs perpetrating these crimes, adopting them or supporting them; when we find that not one word of protest against such infamy is uttered by either their journalists or politicians, can we come to any other conclusion than that such is the recognized policy of the party as a body?

We are loath hastily to come to such a conclusion, for we know that there are many honest men in the party, who would not further or avail themselves of such criminal acts, but if they allow themselves to be implicated by their leaders and organs in such crimes without repudiating them or protesting against them, they must not blame those who are unable to discriminate them from the mass.

And if this is to remain as it is at present, the adopted and unrepudiated policy of the Reform party, is it not forced upon the Conservatives to use some means of defence from such criminal attacks? If we are to understand that confidential clerks and officials who steal private or for that matter public documents are to be paid, rewarded and encouraged by the Reform party, if by their crimes means of attack upon Conservative politicians can be obtained, does it not stand to reason that it is not safe to leave Reform officials in confidential positions where they can indulge in their criminal propensities? If the system is generally adopted and encouraged by the Reform party as at present, how is it possible to discriminate between the general mass and the honest exceptions?

The Reformers would only have themselves to thank if it were judged necessary to remove all members of their party from confidential positions in the public services for fear that some among them should repeat such crimes.

WINKING AT ILLEGALLITY.

THAT independent Reform journal the Toronto *World* has the following remarks on Attorney-General Mowat's latest dishonest performance, as describes so gleefully by the *Globe*:—

"If report be true, Mr. Mowat has added one more to the long list of political offences which are fast nailing down his political coffin. The charge is made that Mr. Gideon Striker, the defeated candidate at the recent election in Prince Edward, had accumulated evidence warranting the filing of a petition against the return of his successful opponent Mr. Hart, but was persuaded not to carry out his intention by Mr. Mowat. Now, if corruption were practiced in the election, it was an offence against the law and as such should have been made the subject of an investigation in the courts. But the little premier winks at the alleged offence and connives at a man representing the constituency who may have legally speaking no possible right to do so. In criminal law the compounding of a felony is a crime only less than they felony itself."

CAMPBELLFORD.

NEARLY RUN OVER.—The *Herald* says that a little child of Mr. Burgess came near being run over by a train on Friday, and was only saved by the heroic efforts of a little four-year-old boy, son of Mr. H. Marsh, who managed to get him from the track just as the engine was upon them.

A PRETTY CACTUS.—We are informed that a resident of Seymour township is the possessor of a pink cactus growing in a six inch pot, which has one hundred and twenty-one flowers—an unusual number for the size of the plant. Each flower would average the size of a hen egg.

RISING WATER.—One effect the rising waters of the Trent had last week was in stopping operations in the dye-house of the Trent Valley mills. The water rose under the vats as high as the floor, and the vats had to be removed and set up higher. Mr. Turner ordered another floor to be laid, 20 inches above the old one, this making the third floor. By this step everything in the dye-house will be placed high and dry above the highest rise of the water.

NEW BUILDINGS.—Mr. Chas. Smith is busy erecting his new grist mill. He has twenty-five men employed clearing away the stones and digging the foundation while the stone-masons are putting up the walls. The building is being erected on the site of the old one, only part of the former size, but the full spread will be given when the water subsides. It is to be built three storeys high. Mr. Cockburn has decided to erect another brick building south of the one now occupied by Mr. Carleton and Dr. McCrea on Front street. It is to be 40 feet front and 36 feet deep, and divided off into three stores. Mr. Townsend has made a beginning at his building on Front street. It is to be two storeys high. Dr. Ryan intends to erect a new dwelling for himself on Front street; and Mr. Vosper is building a small brick structure for an office on Tice street.

Ice delivered any time after this date. Leave your orders at Town Clock Grocery.

NORWOOD.

TEMPERANCE ENTERTAINMENTS.—The *Register* says that the Methodist Temperance Society gave an interesting entertainment in the M. S. S. meeting house on Friday evening, and that the Presbyterian Temperance Society gave an entertainment in the basement of the Presbyterian Church on Tuesday evening. The attendance was large, and the result, financially, handsome.

NEW SCHOOL BUILDINGS.—At a meeting of the School Board a committee was appointed to ascertain what the old building would sell for, and select a site for the new one.

CHANGED HANDS.—Mr. Mm. McKee, of Asphodel, sold his farm to Mr. James Iles, of this village, receiving therefor the sum of $3000.

RUNAWAY.—As Mr. D. McNaughton, of Asphodel, was driving into Norwood the other evening, his horse became frightened about a mile from the village and ran away, throwing Mr. McN. out of the rig, and in addition to other severe injuries, breaking several of his ribs. In this painful and prostrated condition he was compelled to walk to the village, where he had his ailments speedily attended to.

BUILDING OPERATIONS.—Mr. I. N. Ackerman is having a brick dwelling house built on Spring Street. His enterprise is to be commended. Mr. D. Foster commenced building a large livery stable on Peterborough Street on Monday last. Mr. Geo. Hendren, of the Commercial House, has removed the verandah facing his hotel, and purposes, we believe, making other changes which will add materially to the appearance of the building.

COBOURG.

BURGLARY.—The *Sentinel-Star* says that on Friday night burglars broke into the store of T. R. Harvey & Sons, King street. An entrance was made through a rear window. The burglars had first entered the blacksmith shop of Mr. Hopper and stolen some tools, consisting of brace and bits, pincers, sledge hammer, &c. Getting into the shop they proceeded to open the safe, which was a combination lock. They opened it by drilling a hole near the combination, inserting a piece of iron, and giving it a blow with the sledge hammer, which sprung the lock, admitting the safe to be opened. The burglars took the money drawer and papers into the back yard, and proceeded to go through them. The papers they left, but carried off about $20 in money, all there happened to be in the safe. Some suspicious characters were seen in town the day preceding the burglary and the following morning, but no arrests were made.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past-cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widely increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. She wears a kilt of ordinary length of gray tweed, a jacket of the same material, and a light vest. SOMETHING PLAIN! Cold in the Head is the seed, the Nasal Cavity the field, Impure Blood fertilizes the soil, and the growth is first Catarrh then Bronchitis, Consumption and Death. One to four bottles of Fountain of Health is warranted to cure ordinary Catarrh.

MISS F. M. JONES, daughter of Hon. A. G. Jones, of Nova Scotia, has had two pictures accepted by the Paris, France, Salon. Eight thousand pictures were sent into the Salon, five thousand of which were rejected.

STATISTICS OF LUNATIC ASYLUMS show that nine-tenths of their patients are brought to their conditions by abuses of the generative organs. A great Brain and Nerve food, known as Mack's Magnetic Medicine, is sold by our druggists, and comes highly recommended as an unfailing cure in all these diseases. TWENTY-FIVE pounds of Atlas powder were exploded on Thursdao, at Fall River, Mass., to blow up the massive granite pillar of the Flint mill recently burned. The pillar was only shaken, but pieces of granite flew out into the midst of a crowd of people, and killed one man.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

AT a strike of factory hands in the city of Seyrardow, Poland, troops were sent to arrest the leaders. They were stoned by the strikers, and forced to use their fire-arms. Two workmen were killed, and five others severely wounded.

The reason why the surgeons of the International Throat and Lung Institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

Hidden Treasure.

Michael Krietzer claims to have discovered a large deposit of mineral on his farm in Lebanon county, Pa., which will assay $1,000 per ton. It consists of iridium, platinum, quicksilver, copper, tin, cobalt, gold, and nickel.

Ladies in search of Material to make up a cheap and servicable Dress will be sure to find it at Turnbull's.

An Explanation.

An explanation is offered of the recent attack on Lady Florence Dixie, which, if true, saves the Englishwoman's reputation both for truthfulness and sanity. The statement is that the Marquis of Queensberry and Lady Dixie's cousin were the two disguised men, who scared her for a joke.

Excited Thousands

All over the land are going into ecstasy over Dr. King's New Discovery for Consumption. Their unlooked for recovery by the timely use of this great life saving remedy, causes them to go nearly wild in its praise. It is guaranteed to positively cure Severe Coughs, Colds, Asthma, Hay Fever, Bronchitis, Hoarseness, loss of Voice, or any affection of the Throat or Lungs. A Reliable Witness.

Mr. Whyte, late proprietor of the Mansion Saloon, King street, Toronto, writes as follows about Dr. Carson's Stomach and Constipation Bitters: "I have used Dr. Carson's Stomach Bitters for nearly four years, and I believe it to be the best medicine in the world. I would not be without it for anything. I have induced scores of people to try it, and when taken according to directions, I have never known it to fail. I call the Bitters, "The Doctor." It has certainly been my family doctor ever since I first used it, and will continue to be as long as it acts the same as hitherto. I strongly advise all my friends and the public generally who suffer from any affections of the Stomach, Bowels, Liver or Blood, such as Dyspepsia, Indigestion, Liver Complaint, Headache, Dizziness, Costiveness, Impurities of the Blood, Rheumatism, Neuralgia, etc., to buy a bottle of 'The Doctor,' and I am certain that not one will regret having done so. I do not think there is any medicine in the whole world equal to Dr. Carson's Stomach and Constipation Bitters." [Signed] JAS. WHYTE.

Sold in large bottles, at 50 cents, by all druggists.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SULPHUR AND IRON BITTERS costing only 50c. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and defer the evil day sometimes indefinitely.

SULPHUR AND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any medical compound known to the medical faculty.

Sold by all Druggists and at Depot 150 St. James St. West, Montreal, Price 50c.

SATURDAY, APRIL 28, 1883.

The Cells.

One lonely tramp inhabited the police cells last night. No cases in the Police Court this morning.

◆

The Bella Fair.

The *Independent* says that the steamer "Bella Fair" went down to Bridgnorth on Friday, and will continue to run regularly, the stage leaving Peterborough daily at two o'clock.

◆

Regular Meetings.

A meeting of the Town Council will be held on Monday evening next, in the Council Chamber, at 7.30 o'clock, and on Tuesday evening a meeting of the Board of Education will be held in the usual place at 7.45 o'clock.

◆

Open Air Concert.

The Fire Brigade Band will favour the citizens with one of their delightful open air concerts, on George Street this evening at 8 o'clock. A splendid programme will be given, and the new horns will be used for the first time in public.

◆

The New Bookstore.

The Cobourg *Sentinel-Star* contains the following paragraph:—

> "We see by the Peterborough papers that Sallsbury & Son, booksellers, have opened a branch of their business in that town. From their well-known ability to cater to the literary public, we should not be surprised to learn of their being soon the premier bookstore of our sister town."

◆

The Weather Probabilities.

The sun shone a while to-day, but the air continues cool. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate to fresh winds, shifting to northward; partly cloudy weather, with areas of rain or snow, followed by clearing weather and stationary or lower temperature.

◆

Games in Lindsay.

The preparations for the athletic tournament in Lindsay on the 24th of May are rapidly going on. $1,000 are to be given in prizes for boxing, wrestling, jumping, running, bicycling, lacrosse and all kinds of out door sport. The tournament is open to the world, and the entire North American continent may enter if so disposed. Several entries from athletics and wrestlers of some note are expected.

◆

Lacrosse Notes.

At a meeting of the Lacrosse Club on Friday evening it was decided to accept the invitation of the Oshawa Club to play a match in that town on the 24th of May.

It was also decided at the same meeting to hold a lacrosse tournament in Peterborough on Dominion Day, the 1st of July, and as they have decided on doing so thus early in the season, and will have plenty of time to make preparations, they intend to make the celebration a great success.

The members of the club will have a match game practice three nights in each week, namely on Mondays, Wednesdays and Fridays. It is to be hoped that they will practice steadily, as the first match last season was lost for want of practice.

◆

If You Want large fresh oysters dished up in good style, go to T. Darcy's Restuarant and Oyster Parlour.

The late Geo. C. Roger

On Sunday morning at 11 a.m., the Rev. Mr. Bradshaw will preach a sermon on the life and characteristics of the late Geo. C. Rogers.

◆

A choice variety of New-All-Wool Dress Goods, in light and dark colors, now offering at Turnbull's.

◆

Oddfellows' Anniversary.

The members of the Order of Oddfellows in Peterborough will meet at the Peterborough Lodge Hall to-morrow evening, and proceed to the George Street Methodist Church, where a discourse will be delivered by the Rev. John Shaw.

◆

A Rare Chance.

We are glad to observe that Mr. Dumble is putting a large number of town lots in the market. This is much better than holding on to them for the rise in value, as it gives young men and others desirous of making homes for themselves a chance to get land at reasonable rates, and thus adds to our permanent population. Property is becoming very valuable in Peterborough, and we expect a lively sale on the 7th of May next.

◆

Mind Reading.

Mr. Stuart Cumberland, the English thought reader, will give his marvellous demonstrations in Bradburn's Opera House on the evenings of Wednesday and Thursday, May 2nd and 3rd. After giving an account of one of Mr. Cumberland's evening performances in Montreal, the *Witness* says:—

> "The audience then quietly dispersed, all talking of and thoroughly believing in Mr. Cumberland's wonderful mind reading powers. After the proofs of the last few nights, there can be no reasonable doubt that Mr. Cumberland can tell what a person is thinking of if the person really concentrates his mind on it."

◆

Owner Wanted for a Letter.

A correspondent writes to the Lindsay *Post* as follows:—

> "A registered letter has been forwarded to Dalrymple, Victoria Co., after trying several other places. It is addressed to 'Mr. James Schofield, Jimony islands, Mud Lake, Upper Canada, North America, United States.' It bears the postmarks of Sheffield, Liverpool, Toronto, Bracebridge, Nipissing, etc. It is a real healthy, portly looking letter and, I wish it was for me. However, if all the contemporary press who may notice this will just insert this paragraph some poor fellow may get his money. It is to be sent direct from here to the dead letter office, post-office department, Ottawa."

◆

A Branch Railway Wanted.

The Stirling *News-Argus* says that Marmora village is agitating for a branch of the Quebec and Ontario railway to connect it with the main line, which the company have promised to build if the grading is done for them. This will cost about $5,000 for the length of the branch, three miles, and active measures are proposed to accomplish the work. A subscription amongst the villagers is spoken of, the township to be asked to supplement the amount thus raised. If accomplished, this will bring Marmora directly into connection with the outer world by rail, and will add much to its prosperity and the convenience of its business men.

◆

Flemming Taken to Montreal.

The Toronto *World* of Thursday contains the following in reference to Flemming, who created a flutter of excitement here:—

> "The last card in the case of "Bucketshop" Flemming, as far as Toronto is concerned, for the present at least, was played last night, when Flemming was driven hurriedly from the jail to police headquarters, and thence to the Union station, where he was put on board the Montreal express, in charge of Detective Fahey of that city. Wallace Smith, a Chicago lawyer, and Flemming's corpulent sister also boarded the train and went with the party. Flemming looked very dejected, and before the Don station was reached he had taken a couple of long swigs from a great flask of brandy. Wallace Smith and F. L. Loring of Chicago, have worked incessantly to secure Flemming's release, and have spent a heap of money in the attempt. Two of the three capiases standing against Flemming were discharged yesterday and the third stood for judgment. Detective Fahey of Montreal appeared on the scene yesterday, and it is understood that when he gave security for the capias standing for judgment, Sheriff Jarvis gave Detective Reid an order to bring Flemming to police headquarters. Arriving here the Montreal officer produced his warrant and quietly took possession of Flemming. This ends the Toronto fiasco, and Montrealers who were fleeced by this oily-tongued sharper can now fight the matter out in that city, where law, capiases and lawyers flourish super abundantly."

But Flemming has not yet reached Montreal. A deep game, many of which were repeatedly tried in Toronto to get him out of the clutches of the law, appears to have at last succeeded, as he has not been seen since leaving that city. Many theories as to how he secured his escape are at advanced, but the one generally accepted is that he proceeded to Halifax with the intention of going to Europe. The Toronto papers call for an official investigation. Detective Fahey, who does not appear to advantage in the manœuvre, is not in the regular Montreal force, but is at present running a "private bureau" business.

Shiloh's Consumption Cure.

This is beyond question the most successful Cough Medicine we have ever sold, a few doses invariably cure the worst cases of Cough, Croup, and Bronchitis, while it's wonderful success in the cure of Consumption is without a parallel in the history of medicine. Since it's first discovery it has been sold on a guarantee, a test which no other medicine can stand. If you have a Cough we earnestly ask you to try it. Price 10 cts., 50 cts. and $1.00. For sale by J. D Tully.

A Spring Medicine. During the winter months the system accumulates poisons which become dangerous as the warmer weather sets in. Do yourself the justice to take one bottle of Fountain of Health to cleanse the blood.

John Hodkins, 335 Wilton Avenue, Toronto says:—"I have been able to discontinue tobacco by using Fountain of Health, and feel much better every way. It has also cured two of my daughters of Dyspepsia."

To-day's Exhibition.

The exhibition under the auspices of the West Riding Agricultural Society this afternoon, of stallions and bulls, was a very successful one. There was a large number of entries of stallions and they included many fine animals. The attendance of spectators was quite large.

Daily Evening Review

MONDAY APRIL 30, 1883.

The Port Hope *News*, after some abuse of the Review, because we differ in opinion, gives Mr. Mousseau as the authority for the statement that Sir John Macdonald gave him a pledge that the Boundary Award should not be ratified. The *News* does not tell us whether it adopted the mutilated edition of Mr. Mousseau's words, published by the Cobourg *World*, or the forged edition of the Peterborough *Examiner*. The fact remains that Mr. Mousseau neither asked nor obtained a pledge from Sir John on the subject of the award, but that Reform journals having asserted that he did, now try to bolster up their invention by falsifying his words.

The Port Hope *Guide*, after making in reference to the "Centreville Tragery" some very vigorous remarks, which prehaps would be better timed after the trial, adds:—

"We hope and trust that the License Commissioners of West Northumberland will see to it that men of that ilk get no license for the current year. Is it not full time that we had a new Commission of the Peace? Goodness knows, we want some magistrates in this riding—and constables as well."

We really think the *Guide* should address itself to Mr. Mowat, who, according to the *Guide*, seems to be neglecting his duty

ARRESTS IN TULLAMORE.

Tullamore, April 28.—Three arrests in connection with the murder conspiracy have been made there in consequence of information given at the examination of the two conspirators in Dublin on Friday, by Sury, a resident of Tullamore.

CAREY TO BE TRIED.

Dublin, April 28.—The police have evidence implicating James Carey, witness for the Crown in the State trials, in the murders of Talbot, the police informer; of Clark the Fenian informer; and of the bricklayer Behan, and also in the attempted murder of Murphy, the bookkeeper of the *Irish People*. It is likely be will yet be tried on one of the offences. The assassination of Behan was not connected with the political troubles.

AN M. P. IMPLICATED.

Dublin, April 28.—During the examination to-day Devine swore he once saw a member of Parliament at a meeting of the Vigilance Committee, and Kingston told him "it was all right." Kingston frequently interrupted by calling witness abusive and filthy names.

DYNAMITE FACTORY.

London, April 28.—The supposed dynamite factory in Northampton was in a house rented by a man who appeared to be an American. He sent away two suspicious looking boxes and decamped. There is nothing to show that it was really a dynamite establishment.

ALARM AT WINDSOR CASTLE.

London, April 29.—All the keys at Windsor Castle were stolen last week. New ones were immediately provided. The event caused great alarm.

RIOTING AT PORT SAID.

Port Said, April 28.—A riot took place today between the Greeks and Arabs on account of religious ceremonies. Several persons were killed and many wounded, including a number of police. British troops and sailors, with Gatling guns, protected the Greek church. The Greek consul took refuge on a gunboat.

EXTRADITION.

Dublin, April 28.—It is stated that a request supported by affidavits will be made to the United States for the extradition of about a dozen persons.

THE TONQUIN AFFAIR.

London, April 28.—A despatch from Hong Kong, dated yesterday, says the French in Tonquin continue their warlike preparations.

GERMANY SUSPICIOUS.

Berlin, April 28.—The Government, in order to facilitate the conveyance of troops if needed, has decided to lay a second track on all the railroads leading to Russia. The Russian Government is equally active.

MAKES AN IMPRESSION.

Dublin, April 28.—Earl Spencer, Lord Lieutenant, on Friday witnessed the departure from Belmullet for America of a number of families. He conversed with many of the emigrants, and assisted in placing the children in the row-boats of the steamer. His sympathy created a profound impression on the people.

AMERICAN.

A HOMICIDE IN COURT.

Harrisburg, Ky., April 28.—Congressman Thompson, who killed Davis on the Suroona, made a pathetic speech in court, detailing his wrongs. There was a profound silence and few dry eyes while Thompson was speaking. Thompson said:—"I do not believe that I will receive the censure of this people, but whatever is the will of the court I will bow to and bear with as becomes a good citizen. This has broken up my domestic relations and destroyed my peace and happiness. My daughter, dearer to me than all else on earth, is an exile from home, and an outcast from society. His blood is but a feeble atonement for her tears, and if he had a hundred lives all of them would not atone for this great wrong. I feel I did what every man who has a home which he loved and a daughter dear to him, would do, if he has courage to defend them from wrong. In this I expect and feel I will receive the sympathy of the good and virtuous." Thompson was allowed to give $5,000 bail. There is intense sympathy for Thompson, though Davis was very popular. Davis has a wife and two children. He was twenty-six years of age. Mrs. Thompson is prominently connected. His widow is daughter of Governor Robeson, of Georgetown. The case went to the grand jury yesterday. As yet no indictment has been found. Mrs. Davis' first knowledge of her husband's death was the arrival of the body. She fainted several times. She now suffers from nervous prostration. She never suspected her husband's infidelity. Miss Buckner came here and went to the house of Thomson's father. Mrs. Thompson is living there. The father and mother of Thompson espouse her cause, asserting her innocence. On Miss Buckner's arrival she left and is at a friend's house. The lady states that Mrs. Thompson told her that Davis was innocent. Thompson's son, aged 14, espouses his mother's side, and says Miss Buckner is the cause of the trouble, and if she stays here he will kill her. Miss Buckner declined to say anything. Davis is a brother of Crit. Davis, former owner and driver of the horses Phil. Thompson, So-So, and other fast horses, and was an intimate friend of Thompson. An eye-witness says that when Davis left the car he was trying to draw a pistol, but when the body was searched no pistol was found.

MURDER AND SUICIDE.

Brooklyn, April 28.—It is said that Macduff, who killed his wife and child and himself, yesterday, was jealous and went on a spree.

Horsford's Acid Phosphate

IN SEASICKNESS.

Prof. Adolph Ott, New York, says:—"I used it for seasickness, among the passengers, during a passage across the Atlantic. In the plurality of cases, I saw the violent symptoms yield, which characterize that disease, and give way to a healthful action of the functions impaired."

In the present month Dr. Carson's Stomach and Constipation Bitters should be taken to purify the blood and fortify the system against the severe changes of weather. It improves the circulation and cures Dyspepsia, Biliousnes and Sick Headache. In large bottles at 50 cents. Sold by all druggists.

THE "TIMES" SPEAKS.

London, April 30.—The *Times* says of the Irish convention that the whole scene would be painful were it not supremely ridiculous. The only practical suggestion made by the Convention for injuring Great Britain is the advice to the people of Ireland to buy nothing from England unless they are obliged to. It is a confession of impotence when Irish malice is driven to such a paltry expedient, which, if tried, would only injure its adopters. The lesson for Great Britain is to ignore the Irishmen, and abandon the hope of bringing them to a better frame of mind by the continuance of commercial favours. They have already convinced the rest of the world that they are unfit to have a national independence, and they must be made to feel the strong hand of the law.

INFORMERS AT WORK.

Clifden, Ireland, April 30.—O'Keefe and Conn, merchants, were arrested on a charge of being connected with the murder conspiracy. An informer has implicated a number of apparently respectable persons in the conspiracy,

THE PARNELL FUND.

Dublin, April 30.—The *Freeman's Journal* announces the receipt of £2,500 subscription to the Parnell fund, the most of which came from Tipperary. The fund now amounts to £6,000.

MILITIA AND POLICE.

Limerick, April 30.—Several drunken members of the militia regiments in uniform, last night attacked the police. Several militia men and police were injured.

THE DUBLIN TRIALS.

Dublin, April 30.—Fitzharris pleaded not guilty. Porter, Attorney-General for Ireland, argued that although Fitzharris did not personally stab Burke, yet he was cognizant of the act, and was an implement of the murder, as he drove off the assassins red handed. The defence will endeavor to prove that Fitzharris merely drove the murderers in the course of his avocation as cab-driver, and did not know the object of their errand.

AMERICAN.

FATAL AFFRAY.

Brizoria, Texas, April 30.—The convict guards, John Leoras and S. Boudreaux, in a row at the colored people's festival, fired at Jim Wright, colored, nine effectual shots. Wright fired, killing Leoras and fatally wounding Boudreaux.

THE REVOLUTION IN HAYTI.

New York, April 30.—Advices from Hayti, dated April 15th, state that Miragoane is still in the possession of the rebel chiefs, who have been joined by several hundred more insurgents. Several unsuccessful efforts have been made by the Government to dislodge the rebels. A determined effort to oust the insurgents from Miragoane was to have been made on April 20th. The Government ordered the execution of all captured rebels.

COUNTERFEIT MONEY.

Washington, April 30.—The first counterfeit of the new five dollar National bank note was discovered the other day by a woman at the counter of the Treasury, after it had passed the New York bank. It was a rather poor photographic copy. The women experts in the Treasury say there is a much greater amount of counterfeit money in circulation than is commonly thought.

A NEW HOSPITAL.

Scranton, Pa., April 30.—The plans for the Moses Taylor Hopital are completed. The cost of the buildings will be $300,000. Additional endowments will be made by Percy de Pyne and the heirs of the Taylor estate, Probably to the extent of $200,000. It is also reported that the Lackawanna iron and coal company and the Delaware, Lackawanna and Western company will each make a subscription, thus raising the fund to neary a million.

KILLED WITH A BILLIARD CUE.

Cambridge, Ohio, April 30.—Darius Davis, a well-known citizen, and Julas McHenry, formerly a prominent business man, quarreled on Friday while playing billiards. Davis struck McHenry with a billiard cue. The latter fell senseless, and died on Saturday evening. Davis was arrested. He said be was drunk at the time.

A TERRIBLE DEATH.

Nashville, April 30.—Mary Ballerana on Saturday night poured oil over her clothing and ignited it, and stood on the floor watching the progress of the flame. Efforts to rescue her proved futile, she resisted any approach until burned from head to foot, the flesh peeling off wherever touched. It is thought that she was suffering from acute pain. She made no complaint. It is thought she will die. She became insane two months ago on account of the death of a child.

A REPORTED INTERVIEW.

Chicago, April 30.—A Washington correspondent says that he had an interview with a person supposed here to be an attache of the British legation. The attache says that Parnell sent several despatches to Mooney, Egan and Brennan at the Philadelphia convention, warning them to act with the utmost caution. Threats against England would be a sign for strong measures by the British Government, and might endanger the usefulness of the Irish members of Parliament. Before the convention met the leaders of the moderate party agreed that the resolutions should not countenance anything but constitutional agitation, but acts of violence were not condemned. The attache also says:—"The council of seven will be closely watched by England. There is danger of a rupture between the two countries. Great Britain will never give up Ireland and the Irish patriots know it. Certain demands have been made by Great Britian and are in the hands of your State Department. They will be passed upon very soon. The peaceful tone of the Irish Convention may lead to hesitation on the part of Wm. Goot, but the decision must of necessity be reached in a few weeks. There will be more arrests in England and Ireland and increased activity on the part of the conspirators here. You can put it down as a positive fact that Parnell is afraid of his personal safety. He knows he is implicated in the worst classes of Irish conspiracies. He knows the platform of the new league will not prevent the continuance of the outrages and crimes perpetrated in the name of Irish freedom. Parnell bad better keep a close watch over himself and Egan better reconsider his decision to return to Ireland at an early day. It would also be advisable for Brennan to be circumspect in his utterances. Before these gentlemen know where they are there will be a thunder clap from the neighborhood of 'the right little tight little island,' which may stop for ever the flood gates of their patriotic eloquence."

BOGUS CANDIDATES

THE Kings County, P. E. I. election matter has been settled in the only possible manner under the law, by the seating of Mr. Macdonald, the candidate who alone was duly qualified. The return made by the sheriff had to be amended, but it would be hardly fair to blame him, as it was only natural, in view of the heavy penalty to which he would have subjected himself, if he had returned the wrong person, that he should make a double return and leave the decision to the House.

The facts are that Dr. Robertson, who received the majority of votes, was disqualified by the fact of his being a member of the Provincial Legislature, the law prohibiting dual representation. The law also forbids the resignation of a member for the Local House before 21 days have expired after the official notice of his election. These days had not elapsed at the commencement of the election, nor had Dr. Robertson resigned. The Returning Officer could not ignore these facts, which were within his own knowledge, for as sheriff, he had also acted as Returning Officer at the local election. He therefore had to return Mr. Macdonald as legally elected, his only error being the venial one of also returning the majority candidate through excess of caution, for the law declares that the votes given for a disqualified candidate should be considered thrown away and the next highest candidate should be returned.

On behalf of Dr. Robertson, a resignation of his seat was alleged, but the pretended resignation was handed to two members before the limit of 21 days was reached and after the election was begun. The resignation indeed was not completed till some weeks after the termination of the election for the House of Commons, not being communicated to the Lieutenant-Governor till July 8th. The law requires that such a resignation should be communicated at once to the Lieutenant-Governor, but the two members did not comply with the law in this respect. Thus it is evident that in law Dr. Robertson had not resigned, and was still a member of the local legislature at the time of the election. To strain the law in his favor would have been to open the door for a grave abuse, namely that it would have been in his power, if eletced to take his seat, and if defeated, to withdraw his resignation. That such danger is not imaginery is proved by the fact that members of his party in Prince Edward Island have recently practiced this dishonest subterfuge to evade the law.

The election committee could adopt no other course than to declare that Mr. Macdonald was duly elected, and the House had no option but to give him his seat.

After all the inflammatory rhetoric of the opposition members before the matter was investigated, they had with Mr. Cameron and Mr. Blake at their head to lower thier claim to that of a doubt which should be settled by the Supreme Court, once more restored to grace in their eyes for this particular occasion.

It is, of course, open to argument whether the law prohibiting dual legislation is a good one, but until it is repealed it must be obeyed. It hardly lies with Reformers, who so urgently advocated such legislation, to support a gross evasion of it, simply because one of their party was guilty of the subterfuge.

There can be no sympathy for Dr. Robertson, though there may well be for those electors who threw away their votes upon him. It was their misfortune, however, that their party leaders could only put forward a bogus candidate for their suffrages.

The cries of the Reformers that it is an outrage that such should be the result, and that the candidate having the majority of votes should always have the seat, would be more effective if they were in accordance with either law or fact, or if their party were always consistent in this claim. The law says that under certain circumstances the majority candidate should not have the seat, and the fact is that there have been many cases of a minority candidate being seated. As to the consistency of the contention, we have in our recollection the fact of a Conservative candidate, who had obtained the majority of the votes polled, being denied his seat, because he had committed the offence of accepting a glass of beer from a voter. The constituency was misrepresented, the electors who had voted for him were disfranchised, because their candidate thought a glass of beer would refresh him after the exertions of polling day. Yet we cannot remember any Reform outcry in favour of this majority candidate, or of the electors who had placed him at the head of the poll.

It seems that in Reform ethics any trick by their party is permissable and laudable, while the slightest technical error by Conservatives is unpardonable.

FRIENDSHIP, LOVE AND TRUTH.

A Sermon by the Rev. Mr. Shaw to the Members of the Oddfellows' Society.

The members of the Independent Order of Oddfellows assembled in their hall on Sunday evening and marched in order to the George Street Methodist Church, where a sermon for the occasion was delivered by the Rev. John Shaw. There was a very large congregation present. The building was taxed to the full extent of its capacity, every seat being occupied. The centre seats were reserved for the members of the Order, and they marched up in two files, one in each aisle, and took their seats with a ceremony which showed their respect for each other.

The REV. MR. SHAW, after the usual opening devotional exercises, apologized for not having been able to make such preparation for this occasion as he would wish to have done, on account of sickness. He chose for his text Proverbs xviii, 24:—"A man that hath friends must show himself friendly; and there is a friend that sticketh closer than a brother." The wise man, he said, gathered up the witty sayings, and having crystallized them into a short sentence, they became proverbs. A business man should be as familiar with the Book of Proverbs as with his ledger. They heard of many theories and doctrines, and men were thundering in their ears the words, "Show us your faith by your works." The best reply was for the Christians in business to conform their lives to the teachings of the Book of Proverbs. Man needed friendship. There was no such thing as absolute independence of their fellow men. Man needed friendship in his infancy and help to become educated, and as he launched out into life he needed a friend who would be able to look at questions in the proper light. Man manifested his longing for friendship in a variety of ways. The false idea some persons had of their exalted origin was amazing, for all have descended from the old gardener and his wife. Not the least among the human brotherhoods was the Order of Oddfellows, whose sixty-fourth anniversary was celebrated during the past week. It was one of the most extensive societies in the world. During the past year $1,740,000 had been expended, chiefly for the relief of the brotherhood, the care of the widows and the education of the orphans. Many a home had been made glad by their thoughtful services. They attended in turn upon a sick brother to minister to his wants, and when the disease culminated in death they carried him to his last resting-place, and their contributions assisted his widow. The Order did not claim to be religious, but its motto was "Friendship, Love and Truth." The idea existed in it of mutual aid, and this was a law of God's universe. Men needed the assistance of each other, and it was well that they banded themselves together for that purpose. It helped to nourish the feeling, "I ought to assist my fellow man." Any who unselfishly carry out the principles of this Order might be confidently appealed to to assist those who did not belong to it. Some persons objected to secret societies, but the secrets of this Order were only the signs of recognition; its principles were known, and were open to the investigation of those who wished to inform themselves. The man is scarcely human who lacks friendship. True friendship was born for adversity, and not merely for prosperity. The friendship of the world would forsake in adversity but true friendship would grow in the storm. Truth was the basis and bond of friendship and of society. There should be truth on the part of the mechanic, who should do his work well; on the part of the merchant, who should give full measure and avoid adulteration; there should be veracity in social life, and truth in politics. Truth should prevail everywhere. All honor to the Society which took truth for its motto! Men who were true to themselves would be true to others. The three links seemed to go together naturally; one could not exist without the other. Love was the fulfilling of the law; it called everyone neighbor, regardless of creed or calling. A man to have friends must show himself friendly. Independence and pride were akin. One could be friendly without losing their self-respect. Some rich persons arrogated to themselves certainly privileges, but they should let them pass, their friendship was not worth having. He referred to the friendship of David and Jonathan as a shining example of unselfish friendship. Men often chose persons of different dispositions for their friends, as a strong man choosing a meek person, and so on. Brothers were often separated by different tastes and the habits, by other objects claiming their love by distance and by death. The text told of a Friend that "sticketh closer than a brother." No matter what their tastes might be, rich or poor, their calling either dignified or otherwise, Jesus understood their circumstances. Millions might rejoice in His friendship, but there was room in His great heart for millions more. In their afflictions he would be afflicted, and he would abide with them when the shadows of the night of death gathered around them. He exhorted those who believed in Jesus to acknowledge Him and to praise Him. They ought to acknowledge Christ for the sake of others. There was no genuine friendship unless it was based on the love of God. No man who would teach them any kind of dissipation was worthy of their friendship. He exhorted them to make Christ their Friend. The Oddfellows should cultivate the spirit of Christ, and the benevolent purposes they had in view would be reached and many blessed. They should go on in their work of love, but they needed as a crowing influence the love of Christ.

After the closing religious exercises the fraternity proceeded to their hall in the same order as in which they had come to the church.

THE STATION GROUNDS.

To the Editor of the Review.

SIR,—Observing that the efficient Street Inspector has a body of men cleaning Charlotte street, which was very much needed, especially near the Midland station, where there is so much traffic, I desire to call the attention of the railway authorities to the necessity of having the roads leading in to the station cleaned also. I am sure all that is required is to point this out. The cost would be very trifling, and as the company are beautifying their grounds surrounding the station, making them very attractive, which reflects great credit on the management, it would be a matter of regret to see the drives or roads leading to and passing close to the grounds, left with the present accumulation of dirt to blow up in clouds the first dry weather, choking passengers and those who have occasion to go to and from the station, and destroying the flowers and grass in the plot north of the station. The enterprising gentlemen at the head of affairs will, it is hoped, have this matter attended to.

Yours, &c.,

An Indian Raid Feared.

WINNIPEG, April 26.—A gentleman who has come direct from the end of the track says there is a rumour that a party of American Indians are preparing to cross the frontier in consequence of the Canadian Indians stealing horses. Colonel Irvine and fifteen policemen have left for the west.

Maddened by Watching Garfield's Tomb.

Some days ago Joseph Kashinsky, a private of Company H, Tenth United States Infantry, on duty at the late President Garfield's tomb, in Lake View cemetery, became insane. Kashinsky is a young healthy Polander, with an abundance of animal spirits, about 21 years of age, and has been a soldier some ten months. He has been on duty at Garfield's tomb some two months. It is said that the melancholy madness from which he is suffering is caused by the diseased line of thought incident to the weired monotony of tomb and mound that the guard experiences at his post at the grave. Kaskinsky's talk and actions since his mind has given way is said to carry out this idea of the cause of his trouble. Other men in the guard have been affected by the same fear, and some of them have resorted to drink to drown their fear and trembling. This is the third man of the Tenth Infantry that has gone to the bad since the guard has been on duty at the President's grave. About a year ago William Fogerty, an old and excellent soldier of Company K was taken to Fort Wayne, Detroit, court-martialed, dishonourably dismissed from the service, and imprisoned for a year for drunkenness. Not long after Michael Fox, of Company E shared the same fate, and was imprisoned for a month, with loss of pay for another month, for intoxication while on duty at the tomb. Gen. Hancock afterwards removed Fogerty's disabilities and he was reinstated. Neither returned to Lake View Cemetery for duty, and thus got, by a hard road, what they sought,—to be relieved. All dreaded the duty at the tomb, and one or two have expressed their dread to their comrades, and were known to utter prayers and cross themselves frequently while at their post.—*Cleveland Herald.*

License Legislation.

After a long delay the sub-committee appointed by the House of Commons at the suggestion of Sir John A. Macdonald is heard from. They are making some progress in the way of drafting a license law. It is too early yet to pronounce an opinion upon the merits of the work accomplished by the committee, inasmuch as it is incomplete, but from the clauses which has been given to the public, we are disposed to think that the outcome will be a good and effective license law. If we cannot have prohibition pure and simple, then let us have the best possible machinery for the regulation of the traffic. If this business is to be assumed by the Dominion Government, and this seems to be the drift just now, we trust the country will not be asked to accept any legislation regarding the liquor traffic less effective than what is known as the "Crooks Act." From what we know of the committee's work so far, we are inlined to think they are honestly trying to arrange a law that will put an effectual check upon the traffic, and in this way they should have the hearty support of every temperance man in the House. We should like to see some well-known temperance advocates who have seats in the House showing a little more interest in the matter than they are doing. When legislation is demanded for such a cause party issues should be made subordinate, and all available strength and wisdom given to the needed work.—*Hamilton Christian Advocate.*

A Warlike Fish.

The St. Catharines *Journal* says:—"Mr. Nathan Morey, who at this season of the year is generally busy in fixing up things along the canal, informs us that a few days ago Mr. Weaver caught a very large cat-fish in the level below Lock No. 2. This in itself is not extraordinary, but when the fish was opened, Mr. Weaver, who is a peaceable man, was very much suprised to find a large revolver in its inside, with four of the chambers loaded. No doubt the revolver was dropped overboard by some canal navigator, and swallowed by the fish. Indeed, this appears to be the only way to account for this strange find. We understand that the superintendent of the canal intends to file a claim for the recovery of the shooting iron, as it is contrary to the rules of the canal to allow armed fish to patrol its placid waters. And this will be more fully understood by all who have any acquaintance with the laws of flotsam and jetsam. Although in the absence of our friend, the crown attorney, we doubt if the latter term applies to the cat-fish.

A Tea Drunkard.

The term "tea-drunkard" is known throughout Russia, and implies, not the abuse of *robur* or any sprit distilled from the herb, but that the cup which cheers intoxicates also, if zealously adhered to. Strong tea is well known to be a powerful, though fleeting, excitant of the nervous system; and if the reader likes to make the experiment, let him drink a dozen or fifteen cups of tea in the Russian Style—that is, without cream or sugar, but flavoured with a drop of lemon juice—in the space of a couple of hours, and he may arrive at the conclusion that there is something rational about such an epithet as tea-drunkard after all.—*Chamber's Journal.*

Rossa Tricked.

Like other physicians who seek to cure ill to the body politic, O'Donovan Rossa has no taste for his own medicine. Recently a small box reached him through the post-office. Having once caught sight of it, he refused to stay in the same room with it, but hurried the frightful object on to a neighbouring newspaper office to prove that some British minion with murder in his eye had sent him an infernal machine. But, like mother Hubbard's cupboard, when the box was opened it was found to be a bare of everything except a few handsful of sawdust.

A Peculiar Story.

A farmer named Thomas Thompson from Magog, informed the police in Montreal on Thursday, that some months since, while in the city, he found that an epileptic fit was coming on him, and having $480 in his pocket, he concealed it in a fence near where he sat, lest he might be robbed during the time he would be unconscious. When he recovered the money was gone, and there is no chance of getting it now as he does not know the place he deposited it.

Needed Over There.

A Detroit lawyer has framed a bill which is now before the Michigan Legislature, providing that a man may prove his will during his lifetime on giving notice to his heirs at law, and afterward it shall be unassailable.

LINDSAY.

CRUSHED TO DEATH.—The *Post* says that on Friday last the distressing intelligence was received by Chief Constable Smart that his second son, George A. Smart, had been killed on a railway near Decatur, Illinois. It seems that the unfortunate young man was getting on his train (I. B. & W. R. R.) on which he was employed as conductor, at Sanagamon Switch, and losing his hold by some means fell under the cars, the wheels passed over the lower part of his body and thigh. He lived for a short time afterwards.

SAD DEATH.—An elderly man named Michael Connolly, living as farm laborer on the farm of Mr. James Teevins, north of Lindsay, came to his death last Friday night. He had been in town and got somewhat intoxicated. He started to walk home and when well on the way declined a ride with his nephew, who offered to take him up. He went on apparently all right, but he must have soon after turned to the left instead of to the right, to make a short cut homewards, and walked into the river before he was aware of it. The place is near Bateson's island, and some Indians near by heard his cries for assistance and got him out. But it was too late, the chill and the struggle were too much for him and he expired in a short time.

S. S. PECK'S APPOINTMENT.

The following letter appears in the Lindsay *Warder* :—

SIR,—It was supposed when Mr. Peck was rejected by the electors of this county owing to his dishonesty, that this part of the country would not be disgraced by his ever again holding a responsible position here. Hence, you may judge of the surprise occasioned by the announcement of his appointment by the Government to the highest position in the county. Some people are really silly enough to think that some slight legal knowledge is necessary in order to qualify a person for this position, and there is probably a large number who believe that members of the judiciary should possess at least a moderate amount of honesty, and even those who feel inclined to ignore the necessity of either of these qualities, feel that the Government should not appoint a person who is conspicuous for the absence of both.

It appears Mr. Peck is very desirous of coming back to Minden, so of course he should do—he should come back and endeavour to undo in some slight degree the harm he has done, repay some of the money which in some unaccountable manner found its way into his pocket. But is this Mr. Peck's object in returning? Let us judge by the following remark by this gentleman :—"I would like to go back to Minden to lay a few of them out, especially Gainer." And yet this is the man Mr. Mowat thinks is a proper judge.

Mr. Blake, although a Reformer, appears to hold a slightly different view from Mr. Mowat on the qualifications of a judge, as shown by his remarks in the House of Commons on Mr. Hawkins' motion to enquire into the conduct of the judge for the county of Kent. He said "upon confidence in the judges rested the respect of the masses" of the people for the sanctity of the law. I trust that Mr. Mowat is not so utterly lost to a sense of honour as to expect the people of this county to have any confidence in the man who has robbed them, or any respect for a government who could so far forget their duty to the country as to make such an appointment.

Yours truly,

B. W.

A G. T. R. SMASH-UP.

Four People Killed and Ten Wounded, Several Dangerously.

DETROIT, April 27.—A freight train on the Grand Trunk Railway ran into a passenger train near Olivet this morning. The air brakes on the passenger train did not work properly, and the train stopped. A signal was sent back to the freight train following. For some reason it did not pay attention to the signal, and thundered into the rear of the passenger train, shivering two Pullman cars to fragments. Conductor P. J. Wall, Montreal; H. Frye, Englewood, N.J.; W. Higgin, travelling agent, Detroit, were killed, and ten others injured, some it is feared fatally.

The accident occurred at 2 a.m. The passenger train was an hour late, and the air brake hose burst after rounding a curve. The conductor and others attempted to repair the damage, and the rear brakeman was sent back, but was unable to go far enough to prevent a collision. The shock was great. The Bay City Pullman was telescoped, and the Montreal car badly damaged. The officials of the road, with physicians and nurses from Battle Creek Sanitarium were soon at the scene. Howard Frye, Superintendent of power on the New York, West Shore and Buffalo Railroad, was taken from the wreck and conveyed to the Sanitarium, where he died shortly after arriving.

OUR NORTH-WEST.

An Attractive Field for the Investment of English Capital.

A despatch from Niagara says that a gentleman under commission from a number of English capitalists is now at Prospect House. He has been looking over the country with a view of ascertaining the most profitable sources in which the capital of his clients could be invested, and has visited Dakota, Minnesota, and the Canadian North-West. The same gentleman was in the country five years ago, and finds a vast difference between the present time and then. When last here the Canadian North-West was practically unknown. He now finds it the only place in which he can recommend his clients to invest. He says that when last here he seldom heard Canada spoken of, and only a few of such cities as Halifax, Montreal, and Toronto, were known in England. Now the geographical divisions of Canada are widely known, and Winnipeg is almost a household word in England. He finds that now all the American papers teem with special correspondence from the North-West, and Winnipeg is almost as widely known as Chicago, and is regarded as the Canadian prototype of that city. He says the Canadian Pacific railway people have done a great work in advertising Canada in Great Britain.

FROM ALL OVER.

BESIDES his duchy of Cornwall, the Prince of Wales owns real estate valued at $90,000 a year.

MY MOTHER has been using your Burdock Blood Bitters as a liver remedy, and finds them very efficacious. Chas. A. Ainsworth, 41 Vance Block, Indianapolis, Ind.

IN Pittsylvania county Va., Anderson, colored, blindfolded and beat to death his step-daughter aged 4. He has been arrested. It is believed he killed another step-child a year ago.

A GIRL living in West Twenty-second street, rode down town the other day in the engine of a Sixth avenue elevated train. She stopped at each station with promptness. Her father, the engineer, was ill.

AN EXCELLENT REPORT.—Hon. Jos. G. Goodridge, of Brooklyn, N.Y., writes :—"I cannot express myself in sufficiently praiseworthy terms of Burdock Blood Bitters which I have used for the past two years with great benefit."

AN English girl always draws little pictures on the envelopes of the letters she writes, illustrative of how she spends her time. They are so clever, that an artist is collecting them to put in book form.

OLD-FASHIONED flint-lock shot-guns are still made at Birmingham, England, for use in remote places where, should the ammunition for patent guns give out, the hunter would be helpless.

TAKE YOUR CHOICE.—You can be weak, nervous, debilitated, and despondent, disqualified for work of head or hand, or you can enjoy a fair share of health and peace of mind. Burdock Blood Bitters will alleviate your misery and do you a world of good if you will persevere in their use for a few weeks.

WHY BE DOWNCAST?—True, you may be in a miserable condition—you may be weak, palid, and nervous. You cannot sleep at night, nor enjoy your waking hours; yet, why lose heart? Get a bottle of Burdock Blood Bitters. It will restore you to health and peace of mind.

THE fumes from the wine stored in the great wine vaults in London are so strong that a person entering them will immediately become intoxicated unless he fortifies himself beforehand with a glass of strong wine internally.

A FINE HIT.—When the proprietors of Burdock Blood Bitters put this renowned medicine on the market, they hit it exactly. They hit dyspepsia, indigestion, and liver and kidney complaints a hard blow, from which they will never recover.

AN immense amount of building is in progress at Washington. Many government employees at from $2,500 to $4,000 a year, own handsome houses in more or less fashionable quarters, and invite the reflection that they must be marvellously good managers to do it.

IF you have a class of restless and mischievous boys in the Sunday school, and want to keep them up to their busiest work in their line, you had better let them get to their places before you, and take a fair start without their teacher being on hand to check them. Ten minutes sooner or later on your part in getting to your place will make a solid hour's difference in your control of your class for one day. If a teacher is ahead of his scolars in getting into place he can keep ahead there. If his scholars are ahead of him to begin with, they are not likely to lose their lead till school closes.

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

The reason why the surgeons of the International Throat and Lung institute, 173 Church street, Toronto, are making so many wonderful cures of catarrh, catarrhal deafness, bronchitis, asthma and consumption are: They have none but skilled and qualified medical men connected with the Institute. They adhere strictly to their specialty and they use the spirometer invented by Mr. Souvielle, ex-aide surgeon of the French army, an instrument which conveys the medicines in the form of cold inhalations to parts diseased, which is the only way these diseases can be cured. They are treating hundreds of patients every month, having twelve surgeons engaged in their work in Canada alone. Send a three-cent stamp for a copy of their International News, published monthly at 173 Church street, Toronto.

A Reliable Witness.

Mr. Whyte, late proprietor of the Mansion Saloon, King street, Toronto, writes as follows about Dr. Carson's Stomach and Constipation Bitters: "I have used Dr. Carson's Stomach Bitters for nearly four years, and I believe it to be the best medicine in the world. I would not be without it for anything. I have induced scores of people to try it, and when taken according to directions, I have never known it to fail. I call the Bitters, "The Doctor." It has certainly been my family doctor ever since I first used it, and will continue to be as long as it acts the same as hitherto. I strongly advise all my friends and the public generally who suffer from any affections of the Stomach, Bowels, Liver or Blood, such as Dyspepsia, Indigestion, Liver Complaint, Headache, Dizziness, Costiveness, Impurities of the Blood, Rheumatism, Neuralgia, etc., to buy a bottle of 'The Doctor,' and I am certain that not one will regret having done so. I do not think there is any medicine in the whole world equal to Dr. Carson's Stomach and Constipation Bitters." [Signed] JAS. WHYTE.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcula which cause these unsightly, irritable, painful affections, and always produce a clear, healthy natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is used adds more and more favourably to its widly increasing reputation. Anyone, however deeply and hopelessly afflicted with Skin Disease, should apply Sulpholine as quickly as possible. In two or three days the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendences, &c. The whole frame is greatly invigorated by Pepper's Tonic, the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere, The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, billiousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. Daily Evening Review

MONDAY, APRIL 30, 1883.

The Cells.

Two tramps occupied the cells on Saturday night and on Sunday night they were untenanted.

◆

Board of Education.

A regular meeting of the Board of Education will be held on Tuesday evening at the Board Room at 7.45 o'clock.

◆

Vestry Meeting.

The adjourned vestry meeting of St. John's Church will be held in the chapel this evening at half past seven o'clock.

◆

The Protestant Home.

The annual meeting of the Peterborough Protestant Home will be held in the board room to-morrow afternoon.

◆

High Water.

The water in the river is now higher than at any previous time this season. No damage is reported thus far, although a pier has lodged in the middle of the river, south of the bridge, having been carried away by the fierce current from some place on the Otonabee.

◆

The Town Council.

A special meeting of the Town Council will be held in the Council Chamber this evening at 7 o'clock, for the purpose of appointing a Commissioner on the Town Trust, and a regular meeting of the same body will commence at 7.30 o'clock.

◆

Rowdyism.

On Sunday afternoon a number of young men congregated on the river bank near the corner of Charlotte and Water streets, and amused themselves by throwing misles at an old boiler that is lying in the water close by, much to the disgust of more Christian and God-fearing citizens who were compelled to listen to their rude jestures and vulgar slang.

◆

The Band.

The Band turned out on Saturday night, and played several selections of fine music. The new instruments have a splendid tone, and are a decided improvement on the old ones. Owing to the strong wind that was blowing and the very insufficient light, they did not attempt to play some of their new and choicest selections, but no doubt will soon favor us with another musical treat.

◆

Still Searching.

An unceasing search has been kept up for the body of the late Geo. C. Rogers ever since his untimely death. Every night can be seen the torches of the faithful searchers drifting up and down the river. In the day time too, there are numbers of gentlemen who devote all their spare time to the task of looking for the body of their lost friend and companion—but thus far all their efforts have been fruitless.

◆

A Rare Chance.

We are glad to observe that Mr. Dumble is putting a large number of town lots in the market. This is much better than holding on to them for the rise in value, as it gives young men and others desirous of making homes for themselves a chance to get land at reasonable rates, and thus adds to our permanent population. Property is becoming very valuable in Peterborough, and we expect a lively sale on the 7th of May next.

◆

Personal.

We are pleased to learn that Mr. Gordon Smith has not, as represented by the Kingston and Toronto dailies failed in two of his three subjects, viz:—English and Mathematics, in the late sessional examination at Queen's University.

Mr. E. S. Vindin, Director of the Midland Railway, and, J. Davis Barnett, Mechanical Superintendent, of Port Hope, and Col. Deacon, of Lindsay, are at the Oriental Hotel.

THE LATE GEO. C. ROGERS.

An Eloquent Tribute to his Memory by the Rev. Mr. Bradshaw.

On Sunday morning St. Luke's Church, Ashburnham, was filled to its utmost capacity. The porch, the chancel, the vestry, and every place where sitting or standing room could be found was occupied, and large numbers went away, unable to get inside at all. The occasion was the deliverance of a discourse by the Rev. Mr. Bradshaw on the life and characteristics of the late George C. Rogers, whose melancholy death by drowning awakened such widespread sympathy and regret.

The rev. gentleman chose for his text part of the 15th verse of the 2nd chapter of Philippians:—"Blameless and harmless, the sons of God, without rebuke." While he referred in eloquent terms to the many good qualities of him whose sudden death is deplored by all, the audience was visibly affected, and many were bathed in tears. Once, and once only, did the speaker's voice waver and his feelings overcome him, although many times it was evident that he was compelled to exert his will to control his emotion. The following is a brief synopsis of the discourse, but it does not give in full the affecting eloquence of the sermon:—

These words, Mr. Bradshaw said, had been in his mind for several days—ever since the shocking occurrence on the 20th. By changing one word he would have a most appropriate text, "Blameless and harmless, a son of God, without rebuke." What words could better portray the character and life of him whose loss was deplored with heartfelt sorrow? They called to mind the special characteristics of their departed friend. He did not intend to dwell upon the meaning of these words, and it was not expected that he should do so on this occasion. He wished to pay a deserved, though feeble, tribute to one whose life had been a noble one—to place a simple wreath upon his yet nameless tomb. He was, without exception, the best specimen of a Christian gentleman he ever knew. In all their intimate intercourse there was nothing that he had ever said or done that he would now wish to have blotted out. Ever ready to lend assistance, his bright and cheerful countenance shone on all like a sunbeam. He was blameless as he was free from any wilful wrong. All who knew him knew that he was incapable of a dishonest act. Of course the shield of innocence was never quite so pure and clean that none would throw dust upon it. So long as Satan existed there would be slanderers; Christ himself was slandered. Still their dear departed friend was in the sight of many blameless. His goodness was not only a negative goodness. He was noted for his activity in doing his duty, and his readiness to take the burden of others upon himself. His far-reaching kindness and geniality were like the dews of God upon the opening flowers of life. Still it was easier to be blameless in man's sight than to be truly innocent in the sight of God. To be thus blameless was to enjoy a heaven upon earth. It might be asked, have any ever lived on earth like this? He believed they had; some had and all could do so. They had read of Melancthon, Whitfield, Howard, Henry Martyn, Bishop Patteson, and other beacon lights on holy hills, who had been shining examples, and had left the world brighter and better than they found it. Nor had they only read of such men; they had seen, loved, and valued them. They appreciated their gracious and modest worth; their souls had been refreshed by their delicate and genuine sympathy. They were *as constellations in* the heaven of Christian nobleness. It could be said of them that their hearts were pure and their hands clean. Their characteristics were truth, love of their fellow men, humility, and becoming modesty. They had received white robes, having come out of great tribulation, "therefore are they before the throne of God, and serve him day and night in his temple." Such was the character of him whom they then mourned, and they ought to be the better for his example. When they looked on such lives, and on what they had accomplished by the grace of God, some might ask, How can we do this, and leave behind such glowing recollections? They could do so by imitating Christ as they had done, by faith, by following the commands of God, and by drawing from Him strength. When they analyzed the character of their lost friend they found in him a firm conviction of the truths of revelation, a sincere faith in Christ, and a faithful use of the means of grace with which God offers to supply men. He was fervent in prayer, and obedient to the moral law. These by the Spirit's help made him brimful of holy deeds. He passed through life without harboring a doubt. He sought continually God's help in all matters of business and recreation, and he was a diligent student of the word of God. Many texts were penned down by him, and many of them were kept near his desk. The law of God was his ruling principle. He made the best preparation for death by faithfully using the means of grace, and living daily with it in view. Was not the world better for his existence? And might not his sudden and appalling death tend to glorify God? Never did an occurrence here awaken such widespread sympathy. It affected more or less the whole community, and the question was asked, "Oh, why was such a life cut off?" The ways of God were past finding out, but He said that what we knew not now we would know hereafter. It was too true that they allowed their selfish sorrow for their *personal* loss to swallow up the thoughts of the good things in the land where their friends had gone. They ought to think of the holier and lasting joys to which God calls His faithful servants. They should not forget that God may have far more need of his servants there than we have here. It might be that their alloted duty could wait for them no longer. The recognition of friends hereafter was dwelt too little upon. Those who had faithfully performed their duties here were called to higher duties. When rightly fitted for heaven God at once removes them there. They should not grieve too much, but rejoice that God had thought their friends worthy to enter heaven. Still day by day they missed the genial smile of their brother. They mourned because they needed him so much. There were so many hearts that needed a generous touch and there were so few hands like his. This earth was but for learning and for training, the true life work being yonder out of view. The speaker feared that he was delaying them too long, but his heart was full. The chief lesson they should learn was, to prepare to meet their God, so that when their hour had come they could say, "I am ready to depart and be with Christ." He besought them most earnestly to begin the work of preparation at once. The call to repentance might never be heard by them again. The voice which came from the swift current of the river said, "Boast not thyself of to-morrow." This should be warning to the ungodly and a spur to the Christian. They should let this awful shock speak to them, bidding all beware of delay. Life is short and death is near at hand; there is no time to be lost. Those who mourned should be cheered by the words of God. "Blessed are the dead who die in the Lord; yea, saith the spirit, that they may rest from their labours and their works do follow them."

EXHIBITION

The Show of Stallions and Bulls—The Prize Winners.

On Saturday afternoon an exhibition of stallions and bulls was held in the Agricultural grounds under the auspices of the West Riding of Peterborough Agricultural Society. The attendance of spectators was quite large, and there were fifteen entries of stallions and six of bulls. The stallions were divided into the following classes, eight general purpose, two roadsters and five heavy draft, and they comprised some very fine looking animals, there being no "scrub" horses in the collection. The exhibit of bulls, though not large, was a good one, the animals shown being superior. They were all of the Durham breed. arrangements for exhibiting the animals and judging them had been carefully made, for which Mr. Joseph Walton, the President, and the Committee of Management, Messrs. John Garbutt, James Campbell and Wm. Rutherford, deserve credit. Mr. John Sawers discharged the duties of secretary during the day with ability. Many were the expressions of gratification as those interested in these matters viewed the fine exhibit made, and the exhibition was certainly one of the best ever held here.

The following is the list of the prizes awarded:—

STALLIONS.

Roadsters.—1st, James Woods.

General Purpose.—1st, James McLarren, 2nd Montogomery & Hawkins, 3rd George Chalmers.

Draft.—1st, Wm. Fair; 2nd, Watson & Campbell, 3rd, Samuel Staples.

Judges.—Messrs. Thos. Blezard, Chas. Crawford and Thos. M. Willan.

BULLS

Two Years Old.—1st, Hugh Davidson; 2nd, Wm. Rutherford.

Yearlings.—1st, Henry Collins; 2nd, Joseph Trennum.

Judges.—Messrs. Jas. Redmond, Isaac Garbutt and Richard Taxton.

The Society have reason to congratulate themselves on the success of this exhibition.

THE PROHIBITION OF FISHING.

To the Editor of the Review.

SIR,—I notice in your last week's issue an extract from the *Gazette* respecting the closing of the Otonabee, Rice Lake and Trent waters for the propagation of fish. can you inform me is this entirely prohibitory, or will permits be issued as formally to those who wish to enjoy a day's angling now and then throughout the season?

PISCATOR.

Peterborough, April 30, 1883.

[We believe a limited number of permits are still allowed, but perhaps some of our legal friends or one of the fishery officials could answer this question more explicitly.—ED. REVIEW].

The Weather Probabilities.

The weather to-day is fine, though partly cloudy. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows:—Moderate winds, mostly east and south; fair weather; probably local showers to-night; stationary or slightly higher temperature.

The Great American Remedy for COUGHS, COLDS, ASTHMA, BRONCHITIS, LOSS OF VOICE, HOARSENESS AND THROAT AFFECTIONS.

Prepared from the finest Red Spruce Gum. (Delicious Flavor.) Balsamic, Soothing, Expectorant and Tonic. Superior to any medicine offered for all the above complaints. A scientific combination of the Gum which exudes from the Red Spruce tree—without doubt the most valuable native Gum for Medicinal purposes.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease. In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

GRAY'S SYRUP OF RED SPRUCE GUM.

In this preparation the Gum never separates, and all its antispasmodic, expectorant, tonic, and balsamic properties are preserved. This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

COMPLAINTS.

So far this season great complaints has been made by some of the merchants regarding trade. So General Report says. We admit that's true.

But our trade increased far beyond our expectations, and when other houses were making great complaints, we were quickly selling out large amounts of Dress Goods, Silk and Cashmeres, and our name spreading far and wide through Peterborough.

WHY IS IT?

Because customers are finding out the right place to buy their Dry Goods, and where every customer is served on the same terms.

WHERE IS THAT PLACE?

COMMITTED FOR CONTEMPT.

CORK, April 30.—O'Connor, formerly a prominent member of the Land League, was gaoled to-day because he declined to give evidence at a private inquiry in the case of several accused men.

NIHILISTS ARRESEED.

ST. PETERSBURG, April 30.—Eight officers, including a colonel, have been arrested on suspicion of being connected with the Nihilists. Sixteen officers were also arrested at Smolensk. It is stated a widespread military conspiracy has been discovered. Documents have been found at Smolensk showing that the coronation of the Czar will be undisturbed, but that something very serious will happen immediately after that event.

CONSPIRACY IN CLARE.

LONDON, April 30.—In the House of Commons Mr. Trevelyan said he believed a widespread conspiracy to murder existed in the County Clare. The Government hoped to bring tht conspirators to justice. Mr. ODonnell, member for Dungannon, accused Mr. Clifford Lloyd, a special magistrate, of altering depositions made on oath. He asked whether the Government would retain him in office. Mr. Trevelyan and Mr. Gladstone refused to answer. Mr. O'Donnell presented evidence, which he claimed would sustain the charge against Mr. Lloyd.

THE TRIPLE ALLIANCE.

BERLIN, April 30.—The *Post* ridicules the idea of securing peace by forcing France to disarm. It says France should be asked to join the triples alliance, also to abandon continental aggrandizement and devote herself to colonial enterprise.

AMERICAN.

GONE HOME.

NEW ORLEANS, April 30.—Diaz sailed for Mexico yesterday.

A STRIKE AVERTED.

PHILADELPHIA, April 30.—Seventy-five manufacturers have acceded to the demand of the cigar makers for an increase of pay. This will avert a general strike.

ATTEMPT TO ESCAPE.

TUCSON, April 30.—Joseph Casey and another prisoner in vain attempted to escape from jail. They shot Holbrook, the jailor. Holbrook died.

MURDER.

BOSTON, April 30.—Albert Beals, spice dealer Boston, shot and killed his partner, Trickett Pearly, on board the steamer Bristol early this morning. Beals was arrested.

THE PORT SAID RIOTS.

PORT SAID, April 30.—It is stated that the European residents were saved from a general massacre by the landing of the British sailors.

NEUTRALIZATION OF SWEDEN.

STOCKHOLM, April 30.—The Rigsdag by a large majority rejected the proposal for the neutralization of Sweden. The Foreign Minister declared all the powers were aware that the policy of the kingdom was purely defensive. He denied that there was a secret treaty between Sweden and Germany.

FEARS DIMINISHING.

BERLIN, May 1.—Despatches indicate much less fear than heretofore concerning any sensational tragedy likely to accompany the coronation of the Czar. The latter believes his officers efficient and trustworthy, and that the dangerous leaders of the revolutionists are all dead or in prison.

RELEASED.

DUBLIN, May 1.—Nevin, arrested on Saturday charged with conspiracy to murder, and who turned informer, has been released. It is believed that he knows nothing of any conspiracy.

A BRUTAL PRIZE FIGHT.

CHICAGO, May —A prize fight took place in the town of L..e, on Sunday, between John Kelly, of New York, and Rodney Cunningham, bartender for Alderman Appleton. It was a slugging match from the beginning. Eight rounds were fought in twenty-six minutes. Both men were dreadfully punished. Kelly had his face cut and his nose broken. Cunningham lost four teeth, and it is believed he had his skull fractured. The fight was awarded to Kelly. It is believed Cunningham will die. The police are in search of Kelly.

FIRE IN TEXAS.

WAXAHACHE, Texas, May 1.—Five buildings, including a grain elevator, were burned here. Loss, $40,000.

THE FLEMMING CASE.

How He was Taken from the Toronto Creditors—His Release and Liberty.

The Montreal *Witness* of April 27th contains the following account of how Flemming got free:

"The method by which Flemming, better known under the not over classic soubriquet of "Bucket Shop Flemming," got out of Toronto gaol and is now revelling in the sweets of liberty is somewhat interesting to note. Of the financial operations which brought the distinguished denizen of Uncle Sam's dominion to durance vile it is unnecessary to speak. They are already too well known. Detective Fahey, in working up the case and getting possession of Flemming's person, despite the efforts of a host of opposing *capiases*, writs and legal quibbles, proves that that officer has lost none of his old time astuteness. It appears that Mr. Fahey arrived at Toronto from Montreal on Wednesday night and at once conferred with one of the best known lawyers of the city and also with the detectives. He had previously had one of his own men in Toronto for some days watching the case. Flemming was in gaol on two Toronto *capiases* taken out it is alleged on the affidavits of lawyers. Fahey, knowing that a criminal warrant would take precedence or override any writ of *capias*, had obtained one, arresting Flemming on a charge of obtaining money under false pretences, and had placed it in the hands of the Governor of the Toronto gaol, with directions to serve it on his prisoner the instant the *capias* on which he was incarcerated should expire, and before any of the waiting *capiases* could be served. As the time approached for the *capias* to expire, Fahey, with two detectives, two constables and anther functionary of the law, got a carriage, drove to the gaol and presented an order from the Sheriff to deliver up the body of Flemming, who had just previously been arrested on the warrant. Flemming being produced, stepped into the carriage and the party drove rapidly to the police station where he was safely locked up till the time for the 5.45 night train for Montreal to start. He was then conducted by the constables to the railway depot, a large number of his friends following in carriages, and the whole affair being more like a state procession than what it really was. Arrived at the depot the prisoner's counsel and some more of his friends met him; also some lawyers and bailiffs on the opposite side armed with civil writs from different places ready to serve on him. These, however, were powerless for the reasons already assigned and Fahey placed his man in a pullman car and with several of the prisoner's friends who had joined them at the depot were soon steaming down the Grand Trunk for Montreal. Fahey had been previously advised legally that Flemming's doings in Montreal came under the Gambling Act of 1882, and the worst that could be done with him would be to deal with him for obtaining money under false pretences, or in accordance with the warrant which had taken him out of gaol. The detective was therefore probably anxious to make the best terms possible for the Montreal creditors than and there. On the train before reaching the city the friends of Flemming came to terms, what, have not exactly been ascertained, but it is understood that payment was handed over sufficient to satisfy all the victims of the man's operations in this city; at all events he was liberated on reaching Bonaventure depot last night and is now, doubtless, in "lands remota."

"Messrs. Wallace Smith and F. L. Loring, of Chicago, Flemming's lawyers, are here guests at the St. Lawrence Hall. They are to be entertained by the Montreal lawyers who went up on the train and settled the case."

ONE OF OUR BEST CITIZENS would say to the public that he has tried Hall's Catarrh Cure, and that it is all that is claimed for it. Price 75 cents per bottle. For sale by John McKee, druggist.

TUESDAY, MAY 1, 1883.

TRENT VALLEY NAVIGATION.

THERE seem to be two principal motives by which the *Globe* is actuated, one being a ceaseless animosity to the able administration which has replaced by the will of the people of Canada its own incapable friends, and the other its sympathy with that dog-in-the-manger selfishness for which Toronto is so notorious. On Saturday it was able to gratify both these evil propensities by publishing an attack upon the Trent Valley Canal. We all remember how Mr. Mowat prevailed upon Mr. Mackenzie to transfer the Trent works from the Dominion to the Province that they might be destroyed, so that their subservient partisan Mr. Ferris and some of his constituents might benefit themselves pecuniarily by filching from the public some drowned lands for which they had already been compensated, and how Mr. Mowat asked for an appropriation for their destruction. On the other hand we all remember how Sir Charles Tupper as Minister of Canals, with one of his colleagues, visited and inspected this great navigable route, so as to obtain personal knowledge of its advantages, and how the Macdonald Administration asked for a liberal vote for its construction, which is being pushed forward. And as to Toronto's selfish interest, we know how the foolish scheme for a useless canal from Lake Simcoe through the ridge to Lake Ontario, commonly known as "Capreol's Folly," has been pronounced if not inpracticable at least so enormously costly as to be out of the question, while the Trent Valley route, though its great advantages and its inexpensiveness have been shown by engineers of high standing, is condemned simply because it does not pass through Toronto.

As to the letter of "Observer" it is so false and so unfair that it is not strange that its writer, ashamed to affix his name to such a disgraceful effusion, skulks behind a *nom-de-plume* and hides the name of the locality he assumes to disgrace. He professes to have resided in the district for a quarter of a century, so either he must be wilfully making his false statements for a partizan end, or else this must, as is very probable, be a fresh instance of the *Globe's* circulating another of the forgeries, which seem so welcome to it and to some of its satellites, if they can thereby injure or obstruct their political opponents.

The first of these falsehoods in "Observer's" letter is contained in his query "How is that depth of water (five feet) to be got where its course goes through lakes whose depth is not even that, with solid rocky bottoms extending for miles"? Now the truth is that in the whole route there is not a single case of such an obstruction as is here described, and the writer must either be uttering a wilful falsehood or be utterly ignorant of the locality and of the engineers' reports.

He goes on to say that estimates of the probable cost have not been published and that if in existence they must be kept under lock and key by the Minister. Again he proves himself grossly ignorant or regardless of truth, for such estimates has been laid before Parliament, and have been widely republished in the press. They amount to $2,500,000, and the able engineer and efficient public officer who signed them has pledged his professional reputation that he could complete the whole work for less than three million dollars.

He describes last year's grant as being for a contract for works at Fenelon Falls, fifty miles from Lake Huron and a hundred miles from the Bay of Quinte. He omits to say that the Fenelon Falls works, with those at Buckhorn and Burleigh, placed under contract at the same time, will throw open a long stretch of this route, and will connect waters navigable for more than a hundred miles, and even already used by more than twenty steamers, besides other vessels.

Then he says that a great part of this year's vote will be absorbed in patching up old works and in surveys. Having the estimates before him he knew that there were separate grants for these repairs and surveys besides the whole amount required to complete the contracts above mentioned.

He questions the use of the route when opened, curtly dismissing goods and minerals from consideration. If he had the local knowledge to which he pretends, he would know that even on its present disconnected portions heavy goods and minerals are already largely carried, and that the opening of the whole route would give an enormous impetus both to mining and manufacturing, with additional calls for transport. As to his contention that the route would not be serviceable for grain, it offers unbroken cheap barge navigation all the way from the Georgian Bay to the sea-going ships in the St. Lawrence ports: it shortens the distance several hundred miles, and it avoids the dangers of Lakes Huron, St. Clair, Erie and Ontario. As for the transhipment required, it is acknowledged to be beneficial, and by this route there would be no such cases as have been known to occur at Liverpool on board vessels by the longer route, when the grain has had to be dug out with spades. It is the very route required for the the grain of Manitoba and the Northwestern territories, which would secure cheap water carriage from the Thunder Bay terminus of the Canada Pacific. As to the National Policy, we really cannot see what it has to do with the carriage, by this route, of grain from the Northwest, or even from Chicago, if bonded, as it would be.

After some more absurdities and misstatements in regard to the carriage of grain, "Observer" proceeds to refute his own arguments by observing that "by the State of New York coming to the assistance of the Erie canal, it will in the future be a more formidable competitor for that trade than it has heretofore been." There could not be a stronger argument in favor of the Trent Valley Navigation. It alone can effectively aid our St. Lawrence ports in their competition with New York. "Observer" must be an ignoramus indeed if he does not know that the Erie canal carries more grain into New York than all its railways put together. And yet the Erie with its ditch like canal, cramped space, numerous locks (76), and scanty supply of water, is not to be compared, for an instant, to the Trent Valley route with its magnificient deep and open lakes and rivers with short connecting links of canal, and its superabundance of tributary waters at its highest level.

We need not notice the manner in which this shameless perverter of the truth scatters throughout his letter attacks upon the statesmen chosen by the people to manage their affairs, or the policy they have adopted—they only show the animus and object of this disgraceful production. We, however, heartily agree with the writer in desiring the keenest investigation, for the more this route is investigated so much the more must it be appreciated. It is rather ludicrous however to appeal to Mr. Mackenzie on account of "his intimate knowledge of public works," when he showed that knowledge in the House by exaggerating the estimated cost of the work sevenfold, and in his office by giving it to Mr. Mowat to use as a means of bribery. We hope that the Opposition will ventilate this subject, as it may aid the friends of this route in procuring a further grant in the supplementary estimates this year for opening another section.

THE Belleville *Ontario* says, and the Hamilton *Tribune* gladly quotes it:—

"Had the tables been turned, and the Reformers accused of what the correspondence reveals, the sanctimonious editor of the REVIEW would have jumped at the chance to publish the documents."

When it has been shown that we have stolen and forged, that we have been leagued with thieves and forgers, or that we have justified and availed ourselves of their crimes, it will be quite time enough for those who have done so to assume that the REVIEW would be equally criminal in similar circumstances. If it is "sanctimonious" to denounce theft and forgery we must admit the impeachment.

BELLEVILLE.

A STRANGE STORY.—The *Intelligencer* of Friday says:—"About three o'clock yesterday afternoon, Harvey Cronk, with one of his livery rigs, started to take a lady and gentleman to Tweed. About six o'clock, as the train from Peterborough was passing the locality above Corby's mill, Cronk found himself on the roadside, but how he came there he does not know. The team and waggon, and the lady and gentleman could not be seen, and he does not know where they are. He walked to Corby's and telegraphed for a rig and afterwards went on foot to Canifton and was then brought home, and is now in bed. He complains of occasional severe pains about the head, but otherwise he is uninjured."

A Reliable Witness.

Mr. Whyte, late proprietor of the Mansion Saloon, King street, Toronto, writes as follows about Dr. Carson's Stomach and Constipation Bitters: "I have used Dr. Carson's Stomach Bitters for nearly four years, and I believe it to be the best medicine in the world. I would not be without it for anything. I have induced scores of people to try it, and when taken according to directions, I have never known it to fail. I call the Bitters, "The Doctor." It has certainly been my family doctor ever since I first used it, and will continue to be as long as it acts the same as hitherto. I strongly advise all my friends and the public generally who suffer from any affections of the Stomach, Bowels, Liver or Blood, such as Dyspepsia, Indigestion, Liver Complaint, Headache, Dizziness, Costiveness, Impurities of the Blood, Rheumatism, Neuralgia, etc., to buy a bottle of 'The Doctor,' and I am certain that not one will regret having done so. I do not think there is any medicine in the whole world equal to Dr. Carson's Stomach and Constipation Bitters." [Signed] JAS. WHYTE.

SULPHOLINE LOTION.—An EXTERNAL MEANS of CURING SKIN DISEASES.—There is scarcely any eruption but will yield to "Sulpholine" in a few days, and commence to fade away, even if it seems past cure. Ordinary pimples, redness, blotches, scurf, roughness, vanish as if by magic; whilst old, enduring skin disorders, that have plagued the sufferer for years, however deeply rooted they may be, "Sulpholine" will successfully attack them. It destroys the animalcule which cause these unsightly, irritable, painful affections, and always produce a clear, healthy, natural condition of the skin. "Sulpholine" Lotion is sold by most Chemists. Bottles, 2s. 9d.

SULPHOLINE LOTION, a FLUID peculiar in itself, is the most potent enemy to all Skin Disorders. Nothing like Sulpholine has ever before been produced, nor is there anything else in the least degree comparable for its Healthy Action on the Human Skin.

SULPHOLINE LOTION.—The first idea of Sulpholine was taken from a prescription of the late Dr. Startin, and every year it is [illegible] more and more [illegible]. Anyone, however deeply and [illegible] afflicted with Skin Disease, should apply Sulpholine as quickly as possible. [illegible] the effect will become apparent in a diminished appearance of the malady, a growing tendency to fade away, and complete obliteration of the eruption.

SULPHOLINE LOTION.—BOTTLES CONTAINING NEARLY HALF A PINT.—SOLD BY CHEMISTS EVERYWHERE. Made in London, Eng.

Sold by Chemists and Medicine Vendors throughout the world. Prepared by Jas. Rorke, London. Specially valuable Pills for residents abroad and travellers.

PEPPER'S QUININE and IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, recruits the health. For debilitated health from the effects of hot climates this tonic is invaluable.

PEPPER'S QUININE and IRON TONIC rouses and developes the nervous energies, enriches the blood, promotes appetite, dispels languor and depression, fortifies the digestive organs. Is a specific remedy for neuralgia, ague, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic; the mental faculties brightened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 32 doses, 4s. 6d.; next size, 11s. Sold by chemists everywhere. The name of J. Pepper, Bedford Laboratory, London, must be on the label. There is no Tonic so certain in effect as Pepper's Quinine and Iron. It is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM and PODOPHYLLIN.—Prepared only by J. Pepper, London. This Fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally pain beneath the shoulders, head-ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It sets the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a fluid made only by J. PEPPER, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6. Sold by all Chemists. A most valuable and essential medicine for India, Australia, the Cape, and Colonies generally.

TOWN COUNCIL MEETING

THE ESTABLISHMENT OF A HOSPITAL OR HOUSE OF REFUGE DISCUSSED.

Town Trust Commissioner Appointed—The Alarm Bells—Grant to the Band—Report of Finance Committee—Charge Against a Councillor—Charity Matters—The Hall Poor Trust—Communications, etc.

A special meeting of the Town Council was held at 7.15 o'clock on Monday evening.

PRESENT—His Worship the Mayor, and Councillors Paterson, Sawers, Yelland, Douglas, Rutherford, Menzies, McNaughton, Hartley and Davidson.

TOWN TRUST COMMISSION.

The MAYOR explained why this special meeting had been called.

Councillor RUTHERFORD moved, seconded by Councillor YELLAND,—That Walter Paterson be and is hereby appointed a Commissioner of the Town Trust in the place of Wm. Toole.—Carried.

Councillor PATERSON, although he had not aspired to the position, thanked them for the honor they conferred upon him.

The Council then adjourned.

THE REGULAR MEETING.

The Council met again at twenty minutes to eight, there being present, besides those previously mentioned, Councillors Cahill and Kelly. Mr. Henry Collins, Reeve of North Monaghan, was present, and was invited to take a seat beside the Mayor.

The minutes of the last regular meeting were read and confirmed.

COMMUNICATIONS.

From Geo. T. Leonard, asking for the remission of his statute labor tax.—Court of Revision.

From R. Fitzgerald and others, W. J. Mason, B. Shortly, A. White and others and D. G. Lundy and others, asking for street improvements.—Street and Bridge Committee.

From John Cameron, asking for street scrapings.—Granted 25 loads.

From Lewis Spry and thirty-five others, asking that the Cow By-law be strictly enforced, and that it be so amended that the owners of stray cows could be fined.—Committee on Appointment, with power to draft a by-law.

From Toker & Co., presenting an account for $57.75.—Finance Committee.

A HOSPITAL AND REFUGE.

A deputation, composed principally of ladies, having come into the Council Chamber, they were asked to present their views.

Gen. HAULTAIN said that he had been requested by the ladies of the Protestant Home to assist them in bringing to the notice of the Council the necessity for a hospital or some such institution in Peterborough. The ladies were often pained at having to refuse admittance to suffering poor persons, who had no place to resort to, because they lacked means and accommodation. Any one who had given the matter a moment's thought must have come to the conclusion that such an institution was necessary. He had known many cases of men coming in from the railway camps wounded, and keepers of boarding houses had taken them in, and had been put to trouble and expense, and had not been remunerated by the Council. Common justice required that the Town and County should make some provision for such cases.

Councillor MCNAUGHTON.—How much does the Protestant Home receive from the Hall fund?

Councillor YELLAND said that had nothing to do with the question. Sometimes the Home received more from that fund than at others.

Gen. HAULTAIN said that at present the Home received nothing from the Hall fund.

Councillor YELLAND said that the fund was not realizing as much as was expected on a mortgage on property at Buckhorn. A great many persons had withdrawn their subscriptions from the Home since assistance had been given from the Hall fund, which was very wrong, and they should renew them. A hospital or something of that kind was needed. It was not a crime to be poor, and he did not like to see poor persons sent to the gaol, as was done now. A committee might be appointed to devise a plan.

The MAYOR said that persons were constantly coming to him for assistance, which he was unable to give. The sooner they provided some place for these persons the more to their credit.

Councillor RUTHERFORD said that something like $600 had already been expended in charity this year, and something must be done. A proposition had been received from the County Council in reference to a House of Refuge, and the joint committee should consider it.

Mr. COLLINS said that he had come expressly to get an understanding from the Council as to what they would do in reference to a House of Refuge. He gave the history of the matter so far as the County Council was concerned. He was the Chairman of the Committee appointed by that Council, and he asked them to appoint their own time to meet in Committee, and discuss the matter.

Councillor MCNAUGHTON challenged Councillor Rutherford's statement that $600 had been spent in charity this year. He had only given out orders for $7.25.

The CLERK, in answer to Councillor Rutherford, said the expenditure on charity this year had been $608.

Councillor SAWERS said the Committee had only expended $1.25. Orders for paying the taxes of poor persons, passed by the Council, were charged to that Committee.

Councillor PATERSON said he understood that the deputation wished the Council to establish a small institution to meet the present needs of persons who could not get in the Home. A House of Refuge was in need of more consideration.

Councillor CAHILL said that if anything of that kind was to be done it would be better to adopt the larger scheme at once, which would meet the wishes of the ladies, as no doubt a hospital would be connected with it. He moved, seconded Councillor DAVIDSON,—That the propriety of establishing a house of refuge, or hospital as proposed by the ladies of the Protestant Home, be referred to a special committee to report of this Council, such Committee to consist of Councillors Menzies, Rutherford, Yelland, Paterson and Kelly, with power to add to their numbers, and also to meet with the committee appointed by the County Council for a similar purpose.

Dr. CLARKE was heard, and said that the necessity for a hospital was apparent, and that medical services were usually given to such institutions free of charge.

Mr. COLLINS said that it was proposed to have thirty or forty acres of land in connection with the home, and it was expected that it would be comparatively self-sustaining.

The motion was put and carried.

The MAYOR thanked the ladies for their attendance, and the deputation withdrew.

FINANCE COMMITTEE.

Councillor PATERSON read the report of the Finance Committee, as follows:—

To the Mayor and Councill of Peterborough:—

GENTLEMEN,—The Finance Committee beg to report and recommend the payment of the following accounts:—

T. Cavanagh	$15.00
Times Printing Co	21.50
Adam Hall	120.00
R. N. Roddy	7.00
Gas Company	25.00
Gas Company	17.70
J. E. Belcher	45.00

The Committee cannot entertain A. Sperry's account, but recommended that the balance unexpended out of the appropriation for a sidewalk between th town and North Monghan of $2.50 be paid him.

All of which is respectfully submitted,

W. PATERSON, jr.,
Chairman.

Mr. HAZLITT was heard in reference to an account for lumber for the Smith street bridge, and after some discussion it was referred to the Finance Committee with power to act.

Councillor SAWERS moved, seconded by Councillor MCNAUGHTON,—That the report of the Finance Committee be amended by omitting the recommendation to pay the accounts of A. Hall and R. N. Roddy; that the account of A. Hall for alarm bells be not paid until the Chief Constable reports as to the said bells being good and proper ones, and that as the account of R. N. Roddy is in connection with the building of the stable for the town, it be not paid.

Councillor SAWERS said the bells were a disgrace to the town, and not much better than cow bells, and that Mr. Roddy's account was an extra in connection with the stable.

Councillor PATERSON said that the bells were ordered by the Council. They had been taken off Mr. Hall's hands, and he did not see how the Council could refuse to pay for them.

Councillor MENZIES said the bells sounded like old pots. They ought to blame themselves for taking them without trying them, and he suggested that they try to get them exchanged.

Councillor MCNAUGHTON said that he told the Council when they were ordering the bells that they could not get good ones for $40. He had voted against purchasing them and was proud that he had done so. The bells had cost altogeter about $190, with another account to come in which would bring it up to $200, and this amount was thrown away to give work to friends.

Councillor HARTLEY thought it too late now, when the bells had been used, to refuse to pay for them.

Councillor RUTHERFORD said the bells were just exactly what they were told they would be, and were such as were used in cities in the outskirts. It was necessary that the bells should have a peculiar sound, so that they could be distinguished from other bells. They were as good as could be expected for the money. The West Ward bell had been heard by Mr. Menzies in his shop, and the North Ward bell had been heard at the corner of George and Hunter streets. The purchase of the bells had been sanctioned by the Council.

Councillor DOUGLAS said that, as the bells had been taken off Mr. Hall's hands, they should be paid for.

Councillor CAHILL said that he did not know personally whether the bells were as ordered, but if they were they could not blame Mr. Hall. If they were not satisfactory it would be wise to have them changed. Mr. Roddy's team had worked for the corporation, and they would have to pay him. In the plans for the stable they made no provision for a cellar, and after work was commenced they wisely decided to have a cellar, a conclusion they should have come to at first. When the matter was before the Council he had urged delay, and if they had considered it more this difficulty would have been avoided.

Councillor KELLY said it was useless to talk of changing the bells, as they had been purchased in the United States, and duty had been paid on them, and duty would have to be paid on them going back again.

Councillor YELLAND would like to know what it had cost to put up the bells.

Councillor SAWERS said he had found an account in the Treasurer's office for $55.01 for putting up the bells, which had been paid on the certificate of the Chairman of the Fire Committee, but had not been passed by the Committee or Council. It was a monstrous charge.

The amendment was put and lost, and the report was adopted on the following division:—

YEAS.—Councillors Cahill, Davidson, Kelly, Paterson, Yelland, Douglas, Rutherford, Menzies and Hartley.

NAYS.—Councillors McNaughton and Sawers

GRANT TO THE BAND.

Councillor PATERSON moved, seconded by Councillor RUTHERFORD,—That the Fire Brigade Band be paid the annual grant of $150, to be paid quarterly.—Carried.

SIDEWALK WANTED.

Councillor HARTLEY moved that a sidewalk be laid down on Aylmer street, from Edinburgh to Antrim street, but the point of order that the motion required notice having been raised, the matter was referred to the Street and Bridge Committee.

RAILWAY CROSSINGS.

Councillor RUTHERFORD moved, seconded by Councillor MENZIES,—That the Town Clerk be instructed to take steps to have the proper authorities of the Ontario and Quebec Railway submit to this Council plans and profiles of proposed railway crossings on all streets that they will require to cross in the town of Peterborough.—Carried.

THE FIRE STABLE

Councillor SAWERS moved, seconded by Councillor MENZIES,—That whereas it has been brought to the notice of the Council that Councillor Rutherford has an interest in or sub-contract under the contract for building the stable at the rear of the town engine house, and also that that the contract price for said stable is nearly double what it should be; it is resolved, that the Judge of the County Court be requested to investigate the matter and to report to this Council as follows:—

1st. Whether or not Arthur Rutherford, a member of this Council, has the contract for the building of said stable, notwithstanding that the same has been entered into in another person's name.

2nd. Whether or not he has any interest in said contract.

3rd. Whether or not he has a sub-contract under said contract, and if so, the terms thereof.

4th. Whether or not he has any interest in any sub-contract for the building of said stable.

5th. Whether or not he has supplied any material for said building, and if so what material.

6th. Whether the contract price for said stable is a reasonable or unreasonable one.

It is also resolved that Councillors Cahill, Paterson, Yelland and Denne be a special Committee to take charge of said investigation.

Also that the Treasurer do not pay any more money on said contract until the said judge shall have made his report.

Councillor SAWERS said that the matter of the stable was first brought up by Councillor Rutherford and hurried through the Council. At the committee meeting, after tenders had been asked for, one tender was received. He suggested that it should be further considered, but Councillor Rutherford was anxious to put it through. He asked Councillor Rutherford, not being a builder himself, if he he thought the price was a fair one, and he replied that it was. Others had told him since that $800 should be the outside figures for the work. It had been stated by some that Councillor Rutherford had an interest in the contract, and by others that he had a sub-contract for the carpenter work. This had been spoken of in the streets, and if it was untrue Councillor Rutherford should be exonerated; if it was true he should be punished.

Councillor DOUGLAS said that the names of the parties who made the charges should be given.

Councillor MCNAUGHTON said he did not care who did the work so long as it was done properly, but it was wrong for a Councillor to do work for the Council. He could not say that Councillor Rutherford was doing so, but he was drawing material to the stable, and his men were working there, and it looked bad. He complained of the way the stable was laid out, and wondered at any carpenter putting up such a botch of a job. The ceiling was made of knotty lumber.

Councillor SAWERS said that if Councillor Rutherford denied that he had the contract for the carpenter work he would give the names of those who said he had.

Councillor PATERSON said that a denial of that was not necessary. It was not wrong for a Councillor to take a contract from Mr. McNamara. The Town Engineer had drawn the plans, and they were submitted to the Council and adopted by it. It would be child's play to ask the judge to hold an investigation on the strength of a mere street rumor.

Councillor MENZIES said that Councillor Rutherford told him that he had the sub-contract for the carpentering, and he had a perfect right to take a sub-contract from Mr. McNamara. One might as well say that a member of the Council could not supply hardware to Mr. McNamara for the building.

Mr. MCNAMERA was heard, and said that the work was well done. The Town Engineer visited the building once or twice a day, and nothing could go wrong without him noticing it. He had made up the estimate for the building himself.

Councillor HARTLEY said that if there was anything wrong about the plans the contractor was not to blame. It was no time after the building was completed to say that they were paying too much for it. The work, so far as he could see, was all right. Councillor Rutherford had a right to take the sub-contract. Sub-contracting was an every-day occurrence in building operations. Mr. McNamara was the man the Council had to look to.

Councillor KELLY said the charge was not against the contractor, but against Councillor Rutherford. As far as he could see they had nothing to do with Councillor Rutherford. He regretted, however, that Councillor Rutherford, while Chairman of the Committee, had taken the sub-contract.

Councillor RUTHERFORD said that when he took the sub-contract it was arranged that the town engineer should oversee the work and see that it was done properly. Councillor Sawers was on the Committee which directed him to recommend the acceptance of Mr. McNamara's tender.

Councillor SAWERS said he would like to ask Councillor Rutherford whether he gave Mr. McNamara figures for the carpentering work before the contract was let.

Councillor RUTHERFORD declined to answer.

Councillor SAWERS.—Did you arrange for the sub-contract before the contract was let?

Councillor RUTHERFORD.—No, sir. I did not.

Councillor CAHILL said that he supposed that all was accomplished now that could be by the motion, and as an investigation by the judge would cost considerable, he hoped the motion would be withdrawn. At the same time he thought it would have been better if Councillor Rutherford had had nothing to do with the building, as he could not so well guard the interests of the town. He hoped that this would be a lesson to them not to hurry matters through the Council.

Councillor KELLY also asked that the motion be withdrawn.

Councillor SAWERS said he would do so if Mr. McNamara would consent to leave the price to be paid for the building to arbitration.

The motion was then put and declared lost.

ORDERS FOR CHARITY.

Councillor PATERSON moved, seconded by Councillor YELLAND,—That the Treasurer be and is hereby authorized and instructed to pay all orders for charity of the Chairman.—Carried.

THE HALL POOR TRUST.

Councillor SAWERS moved, seconded by Councillor MENZIES,—That whereas it has been stated here to-night by Councillor Yelland, a member of the William Hall Poor Trust, that the poor of the town are not getting the interest on the $30,000 bequeathed to them by the late Wm. Hall, by reason of some securities held by the Trust not being sufficient security for the amount advanced, it is resolved that the Clerk request the officers of the Trust to advise this Council, as representing the people of the town, the reason why the poor are not getting the interest on the $30,000, and also to furnish this Council with a statement of the securities held by the Trust with the valuation placed upon them at the time the money was advanced and the present value of the same.

Councillor KELLY thought they had no right to ask such questions.

Councillor YELLAND said a report was given every year how the funds were expended, and they would soon have this year's report.

Councillor SAWERS spoke in favor of the motion. The town was interested, as if this assistance was withdrawn from the poor they would have to make it up.

Councillor DOUGLAS said that he understood that Mr. Hall did not sign the will and that it was only by the good will of the heirs that the money was given at all. They should be thankful for the gift and ask no questions.

Councillor MENZIES thought there would be no harm in asking the questions.

Councillor YELLAND said that the managers of the Trust were doing the best they could, and they managed their business better than it was managed in the Council.

The motion was lost on the following division:—

YEAS—Councillors Sawers and Menzies.

NAYS—Councillors Davidson, McNaughton, Kelly, Paterson, Yelland, Douglas, Rutherford, and Hartley.

The Council then adjourned, at 10.30, for two weeks.

Daily Evening Review

TUESDAY, MAY 1, 1883.

POLICE COURT.

A TEST CASE.

TUESDAY, May 1.—Mr. Wm. Fairweather was charged by P. C. Pidgeon with obstructing the sidewalk in front of his store, on Saturday last, by placing packing boxes on Simcoe street.

The case was proven, and the defendant was fined $2 and $2.75 costs.

The MAGISTRATE remarked that Mr. Fairweather's case was a test one, and should be a warning to all of our merchants.

To-Night.

A meeting for young men will be held in the Young Men's Christian Association Rooms this evening, at which an address will be delivered by Mr. T. S. Cole, Dominion Secretary. His subject will be "Escape for Thy Life."

Licenses Granted.

At a meeting of the License Commissioners for the West Riding of Peterborough, held on Monday afternoon, a tavern license was granted to Mr. J. B. Dunn and a shop license to Mr. George Schneider.

The Prohibition of Fishing.

We find in the Port Hope *News* the following paragraph, which gives the information required by "Piscator" and others :—

"In response to the numerous requests of Mr. C. Gilchrist, Rice Lake has been set apart for the propagation of fish. No one can fish there now without a written permit from Mr. Gilchrist."

Vital Statistics.

The number of births, marriages and deaths registered with the Town Clerk, Division Registrar, for the month of April, are as follows :—

Births	17
Marriages	4
Deaths	15

Weaving.

Mr. John Stewart, carpet weaver, on Murray street, rear the Union school, must be doing a lively business with his looms. He received the other day two beams of coloured carpet warp from St. John, New Brunswick, each beam containing half a mile of the warp, to be used in the manufacture of rag carpets.

The Weather Probabilities.

The weather to-day is clear, fine, and warm. The weather probabilities for the next twenty-four hours, as reported from Toronto at 1 a. m. to-day, by the Great North Western Telegraph Company, are as follows :—Fair to cloudy weather, with moderate to fresh winds ; not much change in temperature.

Vestry Meeting.

The adjourned vestry meeting of St. John's Church was held on Monday evening, when Mr. Pousette, the financial churchwarden, having sufficiently recovered from the effects of his accident to be able to attend, presented the accounts for the past year, which were referred to the auditors to report to an adjourned meeting. Messrs. R. A. Morrow, W. Sherwood and C. H. Sheffield were appointed to act with the churchwardens as a finance committee.

Preserve the goods you put into your refrigerator, by ordering your Ice at Town Clock Grocery.

Railway Notes.

The noon Midland train was an hour late to-day, having been detained by the Grand Trunk. The Grand Junction train was half an hour late.

The Port Hope *Guide* says that an order has been issued by the Midland Railway authorities to move Mr. John Atkinson, the Assistant Superintendant, and Mr. Casey, Train Dispatcher, to Peterborough. That paper says that Mr. Atkinson will be missed from that town.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

A special meeting of the Young Men's Christian Association was held in the rooms on George street on Monday evening, to consider the question of the employment of a paid Secretary in furtherance of the work of the Association.

The Dominion Secretary, Mr. T. S. Cole, was present and stated the advantages of having a Secretary, and practically and forcibly presented the matter.

After a discussion, in which several members took part, the following resolutions were passed :—

Mr. JEFFERS moved, seconded by Dr. CLARKE,—That it is desirable that we secure a paid Secretary, provided that we can secure the necessary guarantee for the sum of $600.

Mr. BEST moved, seconded by M. GRUNDY.—That the subscription list be opened to-night.

The subscription list was accordingly opened, and the sum of $180 was subscribed.

A vote of thanks was passed to Miss Brooks for her services as organist during the past year, and the meeting adjourned.

Board of Education.

A regular meeting of the Board of Education will be held this evening at 7.45 o'clock at the Board Room.

Personal.

Mr. T. S. Cole, Travelling Secretary for the Young Men's Christian Association, is in town, and is assisting in the endeavours to place the Association here in a better position.

Social.

A social entertainment will be given on Tuesday evening, May 8th, under the auspices of the Young People's Association of St. Andrew's Church, in the school room of the Church. Tickets 25 cents, to be had from members of the Association.

The Plate Glass Slaughter.

By a very thoughtless act the plate glass in one of the windows in the store of Messrs. T. Dolan & Co. was broken on Monday evening. A young man saw a friend going up the street on the west side, and threw a stone towards him. It bounded on the ground or sidewalk and struck the window in a lower corner, breaking a large piece of glass out. He now regrets his thoughtless action very much, and this should prove a warning to all, if such a warning is needed, not to carelessly throw stones where they are liable to do damage.

Journalistic.

The Hamilton *Daily Spectator*, which was already one of the best and most ably conducted of Canadian journals, having no superior outside our capital cities, has just adopted a marked improvement. It has enlarged its size, has procured an entire new dress of clear type, and has adopted a "make-up" which does fuller justice to its excellent contents. We congratulate our contemporary upon its efforts to keep well in the front in the race with its competitors, and hope that it will continue with even greater efficiency its valuable services in behalf of good government and the advancement of Canada.

Stoves for the C. P. R.

Not only do Peterborough manufacturers directly benefit by the National Policy, but they are also benefitting by the Canada Pacific railway contract. Mr. Adam Hall is at present engaged in filling an order for fifteen stoves, and the furniture connected with them, received from the Canada Pacific Railway Company, the order having been sent to him from Montreal. The stoves are to be sent to the Spanish River depot. This order speaks well for the stoves manufactured by Mr. Hall, and as the quality and value of his stoves become better known, and their reputation appears to be spreading, his business will no doubt largely increase.

Depredating Indians Fleeing.

VICTORIA, B.C., April 26.—The Chillicoatin Indians after murdering two Chinese, stealing several horses, and threatening to kill two white settlers, have taken to the hills, pursued by fifty armed settlers and a number of Indians who profess friendship. The band is small, and the disaffection is not widespread.

A SPRING MEDICINE. During the winter months the system accumulates poisons which become dangerous as the warmer weather sets in. Do yourself the justice to take one bottle of Fountain of Health to cleanse the blood.

JOHN HODKINS, 325 Wilton Avenue, Toronto says ;—"I have been able to discontinue tobacco by using Fountain of Health, and feel much better every way. It has also cured two of my daughters of Dyspepsia."

BRET HARTE in one of his charming sketches tells of a schoolmistress who was accustomed to to take long walks in the pine woods of California for the benefits of the balsamic air. There is more in this treatment than most people will be inclined to credit. We see the pines and spruces have been brought into requisition in the cause of medical progress. GRAY' SYRUP OF RED SPRUCE—a thoroughly scientific preparation—provides this treatment in a concentrated form, and has, after twenty years test, proved itself the most satisfacrory cure extant for Coughs, Colds, Lung and Throat Affections. Price 25 and 50 cents per bottle.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SULPHUR AND IRON BITTERS costing only 50c. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and defer the evil day sometimes indefinitely.

SULPHUR AND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any medical compound known to the medical faculty.

RED
SPRUCE
GUM.

Every one has heard of the wonderful effects of the Spruces and the Pines in cases of Lung Disease.

In France the physicians regularly send their consumptive patients to the pine woods and order them to drink a tea made from the Spruce tops.

In this preparation the Gum never separates, and all its anti-spasmodic, expectorant, tonic, and balsamic properties are preserved.

This Syrup, carefully prepared at a low temperature, contains a large quantity of the finest picked Gum in complete solution.

Its remarkable power in relieving certain forms of Bronchitis, and its almost specific effect in curing obstinate hacking Coughs, is now well known to the public at large.

Sold by all respectable chemists. Price, 25 and 50 cents a bottle.

The words "Syrup of Red Spruce Gum" constitute our Registered Trade Mark, and our wrapper and labels are also registered.

WEDESDAY, MAY 2, 1883.

POLICE COURT.

DRUNK.

WEDNESDAY, May 2.—Charles Gray was charged by P. C. Pidgeon with having been drunk in a public place. He said he had a sore leg and laid down, but admitted having been drinking. As it was his first appearance in Court, he was allowed to go, with a warning not to appear there again.

INJURING PROPERTY.

George Blakely was charged by Richard Purser with wilfully and maliciously breaking down a fence, connected with the latter's hotel in Lakefield. He pleaded not guilty.

Mr. H. H. Smith appeared for the complainant and Mr. George Edmison for the defendant.

The defence was that the fence was not on the property leased by Mrs. Purser from the defendant's mother.

The charge was proven, and a fine of $5 and costs imposed, and Blakely was bound over to keep the peace.

Railway Notes.

While the men at Mr. Rogers' mill, Ashburnham, were moving there cars this morning on the track that runs down from the Grand Junction to the mill, they narrowly escaped a serious accident. Three men were at the brakes, one each car, but the brakes did not take effect, and the cars ran with great force against a piece of timber on the end of the track next the street, breaking two timbers on which the rails are laid. The end of the track was lowered on to some timber, and nearly threw the cars into the street. Men are at work reparing the damage.

I have also exclusive sale of the Maltese Cross brand Boots and Shoes in Peterborough, the best in the market. J. McAleer.

PLEADED GUILTY.

DUBLIN, May 2.—Pat. R. Delaney and Thomas Caffrey, charged with participation in the murder of Lord Frederick Cavendish and Mr. Burke, were arraigned this morning. They created a sensation by pleading guilty. Both were sentenced to be hanged on the second of June.

EXPLOSIVES AT LEICESTER.

LONDON, May 2.—William Mitchell was arraigned at Leicester this morning on a charge of having explosives in his possession, apparently with an an unlawful object. A policeman stated that the prisoner had four pounds of nitro-glycerine. Mitchell declared that the explosives were merely for blasting cartridges. He was remanded for a week. It has been feared that the Leicester public buildings were in danger, and they have been specially guarded.

THE WRONG MAN.

LONDON, May 2.—The man arrested at Northampton last week on suspicion of being a manufacturer of nitro-glycerine, to be used for unlawful purposes, has given a satisfactory account of his operations.

AMERICAN.

A WRESTLING MATCH.

NEW ORLEANS, May 2.—An exhibition wrestling match took place last evening at Spanish Fort, between Muldoon and Baner. The former had engaged to throw the latter five times in an hour. Muldoon won four falls in 17 minutes and Baner withdrew. Muldoon was thrown once.

PARTY UNITED.

NEW YOK, May 2.—The *Herald's* Philadelphia despatch says that a platform has been agreed upon by the Republican, Stalwart and Independent factions in the state for a union of the party.

A FATAL FALL.

NEW YORK, May 2.—Thomas Daly, while walking early this morning, fell from a roof and was killed.

POLYGAMY.

SALT LAKE, May 2.—Recently O. F. Due, a Mormon, brutally treated his wives. The Mormon police arrested Due, who was discharged by a Mormon justice. A woman on Monday went before a United States court and charged Due with polygamy. Due was held on $15,000 to await the action of the Grand Jury. The dissatisfied wife, her sister, and another wife were placed under bonds as witnesses. This is one of the remarkably few cases where a Mormon woman has entered a complaint against her husband.

ADVANCE GRANTED.

NEW YORK, May 2.—Several forms have granted the Cigar markers advance.

THAT SCANDAL.

BROOKLYN, May 2.—Mrs. Johnson says her husband is madly, blindly jealous, and that he struck and abused her. The friends of Hegley do not believe that he has been guilty of impropriety.

A CYCLONE.

SAVANNAH, May 2.—A furious cyclone passed east of the city on the Atlantic yesterday. At Tybee the wind was ninety miles an hour. The tide rose unusually high. The storm is going north-east and may possibly strike New York. No damage is yet reported.

HEAVY DAMAGES ASKED.

BROOKLYN, May 2.—A suit for $100,000 damages for alienation of his wife's affections, has been begun by Eli Johnson, a well-known temperance speaker, against Henry Hegley, a prominent member of Plymouth Church. Johnson's wife is also well known in temperance work. Johnson alleges undue intimacy between his wife and Hegley while Johnson was absent. Hegley also has been interested in in temperance work.

TROUBLE ON ACCOUNT OF COLOR.

BALTIMORE, May 2.—The Rev. J. H. Riddick, a well-known colored Methodist clergyman, complains that the manager of the Viaduct Hotel, at Relay Station, refused to let him have breakfast on account of his color, and when Mr. Reddick remonstrated he ejected him. The manager denies that he refused to allow Mr. Riddick to have breakfast, and says the latter made himself very offensive.

RECEIPTS DIMINISHING.

WASHINGTON, May 2.—The Government receipts for the past ten months were over five millions short of those of the corresponding period last year. The receipts for April were eight millions less than those of April last year.

DEMOCRATS ELECTED.

ST. PAUL, May 2.—The entire democratic city ticket was elected yesterday. The Republican Convention endorse the principal democratic nominees.

A REPUTATION GONE.

SCRANTON, PA., May 2.—It is now learned that George McGrath and his supposed wife, who were nearly suffocated by gas on Monday night, were not married. The woman proves to be the daughter of a wealthy farmer in Susquehanna County. She bore a good reputation.

TRADE MARK TREATY.

WASHINGTON, May 2.—The President has proclaimed the trade mark treaty between the United States and Spain.

A COMPLAINT.

WASHINGTON, May 2.—It is reported that the British Minister has complained to Secretary Frelinghuysen because Captain O'Meagher Condon is kept in a position under this Government while giving utterance to sentiments obnoxious to the English Government.

Horsford's Acid Phosphate

IN SEASICKNESS.

Prof. Adolph Ott, New York, says:—"I used it for seasickness, among the passengers, during a passage across the Atlantic. In the plurality of cases, I saw the violent symptoms yield, which characterize that disease, and give way to a healthful action of the functions impaired."

FIRST RATE EVIDENCE.—"Often unable to attend business, being subject to serious disorder of the kidneys. After a long siege of sickness, tried Burdock Blood Bitters and was relieved by half a bottle," Mr. B. Turner, of Rochester, N.Y., takes the pains to write.

THE PACKING CASES.

To the Editor of the Review.

DEAR SIR,—Would you kindly allow me space in your columns to give publicity to the way in which many of our merchants are imposed on by the over-officiousness of our town constables. I refer to the manner in which they compel us to remove all packing-cases from the sidewalks immediately on their arrival. Very frequently, as in my own case last Saturday, this is simply impossible, without neglecting our customers, and sufficient time should be allowed for their removal. The remark of the police Magistrate that my case should be a warning to the others, was entirely unnecessary as the police of Peterborough have no just cause for complaint against us for obstructing the sidewalks.

Until recently we were allowed plenty of time to remove our cases, but circumstances which we all regret placed us under the necessity of having a supply of new brooms which seem to have all the proverbial cleanliness of that article.

The services of our policemen might be used to better advantage in other directions, but the expectations of a bonus may be a more powerful incentive than their love of order.

I have authority for saying that my sentiments were endorsed by all the merchants on George street, with whom I have had any conservation on the subject.

Respectfully Yours,
W. FAIRWEATHER.

Peterborough, May 2nd, 1883.

A Curious Article.

On Saturday morning a gentleman residing on Sandy Hill found an article which in these times would excite anyone's curiosity. In the afternoon Mr. Fred Boswell had the instrument—or whatever else it is—down at the Russell House, Ottawa. It is a ball about three *inches in diameter, the outside of which has the* appearance of hundreds of buck shot sunk half way. The outside is of iron, and was dirty with mud. In weight it is not so heavy as the same size of solid iron would be, and the most mysterious part of the concern is that at one side there is a hole, filled partially with a lead plug with the number "64" on it. The missile was handed to Inspector O'Leary, of the Dominion Police, who put it in a pail of water, and in company with a Toronto detective and constable, took it over to Nepean Point, where it was buried.

Dangers of Snake Charming.

While Nala Damejante, a Hindoo snake charmer, was going through her performance of handling half a dozen pythons in Philadelphia a few days ago, she came very near being strangled to death. A huge python which had been coiled around her body, by a quick movement encircled her throat and chest, and began tightening its folds. The girl, realizing her position, succeeded in untwisting the tail end of the snake from her body. She grew very pale as the pressure about her throat increased, but remained perfectly calm. With the head of the serpent in her right hand, she freed her left by a dexterous movement, and in a few moments, with almost superhuman strength, unwrapped the writhing necklace from her throat.

The Dynamite Maker.

Whitehead, "the Birmingham dynamite fiend," maintains an air of the greatest *sang froid* in jail. He is alternately jocular and sullen, at one time cracking jokes with the warder and at another showing a most unruly spirit. It has been deemed necessary to place a light in his cell at night that he may be more securely watched. To this he strongly objects, asserting that it interferes with his sleep. A double lock has been placed on his cell, the key being entrusted to the care of the governor. He eats his meals with remarkable appetite, and appears to regard his position with the greatest indifference.

Worse than Projecting Signs.

When the merchants of Warsaw came to there places of buisness one morning a few weeks ago they found that all the sign-boards on two of the principal buisness streets had been removed during the night. The matter was explained by the Superintendent of Police, who condescended to inform them that he had confiscated the signs as he had noticed the inscriptions were printed in smaller characters in Russian than in Polish—each sign being required by law to be in both languages. This incident is related by the *Cracow Gazette* without comment.

A New Order of Merit.

Her Majesty has instituted a new order of merit known as the Order of the Red Cross. Its decorations will be bestowed in accordance practically with the same purpose and the same reasons as the badges of the Red Cross Society are distributed, under the provisions of the Geneva Convention. The decorations will be given only to those who have distinguished themselves in the work of moving the wounded.

The End of the World.

Martha Hughes (colored), of Jackson, Miss., says the Lord called her to announce the coming of the end of the world. The Wesson cyclone she says was the forerunner of the event. The churches have been closed against her, and she delivers her harangues in the open air, surrounded by thousands of negroes, who are forsaking work and getting garments ready to go to glory.

The Princess Louise.

An Ottawa despatch says that, judging from the movements of the Princess Louise since her return to the Capital, her health has been fully restored. She is now paying daily visits to the charitable and other public institutions of the city. Saturday she inspected the Protestant *Hospital and Geological Museum*, and on Monday she visited the General Hospital, under the superintendency of the Sisters of Charity.

Welcome to the Princess.

On Saturday at Ottawa the Mayor, in presence of the Board of Aldermen and a goodly number of citizens, presented the official adress of welcome to H. R. H. the princess Louise on her return from Bermuda. It was couched in warm congratulatory language. The reply was equally cordial.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain and cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Daily Evening Review

WEDNESDAY, MAY 2, 1883.

THE Hamilton *Spectator* aptly remarks:—

"The men who voted against the Orange Bill complain bitterly because those who voted for it did not succeed in getting it through."

AN official return shows that the Canada Pacific Railway Company has paid nearly $400,000 for customs duties on articles imported by it. And yet one of the cries of the Opposition was that the Syndicate was freed from such payments.

WE have received from Henry Youle Hind another circular, this time assailing some of the officers of the Geological Survey and Sir A. T. Galt, who is termed a "pernicious and dishonest servant." Has not this unfortunate man Hind any friends who can take care of him?

REFERRING to the so-called Tupper-Macdonnell correspondence of the Hamilton *Tribune*, that independent Reform journal, the Toronto *World* says:—

"There is no doubt the documents were stolen and that they were stolen by an official of the department."

EXTENDING THE FRANCHISE.

Now that we have the Bill respecting the Electoral Franchise before us, we are able to form a clearer idea of how great is the proposed extention, and how worthy of the true Liberal party of Canada.

The reduction of the amount of the value of freehold and leasehold property required to qualify a voter as compared with the limit in Ontario is itself sufficient to add large numbers to the roll, who are well fitted to exercise the franchise. The farmers' sons' qualification is preserved, but its invidiousness as a class privilege has been removed by placing the sons of mechanics, merchants, and others in the same position, for the Conservatives are not afraid of the votes of the young men of our cities and towns, as the so-called "Reformers" apparently are. The income qualification is also retained, but it is stript of the condition that municipal taxes must have been paid.

The extension of the franchise to single women or widows, who have the same qualification as required for men, is a simple act of justice, but one for which they have to thank the Conservatives. It was supposed from Sir John Macdonald's remarks on introducing the bill that the right of voting given to sons residing with their fathers was also to be extended to daughters in the same circumstances. We find no such clause in the act, but if omitted now it is sure to follow ere long. We believe, too, that no great time will elapse before married women obtain the same privileges as their single and widowed sisters. As the measure stands it is a great stride in advance.

Of course as the Bill is introduced by Sir John Macdonald it must be opposed by the Reformers who could find nothing to reform. They are hard put to it to find grounds for an attack. Some say that it is too late, for Sir John might and should have done it long ago, quite ignoring the facts that their own party was in power for years at Ottawa, but never condescended to such a real reform, and that Mr. Mowat persistently refused to extend the franchise in Ontario when urged to do so by Mr. Meredith and his Conservative supporters. Others of these distressed critics say that it is too early, for such a bill should not be introduced in a newly elected House, apparently forgetting how they applauded Mr. Mowat and their other friends at Toronto when they excused their refusal of the franchise on the plea that it should not be granted by an expiring legislature but by one fresh from the people. Some of these carpers say that the extension is not great enough, though they gave none, and others that it should not be introduced by Conservatives. The respectable minority of Reformers own that it is a genuine and salutary reform, and only express their regret that it was not adopted by their own leaders.

Quite at a loss successfully to attack the enfranchising clauses, many of these bewildered critics level their chief attacks on the Revising Officers. It is pointed out to these carpers that their leader, Mr. Blake, does not agree with them, for on a previous occasion he censured Sir John for not providing for Revising Officers, as in England, and urged that it was the only proper course. Immediately they rejoin that Mr. Blake was not advocating a similar kind of Revising Officer, for in England they do not prepare the lists of voters, but take them from the assessors, while in Canada they are to prepare them. This is simply a dishonest quibble on words, for the method of procedure is substantially the same, with only such a difference as the different franchises necessitate. The Canadian Revising Officers are not to prepare the rolls in the sense of making them themselves, but are to obtain the assessment rolls and the Provincial voters' lists and to add such names as the extended franchise will make eligible, together with those of successful claimants of the franchise who may have been omitted. Mr. Blake has precisely what he wished some years ago, but perhaps he has changed his mind now.

The fact is that the measure is a truly liberal one, such as might have been expected from Canada's foremost statesman and his colleagues. Its opponents are simply wild with envy, and with vexation. Such a reform was altogether beyond the scope of their leaders when they were in power, but preferred to sit with their hands before them talking of their very unfruitful "principles."

THE CANADIAN LAND AND EMIGRATION COMPANY.

We take the following extract from the annual report of the Directors of the Canadian Land and Emigration Company, limited:—

"During the past year an offer for the purchase of the Company's property's was submitted to an extraordinary general meeting, at which it was decided to defer acceptance of the same, with the view of examining into a proposal which has just been laid before the Directors, for the future working of the Company.

The offer just mentioned was subsequently withdrawn, and the Directors proceeded to examine into the details of the last proposal, which had been made by Messrs. Irwin and Gordon, of Canada.

The negotiations with reference to this proposal, have been the subject of anxious consideration to your Directors, and have involved the settlement of many important points. After much necessary delay these have all been arranged, and an agreement with Messrs. Irwin and Gordon was completed and signed on the 11th of April, which will be submitted to the annual general meeting for its consideration, and, if approved, for its ratification.

Under this agreement, Messrs. Irwin and Gordon are constituted Commissioners of the Company in Canada, and undertake the whole expense and responsibility of the Canadian management, on a payment of $2,500 per annum. They are bound to use their best endeavours to realise for the Company, within eight years, a sum of $80,000, with interest on that amount at the rate of 5 per cent. per annum. This sum is to be applied in paying off the Debentures and other liabilities of the Company, and distributing the remainder among the shareholders. The sum left for distribution will, it is estimated, yield them about ten shillings per share.

When the amount of $80,000 with interest has been paid, the remaining property of the Company is to be divided into two halves, one half to belong to the shareholders, and the other half to belong to Messrs. Irwin & Gordon, or their representatives. This half share of surplus will practically be their remuneration for realizing the Company's property.

The Commissioners have given the best proof of their *bona fides* in this matter, and of their favourable confidence in the future of the Company, by stipulating that they shall be enabled to purchase one half of its shares, at the rate of ten shillings per share, payable in three instalments within a fixed period, which will terminate in about seven months from the present time. In reply to a circular issued by the Directors, offers have been received from shareholders, agreeing to sell 10.216 shares on these terms. This arrangement will therefore be carried out immediately after the ratification of the agreement.

Pending the completion of these negotiations the Board have appointed Mr. Irwin to be the temporary commissioner of the Company in Canada.

The Directors have felt that, although the property of the Company had in it elements of great value, yet these could be best developed and made available by parties on the spot, having local interests, as well as great experience in lumbering, and themselves largely interested in its success. These requisites being combined in the new Commissioners, the board look with confidence to the ultimate future of the Company, and they trust that those who have decided on retaining their shares, or a portion of them, will have reason to be satisfied with the additional, though deferred, advantages which it is hoped they will gain thereby.

It is proposed that the working of the Company in London shall continue substantially as at present for another year, to allow time for the new Canadian arrangements to get into full working order. After that time, practical responsibility of management being no longer in London, the expenses here will be reduced to £300 or £250 per annum, the Directors receiving a merely nominal remuneration.

Messrs. Irwin & Gordon stipulate for the present appointment of a nominee to represent them on the board, and of a second after the transfer of the shares to them, and this the board regard as reasonable, considering the large interest they will then have in the Company, and their own absence from this country.

A cable telegram says that at the extraordinary meeting of the shareholders, held in London, on April 30th, the agreement mentioned above was ratified.

Reform Gratitude.

The London *Free Press* says:—

"Amid the prevailing loss of prestige in the Grit camp, old-time Reformers exclaim with all their hearts, 'Oh, for one hour of George Brown!' Yet Mr. Brown's successor, the one who best knew his views and opinions, was rudely kicked out of the *Globe* office, and was obliged to compel restitution by legal process."

Figuring up a Figurative Speech.

If the *Globe* is right, then Mr. Paterson's speech, at $28 per second, must have cost just $302,400. If the calculation is not correct, the *Globe* is responsible for the error. Three hundred and two thousand four hundred dollars would purchase a library worth a good deal more than three hundred and two thousand times as much as Mr. Paterson's piece of garrulity.—*Brantford Telegram.*

Thousands Say so.

Mr. T. W. Atkins, Girard. Kan., writes: "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by Taylor & McDonald.

In the present month Dr. Carson's Stomach and Constipation Bitters should be taken to purify the blood and fortify the system against the severe changes of weather. It improves the circulation and cures Dyspepsia, Billiousnes and Sick Headache. In large bottles at 50 cents. Sold by all druggists.

WHY?

There are many reasons why H. LeBRUN, of the City Clothing Store, has now the confidence of the public, and some of them may be very briefly stated.

First—The firm has had a business experience, extending over ten years.

Second—The establishment is the largest in the town, and the stock the most extensive.

Third—The City Clothing Store sets the prices, which are always lower than any other house in Peterborough.

Fourth—The styles are always correct, for the reason that Mr. LeBrun employs none but the most skilful workmen.

Fifth—The fit, finish and durability of every garment made is perfect, because all the details of the business come under the minutest inspection.

Sixth—H. LeBrun, City Clothing Store, never allows a customer to go unless they are satisfied. The good reputation of the firm will be sustained in the selection he has made.
